Your reporter made an error in last weeks issue. In writing up the accident where little Russell Elseth, son of Mr. and Mrs. Raymond Elseth was hit by a car, he reported that the boy was not injured. Upon further examination it was found that he had a broken leg. He is now at home and the fractured leg is mending nicely.

Mr. and Mrs. Lars Nelson Honored

Mr. and Mrs. Lars Nelson and their family were honor guests on their 29th wedding anniversary on Sunday at the Julian Brokke home at Buxton, N. D. A beautifully decorated wedding cake centered the table. A delicious lunch was served buffet style. Mr. and Mrs. Nelson were presented with a lovely gift from all attending. Mrs. Brokke is a sister of Mrs. Nelson.

Young Couple Uninjured

Aaron Waterworth and his lady friend, Miss Blanch Mortinsen had a narrow escape on Sunday afternoon when Aaron's car in which they were riding overturned.

Miss Mortensen, who was driving struck a stretch of loose gravel and lost control of the car. It headed for the ditch, overturned and landed right side up on the further bank of the ditch. Although both of the young people were badly shaken up and somewhat bruised, an x-ray showed no broken bones. The car was quite badly smashed, but as Aaron cheerfully said, *"The old car is used to it and we'll soon fix her up again"*. This Ford V-8 has gone through two other smash-ups.

Mr. Kenneth Jacobson of Minneapolis arrived on Thursday to spend a few days vacation at the A. O. Gudim home.

Lower Farm Income Ahead

Farmers whose incomes have not increased like those of the nation's farmers as a whole, can look forward to net incomes in 1948 averaging lower than those in 1947, according to Rutgers university economists. The farm economists point out that big price increases in farm commodities occurred in grain and in meat animals. Price rises for fruits, vegetables and other farm products were generally less than increases in cost of production. Dairymen and poultrymen are likely to have to pay more for the feed they buy, which will take big chunks out of their incomes. Vegetable and fruit farmers don't have to buy feed, but they do have to pay their help and buy machinery, building materials, fertilizers and other supplies. Economists don't see any hope of prices of these coming down, and they expect truck farmers to receive smaller net incomes in 1948.

Lengthening Blankets

It is possible to make a short blanket longer by sewing an extra length of blanket material, taken from an old blanket, on the end used at the foot of the bed. This provides a tuck-in length.

From where I sit... by Joe Marsh

Nicest Compliment I've Had

One of the nicest compliments I've received about this column was from an editor in the Middle West I called on. And while I don't like to give myself orchids, I think it illustrates a point.

"Joe," he said, "it so happens I don't agree with everything you say, but I always like to run your column. Because it gets down to earth and talks about the *right* to disagree. And it only asks for tolerance towards the other person's point of view."

He went on to explain, by way of illustration, that he never had happened to have a taste for ale or beer. But that when I spoke of the *right* to enjoy a moderate beverage like beer, well, he was right there with me!

And from where I sit, that's the important thing: not whether you share another person's tastes or point of view—but whether you recognize his right to exercise a free choice in a free land.

Our Policy on
PONTIAC
Deliveries and Prices

Despite the fact that Pontiac has built over a half-million cars since the resumption of production after the war, demand still exceeds supply. In the face of this production record, those who place orders now will still experience some delay in delivery. If you are among the many people who feel that Pontiac represents an outstanding value—and wish to order a Pontiac for future delivery—you will be interested in the following policy on retail distribution which we, as Pontiac dealers, will observe:

WE WANT YOUR ORDER
And the sooner you place it, the sooner you will get delivery. So if you want a Pontiac, order it now.

WE WILL ESTIMATE DELIVERY DATE
Due to conditions beyond our control, we cannot give you an exact date of delivery. But based on anticipated future shipments from the factory, we will, when you place your order, give you an honest estimate of when you may expect your car. Such estimates will be reviewed any time on request.

ORDERS FILLED BY PRIORITY
A definite proportion of the cars we receive from the factory is set aside for preferential delivery to users whose work is in the public welfare and to others with certain occupational requirements. *Otherwise, all orders will be filled on the basis of the time when they are received.*

YOU PAY FACTORY-SUGGESTED PRICE
Due to changing economic conditions, we cannot, when you place your order, tell you exactly how much the car will cost when delivered in the future. But, at the time of delivery you will be charged only the factory suggested price on your model—which will be shown in a published list of local prices.

YOU SPECIFY ACCESSORIES
While most of our customers order their cars equipped with accessories, we do not *force* accessories as a condition of sale. You specify what accessories you want when ordering your car, and these are the ones (and the only ones) it will carry when delivered. Some items may be lacking due to current shortages; but *none will be added.*

REGARDING TRADE-INS
Naturally, if you have a car to trade, we would like to have it in order to take care of our regular used car customers. Our appraisals are fair, based on current conditions. But if you do not have a car to turn in, we still want your order and will accept it for delivery based on the conditions outlined above.

Since this is our "home town", our business and its future is based on our good relations with the people of this community. We are most happy that so many people here—as all over the country—have made Pontiac their number one choice as a new car.

Nothing pleases us more than to turn over the keys of a new Pontiac to one of the many people whose orders we have, because we know they have chosen well—for Pontiac is *always a thoroughly good car, and a thoroughly good value,* this year, next year, *any* year.

At a double ring ceremony performed by Rev. J. A. Korshavn in the First Lutheran church at 2:30 p. m. September 19th, Louann, Merle Bakken, daughter of Mr. and Mrs. E. D. Bakken, was united in marriage to Wm. Bicanick of Minneapolis, son of Mr. and Mrs. Geo. Bicanick, of Chisholm, Minn.

Mrs. M. R. Rindahl of Grand Forks, North Dakota, sister of the bride provided the nuptial music and accompanied David P. Berg, soloist who sang "Because" just before the entrance of the bridal party and "The Lord's Prayer" at the conclusion of the ceremony.

Florence Anderson of Minneapolis, maid of honor; was attired in an orchid taffeta gown and carried a bouquet of yellow chrysanthemums.

The bride given in marriage by her father was attired in a white satin floor length gown with a net over satin skirt. Her fingertip veil was held in place by a coronet of orange blossoms and she carried a shower bouquet of white roses.

The grooms attendant was John Hulme of Minneapolis and Robert Carriere of Mahnomen and Harry Young were ushers.

The bridal couple left for a short trip to points in northern Minnesota and after September 27 will be at home at 3009 University Ave. S. E., Minneapolis.

The bride, a graduate of the local high school and the Minnesota School of Business of Minneapolis, has been employed by the law firm of Vennum, Neville, Wright and Newhall of Minneapolis, during the past year. GARDEN FREAKS VIE FOR RECORDS

A twin tomato from John Wrobel's truck garden attracted Brainerd attention; two perfect fruits weighing 10 ounces were firmly attached to the same stem. There must not have been a tape measure handy, for Frank Dwyer's unusually large carrots at Sauk Rapids are reported so big "you can hardly reach around one with both hands".

LAKE OF THE WOODS BIBLE CAMP ASS'N ELECTS OFFICERS

Operation by TRF and Crookston Circuits Has Successful Season

The annual meeting of the Lake of the Woods Bible Camp Association was held in the Administration Cabin on the Camp grounds, 6 miles northwest of Baudette, on Tuesday, September 21, at 1:00 p. m. The Camp is owned and operated by the Crookston and Thief River Falls circuits of the Evangelical Lutheran Church. The Rev. G. S. Thompson, Thief River Falls retiring president, presided. Routine business was conducted.

The following were elected to the Board of Trustees: The Reverends T. C. Hanson, Roseau; G. S. Thompson, Thief River Falls; C. T. Fjelstul, St. Hilaire; Truman P. Mohn, East Grand Forks; F. E. Eikeland, Warren; James O. Pederson, Baudette; J. D. Kronlokken, Thief River Falls; A. W. Sorenson, Stephen; Carl J. Field, Fisher and H. B. Mathison, Greenbush, and W. H. Brastad of Roseau and Roy Borgen of Baudette. The program committee consists of the Reverends F. E. Eikeland, president; G. S. Thompson, vice president; A. W. Sorenson, secretary and T. C. Hanson, treasurer-business manager.

New dining hall facilities for the 1949 camp week were announced. Other improvements to the camp property were placed in the final stages of planning. Next year's camp will be from June 29 to July 3. The treasurer reported that there was a successful response to the Bible Camp equipment and expanison appeal conducted this fall.

THANKS TO THE VOTERS

of the 1st Commissioner District, Pennington County, Minn., for the great support given me at the primary election.

Your continued support will be very much appreciated,

Thank you.

TENTATIVE REPORT AND

Recommendations

of the Pennington County SCHOOL SURVEY COMMITTEE

THIS IS A TENTATIVE REPORT. The final report will be submitted not later than November 1, 1948. It is on the recommendations of the final report that you shall vote whether or not to accept the committee's recommendations. Suggestions for modifications will be welcomed by the survey committee, and as many as possible of these suggestions will be incorporated in the final report.

We, the members of the Pennington County school survey committee, after careful study of all factors having bearing on the reorganizing of school districts, make the following recommendations for reorganization of school districts in Pennington County. If at any time in the future, larger areas are deemed advisable, these units are planned to fit into that program.

1. We recommend that districts 4, 11, 26, 28, 30, 31, 41, 51, 53, 55, 151, 219J in Pennington County and district 72J in Marshall County consolidate with Ind. District 18. It would have an assessed value of about $2,893,025 and an enrollment of about 1725. All of these districts are adjacent to District 18, which already serves some of these districts.

2. The proposed Goodridge school district is a joint proposal of the survey committee of Marshall and Pennington Counties. This area would have an assessed value of approximately $373,893 and a possible enrollment of 400. All these districts are adjacent to Ind. District 8. Sec. 19, 20, and 21 in T-156 R-40 in district 89 in Marshall County, except that portion which is now in the Mud Lake Game Refuge is also included in the Goodridge area.

3. We recommend that districts 94, 178, and 6 in Pennington County and that part of districts 1J, 17J, 43J, 108J, 124J, 133J, 227J, and 236J that lie in Pennington County conolidate with Ind. District 102 and form an elementary unit. It would have an assessed value of about $172,487 and an enrollment of about 175.

4. We recommend that a consolidated district be formed comprising districts 5, 14, 56, 59, 65, and that part of districts 52 and 67 lying north of the Red Lake River. It would have an assessed value of about $106,996.

5. We recommend that a consolidated district be formed comprising districts 3, 9, 10, and 34; and that portion of 52 lying south on the Red Lake River. This area would have an assessed value of about $116,379.

6. We recommend that the districts 106, 149, 166, 180, and 194 be formed into a consolidated district. It would have an assessed value of about $133,708.

7. We recommend that districts 69 and 99 consolidate. Its assessed value would be about $67,058.

8. We recommend that districts 12 and 221 consolidate to provide an assesssed value of about $45,767.

9. We recommend that districts 2, 7, 13, 25, 48, 54, 64, 125, 127, 135, and 147 remain as they are for the present.

10. We recommend that districts 37 and 47 consolidate. It would have an assessed value of about $66,054.

11. We recommend that districts 29 and 42 in Pennington county and districts 133 and 121 in Marshall County consolidate. This would provide an assessed value of about $98,038.

12. We recommend that districts 35, 39, and 60 consolidate. It would have an assessed valuation of about $48,646.

AIRPORT NEWS

We've been having practically perfect flying weather—beautiful, clear sunny days, even temperature and very little wind. The pattern of the plowed fields, alternating with the yellow of the hay fields and the green of the fall plantings is really something to see from the air. Every one should go up at least once just to enjoy the breathtaking beauty of it.

Wayne Leverson made his dual cross-country flight to Roseau and Lake Bronson on Tuesday, and his solo cross-country to the same places on Thursday, both in the new Cub. Melvin Imsdahl, flying his Cessna, made his solo cross-country flight over the same course on Tuesday.

Gene Ellan flew his Taylorcraft on a business trip to River Valley and Highlanding on Tuesday.

Lloyd Vevea and Amos Cant made a trip to Fosston on Wednesday with the Cub Cruiser.

Franklin Barron from Pembina stopped at the airport Wednesday on his solo cross-country flight in a Cub.

John Lind flew his Beechcraft in from Santa Fe, New Mexico, last week and was a guest at the home of Mr. and Mrs. Lloyd Bennes for a few days. On Thurzday he and Lloyd Bennes flew to Minneapolis, returning Friday. On Sunday John took off again, with Sioux Falls, S. Dak., as his destination.

Oscar Mostrom took his flight test and was granted a private pilot's license by Harold Chandler Friday morning.

Cap Nelson and his son from Roseau flew their Taylorcraft over here on Friday.

Sunday visitors at the airport included Leon Schultz from Roseau in a Luscombe Silvaire, Rudy Johnson from Grafton, N. D., with a Cessna 120; Harry Prosser and Art Stenberg from Greenbush in a Cub Cruiser; and Mr. and Mrs. Sid Kirk from Dorothy who were flying the Taylorcraft.

David Field of Stephen, Minnesota was at the airport Sunday on his solo cross-country flight in a Cub.

Edsel Peterson stopped here Monday on his solo cross-country flight from Baudette.

FIRE PREVENTION WEEK OCT. 3 TO 9

Farm Fires in '47 Cause 100 Millions in Damage

Farm families are urged to exercise greater caution during the fall months to reduce steadily mounting farm fires which take 3500 lives annually, according to a statement released by the National Board of Fire Underwriters.

As the nation prepared to observe Fire Prevention Week October 3 to 9, the National Board called for organization of more farm fire-fighting units and greater attention to periodical drills by existing units during the fall and winter months, when most farm fires occur.

Nearly one-third of the fires which ate up $100,000,000 worth of farm property during 1947 could have been prevented by installation of lightning rods of the proper type on every farm building.

Ninety percent of the fires involving gasoline are caused by simple carelessness in handling the dangerous fuel. Special care was suggested in filling gasoline-burning machinery to avoid spilling the fuel or allowing it to drip over a hot muffler or a heated engine.

Gasoline should be stored in underground tanks equipped with standard pumps. Smaller supplies of gasoline may be kept in safety cans or metal drums in a well-ventilated shed at least 40 feet away from all buildings. "Bottled gas," that is, liquefied petroleum gas tanks, also should always be store outside of homes or barns, and installed according to National Board of Fire Underwriters standards.

Fish or Whale

Fishes do not have hair, but whales do: Inspection reveals a few bristles around the mouth. Fishes have scales; whales do not. Whales nurse their young with milk, but young fishes seek their own food from the beginning of their lives. Whales breathe by means of lungs, just as do other mammals, but fishes breathe with gills.

Games Offered As Prizes to Homebound Children

A new contest open in Pennington county to homebound physically handicapped children 6 to 16 years old only, has just been announced by Mr. A. J. Rau of Thief River Falls, county committee chairman of the Minnesota Society for Crippled Children and Adults. The free contest, sponsored by the MSCCA which annually conducts Easter Seal sales to aid the handicapped, will open Sunday, Sept 26, and will close Saturday, Nov. 20. Contest prizes will consist of new games, 26 cases of which have been donated to the Society.

The Society will distribute some of the donated games to schools and hospitals for crippled children, and the remainder will be distributed equitably throughout the state through this contest. There will be 2 winners in this county, the number having been determined in each of the 87 counties on a quota basis.

Homebound children who wish to enter this contest should merely write a letter of 100 words or less briefly describing why they could best put the game to good use. Name, age, address and county also should be included. Letters should be addressed to "Whirling Words" Contest, Minnesota Society for Crippled Children, 254 Hennepin Ave., Minneapolis 5, Minn. Winning letters will be announced at the end of the contest.

Skimming Soup

To remove excess fat from hot soup, wrap a chunk of ice in a small piece of cheesecloth and run it over the top of the soup. The excess fat will congeal and collect on the cold surface of the cloth and is removed in this way very easily.

Thank You

I wish to thank the voters of the First Commissioner Dist. for the fine support given me at the primary election. I wish your votes and support at the Nov. 2nd election. Thanking you.

Cautions Vets About Paying Assistance Fees

Reports that many World War II veterans are being asked by traveling solicitors to pay fees for assistance in pressing claims for National Service Life Insurance dividends, prison camp compensations, dental treatment, and other veterans' benefits brought a warning today from Mr. C. P. Medley, Manager of the Fargo Center.

"Veterans need not pay anyone for such aid," Medley said. "Information and assistance in completing the necessary forms may be obtained without charge from the VA Center in Fargo, VA Contact Representatives, and Representatives of Service Organizations, County Service officers, Post Service Officers, and Red Cross Home Service Chairmen".

Any aid required may be obtained from representatives of the Veterans Administration, representatives of Service Organizations, County Service Officers and Home Service Chairmen without cost or fee of any kind.

N. W. SCHOOL WILL OPEN MONDAY WITH BIG ENROLLMENT

Advance Registration Assures Capacity Number of Students

The Northwest School of Agriculture at Crookston opens its fall term Monday, September 27, with an advance capacity enrollment of 433 students. E. N. Reiersgord, Registrar, reports a new high record of enrollment in the fourth or Advanced year of more than 100 students.

Superintendent T. M. McCall reports a full staff of instructors in all departments. A number of new staff members have been appointed to fill the vacancies created by there designation of former staff members. John N. Warw of Duluth, a veteran of World War II and a graduate of the University of Minnesota, will serve as Science instructor and counselor for the Senior boys' dormitory. Miss Borgni Skorpen of Valley City, North Dakota, succeeds Miss Jeanette Peterson as instructor in third year English. Miss Betty Indihar of Gilbert, Minnesota, succeeds Miss Ruth Emerson as instructor in piano.

Two graduate nurses will be employed in the Student Health Service. Miss Lola Mehl of Thief River Falls, a graduate of the Bethesda School of Nursing, St. Paul, and a graduate of the University of Minnesota in public health nursing, will serve as instructor and senior clinic nurse. Serving as general staff nurse will be Miss Marie Torkelson of Strandquist, a graduate of the Bethesda School of Nursing, St. Paul.

Ralph M. Larson of Crookston, a former student in physical education at the Bemidji State Teachers College and University of North Dakota, will assist *Coach Herschel Lysaker* with coaching of football and basketball and serve as assistant counselor for a boys' dormitory. Mr. Larson won letters in basketball at Bemidji Teachers and the University of North Dakota.

Registration of new students will be held at the Northwest School on Monday, September 27. Former students will register on Tuesday morning, September 28, with all classes starting at 1:15 P. M. on that day.

Good Posture Will Be Stressed in Schools Month of October

"Stand, sit and walk tall for good health and good looks" is the message from the Minnesota Public Health association, which announces that October will be Good Posture month in Minnesota schools.

Inviting schools in every town to cooperate in the health campaign, the state Christmas Seal organizations suggests that teachers "sell" the posture idea from three angles. Health, *appearance and success in getting* a job are all stressed.

In launching its annual posture improvement campaign, the Minnesota Public Health association will send out attractive new posters and leaflets giving "Posture Tips", the release states. Also, the September-October "Everybody's Health" magazine, published by the Christmas Seal organization, tells how two schools in the state carry on year around posture campaigns.

Autos, 47c a Pound

England has traded some 6,000 tons of automobiles for 7,200 tons of Argentine beef, indicating that British automobiles cost more than meat. In the United States, the opposite is true. Here, a new car retailing at $1,500, including accessories, weighs 3,150 pounds or 47 cents a pound.

PLAN START OF LIGNITE PLANT AT GRAND FORKS

Federal Research Laboratory to Serve Entire Industry

Construction on the "H" shaped lignite research laboratory building at the University of North Dakota by the U. S. bureau of mines is expected to begin this fall, according to Alex C. Burr of Bismarck, supervising engineer. The building will be about 175 by 175 feet and will be east of the stadium between University avenue and the Great Northern yards. Proposed plans call for a construction expenditure of about $600,000 plus an additional $150,000 *worth of equipment.*

The government will make available as a result of this project opportunity for research by graduate students of UND and will add a group of highly trained scientific men to the state.

All federal research work on lignite will be centered here. Lignite is found in 15 states, centered on North Dakota, Burr said. There is about three billion tons of lignite in the nation.

State Cancer Group Meets at University Friday, October 1

The story of research in the field of cancer will be told by outstanding medical and scientific authorities to the annual membership meeting of the Minnesota Division of the American Cancer Society. Called for 12:15 p. m. Friday, Oct. 1, in Coffman Memorial Union at the University, the meeting is open to the public. Several thousand voting members of the organization have been invited to attend.

A series of five minute word pictures of the work in their several fields will be drawn by Dr. A. E. Cardle, president of the Minnesota State Medical association; Dr. Owen H. Wangensteen, head of the University's department of surgery, under which the Cancer Detection Center operates; Dr. Arthur H. Wells, Duluth, president of the Minnesota Division of the American Cancer Society; Wallace L. Boss, state chairman of the 1948 Cancer fund campaign; Mrs. A. L. Christenson, Field Army Commander.

Chest Examinations by X-Ray Given 13,623 Marshall County People

A total of 13,623 persons had chest x-rays during the countywide x-ray survey in Marshall county completed September 18, it is reported by the committee in charge. A report of findings will be available when the followup work has been finished, Mrs. Loyal Johnson of Middle River County Chairman, said today.

Thanking all persons who assisted with the project, Mrs. Johnson mentioned that the x-ray unit and technicians to operate it were provided by the state department of health. She pointed out that Marshall County Christmas Seal Committee and the County Red Cross Chapter appropriated funds to pay a major share of the local costs.

"The whole-hearted interest and cooperation of nearly all county residents made the success of the survey possible," the chairman concluded.

The Cool Cupboard

Foods that need cool air and ventilation in the places they are kept include dried fruits, canned foods, relishes, nuts, cereals, whole-grain flour, chocolate, peanut butter, salad oils and cooking fats. The same is true of potatoes and other root vegetables, apples, and citrus fruits, which shrivel, sprout and spoil in warm kitchen bins. They need coolness to preserve their flavor, freshness and food value.

MANY BIDDERS FOR TEN STATE HIGHWAY JOBS

Twelve Contractors Compete for One 10 Mile Grading Project

State Highway Commissioner M. J. Hoffman announced Tuesday the award of contracts for 11 trunk highway improvement projects totalling $1,253,800. The work covered in the awards, which are subject to concurrence of the state commissioner of administration and state auditor, involves constuction in eight counties. The improvements include 63½ miles of grading, four bridges and 14 box culvert bridge jobs.

Bidding competition at the letting so far this year, with 56 contractors bidding on the 11 projects and acceptable prices being offered on every job. Multiple bids were received on all projects except one, while a 10-mile grading job on Trunk Highway 95 in Benton county attracted twelve bidders.

Oklahoma Indians

About one-third of the Indians in the United States live in Oklahoma. Years ago, seeking to find a national home for the Red Men, Uncle Sam's army moved widely scattered tribes to this region.

Eclipse in Siam

According to Siamese folklore, an eclipse means that a green-faced sky demon, Phra Rahoo, is making one of his periodic attempts to swallow the sun-god, Phra Athit. A noise blitz is put on to scare Phra Rahoo off.

Keeping Lard Fresh

Home-rendered lard can be kept fresher by adding two to three pounds of hydrogenated vegetable-shortening to 50 pounds of lard at the time of rendering. With this method, lard remains fresh twice as long, in most cases.

Growth of Chicks

Chicks multiply their hatching weight by as much as 30 times during the first 12 weeks.

Good Politician

First U. S. Indian agent sent to California a century ago shrewdly married the daughters of several Indian chiefs in order to pacify the tribesmen.

THANK YOU

I was very pleased with the fine vote I received at the Primary Election, 5th Dist. Pennington County, Minn., and I want to thank you voters very much.

Your continued vote and support will be sincerely appreciated.

$2,130 Premiums Paid 4-H Members At Saturday Sale

Bankers were Highest Bidders on Dairy and Beef Animals

Premiums totalling $2,130 were paid to Pennington county 4-H club members whose livestock project animals were exhibited at the Achievement Day show and sale at the Arena Saturday. The top premium in the dairy calf show was paid by the Northern State Bank to James Muzzy of the Steiner Club, his grand champion Holstein being bid up to $175. High in the baby beef exhibit was the premium of $150 paid by the Union State Bank to Yvonne Rodahl, also of the Steiner club, on her grand champion Angus.

Top premium on hogs was paid by Peterson-Biddick Company to Milton Burstad of Kratka, his grand champion Chester White drawing a $50 prize. Lowell Hillyer of the Steiner club received a premium of $32 from Robert J. Lund for his grand champion lamb, a Hampshire.

Poultry exhibits were sold outright and a grand champion pen of turkeys weighing 63 pounds entered by Doris Williams of the Steiner club was bought by the Osborne-McMillan Elevator Co., for $78.75. The Starekow Clinic bought the grand champion ducks and geese, Freda Habedank of Mavie receiving $11.05 for 17 pounds of Pekin ducks and Kermit Finstad of Rocksbury receiving $25.90 for 37 pounds of Toulouse geese. Grand champion chickens entered by Richard Swanson of Sanders were sold to the Northern State Bank at a price of $25.00 for 23 pounds.

A total of 16 baby beeves, 5 dairy calves, 8 lambs and 3 hogs were offered for premium bids, and the complete results of the auction are printed elsewhere in this issue.

Joe Raisch, Austin auctioneer, cried the sale and was assisted by local auctioneers as ringmasters. Those helping were, Fred Bruggeman, Andy Anderson, Donald Knutson, Frank Nelson and V. C. Noper. Livestock was judged Saturday morning by Carl Ash, west Polk county agent, and poultry was judged by Harold Tromforde of Crookston.

DETROIT LAKERS BUY BUSINESS FROM TOM PECK

New Firm will Operate as Penn Plumbing and Heating Company

Announcement is made this week of the sale of the Peck Plumbing and Heating Company to H. O. Becklund and John Pearson of Detroit Lakes who will operate the business under the name of Penn Plumbing & Heating Company. Mr. Becklund is at present proprietor of the Becklund Plumbing & Heating Co., of Detroit Lakes and will continue to direct the activities of this organization as well as the Thief River Falls firm. Mr. Pearson has a background of banking and office management experience and will become active in the business here next Spring according to present plans.

L. F. Studlien of Detroit Lakes will serve as manager of the firm. He is a licensed plumber and has had many years of experience in both plumbing and heating. As soon as arrangements can be made he will bring his family to Thief River Falls.

The sale of the business of the Peck Plumbing & Heating co., includes the transfer of two lots and the building on south LaBree Ave.

Rat Poison Continues as Menace to Lives of Pets

ROSSMAN SEES GOOD FUTURE FOR MINNESOTA

Interesting Ideas Developed at Thursday Conference Sessions

Many good reasons why Minnesota should develop industrially were advanced by L. A. Rossman of Grand Rapids in an inspiring address at the closing session of the regional industrial conference held here Thursday afternoon and evening. Irked by unfavorable reports on prospects for industrial development in this state, Mr. Rossman cited several examples of great natural advantages that Minnesota possesses.

Minnesota is primarily an agricultural state but most of our people do not live on farms, he pointed out, and our state already is great industrially. In thinking of our industrial development we are too apt to overlook such plants as creameries and cheese factories which in the aggregate are very great industries.

He reported on the progress that is being made in the mining of low grade ores on the state's iron ranges and predicted a bright future for northeastern Minnesota. The possibilities of further development in the processing of agricultural and forestry products was stressed. And discussing the charges that Minnesota taxes are unduly heavy he pointed out that the taxes on industry in our state compared favorably with the taxes of neighboring states.

Principal speakers at the afternoon session were James W. Clark commissioner of the Department of Business Research and Development, and J. W. Malmquist, industrial consultant of the department. Mr. Clark explained the purpose of the department which now has been functioning one year. The department is organized to serve the interests of business of the state as the department of Agriculture serves the interests of farming. Its activities fall into four classifications, research, publicity, trade promotion and industrial development.

Mr. Malmquist developed the thought that "ideas pay dividends in Minnesota" and stressed the importance of ideas in industrial development. He advised on procedure for the protection of ideas in the form of patents.

Highly interesting reports were made by the heads of several businesses and industries in northwestern Minnesota. Arthur Tweet, Grand Forks merchant, spoke of the importance of payrolls in a small town; and Ted Rowell of the Baudette Laboratories reviewed the experiences of his organization thruout the pioneer period of manufacturing and selling. John Dick and F. H. Fisher, foundry operators, spoke of their experiences at Hallock and Middle River, and Fred Forsberg extended an invitation to the visitors to visit his plant.

L. B. Hartz presided during the afternoon session and the evening meeting was directed by Stuart McLeod, president of the Civic & Commerce Association. Preceding the evening program several songs were sung by the state champion Legion Auxiliary Trio.

Red Lake Agency Head is Rotary Club Speaker

Peru Farver, superintendent of the Red Lake Agency, spoke at the Rotary Club luncheon Tuesday noon. He told an interesting story of the adjustments that have been made by the Indians in the comparatively short time in which they have been exposed to a white man's civilization, explaining the problems they now face at the Red Lake agency with population steadily increasing and the usual sources of income diminishing. Speaking in behalf of a Roseau delegation, Chester Dahlquist and Richard Huggett of that city told of the ground breaking ceremony of the Roseau Lake Refuge on October 7.

Diesel Leaves Rails at Warren Sunday

An eastbound Soo freight was derailed in Warren Sunday morning, causing a blockade of Highway No. 75. A diesel engine and three cars of a ninety car train left the tracks. The train was moving slowly and no injuries were reported.

CREAMERY MEN OF 2 DISTRICTS HERE TONIGHT

N. W. Operators and Managers to Hear Reports on Regulations

Creamery operators and managers of districts 3 and 4, covering most of northwestern Minnesota, will meet in the Civic and Commerce rooms at the Auditorium this evening starting at 8:00 o'clock. The meeting is caled by the district officers of the Minnesota Creamery Operators and Managers Association for the purpose of hearing reports on hearings held in St. Paul on new proposed regulations pertaining to sanitary standards.

Bernard C. Swenson, deputy commissioner of the State dairy and food department, will discuss the proposed changes. Other department officials who will be present are O. C. Johnson, supervisor; Dr. G. A. Vacha, bacteriologist and Cy Pesek, inspector. Subjects that will be considered are the separation of in-takes from processing rooms, the location of wells and sewers and sewage disposal. The new regulations will be expained in detail and how they will effect creameries in this area.

H. E. Elseth of Argyle, district secretary, has urged attendance not only by operators and managers of creameries but also by directors. Gust Mundinger of St. Hilaire, district president, will preside.

Judge of Probate Herman Kjos is making good progress following an operation at a local hospital Tuesday morning.

TWO SERIOUSLY INJURED IN CAR CRASH SUNDAY

Four Occupants of Other Car Escape with Only Minor Injuries

Mr. and Mrs. Elra Reitz of this city suffered serious injuries in an auto accident that occured about ten miles southeast of Thief River Falls at 12:30 o'clock Sunday morning. Four occupants of the other car involved in the accident, driven by T. A. Hagen of Alvarado, escaped with minor bruises. Mr. and Mrs. Reitz were rushed to Thief River Falls hospitals were they are making satisfactory progress.

The Reitz car was proceeding northward and the Hagen car southward on highway No. 59 according to Arthur Rambeck, sheriff. The left front wheels of both cars were torn away, and the two cars evidently had not crashed head on. The Hagen car remained on the road but the Reitz car rolled over into the ditch and both Mr. and Mrs. Reitz were thrown clear from the wrecked machine.

Other occupants of the Hagen car were Ted Bergman and Mr. and Mrs. Leonard Goethe of this city.

County Board Holds Regular Meet Tuesday

A regular meeting of the Pennington county board will be held next Tuesday, October 5. Only routine business is scheduled for this meeting according to chairman Paul Roy.

Senator Joe Ball was Speaker at 4-H Club Banquet

Senator Joe Ball delivered the address of the evening at the 4-H Club banquet in the basement of the Trinity Lutheran church Saturday evening at which successful Achievement Day exhibitors and their parents were guests of high bidders in the afternoon auction. Mr. Ball spoke of the progress that has been made by agriculture in northwestern Minnesota since the time he lived in Crookston as a boy, and attributed much of this progress to the activities of 4-H organizations. Touching on the national farm problem, he expressed confidence that the interests of agriculture will be protected. As an example of the attitude in Congress toward agriculture he cited the record appropriation of 800 million dollars for rural electrification by the 80th Congress.

In recognition of his achievement in winning the outstanding 4-H dairy club member award for Minnesota, James Muzzy was presented with a gold watch by several civic groups in Thief River Falls. The presentation was made by W. E. Dahlquist in behalf of the Lions, the Rotarians, and members of the Junior Chamber and Civic & Commerce Associations.

Awards were presented by Caroll Semstead, state 4-H Club leader, to the following members:—

Louis Palmquist and Shirley Kruse, bread; Yvonne Haagenson, canning; Allan Swanson and Robert Westacott, electrification; John Johnson and Annette Arends, food preparation, Marilyn McCrum, home making assistance; Gladys Vigen, health, Dianne Lendobeja, safety; Lorraine Russell, LaVonne Lian, and Helen Haugen, clothing; James Muzzy and Shirley Sorenson, dairy; Dianne Lendobeja, farm safety; Billy Kruse, forestry; Dianne Lendobeja, frozen foods; Richard Swanson, garden; Doris Williams, girls record; Dianne Lendobeja, home beautification; Glenn Lendobeja, home improvement; Yvonne Rodahl, baby beef; Doris Williams, Poultry; and tractor maintenance, Donald Russell.

Streets Open as Work Nears Completion

With one more week of good weather all street work should be completed in the city according to Kenneth Pearson, project engineer in charge of state construction. All streets are now open unofficially and only one intersection on Third street and some curb and gutter work remains. Marking will get under way on Highway 32 to St. Hilaire next week *and this road will then be* officially opened Mr. Pearson states.

TRACTOR BACK-FLIP KILLED OPERATOR SATURDAY MORNING

John Ronning, Life-long County Resident, was Accident Victim

John O. Ronning, life-long resident of Pennington County, was killed Saturday morning when the tractor he was operating back-flipped, crushing his chest and pinning him under the machine. The accident occurred on the Ed Koglin farm, 14 miles east of Thief River Falls, where he was employed. The tragedy was discoverd after he had failed to appear for dinner at noon and one of the Koglin children was sent into the field to call him.

Mr. Ronning had been discplowing a field when the tractor dug itself down in sandy soil. He had disconnected the tractor from the plow and it was when he attempted to get the machine out of the ruts it had dug that it overturned.

Mr. Ronning was born in Pennington county on September 26, 1893 and lived with his parents on the farm in Numedal township that they had homesteaded in 1886. Following the death of his mother in 1941 he disposed of the farm and made his home in Thief River Falls. During the war he had spent one year in Alaska and prior to his employment this fall on the Koglin farm he had been employed by the Hanson Motor Co. of this city.

Funeral services were held Tuesday afternoon at the Oak Ridge Lutheran church, conducted by Rev. Carl Thompson. He is survived by a brother, Oliver, sister, Mrs. Joseph Oaness, and an uncle, Halvor Olson, all of Thief River Falls, and an aunt, Mrs. Christine Sandberg of Brainerd. He was preceded in death by his parents and three brothers.

WOMAN'S CLUB TO HOLD 1ST MEETING ON MONDAY NIGHT

Marcus Birrell, Grand Forks Educator, will Address Gathering

Marcus Birrell, president of Wesley College of Grand Forks will be the speaker of the evening at the first general meeting of the winter season of the Thief River Falls Woman's Club, to be held in the Civic & Commerce room of the Auditorium Monday evening, October 4. Special music for the program will be presented by the music group of the club and by the state champion Legion Auxiliary trio.

President Birrell was a member of the national board of education of the Methodist Church prior to his coming to Grand Forks. Topic of his talk will be "Family Relationships," a subject on which he is well qualified to speak.

At the close of the program lunch will be served by Girl Scouts. This will be "guest night" for the club and the public is cordially invited to attend, especially women interested in membership in the organization.

Bids Opened for Water Plant Equipment Tuesday

At a special meeting Tuesday night bids were opened for items of new water plant equipment for which the city has advertised. No action will be taken until city engineer Stewart Douglass has had an opportunity to make comparisons and prepare a report.

Plans Develop for Fall Exposition; Opens Fri., Oct. 8

Exhibits in Arena and Auditorium; Style Show Saturday Night

Good progress has been made during the past week in the preparations for the fall exposition to be held here on Friday and Saturday of next week under the sponsorship of the local post of the American Legion. Glenn Ahre, general chairman, reports that all committees are active and that "everything is under control."

Orville Eide and Orvis Olen, co-chairmen of the style show committee have been assured the participation of ten local firms, each firm being allowed eight appearances on the stage. These firm are Wards, J. C. Penney, S & L, Hamiltons, the Fashion Shop, the Junior Shop, B & B Style Shoppe, The Hub, Leins and Bjorkman's. Both fall and winter styles will be presented in two sections that will be divided by 45 minutes of entertainment.

A rehearsal of the models was held Wednesday night under the direction of Mrs. Jeanette Wright, who is in charge of the entire production. Katherine Barzen of Station KTRF will emcee the show and music will be provided by Bob Sjulestad and a special ten pieno band.

Norman Peterson and Frank Tunberg, co-chairmen of the auto and implement show to be held at the Arena, report that thirteen dealers have already arranged for exhibits and that the displays will be both interesting and instructive. They are arranging for several entertainment features to be presented at the Arena during the course of the two-day show.

Friday night's entertainment will consist of dancing at the Auditorium with several other activities, including bingo, in the basement.

Proposed Goodridge School District to be Discussed Oct. 7

A meeting of citizens of the reorganized Goodridge school district, as proposed by the county survey committees of Pennington and Marshall counties, will be held at the Goodridge school Thursday evening, October 7, Mrs. A. C. Matheson, county superintendent, announced this week. The survey committees of both counties will be represented at this gathering, she states.

HOLD DISTRICT COURT IN C & C ROOM NEXT WEEK

Will not Call Jury Until Later—Judge Montague to Preside

The fall term of District court will convene Monday morning, October 4, with Judge William H. Montague of Crookston presiding. First business will be the call of the calendar when time will be set for the cases to be heard or tried. The jury will not be called until some time later, according to county attorney L. W. Rullen, because of the farm work in the community that remains to be done.

Because the court house has been condemned and the court room not considered in proper condition, court this session will be held in the Civic & Commerce room in the basement of the city auditorium. The court room equipment is being removed from the court house to these new quarters which will be in readiness in time for the Monday opening.

DISTRICT 18 TAX LEVY UP $31 500 FROM LAST YEAR

Higher Operating Costs Blamed for the Big Increase

At a meeting of the board of education of school district No. 18 yesterday a levy of $132,000 was authorized for the coming year. This is an increase of $31,500 over last year's levy which totaled $100,500, according to superintendent W. G. Claffy. Of the $132,000 levied, $127,500 is for maintenance and $4,500 for capital outlay. It is estmated that the increase will add slightly less than ten mills to the rate at the anticipated valuation. Total budget for this year is $316,100, the difference being made up largely by state aid.

Mr. Claffy states that the increase is due to higher operating costs. Teacher salaries are approximately $29,000 higher than last year including the salaries of two more teachers. The salaries paid to non-teaching employees show corresponding increases.

Amundgaard-Lunke to Start Construction of Building This Week

Work will get under way within the next few days on the construction of the Amundgaard-Lunke building on Atlantic Ave., at Fifth St. according to Hilmer Lunke, manager of the corporation. Marriage Vows Spoken by Betty V. Engelsrud and Harlan P. Elseth

The Bethania Lutheran church at Newfolden was the scene of a pretty wedding Saturday evening, when Miss Betty Verna Engelsrud, daughter of Mr. and Mrs. C. H. Engelsrud, and Harlan P. Elseth, son of Mr. and Mrs. Ben Elseth, all of Newfolden, exchanged marriage vows. Rev. E. J. Raaum of Newfolden officiated at the service, which took place before an altar decorated with lighted candelabra, palms and baskets of white gladioli.

Mrs. Carl Haugen of Newfolden was at the organ playing the traditional wedding marches, and accompanied Rev. Merrill Nelson of Red Lake Falls, who sang "O Perfect Love" preceding the ceremony. While the couple were kneeling, Mrs. Haugen, accompanied by Mrs. G. E. Leland of Newfolden, sang "The Lord's Prayer."

Mr. Engelsrud gave his daughter in marriage. Her gown was fashioned of white satin with long sleeves, a marquisette yoke edged with three tiers of satin, a basque style waist, full skirt with bustle back, and a long train. Her fingertip length veil was edged in lace and arranged under a pearl beaded crown. Her flowers were white gladioli arranged in a shower bouquet. She also wore her gift from the groom, a gold cross.

Mrs. Howard Holum of this city, sister of the bride, matron of honor, and Miss Marlys Elseth of Newfolden, sister of the groom, bridesmaid, both wore gowns of blue marquisette, and carried colonial bouquets. They wore earrings, gifts of the bride. Flower girls were LuAnn Engelsrud and Marilyn Olson of Newfolden, wearing pink dresses and they carried baskets of rose petals, which they strewed down the white carpeted aisle, before the bride entered.

The groom was attended by his brother, Basil Elseth of Newfolden, and Oscar Pearson of this city and Lester Elseth of Newfolden.

Mrs. Engelsrud and Mrs. Elseth wore dark colored dresses with corsages of white and pink carnations.

A reception followed the ceremony in the church parlors for approximately seventy-five guests. Decorations were in pink and white streamers, and garden flowers also made the tables festive for the occasion. A three tiered wedding cake topped by bridal figurines centered the bridal table. Mrs. H. C. Haugen presided at the coffee table; Mrs. Holum, assisted by Miss Elseth, cut the cake; Mrs. Eugene Tunheim of this city had charge of the guest book; and Mrs. Albert Knutson had charge of the gift table. Miss Josephine McNamara of this city, Irene Julin and Katherine Lee of Newfolden, dressed in gray and wearing corsages of mixed flowers, served as waitress at the bridal table.

Mr. and Mrs. Elseth left on a wedding trip to the Black Hills in South Dakota and are now at home at 609 Tindolph Ave. So., city. For traveling the bride wore a taupe suit with black accessories.

The bride, graduate of Newfolden high school, is employed as bookkeeper at the local Gamble store. The groom was graduated from Newfolden high school, served as a paratrooper in World War II, and is now employed as accountant at the local Land O'Lakes Creameries, Inc.

STEINER 4-H CLUB IS OUTSTANDING IN ACHIEVEMENT

Wins Distinction for Excellence in Effort and Accomplishment

The Steiner 4-H club was selected as the most typical club in Pennington County for 1947-48 according to an announcement made today by County Agent, Frank A. Hobbs.

During the past several years the club has had as its leaders Mrs. H. S. Williams and Mrs. I. J. Russell who have done a most commendable job, he says.

The Steiner 4-H club not only had the State Health champion during 1947 but also this year the outstanding 4-H dairy club member in the state of Minnesota. The club rated very high in last weeks achievement day record.

Officers of the Steiner 4-H club are: president, Jim Russell; vice president, Maurice Russell; treasurer, Doris Williams, reporter, Mavis Knutson; librarian, Fred Meyer, and club secretary, Betty Russell, who turned in a very neat and accurate record of the clubs activities throughout the year.

The Smiley 4-H club with their leaders, Mrs. Rudolph Hanson and Mrs. Norton Nelson and Secretary Delores Roese deserve special credit as a close second in the county contest.

Governor Proclaims Employ Physically Handicapped Week

Governor Luther W. Youngdahl, in a formal proclamation asks Minnesotans generally to observe National Employ the Physically Handicapped Week, Oct. 3-9.

NEPH Week was authorized by the 79th Congress and supplemented by a proclamation issued by President Truman.

In Minnesota, the observance was prefaced by a two-day institute on employment for handicapped persons at the Center for Continuation Study on the University of Minnesota campus, Sept. 21-25.

Governor Youngdahl's proclamation cites that each year 18,000 are injured in highway accidents and 5,000 more in industrial accidents, many of whom become disabled. He also directs attention to the fact that now many World War II veterans, disabled during their military service, are coming on the labor market after rehabilitation.

Public officials, employers, labor organizations, civic groups and all others are asked to help give suitable employment to those who are physically handicapped.

Funeral rites will be held this afternoon at 2 p. m. at St. John's Lutheran church, for Edward Timm, who passed away at a local hospital Sept. 27 at the age of 76 years. Rev. John Stehr of Red Lake Falls will conduct the rites and interment will be made in Greenwood cemetery.

Born Jan. 20, 1872 in Kenosha, Wisc., he came with his parents to Sibley County, Minn., later moving to Miltona. He was united in marriage to Emilia Zinter on Dec. 7, 1897 at Effington, Minn. In 1912 he moved to Rocksbury township, Pennington county, where he made his home until his death. He was a member of St. John's church of this city.

He is survived by six daughters, Mrs. Emma Zinter, Mrs. Dora Krause, Mrs. Elsie Swanson, Mrs. Rosella Olson and Mrs. Clara Olson of Thief River Falls, and Mrs. Hattie Dunn of Chicago, Ill.; six sons Richard, Herman, Gust, Bennie, Eddie and Fred of Thief River Falls, a brother Herman Timm of Miltona; 16 grandchildren; and six great grandchildren. Preceding him in death were his wife and three daughters.

Re-interment Rites for Pfc. Reuben Larson Held at Greenwood Cemetery

Re-interment rites, under the auspices of local veterans organizations, were held, Wednesday afternoon at Greenwood cemetery, Rev. D. T. Beadle, officiating, for Pfc. Reuben Larson, who died on April 2, 1946, when the truck he was driving crashed, while he was stationed in Germany.

Pfc. Larson was born on May 24, 1926 at Holt. He was inducted into the army on July 29, 1945, receiving his training at Camp Robinson, Ark., and Camp Pickett, Va. He received his schooling at the Ringbo school at Holt. Before entering service he made his home with his uncle and aunt, Mr. and Mrs. William Larson at Holt.

Survivors include his mother, Mrs. Elmer Rux of this city; a sister, Marion and a half sister, Betty of this city; a brother, Clifford of Holt and a half brother, Durlyn; five aunts and five uncles. His father and a sister preceded him in death.

Ingvald Gaare, 71 Years, Summoned in Minneapolis, Sept. 24

Ingvald Gaare, 71, passed away Sept. 24 in Minneapolis. Interment services were held on Monday afternoon at the St. Olaf cemetery, with Rev. G. L. Halmrast officiating.

Mr. Gaare was born Oct. 28, 1876 in Norway, and came to Eau Claire, Wisc., with his parents in 1887. He has made his home in Minneapolis since 1900. He was employed as stationary engineer.

He is survived by a sister, Mrs. B. H. Fonnest of Grygla, and two brothers, Peter and Ole Gaare of Grygla.

Log Cabin Lumber

A plentiful supply of pine and cedar logs provided the early settlers of this country with a cheap and durable material for construction of their homes and farm buildings. Only the axe and the ingenuity of the pioneer were needed to erect a shelter against the elements of nature. Early in the 19th century, the circular saw came into use, resulting in a change in building construction. The pine stands in New England and in the Great Lakes states, considered inexhaustible in the 19th century, were converted to lumber to construct buildings necessary for rapid development of the country. Log cabin construction continued on a very small scale but was confined largely to the inaccessible parts of the country where a cheap and plentiful supply of good building logs still existed. Today, with lumber and pulpwood prices the highest in history, aspen is about the only cheap and plentiful building log material in the northern lake states.

Educated Save More

Incomes being equal, educational background has an influence on an individual's savings habits, according to data collected by Federal Reserve board in its nationwide survey of consumer finances. The survey found that of those of the same income level, people with a college education were more apt to save a larger proportion of their income than those who had less schooling. Likewise the college group was less likely to be found in the classification of small savers for their income. Of those with a college education, it was found that about three out of every ten were large savers for their income, as against one out of four for those who had not gone beyond high school and one out of five for those with only a grammar school education.

Carl Johnson, Resident of Silverton Township, Summoned September 27

Carl Johnson, resident of Silverton township, was summoned at his home on Sept. 27, at the age of 46 years. Funeral services will be held at the Gulbranson chapel Saturday afternoon at 2 p. m. with Rev. J. O. Jacobsen officiating. Interment will be made in Greenwood cemetery.

He was born Oct. 31, 1901 in Norway, and came to the United States with his parents, settling on a homestead near Gatzke in 1911, later operating a farm. In 1937 he came to Pennington county, residing since on a farm in Silverton township, with the exception of being employed at various jobs thruout Minnesota. He went to Little Fork last fall and was employed by Pomisberger's Lumber Co., and has been unable to work due to injuries sustained in an accident in February.

Survivors are his mother, Mrs. Pauline Johnson of Silverton township; two sisters, Mrs. Arthur Mitchell of San Diego, Calif. and Mrs. Paul Hoffman of Newfolden; four brothers, Johannes of Oregon, and Edward, John and Oscar of Silverton township. His father, a brother and a sister preceded him in death.

Betting on Horse Races Reveals Sharp Decline

Betting on the horses apparently has reached the peak of its current cycle, according to figures gathered by the Federation of Tax Administrators.

Pari-mutuel betting totals at the nation's key horseracing tracks during 1947 lagged significantly behind totals for the record-breaking 1946 racing season.

The New York 1947 racing period ended with a total of $352,630,000 bet through pari-mutuel windows, more than 13 per cent less than the 1946 total. In Florida, even though attendance increased a solid 10.8 per cent at the big tracks of Gulfstream, Hialeah and Tropical park, betting slacked off .5 per cent. Revenues from horseracing in California decreased 16 per cent for this fiscal year.

Although racing horses continue to be a billion-dollar-plus annual business in the 25 states where betting on the ponies is legal, few tracks have reported pari-mutuel totals for 1947 as big as 1946 figures. State revenues in 1947 from taxes on horseracing are expected to be below the 1946 record total of $93,800,000 in 19 states.

Betting at most tracks fell off more sharply than attendance, hinting either that more people went to 1947 racing meets just to watch or that the average bet was smaller than in 1946.

Funeral Rites To Be Held Monday Morning for Mrs. O. Tunheim

Funeral rites will be conducted from St. Vincent's Catholic church in Plummer, Monday, Oct. 4, at 10 a.m., for Mrs. Olaf Tunheim of Kennedy, who passed away at the Deaconess hospital in Grand Forks, N. Dak. on Sept. 29.

Mrs. Tunheim was born on April 18, 1911 in New Solum township, Marshall county. She attended school in this city. She has been a resident of Kennedy the past eight years. She was united in marriage to Olaf Tunheim on March 25, 1940 at Red Lake Falls.

Survivors include her husband Olaf and two sons, James and David of Kennedy; her parents, Mr. and Mrs. Peter Doran of Plummer; six sisters, Mrs. Geo. Anderson and Mrs. Lynn Miller of this city, Mrs. Pearl Echard of Connellys Springs, N. C., Mrs. Clarence Sandberg of Fairbanks, Alaska, Mrs. A. J. Hayword of Hammond, Ind., and Miss Marcella Doran of St. Paul; and four brothers, George and Elmer Doran of Plummer, John Doran of Newfolden, and Jerome Doran of Great Lakes Naval station, Ill.

Playground of Kashmir

The clashes between Moslem and Hindu forces in the prince-ruled state of Kashmir have a wild Himalayan background, where glacier-shrouded peaks look down on green valleys dotted with orchards and carpeted with wild flowers. Kashmir, with its associated territories guarding the high passes between India and Central Asia, was called the "Shield of Empire" in the days of British rule, notes National Geographic society. Today, in addition to the old boundaries of Russian and Chinese Turkistan, Afghanistan and Tibet, two new sides have been added to the shield. They are the frontiers of the Dominions of Pakistan and India that rim Kashmir along the west and south. Kashmir's Hindu maharaja rules four million people who are predominantly of the Moslem faith.

There are many fantastic tales about the age of redwoods. Despite the name sempervirens they do not live forever. But some are more than 2,000 years old. One specimen scientifically measured was a redwood felled within a mile of Dyerville, Calif. Its ring count showed a life span back to 260 B. C.

Demand for Smelts

Consumer demand for smelts has outstripped production, although total catch figures have more than doubled since 1940. In 1947, the catch figured around 600,000 pounds. These figures do not include the considerable poundage caught by sport fishermen.

City Owned Parking Lots

Very few Pennsylvania municipalities own or operate off-street parking lots, a survey conducted by Pennsylvania State college reveals. Of 211 municipalities ranging between 5,000 and 125,000 in population that answered a questionnaire, only 22 said they provide off-street parking facilities for public use. Thirty-seven municipalities reported that they are planning municipal off-street lots as a part of their postwar public works program. McKeesport, a city with a population of 55,355, operates the largest single municipal parking lot of those places replying to the inquiry. There are spaces for 550 automobiles. Waynesboro, a borough with 10,231 population, operates two lots with a total capacity of 650 vehicles. The borough reports no need for additional parking facilities.

Golf, Very Old Game

The "royal and ancient" game of golf first was played in Scotland more than 500 years ago. The first "ball" was made of leather stuffed full of feathers. The leather was cut into three pieces, softened and then sewed together with a hole left for putting in the feathers. The feathers were then stuffed into the cover with an iron tool and the hole sewed up.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Education With Your Child

With the beginning of a new school year, parents everywhere are thinking again about the homework the youngsters are bringing home, the lunches they must carry off to school in the mornings, the school buses they must be ready for, the clothes to be kept reasonably clean and neat, and the like. Some of these things are the essentials of education; some are the sidelines, but all of them are factors in the family routine.

Most parents start their youngsters off to school with high hopes for achievements to be made, friendships to be won, and benefits to be conferred on the children through the process of daily school attendance. Most children, too, approach school for the first time with great interest and enthusiasm. Most teachers, too, are in the field of teaching because of a genuine liking for children and the feelings of satisfaction they themselves derive from the daily procedure of working with the children and seeing them progress. Yet despite the fact that all these things seem to provide a firm foundation for happy years of education, parents are often at a loss as to how they can best contribute the help children sometimes need. Take the matter of homework, for example. Should parents help, or should they simply make sure the child settles down and does it, or should they leave the whole thing to the initiative of the child?

It seems that really there can be no set rules for parent behavior in the realm of homework. Certainly no harm is done when the mother sits down with the third grader and helps him understand how subtraction works, or helps him figure out a new word. On the other hand if a child is really having serious trouble with a school subject, a parent's attempt to help may only increase his confusion. Doing work for the child of course does not contribute real educational help; failing to show interest in his problems is equally undesirable. Perhaps the best guiding principle is to encourage the child to derive the maximum satisfaction from achievement attained through his own efforts; to appreciate and take pride as parents in the new things the child himself is learning.

Proposed AMENDMENTS to the CONSTITUTION of MINNESOTA

J. A. A. BURNQUIST
Attorney General
State Capitol
St Paul 1, Minn.

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your request asking me to furnish you with a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 639.

This chapter of the 1947 laws proposes an amendment to Article IX, Section 5, of the Constitution of Minnesota. This section of the Constitution authorizes the state to levy an excise tax upon any substance, material, fluid, force or other means of instrumentality, or the business of dealing in, selling or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of this state. As the Constitution now reads, it provides that two-thirds of the proceeds of such tax shall be placed in the state trunk highway fund provided for in Section 2 of Article XVI of the State Constitution, and one-third thereof in the state road and bridge fund. The purpose of the proposed amendment is to change these provisions for the distribution of the proceeds of such tax so as to provide that one-half of the proceeds of such tax shall be placed in the state trunk highway fund and one-half thereof shall be placed in the state road and bridge fund.

The effect of the proposed amendment is to reduce the proportion of the proceeds of such tax which shall be placed in the state trunk highway fund from two-thirds to one-half and increase the proportion thereof which shall be placed in the state road and bridge fund from one-third to one-half.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 640.

Laws of Minnesota for 1947, Chapter 640, proposes an amendment to Article XIV, Section 1, of the Constitution of Minnesota. The Constitution now provides that:

> "Whenever a majority of both houses of the legislature shall deem it necessary to alter or amend this Constitution, they may propose such alterations or amendments, which proposed amendments shall be published with the laws which have been passed at the same session, and said amendments shall be submitted to the people for their approval or rejection at any general election, and if it shall appear, in a manner to be provided by law, that a majority of all the electors voting at said election shall have voted for and ratified such alterations or amendments, the same shall be valid to all intents and purposes as a part of this Constitution. If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

The purpose of the amendment proposed by said Laws 1947, Chapter 640, is to eliminate from Article XIV, Section 1, of the State Constitution as it now reads the following words, to-wit:

> "If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

Article XIV, Section 1, of the State Constitution, as now worded, requires that if two or more proposed amendments are submitted at the same election they shall be so submitted that the voters may vote for or against each separately. The purpose of the proposed amendment is to eliminate that requirement. The effect of its adoption would be to make it possible for the legislature to submit two or more proposed alterations or amendments to the State Constitution at the same time in such form that a voter thereon shall be required to vote for or against all of them as a group and not on each separately.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws 1947, Chapter 641.

Laws 1947, Chapter 641, proposes an amendment to the Constitution of Minnesota, Article XIV, section 2.

Said Article XIV, Section 2, now reads as follows:

> "Whenever two-thirds of the members elected to each branch of the legislature shall think it necessary to call a convention to revise this Constitution, they shall recommend to the electors to vote at the next general election for members of the legislature, for or against a convention; and if a majority of all the electors voting at said election shall have voted for a convention, the legislature shall, at their next session, provide by law for calling the same. The convention shall consist of as many members as the House of Representatives, who shall be chosen in the same manner, and shall meet within three months after their election for the purpose aforesaid."

If the amendment is adopted, said Article XIV, Section 2, would read as follows:

> "Two-thirds of the members elected to each branch of the legislature may provide by law for calling a convention to revise this Constitution. The convention shall consist of as many members as the House of Representatives, who shall be chosen in the same manner and shall meet within three months after their election for the purpose aforesaid."

Under the present provisions of the Constitution, the calling of a convention to revise it requires that the legislature, by a vote of two thirds of the members of each House, shall submit to the voters of the state at the next general election the question as to whether such convention shall be called by the legislature at its next session.

The purpose of the proposed amendment is to eliminate the requirement of a vote on the question by the voters of the state and to authorize, without such vote, two thirds of the members of each House to provide by law for calling such a convention.

The effect of the proposed amendment to Article XIV, Section 2, of the State Constitution, is to transfer the power to call a convention to revise the State Constitution from the electors expressing their will by a majority of all the electors voting at said election to two thirds of the members elected to each branch of the legislature.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

Function of Tungsten

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement of the purpose and effect of Laws 1947, Chapter 6[illegible]2.

This law proposes an amendment to the Constitution of Minnesota by adding thereto a new article to be known as Article XX of the Constitution. The proposed amendment to be known as Article XX would read as follows:

> "Section 1. The state may at any time pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946; may levy taxes and appropriate monies for such purpose; and if and whenever authorized, and in such amounts and on such terms as may be fixed by the Legislature, may expend monies, may contract debts, may issue and negotiate bonds or certificates of indebtedness, or both, and may pledge the public credit, to provide money therefor. The provisions of section 5 of Article 9 of the Constitution shall not apply to the provisions of this section, and the purposes for which the credit of the state may be given or loaned as herein provided are declared to be public purposes.
>
> "Sec. 2. Repealing inconsistent provisions. Any and all provisions of the Constitution of the State of Minnesota inconsistent with the provisions of this article are hereby repealed, so far, but only so far, as the same prohibit, or limit the power of the Legislature to enact laws authorizing or permitting the doing of the things hereinbefore authorized."

The purpose of the proposed amendment to the State Constitution which would be known as Article XX thereof is to empower the state at any time to pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946. It will also empower the state to levy taxes and appropriate for such purpose, and, in such amounts and on such terms as may be fixed by the legislature, to expend monies, contract debts, issue and negotiate bonds or certificates of indebtedness, or both, and to pledge the public credit, to provide money for such adjusted compensation. The proposed amendment will expressly provide that the provisions of Article IX, Section 5, of the State Constitution shall not apply to the provisions of the proposed Article XX and that the purposes for which the credit may be given or loaned thereunder are declared to be public purposes.

The effect of the proposed amendment will be to empower the legislature to enact the legislation necessary to provide for the payment of an adjusted compensation to persons who have served in the Armed Forces of the United States during the period therein designated, to levy taxes and appropriate monies for such purpose, to contract debts, issue and negotiate bonds or certificates of indebtedness and pledge the public credit, to provide money therefor.

Further, the proposed amendment would remove the restrictions, if any, in Article IX, Section 5, of the Constitution, relating to the expenditure of public money and the contracting of public debts for the purposes stated, and would declare that the purposes for which the credit of the state may be given or loaned in pursuance of the amendment are public purposes.

The proposed amendment would also repeal any provisions of the Constitution of Minnesota inconsistent with the provisions of the amendment.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

Radiator Heating

Principal advantage of radiator heating is that when the thermostat shuts off the heat supply, the radiators do not cool immediately. Therefore, there is a constant source of heat in the room which compensates for the continual heat loss. This tends to prevent the possible chilling effect which might take place if the entire source of heat were cut off at once.

SALE OF STATE LANDS

STATE OF MINNESOTA,
OFFICE OF COMMISSIONER OF CONSERVATION,
St. Paul, Minnesota
August 9, 1948

Notice is hereby given that on October 8, 1948 at 10:00 A. M. in the office of the County Auditor of Pennington County at Thief River Falls, Minnesota, I will offer for sale certain unsold, reverted and interest delinquent State lands.

TERMS OF SALE:

1. The purchaser shall pay in cash at the time of sale the appraised value of all timber.

2. At least fifteen per cent of the purchase price of the land exclusive of timber shall be paid in cash at the time of sale and the balance in not to exceed twenty equal annual installments, payable on June 1 each year following that in which the purchase was made, with interest at four per cent per annum on the balance remaining from time to time unpaid, payable with the installments of principal.

3. Any installments of principal or interest may be paid in advance, but part payment of any installment shall not be accepted, and for the purpose of computing interest any installment of principal not paid on June 1 shall be credited as of June 1 next following.

4. In case there are any buildings or other improvements upon the land, the value thereof shall be appraised separately and included in the purchase price. No person shall remove, injure, or destroy any such building or other improvement until an amount equal to such appraised value has been paid on the purchase price of the premises, in addition to the payment required for timber, if any. Violation of this provision shall be a gross misdemeanor.

5. Improvements when not included in the price of the land must be paid for in cash at time of sale.

6. All mineral rights are reserved to the State by the laws of the State.

7. All lands are sold subject to all railroad or highway easements.

8. All lands are sold subject to the zoning ordinance now or hereafter adopted by the County Board of the above named County.

9. No person can purchase more than 320 acres of land; provided, however, that State lands purchased previous to 1935 are not charged against such purchaser.

10. Agents acting for purchasers must furnish affidavit of authority.

11. Lists giving legal description of lands to be offered may be obtained from the Director of Lands and Minerals, 14 State Office Building, St. Paul, Minnesota, and from the County Auditor at the county seat of the county in which the land is located.

Immediately following the land sale, leases for the next season on certain lands not sold will be offered at public sale for cash.

THREE IN ONE

The seven day period that starts this week-end is officially known by several special names. It is Newspaper Week and it is Fire Prevention Week and it is Hire the Physically Handicapped Week, and maybe several more. But with fifty-two weeks to choose from it does seem that if we must have special weeks it would be possible to find one for each of these deserving causes in which there would be less competition.

We could cry, but we won't, about the need for greater appreciation of a free press. With freedom of speech and even freedom of thought being denied to more and more people thruout the world, this right that we have to say what we think and think as we please deserves some appreciation. Don't thank the newspapers of the country or those who run them. It isn't their liberty that you need to be concerned about except insofar as their liberty means your liberty of expression in print or on the air.

And Fire Prevention Week brings to our attention a problem that should receive our consideration every week of the year. Insurance is a good thing for us as individuals but fire insurance doesn't save our country a single dime. Insurance distributes our national cost of fires, and when we are adequately covered by insurance a fire does not put us out of business individually. But have you ever gone to bed and suddenly remembered that you forgot to buy the insurance you intended to get. You suddenly realize that your property is not protected and that a fire might mean a total loss to you. Well if you are a normal individual maybe that was one night you didn't get much rest. And if we could just be made to realize that fires are costing us a terrific sum of money each day of the year, that we, individually are sharing in the other fellows losses, maybe we would be a little less careless ourselves and a little less tolerant with the carelessness of others. We think Fire Prevention Week should be a week all by itself.

And what about this Hire the Physically Handicapped Week? All of us can appreciate Freedom of the Press and all of us can co-operate in the effort to cut down our fire loss but we can't all go out and hire a physically handicapped person. Or can we? This problem of providing jobs for the physically handicapped isn't just a matter of appealing to the sympathies of that fellow who does the hiring and firing. In many instances the question of public acceptance of the services of a physically handicapped person is the determining factor as to whether that person gets a job. And in this poll of public acceptance we all cast a vote.

We don't know of any cause that deserves more thought by all of us than this problem of providing jobs for the physically handicapped. Many of the physically handicapped who will be with us thruout our generation are the fellows who made it possible for us to keep on appreciating our right of free speech and who we can thank because we still have an individual interest in the country's high cost of fires. We owe a lot to the fellows who got the bad breaks and by our attitude we can do much to assure them of being hired for whatever work they are capable of doing.

But isn't this problem of hiring the handicapped big enough to have a week all of its own?

Dominican Republic

The Dominican republic occupies about two-thirds of the island of Santo Domingo, which Columbus named Hispaniola when he discovered it on his first voyage in 1492. (The other third is Haiti). The president is supposed to be elected every five years by popular vote, in which women take part, but he is eligible to be re-elected for an indefinite period.

Hijacking Increases

Hundreds of trucks will be waylaid and their cargoes stolen by hijackers this year. Highway robbery is on the increase. Losses for 1947 alone are estimated by trucking authorities to have been considerably greater than 25 million dollars. Peak hijacking year was 1946, when critical wartime shortages made nearly every big truck cargo a tempting prize.

Radio Device Helps Baby Sitter Care for Children

SHANKS VALLEY, N. Y.—A radio baby sitter for student veterans living here has been put into operation by Maj. J. L. Wood of Seattle.

It enables one baby sitter to take care of a number of children in their own homes on such occasions as community dances.

Maj. Wood is living here with his wife and two children while studying at Teachers' College. Before he entered the army he was in commercial radio.

His procedure is to place a microphone near the crib of each baby to be watched and connect it to an amplifier in his own home.

Each amplifier is labeled with the name of the baby being watched. In each home he also places an alarm clock near the baby so that if its ticking ceases the baby sitter will know that the radio device is no longer working.

The microphone is so sensitive that it will even transmit the sound of the child's breathing.

Thief Apologizes, Returns Loot; Identity Kept Secret

TACOMA, WASH.—Police were puzzled about whether or not to continue search for a bandit who held up and robbed an ice cream store of $90 here, then, hours later, changed his mind and returned the money.

Mrs. Edyth Eaton, victim of the robbery, told officers the robber called her up and apologized for taking the money. She said she then urged him to return it saying she would not reveal his identity to police. He returned the money and she kept her promise.

Big Indian Cave

Big Wyandotte cave, at Wyandotte, Ind., is one of the three largest caves in the world. There are three routes in the cave with an unusual variety of formations of stalactites, stalagmites, helictites, flowers of gypsum, calcite and epsom salt crystals. The Pillar of the Constitution, a huge stalagmite, is the largest formation known in the world. It is 35 feet high and 75 feet in circumference.

Holdup Men Force Victims To Have Champagne Spree

SACRAMENTO, CALIF. — Police sought three holdup men who reportedly forced two victims to drink champagne until unconscious.

Albert Soulsies, detective, said five employees of one of Sacramento's plushier bar-restaurants told this story:

At 2 o'clock in the morning three customers pulled guns on the five workers. Three of the employees, Clem Smith, Ray McCarthy and Rudolph Neuman, were bound.

Two others, Martin Kalana and Kiiaki Iwaki, were forced to drink champagne and wine. Their hair was scissored off and their clothing torn.

"The last I remember," Kalana told police, "somebody was standing over me saying 'Hurry up and drink some more'."

Kalana and Iwaki spent one day recovering in a hospital.

A sixth victim, George Miller, was hurried in at gunpoint from a service station nearby, police were told. He and Smith were robbed of $150 before the gunmen left the cafe.

Smith had been ordered to open the restaurant safe by that hour, but fumbled unsuccessfully, Soulsies said.

Worried by Zooming Prices, Landlord Cuts Tenants' Rent

RACINE, WIS.—Col. L. C. Christensen has expressed his concern over the high cost of living by reducing the rent of 112 families by $5 a month.

"Why all the commotion?" he asked with the air of a man who has just bitten a dog. "I've done peculiar things before."

He said the rent was cut in appreciation of his tenant's thoughtfulness and promptness in paying their rent.

His firm, Col. L. C. Christensen Associates, handles the rental of more than 200 properties. The 112 rent reductions were given to tenants who have been with Christensen for more than five years.

The white-haired Christensen, in the real estate business for 48 years, owns many of the properties affected by the rent cut, but also will absorb the loss of income from properties owned by others and handled by him, he said.

"People have more trouble meeting their obligations today than they did two years ago," he explained. "This is my contribution toward holding down the cost of living."

The reduction will mean a loss of income to Christensen of $560 a month. The nine month gift will cost him $5040.

Camel a Bad Actor

The camel, often called the ship of the desert, is one of the ugliest and meanest of all animals. Its temper is sad and sullen, interrupted by fits of anger and rage. The personal habits of the camel are so bad it has few friends, even among other camels.

Choosing A Pillow

An uncomfortable pillow can ruin sleep. Pillow puncher should try experimenting with fat soft ones, plump firm ones, thin soft ones or thin firm ones until finding one that suits. The "fit" of sleep equipment is just as important as the "fit" of shoes.

Specialist Predicts Toes Will Disappear

WASHINGTON.—A foot specialist predicts that 10,000 years from now nobody will suffer from ingrown toenails.

The reason is simple. By 11,948 A. D., people will have practically no toes. Hence, no toenails.

Dr. William J. Stickel, executive secretary of the National Association of Chiropodists, said:

"Feet, as we know them today, are on their way out."

At the end of 10,000 years, he says, the little toe will be completely gone. The other toes will be so retarded that the foot will look more like a hoof.

Shoes—and what some comic has laughingly called progress—are to blame.

As long as man used his toes to clamber up a tree, as long as he walked barefoot through the mud and let it squiggle up between his toes, there was some point in being a toe. And toes were happy.

And then, shoes. Toes were caged. Discontented, they allowed nails to grow in and bunions to grow out.

Go to any beach and try to get to the foot of the problem.

For every 1,000 lovely faces, or figures, or nicely shaped ears, it's difficult to locate one pair of decent feet.

Dr. Sticker aired his views in connection with National Foot Health week.

"I have studied the problem carefully," he said, "and have decided there is nothing rational the chiropodist can do to arrest evolution."

Motorist, 91, Stands on Head to Prove He's Healthy

SALT LAKE CITY.—A 91-year-old motorist here thinks he's in better health than most younger drivers. He has one convincing argument.

Mads M. Christensen stands on his head to silence skeptics.

The enthusiastic motorist drives a 1923 model car. "I'll be dagnabbed if I would want to go back to the old horse-and-buggy days," he smiles. He bought the car 23 years ago.

Christensen credits his health to eating only two meals a day, growing a beard and not smoking or drinking. He thinks men would be healthier if they wouldn't shave.

Thirteen-Year-Old Mystery Still Puzzles Sheriffs

EL PASO, TEX. — Somewhere in the eroded butte country of eastern New Mexico there are the bones of four people—two men and two women who disappeared 13 years ago while on a trip to the West coast.

Mr. and Mrs. George Lorius of East St. Louis, Ill., and their traveling companions, Mr. and Mrs. George Hebere of DeQuoin, Ill., spent the night of May 21, 1935, in Vaughn, N. M. They apparently reached Albuquerque, N. M., where postcards bearing their handwriting were mailed the next day.

There the trail ended. The Lorius' 1931 model automobile gave authorities their only clew. A nervous young man with a prominent adams apple abandoned the car in Dallas after passing through El Paso. He left a trail of Lorius' travelers' checks before he disappeared in Dallas.

Texas and New Mexico sheriffs in this sparsely populated country along the Mexican border never have doubted that the party was murdered. Murder, however, can't be proved until the body is found and there has never been a trace of the Illinois couples.

We wish to express our sincere thanks to each and everyone for their kind expressions of sympathy in our recent bereavement; the death of our dear husband, father, son and brother. Especially do we wish to thank Rev. J. O. Jacobsen for his comforting words, the ladies for the music and songs; also the pallbearers, and to all who gave flowers, memorials, and other expressions of their love and sympathy. May God bless you all.—Anna Berg, Mr. and Mrs. Wallace DuChamp, Mr. and Mrs. Melvin Berg, Annie Berg, Mr. and Mrs. Aug. Glewwe, Mr. and Mrs. Otto Anderson, Mr. and Mrs. Albin Hallin, Theodore Berg. 40p

Card of Thanks

We have greatly appreciated the many acts of kindness that were done for us during the death of our husband and father, Christ Bugge. We extend our sincere thanks to Rev. J. O. Jacobson for his comforting sermon, to Mrs. J. O. Jacobsen, Mrs. Wallace Christensen, and Miss Gloria Ulshafer for their beautiful songs, to the pallbearers, the ladies who served the lunch following the funeral, and to all who gave flowers, memorials, and cards. We shall always remember the generous assistance and thoughtfulness in every way rendered to us by our relatives, neighbors and friends. May God bless you all.—Mrs. Christ Bugge and family. 40p

In Memoriam

In memory of Andrew Thoreson, who passed away, October 3, 1939.

Nine years ago, dear God, you left us
To visit God's garden grand;
The time has been eternal,
But some day we will understand;
We are comforted to know, dear Dad,
That God needed a soul like you
To keep only the chosen few,
And as the days and years go by,
More beautiful His garden will grow,
Our hope is that we will meet you there,
And God, may He will it so.

Sadly missed by daughters and sons. 40c

Card of Thanks

Prowlers Beaten by Grand Forks; Satans Play Here

The tremendous speed of right halfback Ronnie Thompson and the accurate forward passing of quarterback Dick Koppenhaver proved to be the combination that gave Grand Forks Central a 31 to 0 win over the Prowlers in an important North Valley conference football game played here Friday night. Thompson, turning in the finest performance of his high school football career, scored three touchdowns, two on passes from Koppenhaver in the first half and the third on a 33-yard off-tackle sprint in the fourth period. In addition, Thompson dashed for three long touchdown runs that were nullified because of Grand Forks penalties. The Prowlers continue their conference competition this week when they meet the rangy Devils Lake Satans on the local field, with the opening kick-off scheduled for 8:30 p. m.

Except for two scoring thrusts, both on pass plays, the Prowlers played the Grand Forks eleven on near-even terms during the first half of Friday night's game. The locals racked up four first downs in the first and second periods, while the Maroons collected but two first downs. The Prowlers, in the first quarter, twice stopped the Grand Forks attack, once forcing a Maroon punt and once holding for downs, but late in the period, with the ball on the Grand Forks' 46-yard line, Koppenhaver reached Thompson with a pass for a touchdown. Thompson had outrun the Prowlers secondary and was in the clear along the north side-line when he grabbed Koppenhaver's toss.

And seconds before the end of the first half Thompson had set up the Maroons second touchdown by intercepting a Prowler pass in mid-field and returning the ball to the locals' 29-yard line. With time remaining for but one play, Koppenhaver, eluding a pair of Prowler tacklers, threw a pass to Thompson, who was in the clear near the east goal, and Ronnie made the catch and stepped into the end zone for the score.

The Prowlers had made three threats at a touchdown midway in the second period, having the ball inside the Grand Forks' 30-yard line on those occasions, but the alert Maroon secondary knocked down the locals' pass attempts and the Grand Forks line bottled up the Prowler running attack.

Grand Forks' Lynn Gilbertson recovered a Prowler fumble on the locals' 48-yard line to spark the Maroons third touchdown. A 15-yard Prowler penalty kept the Grand Forks drive under way, and a pass, out to Thompson on the right flat, found the chunky Maroon back making a run to the Prowler 3-yard line. Al Williamson was injured in making the tackle and was forced out of the Prowler line-up. Bailey McCracken punched over left guard for the touchdown.

Thompson's 33-yard dash off left tackle and big John Simonson's plunge from the 2-yard line, gave Grand Forks their fourth and fifth touchdowns in the final period.

The Maroons outscored the Prowlers on first downs, 10 to 5, but two of the Grand Forks first downs came as the result of Prowler penalties. Numerous penalties were called during the game, and in the first period Thompson's 16-yard run for a touchdown was called back because of a Grand Forks off-side, and in the fourth period, Thompson made a run of 54 yards and another for 45 yards, both over the goal, but they were called back because of Maroon infractions.

LINCOLN HIGH HOMECOMING STARTS TODAY

Bon Fire and Snake Dance Tongiht; Queen Ceremony Tomorrow

Lincoln high school's annual Homecoming celebration will get under way this evening with a snake dance and bonfire for the high school student body, beginning at 7 o'clock. Coronation of the Homecoming queen, together with a pepfest will be held in the high school auditorium Friday afternoon and the highlight of the celebration will be the football game with Devil's Lake, beginning at 8:30 o'clock.

The festivities will close with a dance in the high school gymnasium after the game, Friday evening. Senior students, alumni of Lincoln and their wives and husbands are invited. Attendance will be strictly limited to this group. There will be a small admission charge, and entrance to the dance will be by the north door of the gymnasium only.

Queen candidates are Joyce Benson, Lilah Bendickson and Carol Melby. The candidate receiving most senior votes will be crowned queen while the others act as attendants. Attendants from the junior class will be Elrom the junior class will be Ellen Hauge and Harriet Sampson, and from the sophomore class Glenice Jorde and Jean Tygeson. Two girls, Judy Owen and Susan Bakke, have been chosen to act as crownbearer and flower girl. The presentation and crowning of the queen will be conducted by the captains of the football team, Joe Bradley and Allan Williamson.

North Valley Conference Football standings

	W.	L.	Pts.	Pts.
E. Grand Forks	1	0	20	0
Grand Forks	2	0	62	7
Crookston	1	1	20	31
Thief River Falls	0	1	0	31
Devils Lake	0	1	0	13
Grafton	0	1	0	20

Results of the week's games:

Grand Forks, 31, at Thief River Falls, 0.
Crookston, 13, at Devils Lake, 0.
Grafton, 0, at East Grand Forks, 20.

Games this week:

Devils Lake at Thief River Falls.
Grafton at Grand Forks.

Coach Ed Bohnoff's Grand Forks Central team gave further proof last Friday night that they are entitled to their rating as the conference's prospective champions when they subdued the defending champions, the Thief River Falls Prowlers, 31 to 0, in a game played on the local field. This week, Grand Forks meets the Grafton Spoilers, and the odds are heavily in favor of the Maroons.

East Grand Forks opened its season's conference schedule last Friday night by trouncing Grafton, 20 to 0, at East Grand Forks, and revealed a powerful fullback in Kermit Christianson, with the burly back scoring two touchdowns and an extra point against the Spoilers.

The Crookston Pirates, with their co-captain, Dave Pilkey, showing all-conference form upset a favored Devils Lake team, 13 to 0, at Devils Lake. The Devils Lake team, who will meet the Prowlers in a Homecoming game at Thief River Falls on Friday night, were the victims of a 90-yard touchdown run by Pilkey in the first period; and in the fourth quarter, Pilkey plunged over from the 2-yard line for the second touchdown.

Grand Forks' sensational running back, Ronnie Thompson, pulled away to a comfortable lead in the conference's individual scoring race by tallying three touchdowns in the Maroons win over the Prowlers. Thompson's three touchdowns gave the 145-pound right halfback a total of 30 points, for he had registered a pair of touchdowns in Grand Forks' opening game against Crookston. Crookston's Pilkey is runner-up with 18 points; while East Grand Forks' Kermit Christianson is in third place with 13 points.

The conference scoring leaders:

	Tds.	P.A.	Pts.
Thompson, Grand Forks	5	0	30
Pilkey, Crookston	3	0	18
Christianson, East G. F.	2	1	13
Simonson, Grand Forks	2	0	12

New Use for Sugar

To most of us, sugar is just something sweeter than coffee; but to the chemist it has now become a finish for interior surfaces such as furniture, wall coverings and woodwork. Actually, the new sugar product is allyl sucrose. When allyl sucrose is exposed to the air it polymerizes—that is, it forms large molecules from the smaller ones and changes into an insoluble, infusible, transparent resin.

Mental Hospital Patients

Fifty thousand patients are said to be discharged as cured each year from mental hospitals in this country.

Bowling League Starts At Pla-Mor Alleys Next Week

Officers of the Thief River Falls Bowling Association completed the schedules for four men's leagues at a meeting Tuesday night, and three 8 team leagues and one 6 team league will start the season next week, according to Fred Protz, association secretary. The Service league will start the activities on Monday night, followed by the Commercial league on Tuesday night, the Business league on Thursday night and the 6 team city league on Friday night. On Wednesday night the alleys are used by the women's league.

Following are the teams that make up the four leagues in the order in which they are paired for the first week of competition:

Bowling to commence Monday, Oct. 4, at 7:15 p. m.

French Fans Shower Wrestlers With Beer

PARIS, FRANCE.—Murder the bum! Changez l'arbitre, that referee is blind! Voici, Pierre, pour another beer on that low type. Bravo, a direct hit!

Such quaint expressions are an integral part of the wrestling matches from Singapore to Scott's Bluff, Nebr., but at the Salle Wagram, a few blocks from the Arch of Triumph in Paris, it hits a new and lusty low.

The French throw inhibitions to the winds when it comes to indicating their displeasure with contenders in the manly art of wiping the floor with the other guy.

At the Salle Wagram audience reaction is always extreme but varies along fairly strict economic lines.

The shifty-eyed open-collar standees in the single tier balcony and their equally ardent lady guests accompany their vocal derision by flipping lighted cigarette butts into the ring.

Occasionally a ringside customer is struck by mistake and the house protests.

Another favorite of the balcony crowd, restricted to those fortunate enough to be standing over the aisle, is to pour stale beer on departing combatants.

Patrons in the outer fringe of seats—or those who may be termed, roughly, the middle class spectators—are out of cigarette flipping range. However they vary the murderous exhortations by tipping, poking, kicking and generally annoying departing gladiators.

At the ringside, the well dressed dilletantes who plunked down $2.50 each for the occasional privilege of catching 240 pounds of braised beef in their laps, manifest their displeasure on these occasions by a few well placed kicks.

Detectives Open Battered Safe Which Baffled Robbers

DENVER.—Looking at the litter surrounding the Morton Peabody incorporated's safe early one morning, detectives Fred Zarnow and John Toll figured would-be crackers had worked unsuccessfully for about six hours.

The 750-pound safe had been removed from the shop and battered, beaten, cut, hacked and burned, but it remained closed. To add insult to injury, the yeggs had used the shop's own tools for the attempted job.

Finishing the safe-cracking job, Zarnow and Toll opened the safe, in the presence of the owner, in just 90 seconds.

Will Plan for Midget Hockey at Meet Tonight

Alex Cloutier, chairman of a 40 & 8 midget hockey committee, has called a meeting of all persons interested in the program to be held at the Legion Club Rooms in the auditorium this evening (Thursday) starting at 8:00 o'clock. At a meeting of the 40 & 8 Monday night the members agreed to sponsor midget hockey again and Mr. Cloutier hopes to be able to organize a community committee tonight.

Phantoms, Banshees "Haunt" New Aircraft Vocabulary

PHILADELPHIA.—The boy on the street had better start learning a brand new vocabulary if he wants to keep abreast of today's aviation parade.

That's because the Flying Fortresses, Mustangs, Thunderbolts and other planes that seemed so advanced only a couple of years ago are fast losing their strategic value, says R. R. Zisette, general sales manager of SKF Industries, in reporting on the increased use of anti-friction bearings in new types of aircraft. The Philadelphia firm has substantially boosted production of bearings for aircraft gas turbines and other plane engines.

"Something like 14 new types of planes and a half-dozen experimental Pilotless craft have been revealed by the air force while numerous others are still on drafting boards," he says.

The up-to-date aviation vocabulary must now include, Zisette said, such new names as Banshee, Stratojet, Phantom, Shooting Star, Panther, Pirate, Thunderjet and others known only by anonymous symbols such as the XS-1 which reputedly has crossed the mystic barrier of supersonic speed.

Anti-friction bearings for the new aircraft exemplify the spectacular transition, Zisette said, pointing out that as many as a hundred bearings of a dozen different types go into a single engine, simplifying mechanical design and lubrication.

Searchers Find Lost Child in Rattlesnake-Infested Country

GRAHAM, TEX. — Sandy-haired Bobby Brown, 2-year-old son of a North Texas farm couple, was found scratched and bruised after being lost 24 hours in rattlesnake-infested ranch country.

Unclothed except for a T-shirt, the towheaded youngster was rescued by D. D. St. John, one of 300 searchers.

"Where are you going?" St. John asked.

"Looking for my dog Shorty," replied the barefoot child.

The child's parents, Mr. and Mrs. Houston Brown, said Shorty, a shaggy black and white dog, returned to their farm house "barking and howling."

"I guess he was trying to tell us where Bobby was," said Brown.

Bobby, youngest of eight children, was missed before noon.

Searchers on foot said they killed 12 rattlesnakes in brushland and mesquite flats while searching for the boy.

Six private planes took part in the search.

He had wandered eight miles from home.

. . . . With BUCK OLSON

The Difference

While the Grand Forks Central football team isn't by any means a one-man team, it was the presence in their lineup of one player, Ronnie Thompson, that accounted for the Maroons top-heavy 31 to 0 triumph over the defending champion Prowlers here on Friday night. Thompson, possessing speed that astounded the crowd that witnessed the game, scored three touchdowns, and was the factor that gave coach Bohnoff's eleven their two touchdowns in the first half and a 12 to 0 lead at the intermission.

The play of the two lines was just about a stand-off, with the Prowler forwards having a slight edge as they were buckling up against a more versatile backfield. If Grand Forks had not been successful in scoring a pair of first half touchdowns—both on passing plays, and which, with experienced players, could have been knocked down—the game may have ended in a scoreless tie. Those two touchdowns, and particularly the easy manner in which they were made, caused a "let down" in the Prowler play, and Grand Forks, on Thompson's running, took charge of the game in the third and fourth periods.

This week the Prowlers, with their injured players hobbling along the side-lines, are in a process of re-building their attack and morale for the Homecoming game against Devils Lake on Friday night. Tackle Harry Simons, injured in last week's practice drill, will be out of play for the rest of the year; Al Williamson is a doubtful starter for Friday night as he wrenched his right knee in Friday night's game, leaving the game early in the second half; and Jack Winter and Wally Grovum aggravated their lame legs.

To add punch to the Prowlers backfield, coach Wayne Johnson has been experimenting with 180-pound Don Green at fullback, and while the husky is under a handicap in making the change to a backfield position at this time, it appears that he will develop into a capable line plunger and blocker.

And the Prowlers will have to "rebound" plenty if they are to give their Homecoming queen a victory on Friday night for in meeting the Devils Lake Satans, the locals will be meeting the conference's biggest and rangiest team. The Satans were surprised by Crookston last week, losing by a 13 to 0 score, but with Eddie Fortin and Don Lee running behind a big line, Devils Lake will be a problem for the blue-and-gold.

Attention, Midget Hockey Fans

Alex Cloutier, re-elected president of the American Legion's 40 & 8 midget hockey committee, announced that a meeting will be held in the American Legion club rooms in the Auditorium this evening at 8:00 p. m. for the purpose of organizing a plan for the midget hockey season. With numerous outdoor rinks in prospect, Alex believes that midget hockey would be given quite a boost if it was organized on a city-wide scale and with a "community" committee supervising the set-up.

Everyone interested in the midget hockey program is requested to be present at tonight's meeting. It's at 8:00 p. m.

Season's Final Softball Game

The chesty Poppler's Furniture team, the city league and city softball champions, have been anxious to test their newly-won honors against an all-star aggregation, and this evening, at 8:00 p. m. on the Fair Grounds diamond, they will be given that opportunity.

Harold Stroble, as manager of last year's champions, the Oen's, was told to pick a team to oppose the Poppler's, and Harold has been busy the past few days getting a lineup organized. According to present plans, Stroble will have Milt Reierson and Elton Oberg available for pitching; Chuck Barr, Earl Erickson, or Jimmy Anderson will handle the catching; Woody Almquist, Connie Swanson, and Paul Erickson will perhaps be in the outfield; and Bob DuChamp, Harlan Olson, Gaynor Eide, Rog Tunberg and Johnny Powell will be used in the infield.

The Poppler's, as usual, will have their regular lineup, meaning that Bob Carlson will throw to catcher Merle Carlson, with Blackie Stephens on first base, Wally Tunberg at second, Nicky Carlson at shortstop, Jimmy LaFave at third base, and with Phil LeGault, Jim Welton, and Stan Cockrell in the outfield. That means that the Poppler's should roll up an 8 to 4 win over the all-stars.

Exports Increase

Overseas demand for British scientific instruments has been rising steadily in the last two years. The value of these exports is now almost 400 per cent of prewar. Britain's well known "auto king" and philanthropist, Lord Nuffield, is helping to further Britain's scientific research. He has given 50,000 pounds to Lincoln college, Oxford, to found three collegiate appointments in science and medicine.

Railroad Locomotives

Weights of the 40 to 50 thousand locomotives in the United States vary greatly. The weights of freight locomotives purchased during 1939-1943 ranged from 165 tons to 590 tons. Weights of standard electric locomotives employed in freight service range from 113 to 642 tons, those in passenger service from 110 to 310 tons; those of switchers range from 76 to 140 tons. Weights of Diesel-electric locomotives vary widely from 44 to more than 600 tons. The United States surpasses any other country in the world in development and use of Diesel motive power. One railroad company in the United States has more Diesel horsepower in service than is used by all the railroads of the world outside of the United States.

Alas! The Old Gray Mare

That famous line about the old gray mare may someday be simply, "The old gray mare ain't." If present trends continue, according to a farm mechanization study released by the B. F. Goodrich company, there will be only four million farm horses and mules in 1975. This would be a "mere handful," it said, compared with the 21 million in 1921 and today's figure of 11 million. Work animals are "disappearing," the firm pointed out, because more tractors—all of them now equipped with rubber tires—are going onto farms. There are now about 2.6 million tractors on farms, and by 1955 the figure should hit 3.5 million.

Check Car Lights Patrol Warning, as More Drive in Dark

Every Minnesota motorist was urged this week by Earl M. Larimer, chief of the State Highway Patrol, to check all his car lights, particularly in view of the longer hours of darkness now prevailing and the consequent increasing importance of motor vehicle lamps to traffic safety.

The Highway Patrol and local police have been "bearing down" in recent weeks on illegal and improperly adjusted lights, as is indicated by the fact that more than 4,000 motorists were tagged by highway patrolmen last month for faulty lights.

Most of the defects which have caused motorists trouble with the law can readily be detected by the drivers themselves and corrected, Chief Larimer pointed out. He cited the fact that 1,792 of the drivers tagged last month were driving with one or both taillights out and 850 others were driving with only one headlight.

"At this season of year there are several hours a day, in the early evening and morning, during which, just a couple of months ago, traffic would have been driving in daylight. As the days get shorter and the larger and larger volume of each day's traffic must drive in the darkness, the effectiveness and proper adjustment of motor vehicle lights become more and more essential in the prevention of accidents. This importance of having proper lights, correctly adjusted, will continue to increase as we enter the winter months."

Fires Threaten!!

Conditions in the woods and swamps are now powder dry and no relief in sight. There are a number of peat fires scattered over Northern Minnesota, and while most of these are under at least temporary control, there is no telling what might happen should we get a dry windy day after a heavy frost.

We have as of today stopped all burning permits and none are to be issued until further notice.

All persons in the area are asked to use extreme caution, when in the woods or swamp or grass lands, and it is suggested that people refrain from entering any of the dangerous areas unless on necessary business. There should be no smoking and no camp fires.

Should conditions remain dry The Beltrami Island State Forest and Red Lake Refuge will be closed to the public.

Remember that our natural resources are ours only as long as we protect them, and the cooperation of the public will be appreciated.

POLITICAL ROUNDUP

By Arthur Naftalin

Candidates for top offices in November's general election are beginning to get their second wind. Since the primary, activity in the various camps has slowed down, with only an occasional flurry, but now, with the election just four weeks from next Tuesday, the tempo is certain to quicken.

The drop in momentum following the primary was particularly noticable in the contest between Senator Joseph H. Ball and Mayor Hubert H. Humphrey for the U. S. Senate spot. Both reached a high point of campaigning in the days immediately before the primary, but the period that followed saw a slowing down of activity.

Both the Humphrey and the Ball camps now announce that they will sponsor extensive radio broadcasts and elaborate appeals through literature and advertising. The big question that remains is, will the two candidates agree to meet each other in public debate?

The results of the primary election make it clear that the most crucial factor in the November election will be the size of the vote.

It is apparent that, despite the widespread concern among the voters over a multitude of specific issues, the level of interest is not especially high. The electorate appears surprisingly apathetic about most of the contests, from the Presidency down.

The primary showed that the purely local contests for county commissioner and legislative posts, tended to account for larger totals than the major statewide offices.

The unpredictability of the size of the vote means that the Dewey-Truman contest and the Humphrey-Ball encounter are both tossups. A large vote is regarded as more likely to help Truman and Humphrey, with a light vote wiping out the advantage which Humphrey is presumed to have over Ball on the basis of the latest Minnesota Poll surveys.

Minnesota will become a three-party state again this weekend when the followers of Henry Wallace meet in Minneapolis to organize the Progressive Party.

This move will mark the final step in the withdrawal of the extreme left-wingers from the Democratic-Farmer-Labor Party. In fact, the Wallace faction has set as its main goal the defeat in Minnesota of the DFL candidates.

It is a foregone certainty that the Third Party will have very little effect upon the '48 elections in Minnesota, but its sponsors are playing a long game. They are confident that another depression will come to America and that, when it does, they will be in a position to lead the new forces of economic and social protest.

It is, therefore, unlikely that the new party will pass from the scene with the end of the current campaign. Its leaders, cut off from the support of organized farm and labor groups, will be intent upon remaining on the scene, if for no other reason than to propagandize in behalf of the pro-Communist line.

The success of several of the Henry Wallace candidates in the DFL primary points up once again the uncertainties that accompany use of the long ballot. Polls indicate that less than 5 per cent of the voters in the state support Henry Wallace, yet outspoken leaders of his cause were able to win nomination over candidates who presumably represented the views of much larger blocs of voters.

The Wallace candidates for state treasurer, George W. MacDonald, and for attorney-general, Francis M. Smith, defeated the regular DFL candidates. In the seventh congressional district, James Youngdahl won, as did Oscar A. Johnson in the ninth.

Their victories indicate once again that many voters enter the polling booth with only scant information about the candidates. This is even more clearly revealed in the non-partisan legislative contests. In Minneapolis, for example, a state leader of the Communist Party was actually nominated for the legislature.

Minnesota Republicans took steps to heal their internal wounds at their annual fall party convention. State Auditor Stafford King, who had opposed Governor Luther Youngdahl's renomination, appeared to pledge his support, and state leaders sounded the need for unity behind Ball's campaign for reelection.

There was the usual talk about a Republican "sweep" in Minnesota, but the leaders admitted that it was no certainty that Dewey can carry the state.

The GOP is especially concerned about the Senatorial contest and the congressional campaigns in the Third, Fourth and Eighth districts.

Mountains of Oregon

Volcanic activity of long ago bequeathed Oregon a number of snow-capped mountain peaks, led by Mt. Hood near the Columbia river gorge. It towers into the heavens for 11,245 feet closely followed by Mt. Jefferson, the Three Sisters, Mt. McLaughlin and others. Modern trails make ascents to the summit of Mt. Hood popular during the summer vacation season.

EVERSMAN LAND LEVELER handles many important jobs FOR FARMERS
Here is a leveler that is almost human. It levels land automatically. Blade activated by exclusive crank axle. When wheels go on high place blade lowers to take a cut... when it comes to low place dirt is dumped to fill. Eliminates dead furrows, back furrows, ridges in old fence rows, fills small gullies. The EVERSMAN breaks clods, pulverizes the soil, smooths and packs the surface, forming a fine seed bed while AUTOMATICALLY LEVELING.
Eversman leveled fields make possible even depth of planting, a smooth job of cultivating and 100 per cent job of harvesting... planters, cultivators, harvesting equipment work smoother, faster, with less wear and tear.
Machine has dirt moving feature. Now easy to fill in low areas and pot holes that gather water, making it possible for comparatively flat fields to surface drain themselves without ditches. Long blade of Eversman produces wide, shallow cuts and well packed fills as against drains made with ditchers and fresnos... thus it is possible to smooth out and surface drain fields... not cut them up. Invaluable when building grass waterways, or preparing ground for permanent seeding. Excellent for planing slopes before terracing or contouring. Ask today for further details.

Chinese Money

Hundred dollar (yuan) bills are so worthless in China that some junkmen are buying them by weight as wastepaper. The price offered is about $2,000 a pound. At the black market rate of more than 300,000 yuan to one United States dollar, it takes more than 1,000 hundred dollar bills to equal one United States cent, so their price per pound is about two-thirds of a cent. The junkmen pay off in high denomination bills, as no one has the strength or patience to carry out and count the small ones any more.

CALL OF THE WILD . . . The skeptical reader may entertain some doubt about this, but there is supposed to be a new 1949 Nash automobile in that big box. Also, this picture would lead one to believe that the Eskimos, who customarily travel by dogsled—like the one displayed here—are agog with impatience as they wait for the wraps to be torn from the new car so they can tell it to mush.

Parking for Workers

One parking space is required for every three workers in industrial plants, according to a recent survey.

"I come out ahead with Land O'Lakes"

HAROLD E. WILLIAMS, who milks an average of 27 purebred Holsteins on his farm near Lake Crystal, Minn., tells his dairy farmer friends: "You average a better price for your milk and cream through Land O'Lakes. Year after year, I come out ahead by marketing the Land O'Lakes way because the savings in manufacture, distribution and sales come back to me, as a producer."

Mr. Williams, active in the Lily Creamery Co., a Land O'Lakes co-op, emphasizes above all: "You always get treated fairly at Land O'Lakes—because you're dealing *with* yourself, *for* yourself, in your own marketing organization."

If you milk cows or raise poultry, find out for yourself the benefits of marketing through Land O'Lakes. As farmers testify, it pays.

The greatest improvement in mattresses in 50 years

A basic new principle in the Englander Red Line Mattress joins springs together in the center, allows each spring of upper layer to float freely, giving yielding support to every motion, every contour. Lower layer supports your over-all weight.

The Englander has a free-floating comfort to match her light floating contours.

Upper layer fits your body lower layer fits your weight

In the Englander Red Line Mattress, springs are not tied at top or bottom, but are joined in center by flexible ribbon of steel. Each spring acts independently.

New Breed of Hogs Introduced at N. W. School--105 Sold

More than 500 swine breeders and farmers attended the dedication of the new Minnesota No. 2 breed of swine and sale held at the Northwest School and Station, Crookston, Saturday, September 18. The sale was a decided success with buyers from six states purchasing breeding stock. The sale average for the 105 head of the spring boars and gilts was $181.18.

The Minesota No. 2 hog was produced at the Northwest Experiment Station by crossing the Yorkshire, a bacon breed, on a fast-developing inbred strain of Poland China, a fat-hog type. The new hog is a product of the research work done in swine by the Minnesota Experiment Station as a cooperator in a Regional Swine Breeding Project. Dr. L. M. Winters, geneticist of the Division of Animal Husbandry, University Farm, St. Paul, has directed the regional coperative swine breeding work in Minnesota and through his direction two breeds of swine, the Minnesota No. 1 and the Minnesota No. 2 hogs have been developed. The swine breeding work at the Northwest Station has been under the direction of O. M. Kiser and H. D. Fausch of the Animal Husbandry Division.

Superintendent T. M. McCall presided at the formal dedication program which was held on the Northwest School campus. Dr. C. H. Bailey, dean and director of the Minnesota Experiment Station, made the dedicatory address and presented the new Minnesota No. 2 swine to the state and nation.

Easter Star Chapters Launch Fund Drive

Minnesota's Cancer Research fund and the Masonic Home at Savage will benefit from a special campaign to be launched this month by Order of the Eastern Star chapters throughout the state.

More than 47,000 members will be asked to make voluntary contributions to the twin project by Jan. 1. Money raised will be divided between the fund for refurnishing the state home and the Minnesota Division of the American Cancer Society.

Counties in which chapters are located will receive credit for the money given in the 1949 annual cancer fund raising campaign conducted in April each year, Mrs. L. M. Thorburn of Marshall, State Project chairman, announced.

LOTS OF TEARS TO BE SHED

'Prizetaker' onions grown on the Lester Berkner farm North of Sleepy Eye this summer were really prize takers. They weighed from one pound, 12 ounces to two pounds and measured up to 14½ inches in circumference. Fifty bushels were raised on one-tenth of an acre.

Churches Organize for New "CROP" Campaign

Nearly three-fourths of the counties of Minnesota will be organized for Minnesota's first state-wide crop appeal for food for overseas relief within the next ten days, Rev. Leonard Thompson, Glenwood, state chairman of the Christian Rural Overseas Program, reported at a meeting of the state committee for the appeal this week in Minneapolis. An early November start on the campaign was under consideration by the state committee made up of representatives of the three parent church organizations and the 16 farm organizations sponsoring the crop appeal.

Between 200 and 300 carloads of food from the farms of the state will be sought by the county committees for shipment to hungry people in 43 nations in Europe, Asia, and other areas.

Scattered Minnesota counties carried on Crop campaigns in 1947 but this is the first statewide effort. Decision of the Catholic church to back up Crop with the full cooperation of the Catholic Rural Life Conference this year is expected to strengthen the appeal.

AIRPORT NEWS

The past week has been windy and rough, but a lot of people have been flying anyway. Harold usually grounds the students during rough weather, but the regular pilots just take it in their stride.

Buster Burke flew his Taylorcraft on a trip to Oslo and Grand Forks on Tuesday.

Mr. S. D. Sheldon of Minneapolis flew from International Falls to Thief River Falls on Tuesday to transact business matters here. Mr. Sheldon flies a Navion.

Melvin Imsdahl took his flight test on Tuesday and was granted a private pilot's license by Harold Chandler.

H. O. Becklund and John O. Pearson from Detroit Lakes flew in on Wednesday to attend to business matters in Thief River Falls.

George Rockstad flew the Cub Cruiser on a chartered trip Wednesday, taking Mrs. Bornsheim from Holt to Fergus Falls to visit relatives.

S. L. Danielson and DeWayne Erickson, both from Lake Bronson, came down to take their flight tests on Wednesday, and were granted private pilot's licenses.

Gene Ellan flew his Taylorcraft to Wannaska on Thursday to get Bruce Hall and Henry Arneson. The three returned here the same day.

Otto Schroeder from East Grand Forks was a business caller at the airport Friday.

Kenny Sembrick and H. A. Baumann flew the Ercoupe to Park Rapids on Friday.

Rasmus Hage from Warren took his flight test and was granted a private pilot's license on Friday. Mr. Hage, who is sixty-seven years old, says he flies for relaxation.

The airport had a distinguished visitor Saturday in the person of Senator Joseph Ball, who arrived in a twin-engine Cessna piloted by Gerald Hinck of the Hinck Flying School in Minneapolis.

Dr. Bren and Floyd Thorpe from Detroit Lakes flew the doctor's Ercoupe here on Sunday.

Jim Anderson and Reuben Jullen from International Falls were also Sunday visitors. They were flying a Funk.

Jesse Skaaren and Harold Chandler flew the Cub Cruiser to Roseau Monday to get repair parts for Skaaren's combine.

Tom Jordan of the Jordan Construction Company flew a Stinson over from Hensel, N. D. on Monday.

LUXURY ON RAILS . . . This interior view is of the new Twentieth Century Limited, which is scheduled soon to be placed in service between Chicago and New York. Transportation certainly has gone a long way since the horse and buggy days.

Lutheran Welfare Seeks $1,700 For Pennington County

Members of Lutheran churches in Penningtton county have been asked to raise a total of $1,700 for Welfare Services this year. According to Robert J. Lund, Pennington county chairman, this is the actual cost of services to be given in this county. Last year churches of this county gave $745.

During the past two years Lutheran Welfare Society has received 9 children for care and placed 2 children for adoption in this county. Two unwed mothers have been given care and case work service at the Lutheran Welfare Society's Girls Home. From 1945 to 1947 the number of unwed mothers thruout the state coming to Lutheran Welfare for help nearly doubled. The number of children placed for adoption by Lutheran Welfare more than trebled during the same period.

According to the annual report of the Division of Welfare for the year ending June 30, 1947, only 43% of the 2,000 unwed mothers in Minnesota for that year found refuge and help in a licensed maternity home. The Division's report also shows that the number of children abandoned, deserted or rejected by parents doubled in Minnesota during the past year.

New Use for Animal Blood

Blood of slaughtered animals is being tested by University of California college of agriculture veterinarians for a surprising new use, to see if it will protect livestock from diseases. Formerly it was used only for feed and fertilizer.

State Agriculture Sound Financially Says Bank Secretary

Even though the costs of things the farmer uses are continuing upward, Minnesota agriculture is maintaining a sound financial position, according to Robert E. Pye, Secretary of the Minnesota Bankers Association.

Mr. Pye noted that Minesota farmers are being generally successful in avoiding the dangers of excessive debt during the current inflationary period.

Quoting from a national survey of bank lending made by the Agricultural Commission of the American Bankers Association, Mr. Pye reported that, during 1947, Minnesota banks loaned $171,067,000 to their farm customers. At the beginning of 1948 the total agricultural loans outstanding in Minesota banks aggregated $87,494,000, compared with approximately $77,000,000 at the beginning of the preceding year.

TAXI TO OREGON

Mr. and Mrs. V. L. Blanshan, and family, of Windom, went to Lebanon, Ore., early in September, via taxi, the driver being Ray Jurgens. So pleasant was the four-day trip that they plan to return by taxi in the spring.

Statewide Polio Fund Proposed In Emergency

Establishment of a statewide Polio Fund Committee, comprised of chapter officers of the National Foundation for Infantile Paralysis, to pool chapter funds in the present polio outbreak, was announced by Ben O. Nelson, National Foundation State Representative, who will act as executive secretary of the new group.

At the first meeting of the statewide Polio Fund Committee held in Minneapolis a request was made to National Headquarters of the National Foundation for Infantile Paralysis for an advance of $50,000 to meet the rising costs of care for polio cases in Minnesota.

The purpose of the committee is to pool any and all unobligated Minnesota Chapter funds in the present financial emergency to the end that Chapters in one part of the state may help their neighbors in another part of the state. The committee has been assured by National Headquarters of the National Foundation for Infantile Paralysis whatever additional funds are needed in the present financial emergency, over and above resources available in Chapters, will be provided by National Headquarters.

Pooling of funds is already functioning with outstanding success in North Carolina and Texas which are this year coping with record infantile paralysis epidemics. Other states in this area which have also established state pools include Iowa and Nebraska.

Dr. A. J. Chesley, Secretary and Executive Officer of the State Board of Health, stated that their records reported 688 cases of polio this year in 63 Minnesota Counties as compared with a total of 2881 cases in 1946 and 201 last year.

Highway Construction

One and one-half billion dollars will probably be spent in 1948 on highway construction, according to an estimate by the U. S. department of commerce. This compares with $1,154,000,000 in 1947. Mileage to be let to contract in 1948 is estimated at 24,500 and with work carried over from 1947 will total 40,609 miles.

Fourteen Religious Organizations Serve University Students

"No student at the University of Minnesota need lose his religious faith—indeed, a student's faith may well be strengthened instead through his many opportunities for religious worship and discussion." These words of counsel were offered to some 5,000 new students entering the University this fall by Dr. Henry E. Allen, University coordinator of students' religious activities, at a New Students' Week convocation Thursday.

Dr. Allen told the newcomers that 14 different religious organizations representing the major denominations provide special pastors, chaplains and counselors to serve University students. As a means of assisting these religious workers in carrying out their duties most effectively, the University maintains a coordinator of students' religious activities who is an assistant to the dean of students.

"At Minnesota, students may learn not only to grow in their own faith but to understand the ideals of those adhering to other beliefs. No preparation is more vital for democratic living than this respect for one's neighbor's conscience, this discovery that every creed has its stake in the preservation of freedom and that all have a common responsibility to safeguard it."

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Books to Read

"What can I do? He just doesn't like to read." How often have we heard these words uttered in desperation. Who's to blame? Much has been written about the school's part in teaching boys and girls to read and the contributions of libraries are well known, but the part the home plays in making book-lovers of children receives little attention.

Reading is a precious gift, the key to which we acquire when we are very young. The responsibility for its development in the early stages is in the home of the parents just as much as are the child's physical growth and well-being. Child psychologists agree that the first five or six years are the most impressionable in the child's life and it is during this time that lasting influences are built. A child's home is best equipped to open to him the pleasures to be found in books and the best able to keep pace with his growing interests and needs.

A child's first actual interest in a book is in the activity of handling it, opening and closing it, and turning the pages. But before long some particular object in the pictures captures his attention, perhaps because of the color. It is at this time that story telling and books can be combined—a comfortable arm chair, a colorful book, with mother telling the story and the child turning the pages of his very own book.

From the first picture book of familiar objects to books about children his own age and their everyday doings such as Peggy and Peter, and on to such animal stories as Cinder or Topsy, the child's library will grow in size and content, up and out, along with his growth and gradually widening horizons. A child who knows that interesting adventures lie between the covers of books is eager to learn to read and will apply himself industriously. Once he starts to learn to read by himself his interest will thrive if he is not discouraged at the outset. He needs praise for success, encouragement and help in the hard places and a calm acceptance of his ability.

McCOR.-DEERING SERVIS WHIRLWIND TERRACER & DITCHER
Special moldboard plow loosens and raises dirt to an auger-conveyer, making a cut 14 to 18 inches wide and from 6 to 12 inches deep. Three speed transmission makes possible throwing soil accurately a distance of 4 to 24 feet and to a height of 2 to 5 feet. The Whirlwind also pulverizes the soil, which permits planting without the usual expense of harrowing or discing.
McCORMICK-DEERING-DYRR DEEP TILLAGE CULTIVATOR
For aerating the soil; making deep, mellow seedbeds; breaking up plow sole or shale underlying the seedbed. Excellent for use in stony land or where large roots are encountered. Frequently used as a substitute for a plow; widely used with sweeps for weed killing and summer-fallow work.

Proposed Changes for State Finance in Our Constitution

As a public service this newspaper is printing the fifth article in a series of six devoted to the subject of constitutional revision in Minnesota. Each commentary is written by a prominent Minnesotan and is designed to acquaint the citizens of the state with important aspects of Minnesota's constitutional problem.

Mr. Lyle W. Hines, author of this article, was a member of the committee assigned to study the taxation and finance provisions of Minnesota's constitution.

Taxation and Finance Sections of the Constitution of Minnesota

by

Lyle W. Hines

Certified Public Accountant
Secretary and Treasurer of the Minnesota State Board of Accountancy

It has been said the power to tax is the power to destroy. It is equally true that a sound system of taxation and finance is the only foundation that will support sound government. An equitable dependable method of raising revenues and a systematic procedure for controlling expenditures is indispensable to any organization. This is especially so in the case of government.

The tax and finance sections of Minnesota's constitution were assigned to the committee on taxation and finance for study and recommendation. It should be reassuring to the legislature and the people of the state who will pass upon proposed constitutional revisions, to know that committee members worked industriously and objectively at their task. Illustrative of the committee's thoroughness is the mass of material considered and issued by it. The committee issued ten reports, considered 42 letters and 22 memorand and reports prepared for it, and heard testimony by 31 individuals who appeared.

It was originally decided that desirable features of a new constitution were: 1) brevity (2) elimination of obsolete material (3) elimination of statutory material and (4) introduction of sound principles of finance.

The committee's work fell into two areas. The first consisted of non-controversial or technical improvements which could be unanimously agreed to. The second category concerned dedicated funds and dedicated receipts. It was upon these related subjects that most of the appearances before the committee occurred and upon which both the members of the committee and the commission were divided.

Principal features of proposals made under the first portion of the committee's report are:

1. Power of the legislature to classify all kinds of property for the purpose of taxation is clarified.

2. Provisions on tax exemption have been strengthened expressly giving to the legislature the power to define the limits of exemption.

3. Legislative power to exempt certain classifications of personal property is defined.

4. Present constitutional section on state debt, inoperative due to the practice of issuing interest-bearing certificates of indebtedness instead of bonds, has been revised to require the state to place its debt service on a sound financial basis.

5. Limitation on general state indebtedness (present limit—$250,000) has been eliminated.

6. Requirement of a referendum on the repeal or amendment of the gross earnings tax on railroads has been eliminated.

7. Constitution provisions on state lands have been combined into a single paragraph eliminating statutory and obsolete material.

8. Constitutional provisions on land exchange has been enlarged to permit the exchange of public lands for tax forfeited lands.

9. Taxation of taconite mining and production facilities has been placed in a separate category insofar as changes in the method and rate of taxation are concerned.

An important problem before the committee concerned taxation of taconite or low-grade ore. Evidence presented convinced members that this is a problem which will affect the future of the state. It is generally known that our high-grade ores will soon be depleted. There are, however, vast resources of taconite from which iron ore can be obtained by processes requiring large capital investments. To secure these necessary sums, investors need to be assured of a fair and stable tax of the facilities and processes used. It was decided to retain the occupational tax on iron ore and provide that no change in the rates or method of taxation of taconite be permitted without a two-thirds vote of each house of the legislature. All witnesses favored taxation designed to encourage the costly processing of taconite for ore production believing that Minnesota would eventually benefit.

The committee was divided 5 to 2 on the matters of funds and dedicated receipts.

Our forebears believed the future of Minnesota's natural resources was uncertain. Income accruing from the disposal or depletion of iron ore, timber and public lands was to be held in perpetual trust for future generations. When our constitution was adopted this was logical. At that time the constitution framers did not know that if Minnesota's resources were developed and spent greater resources, then undreamed of, would emerge. For example, income taxes today produce annually about one-fourth of the total amount accumulated in trust funds since their inception. The people's earning power constitutes a resource far exceeding the values of our natural resources. A committee majority felt trust funds should be left intact, but no further increases be permitted. Trust fund income would be used as before. The minority disagreed and said trust funds should still be augmented by net proceeds from school, University, swamp, and internal improvement lands. The whole committee agreed that if the trust funds are permitted to increase as before, those monies should bear the cost of operation, i. e., those funds should receive only net revenues.

Based upon study and evidence presented before the committee, the majority of the committee thought all state revenues should be covered into the general revenue fund for appropriation by the legislature as needs required. This stemmed from the principle that democratic government requires vesting financial control in the legislature. The executive branch should be required to request appropriations from the legislature. The legislature then considers the comparative needs of each department of the executive branch and appropriates to each in the light of the total funds available.

Under dedicated revenues semi-autonomous groups are created which become difficult to control. This creates extravagance, inefficiency, and financial inequities in different departments. The minority of the committee was of the opinion that certain revenues fall naturally to the support of designated activities, and that they should continue to be dedicated to those purposes. The committee was unanimous, however, in the judgment that all dedicated revenues should be subject to biennial legislative appropriation.

IT'S ALL PLANE TO HIM NOW . . . Practically any airplane seems big to a small boy, but when you come up against a mammoth like this the total effect is almost overwhelming. Ten-year-old David Seavesiair of Washington, D. C., is completely nonplussed by the tremendous bulk of this new navy airliner, a Lockheed Constitution, recently christened and opened for public inspection.

COLLEGE PROGRAM OFFERED BY NAVY, HOLD EXAMS DEC. 11

Kalmer Ostby, Lincoln High Principal, has Details of Procedure

A nation-wide competitive examination for the Navy's College Training Program has been scheduled for December 11, 1948, and will be open to high school seniors or graduates within the age requirements. Successful candidates will be given a four-year college education at government expense and will be commissioned as officers of the navy or marine corps upon graduation.

The program is open to male citizens of the United States between the ages of 17 and 21, and quotas have been assigned to each state and territory on the basis of its high school population. Students selected by these competitive examinations will be assigned to the 52 Naval Reserve Officers' Training Corps units which are located in various universities and colleges in the United States.

Kalmer Ostby, principal of Lincoln High School, who is acting as the Navy's local civilian representative, will provide specific information about the program, including the time and place of the competitive examination, the method of making application, and the specific age and scholastic qualifications.

Earliest of Birds

Archaeornis, the earliest known bird, lived in the cycad forests of Bavaria about 135 millions of years ago. Today no one can determine the color of its plumage with certainty, for no living bird resembles this primitive ancestor. However, its reptile-like teeth and long-jointed tail suggest that it might well have been brightly colored like certain present day tropical lizards.

Dry Weather Brings Serious Forest Fire Threat to Minnesota

Minnesota is in the midst of another forest fire season. That could mean a direct loss in the state of only $11,900, or a loss of $28 million, as in 1918.

Forest fires are unpredictable. The Forest Industries Information Committee points out in a study released today that in 1933 the state had 3,474 fires; in 1919 there were only 151. In 1931 the area burned was 992,000 acres. The devasted area in 1941 was 4,500 acres. Since 1894 forest fires have taken a toll of 904 lives in Minnesota.

The dollar damage is figured on only the value of the timber destroyed. Other losses are far greater. They include the potential wages to loggers and mill workers; the value of paper, insulation material and other products which would have been made from the lost timber; the killing of the young growth, and the loss to the soil sustain reproduction growth. Then there are the indirect losses to hunting and fishing and to the tourist business.

In the last 33 years Minnesota has made relief payments of $2,464,000 to fire sufferers.

Forest fires are one of the nation's worst scourges, destroying enough timber to build 86,000 five-room houses a year. Over the years, loss by fire exceeds the cut.

To fight forest fires in Minnesota, the state legislature appropriates $50,000 a year. Some years that is more than enough. In a bad season the cost may be several times $50,000. The added money needed is taken from the estate's emergency fund. It is impossible when the legislature meets in the winter to know how much fire fighting will be necessary for the following two years.

Minnesota's fire problem is intensified by the large peat swamps in the state, half the estimated United States' peat area. Peat fires do not cause a large direct dollar damage but they are hard to extinguish and demand large man power attention, burn for years and are the cause of many of our forest fires. Even so, Weber has estimated that an expenditure of 5 cents an acre would give Minnesota adequate fire protection.

National forests are protected by federal rangers who co-ordinate their efforts with those of the state forestry division. State appropriations for forest fire protection are matched with federal money under the Clarke-McNary Act. There are not always enough federal funds to match state spending dollar for dollar, but increased appropriations in Minnesota would mean additional sharing of available United States money.

GROWING WITH YOUR CHILD
Institute of Child Welfare, University of Minnesota

Meal Time
Meal time should be fun. More children are so-called "feeding problems" because of the family attitude toward meal time than from any other cause. Some conformity to social standards of eating habits is, of course, desirable, but nagging and scolding a child about his table manners is not conducive to good eating habits. Table manners, as is the case with all forms of courteous behavior, are caught rather than taught.

If older members of the family come to the table with a cheerful air of expectancy and proceed in a courteous, matter of fact way to eat the meal, children will do likewise. In the same way, if daddy announces "I never did like carrots," chances are that Junior will not be inclined to eat carrots.

If mother is a fussy eater and picks at her food, leaving part of it on her plate, she need not be surprised if her small daughter does not clean up her plate and plays with her food rather than eating it. Correct use of knife and fork is socially desirable, but should not be over-stressed. If the child sees adults using these implements correctly, he will, when he is mature enough, do likewise.

A happy atmosphere is essential to the enjoyment of meal time and of food itself. Conversation at the table should be pleasant—not an airing of the day's grievances. It should be general enough to interest all members of the family and should, to some extent, include the children. This does not mean, of course, that the child should be allowed to talk and not eat, but he should have the opportunity, just like any other individual, to join sociably in to the pattern of meal time.

This and the generally acceptable eating habits he will learn from the example set before him day after day. Mere verbal instruction is apt to result in the setting of standards of perfection which are too advanced for the child to meet at his age and prove frustrating rather than helpful. Fun at the table as well as praise and encouragement for the child's progress will make meal time more enjoyable for everyone.

Silicone "Bouncing Putty"
Silicone "bouncing putty" is a member of the large family of silicones developed during World War II. In its crude state it resembles soft putty. It is now being used in golf balls to give them "distance."

GOODRIDGE
A very interesting and inspiring program was given in the Goodridge Lutheran church on Sunday evening by the Bethany Luther League as follows: Song by the audience; scripture reading and prayer by Rev. Bjorgan, song by a quartet consisting of Mmes. Robert Peterson, Jo Johnson, Art Knutson and Frank Hardisty, a reading by Mrs. Pete Hanson, a duet by Miss Martha Hammer and Mrs. Adrian Nelson, a recitation by Wayne Aubol, song by the quartet, remarks by Rev. Bjorgan, a duet by Miss Martha Hammer and Mrs. Adrian Nelson, solo by Miss Grace Dahlen accompanied by Marion Olson, closing song by the audience, closing prayer and benediction. Lunch was served to a large crowd.

Mr. and Mrs. Allen Fitzer of Mandan, N. D. were week-end guests of Mr. and Mrs. M. C. Lawson.

Mrs. Harry Liedberg and infant daughter returned home from a local hospital Tuesday.

Mr. and Mrs. Darel Josephson announce the arrival of a son Sept. 27.

Rev. and Mrs. Bjorgan left Tuesday for a two weeks vacation in central and southern Minnesota.

Mr. and Mrs. Ervin Holbrook and family arrived Saturday evening from Wayne, Mich. for a ten day visit with relatives and friends.

Temperance Board Names Committees
Announcement of three new committees was made this week by the ninth district Temperance Board, pursuant to action taken at a recent board meeting at the Evangelical Free church in Thief River Falls. Members of a legislative committee are Rev. Edward Berg, Warren, chairman, Carl Snustad of Hendrum, and L. A. Ulvin of Thief River Falls. A finance committee will be composed of Edwin Anderson of Hazel, chairman, Carl Johnson of Warren and C. E. Naplin of Red Lake Falls. Rev. G. Ronholm of Thief River Falls will head an education committee assisted by Mr. Solvst of Alvarado and Thora Skomedahl of Thief River Falls.

For A Dutch Taste
Dutch have a way with potato soup that makes it really something special. To this hearty favorite they add bits of bacon—one-inch pieces that have been panfried, but lightly. Occasionally, too, they saute diced green pepper with the bacon and add to the soup.

IT DID HAPPEN TO A DOG
Beans, a small puppy owned by the daughter of Bob Prondzinski, the grocer at Winona, went with his master a few days ago while Mr. Prondzinski picked up some supplies. Beans decided to do a little exploring and unwittingly found himself in a room where there was a cat and some small kittens. He was primptly chased by the cat, dived through a window onto a ledge, and fell twenty feet to the sidewalk—but unhurt.

SEASON OPENS OCTOBER 8 FOR DUCKS—GEESE

Shooting Will Start Friday of Next Week at Noon; Duck Limit 4

Minnesota's vast army of duck hunters will invade the sloughs of the state in quest of the elusive honker beginning at noon on Friday, October 8 in a season that runs through November 6.

The waterfowl opening will be the baptism of fire for a 1948 small game season in Minnesota that will offer hunters a partridge, ruffed grouse, sharptailed grouse, quail, gray squirrel and fox squirrel, raccoon, jack rabbit, cottontail rabbit and snowshoe hare. The rails and gallinules and sore opened Sept. 16, and the season on woodcock opens October 2.

Big game seekers will stand-by until October 16 when the statewide season on deer for Bow and Arrow only opens, and November 20, when specified areas will be open to the taking of deer by firearms or with bow and arrow.

The official small game regulations provide for duck shooting Oct. 8 through Nov. 6, one-half hour before sunrise to one hour before sunset except opening day which opens at noon. Bag limits are four daily and eight in possession. Daily bag limits on ducks (except the American and red-breasted mergansers) are four in aggregate of all kinds, including in such limit not more than one wood duck.

Geese may be taken Oct. 8 through Nov. 6, one-half hour before sunrise to one hour before sunset. Daily limit of four and possession of four. (May include two Canada geese, including Hutchins or cackling geese, or two white-fronted geese or one of each.)

A small area southeast of Baudette and east of the Red Lakes will be opened for sharptailed grouse from October 9 through October 17, from sunrise to sunset. Three is the daily and possession limit. For bow and arrow shooters there will be a special deer season from October 16 through October 31. Pheasants, Hungarian Partridges and ruffed grouse will be open in limited areas starting October 23.

SHOES TO SPARE EVERY SIZE AND SHAPE

New Ulm:—A contest sponsored by Harold's shoe store to collect old shoes for charitable purposes deluged manager Merle Gruber and his staff. Gruber was swamped with 7,000 pair and feared more before the day was over. Gruber parked a truck in front of his store and the old shoe load threatened to spill over the sides. There were shoes of every color, size and shape, and Gruber said the lot, if new would start anybody up in the shoe business.

Birthplace of Burns

One of the most popular attractions in Scotland is a thatched cottage on the outskirts of Ayr in Alloway. It is the birthplace of Robert Burns, famous Scot poet.

INDIA'S PRIDE—"C. R." . . . To the first Indian governor general, Chakravarti Rajagopalacha Rajagopalachari, goes much of India's adulation since the death of Gandhi. The governor general is more generally referred to as "C. R.," or "Rajaji" at most. During a tour of south India many women transferred necklaces from their necks to that of their loved "C. R." Such a scene is pictured here.

SMILEY

The Bethany Luther League will be entertained at the Walter Lendobeja home on Sunday afternoon, Oct. 3. Everybody welcome. Hostesses will be Mrs. Walter Lendobeja and Mrs. Norman Johnson.

Rope Guides Balloon

Guide rope of an old-fashioned balloon was used to regulate the height of the balloon in travel, according to the research department of the Columbian Rope company. The hanging rope weighed the balloon down until part of the rope dragged along the ground. Thus relieved of part of the rope's weight, the balloon would rise until the entire length of the rope was again suspendid in the air.

Soybeans Cut HCL

The food shortage can be eased and living costs cut down by eating soybeans instead of more expensive foods, says Archibald Shamel, University of California citrus experiment station scientist. He advocates them as a protein and bread substitute. Shamel, a retired official of the federal agricultural department, played a large part in introducing hybrid corn.

Tip for Cooks

When the pie or casserole dish runs over in the oven, simply throw a little salt on the mixture that boiled out onto the stove. This will prevent that unpleasant burned odor.

Hope for Heart Patients

A new lease on life for many victims of coronary thrombosis, one of the deadliest and most widespread diseases of the heart, is promised by dicumarol, a drug made from spoiled sweet clover.

Victory Ship Fleet

"Lawrence Victory" is the first of a fleet of reconverted Victory ships to be put into trans-Atlantic service for the return of World War II dead. They replace slower-going Liberty ships and reduce crossing time to an average of seven days. The Victory ships are so designed as to carry approximately 1,200 more caskets per ship than the Liberty ships.

Winter Accidents

Because of icy street conditions, 53 per cent more people are killed in auto accidents during the winter than during the summer. This is why: A car going only 20 miles an hour requires approximately 130 feet to stop on an icy street, as against 21 feet on dry concrete.

B Complex Vitamins

Among the diseases that have responded to treatment with B complex vitamins are beriberi and pellagra. Folic acid, the newest B vitamin is being tried for treatment of pernicious anemia.

From where I sit ... by Joe Marsh

Your Most Important Right

Now that the bandstand has been painted, and the park re-landscaped, we have about the nicest village green in the county.

And it's all because, at the last town election, folks got out and voted—85 per cent of them! That way, they passed the amendment calling for park improvements—over those opposing it.

Reminds you again how important the right to vote is in this country. And it's a right we can retain only by exercising it! . . . like all the other individual liberties—from freedom to enjoy a glass of beer or ale, to a woman's right to vote along with men.

Folks can thank *themselves* that on summer evenings they'll be able to listen to band concerts in a well-kept park . . . enjoying a bottle of beer or soda pop (whichever they prefer). Because from where I sit, that's a freedom they've *earned* by exercising a still more important freedom: Voting!

SEWER, WATER MAIN CONTRACT LET BY COUNCIL

Casper & Lyons Given Installation Contract on Low Bid of $31,990

Good news for residents of several new additions to the city is contained in the announcement that the city council at a meeting Tuesday evening awarded the contract for sewer and water main extensions to serve the areas.

The firm of Casper & Lyons, Grand Rapids, Minnesota, which during the past year has done much work of this kind in Thief River Falls, was given the contract on its low bid of $31,990.15. The bid covers only the labor of installing the mains, the material having previously been procured by the city.

Only other bidder was Nodland-Eby company, which offered to do the work for $35,397.10. Considering present conditions, the low bid was considered satisfactory, being within ten per cent of the preliminary estimates of Douglas Stewart, city engineer.

Projects covered by the contract include extensions on Kneale, Merriam and Tindolph avs. to serve the Merriam and Southern additions; on State av. S. to serve Rafteseth's addition; and a short extension on LaBree av. N. Work is scheduled to start next week. Before adjourning, the council also briefly discussed with City Clerk P. G. Pederson the 1948 tax levy to be made for city purposes. Final action is scheduled to be taken at the regular October session next Tuesday evening.

The board also voted to extend the county aid road system by adding two miles in Sanders and two miles in Highlanding. Delegations from Goodridge and Rocksbury township seeking road improvements were heard at the session.

HUMPHREY HITS AT JOE BALL IN TALK HERE ON TUESDAY

Minneapolis Opponent of Incumbent Senator Speaks from Sound Truck

In the course of a tour of Northwestern Minnesota communities, Hubert H. Humphrey, mayor of Minneapolis and DFL candidate for the U. S. senate in the November 2 election, spoke Tuesday noon from a sound-truck at the Hartz store corner in Thief River Falls.

Humphrey, who said he is opposed to the kind of free enterprise that is controlled in Wall Street, called attention to the achievements of the Democratic administrations since 1932, following which he launched into an attack on the record of the incumbent senator, Joseph H. Ball.

He criticized Ball's stand allegedly in opposition to the Marshall Plan and various other agencies beneficial to the farmer and the public at large.

H. O. Chommie introduced Humphrey to the gathering, and also presented Charles L. Halsted of Brainerd, DFL aspirant for governor, who spoke briefly.

Lions Club Membership Views Movie Relating to Fire Prevention Week

In conection with the current observances of Fire Prevention Week, motion pictures depicting the operation of a modern fire department were presented by Ted Bosaker, fire prevention engineer, at the Lions club luncheon meeting Wednesday noon in the Rex Cafe. LAST OF PAVING PROJECTS NOW IS COMPLETED

Paved Highways to Be Officially Opened to Traffic This Week-end

Local motorists heaved a collective sigh of relief this week following the completion of the last of the numerous street and highway improvement projects that had hampered traffic during the summer months.

K. V. Pearson, project engineer with the state highway department, stated today that only a small amount of cleanup work and filling and sodding remains, and that all highways where paving has been in progress are now in use and will be officially opened by Saturday.

Among the projects completed by the Woodrich Construction company under contract with the state highway department are the paving of the seven-mile section of Highway 32 from St. Hilaire to Thief River Falls; widening and paving Main av. from Fourth to Sixth st., and paving from Sixth to Ninth st.; and paving the East Third st. parkway from the Soo Line tracks east to a point beyond the city limits.

In addition, the state highway department applied a layer of bituminous material on East Eighth st., a part of Highway 1, and curbs and gutters were installed.

At the same time the city engaged the Jay W. Craig company to apply a new bituminous surface on the concrete paving on the streets in the business district, now nearly 30 years old. The Craig company also surfaced with bituminous material the new Pennington av. thru the old millyard.

COLLEGE HEAD IS SPEAKER MONDAY

Wesley College President Addresses Woman's Club

The Woman's Club held its first general meeting of the year in the Woman's club rooms on Monday evening, with Mrs. Willard Still presiding.

An interesting talk on "Family Relations" was given by Marcus Birrell, president of Wesley college. Mrs. Peterson sang two solos, a group of selections were given by the Music group, and the American Legion auxiliary trio sang several numbers.

Following the program, Mrs. Still presented the new president, Miss Katherine Barzen, with the gavel. New members were welcomed into the club at the meeting.

Refreshments were served, after which a social hour followed.

1ST KILLING FROST ARRIVES OCTOBER 1

Month of September Was Free from Frost

For the first time in many years this area enjoyed a frost-free month of September, the first killing frost arriving the morning of Friday, October 1, when the mercury dropped to 28 above zero, according to the KTRF thermometer. A low of 27 was reached Saturday, since when minimum readings have ranged from 36 to 48 above zero. High temperatures of 69 were recorded Sunday and Monday.

The only precipitation during the week was a trace recorded Wednesday. With fields and forests in a tinder-dry condition as a result of the long drouth, numerous peat and brush fires have developed in the area between Baudette and Red Lake, and also in Northeastern Minnesota.

The late arrival of the first killing frost was a boon to flax growers of this area, permitting late seeded crops to mature.

Front Page of This Issue Of Times Preserved for Century in Minneapolis

When the cornerstone of the new Star and Tribune building is laid Saturday, October 23, in Minneapolis, it will contain a special Century Vault, a time capsule to be opened in the year 2048. Gideon Seymour, executive editor, stated that the purpose of the vault is to preserve documents and other items which will give the people of 2048 a good picture of the life and culture of the Upper Midwest as it exists today. Among the items to be preserved in the vault on microfilm is a copy of this issue of the Thief River Falls Times.

DUANE TURNWALL OPENS LAW OFFICE HERE OCTOBER 11

U. M. Graduate Recently Associated in Practice with Warren Attorney

Duane W. Turnwall, native of Karlstad and graduate of the University of Minnesota law school in 1940, announced this week that he will open a law office in the Elks building in Thief River Falls next Monday, October 11. He will occupy the suite recently vacated by Dr. E. S. Amesbury.

Mr. Turnwall was associated in practice during the past year with Sletten C. Olson of Warren, following his completion of nearly six years of service with the U. S. Army, including two years with the military government, concluding in Korea.

After his graduation from law school, he was employed by a law firm in St. Paul, and later by a Minneapolis firm, where he specialized in tax laws.

LADIES GUESTS OF LIONS OCTOBER 13

Novel Program Will Be Given in Odd Fellows Hall

From "A Bridge Playing Papa" to "Money in Matrimony" runs the gaunt of laugh makers planned for Ladies' Night by the Lions Club, to be given Wednesday, Oct. 13, at the Odd Fellows hall starting with the serving of dinner at 6:30. Title of the program is "Love and Hisses", in which eleven fast moving events keep the laughter pot boiling. The program is built around the gayest of rivalries, Mr. versus Mrs., according to Karl Gerstner, program chairman. Master of Ceremonies will be a judge in his judicial robes. Here's one reason why. "Martyrs in Matrimony" includes a bill of complaint, in which wives and husbands will be supplied with skilled advocates and stubborn defendets. In one act the men will be presented with a big surprise by the ladies. In another the "hisses" will score a hit which promises to be as funny as it will be unexpected.

idegroom's Father fficiates at Wedding Saturday, October 2nd

[illegible]

ner, son of Rev. and Mrs. Thv. Myhrer of Newfolden, spoke their marriage vows at a simple double ring ceremony at the Myhrer home late Saturday afternoon. The groom's father officiated at the service in the presence of a few immediate relatives. The home was decorated with cut flowers.

For her marriage the bride chose an all wool, light blue, street length dress, with brown accessories. Her ensemble was complemented with a pearl necklace and she wore a shoulder corsage of pink roses and white stephanotis. She was attended by the groom's twin sister, Mrs. L. G. Hetland, wearing grey with black accessories, and her sister, Mrs. John Rollinger of Chicago, Ill., wearing green with brown accessories. They both wore corsages. L. G. Hetland, attended the groom, as best man.

Mrs. Hetland and Mrs. Myhrer were attired in dark colored dresses with matching accessories and corsages of red roses and white carnations.

Following the ceremony a reception for thirty guests was held at the L. G. Hetland home. The table at which the bridal couple was seated had a three tiered wedding cake topped by a miniature bride and groom, as a centerpiece. Lighted candelabra and large chrysanthemums also made the dining room festive for the occasion. Mrs. Rollinger had charge of the guest book, and Miss Patricia Hetland, niece of the bride, dressed in blue and wearing a corsage of red roses and white carnations, had charge of the gifts.

The bride is a graduate of Lincoln high school, and the Thief River Falls Normal Training [illegible] Prior to her [illegible] Greenhouses and Flower Shop in this city. The groom was graduated from Newfolden high school, and attended St. Olaf and Moorhead State teachers colleges. He is now employed by the local City Dairy.

Mr. and Mrs. Myhrer left on a wedding trip, and after October 16 will be at home in this city.

Nuptials Saturday for Fern Phyllis Hanson and Russell R. Williams

Baskets of white gladioli and lighted candelabra formed the background setting in Trinity Lutheran church Saturday evening when Miss Fern Phyllis Hanson, daughter of Mr. and Mrs. Edwin D. Hanson of rural Thief River Falls, became the bride of Russell R. Williams, son of Mrs. [illegible]llyn Williams of this city. Rev. C. S. Thompson officiated at the single ring ceremony.

Mrs. H. P. Harrison was at the organ playing the traditional wedding marches. Sidney Engelstad sang "The Lord's Prayer" before the ceremony.

The bride's father gave her in marriage. Her gown was fashioned of heavy bridal satin with a marquisette yoke, satin ruff around the shoulders, fitted bodice, button back, long sleeves tapering to a point at the wrist, and a sweeping train. The pick-up front revealed a ruffled hoop underskirt. Her fingertip veil was edged with imported lace and was caught by a tiara of tiny seed pearls. She wore a pearl necklace and earrings, gifts of the groom. She carried a shower bouquet of white roses and stephanotis, with a cascade of lace and satin.

Mrs. William J. Huber, Jr. attended her sister as matron of honor wearing an aqua gown. Junior bridesmaids were Carol Jean Beebe of Bemidji in powder blue an Dianne Molldrem of Minneapolis in yellow. Senior bridesmaids were Mrs. Robert Carlson, cousin of the bride, Mrs. Gerald Evenson, Miss Pauline Hanson, and Miss Louise Finstad of Moorhead, wearing gold, grey, green and fushia gowns, respectively. They all carried colonial nosegays of roses and pompons, and wore matching flowers in their hair.

Carol Ann Huber of Minneapolis, a niece of the bride, was flower girl. She was dressed in white and carried a miniature colonial nosegay of white roses. John Charles Beebe of Bemidji, dressed in white, carried the ring on a white satin heart shaped pillow trimmed in lace.

Orville Johnson, a friend of the groom, was best man. Ushers were Dennis Hanson, James Engelstad, Vernon Stenberg and Arthur Buringrud.

The bride's mother wore a black crepe dress with light blue accessories, and the groom's mother was attired in a two-piece aqua dress with black accessories. They both wore corsages of pink roses. Mrs. Clara Shern, grandmother of the groom, wore a gardenia corsage.

A reception for 250 guests was given in the church parlors, following the ceremony, at which time Mrs. Louisa Anderson and Mrs. Christian Engelstad poured. Mrs. Axel Engelstad and Mrs. Clarence Williams assisted. Mr. and Mrs. Kenneth Engelstad and Robert Carlson had charge of the gifts. A three tiered wedding cake topped by a miniature bride and groom and three wedding bells, and white gladioli and lighted candelabra centered the table at which the bridal party was seated. Mrs. Lars Engelstad and Miss Gina Gunderson served the wedding cake. During the reception Sidney Engelstad sang "I Love You Truly" and "Because."

The bride is a graduate of Lincoln high school, class of 1946, and the groom is also a graduate of Lincoln high school and is employed by the Soo line railway company of this city. They left on a wedding trip along North Shore Drive and will reside in this city after October 10. For traveling the bride chose a grey gabardine suit with maroon accessories. She also wore a corsage of yellow pernet roses.

Guests from a distance attending the wedding were Mr. and Mrs. Curtis Hanson of Osseo, Wisc.; Mr. and Mrs. Dorwin Junerburg of Augusta, Wisc.; Mr. and Mrs. Arnold Hanson, Duane and Phyllis of Warren; Mr. and Mrs. Lars Engelstad, Jean and Larry of Ashby; Sidney and Robert Engelstad, and Louise Finstad of Moorhead; Esther Gunderson, Wilma Borgie, and Mr. and Mrs. George Borgie of Fargo, N. Following the services, Mr. and Mrs. John Mattson, Linda and Mary Jill, Mr. and Mrs. E. Donovan Mattson, Diane and Patricia, Mrs. Florence Mattson, and Mr. and Mrs. Oscar Nelson, were present at a dinner held in the Terrace room of the Rex cafe in honor of the event.

Home Wedding Saturday for Dorothy Guderson and Carl G. Olson

The bride's parental home was the scene of a pretty wedding Saturday afternoon, Oct. 2, when Miss Dorothy Blanche Gunderson, daughter of Mr. and Mrs. Gunnie Gunderson, and Carl G. Olson, son of the late Mr. and Mrs. Ole Olson, all of rural Thief River Falls, exchanged their marriage vows, with the Reverend Halvor Lie officiating.

The Gunderson home was beautifully decorated with carnations and various autumn flowers. Mrs. George Droppo played the wedding march from Lohengrin as the bride entered on the arm of her father, who gave her in marriage.

The bride wore a pale blue gown with a three-quarter length veil which was held secure with a tiara of roses. She carried a white testament. She wore a shoulder corsage of carnations. Her jewelry consisted of a wrist watch, gift of the groom.

Miss Lilah Bendickson of Oklee, was maid of honor, wearing a gown of yellow, and Miss Anne Gunderson, sister of the bride, bridesmaid, wore a blue formal. They both wore corsages of carnations.

The groom was attended by the bride's brother, Roy Gunderson of Crookston, as best man, and Gilman Anderson of Trail.

Mrs. Gunderson, mother of the bride, wore a white dress trimmed with red roses in the front.

Approximately 250 guests were entertained by the bride's parents at a reception following the ceremony. The bridal table was centered with a four tiered wedding cake topped by a miniature bride and groom. Mrs. Gunderson poured, and Mrs. Roy Grovum and Mrs. Orlando Shervestad had charge of the gifts.

Prior to her marriage the bride was employed by Douglas Lodge cafe at Itasca State park, and the groom is employed by the Halleck Construction company of Crosby. Mr. and Mrs. Olson left on a wedding trip to the Black Hills in South Dakota, and after Oct. 20 will be at home in Milwaukee, Wisc.

Kratka and Smiley 4-H Clubs Entertain at Bridal Shower

The Kratka and Smiley 4-H clubs entertained at a bridal shower Saturday evening, which honored Miss Doloris Beiswenger, who will become the bride of Roger Mickelson next Sunday. A beautiful corsage was presented to Miss Beiswenger, after which a program of appropriate songs and stories followed. A rolling pin, autographed by the boys from both clubs, was cleverly presented to Mr. Mickelson. The girls from the clubs presented the bride-to-be with a file containing favorite recipes of each. The couples received a lovely gift from the clubs. Following these presentations the honor guest opened her many gifts, after which a delicious lunch was served to approximately 200 4-H'ers and friends.

Chemical Industry

Greatest expansion of the chemical industry is in the Southwest, with its rich natural chemical resources. Its oil, natural gas, salt and sulphur increasingly rival its dominant agriculture. The region produces 64 per cent of the nation's oil: as demand continues and exploitation of tideland deposits begins, industries based on oil expect still more expansion.

LOCAL JOB OFFICE URGES HIRING OF THE HANDICAPPED

Cites Contribution Made by Workers with Physical Impairments

The Thief River Falls office of the Minnesota State Employment Service announces that the week of October 3-9 is being observed as National Employ the Physically Handicapped Week. This is the fourth annual observance of NEPH Week, and is authorized by an Act of Congress.

With employment at an all-time high in the nation and in Minnesota, most handicapped persons are now employed. One of the main purposes of this year's observance is to keep employers and the general public aware of the tremendous contribution handicapped workers are making to commerce, industry, and business.

Special effort will be necessary in Minnesota during the coming year in attempting to place 2,000 persons with physical impairments who will be released from hospitals. In addition, each year in Minnesota, about 18,000 persons are disabled in highway accidents and about 5,000 are permanently disabled in industrial accidents.

It is essential that employment be based on ability to do the job. Recent Department of Labor surveys proved conclusively that handicapped workers, when properly placed, are as good or better than non-handicapped persons.

There are three physically handicapped persons currently registered for work at the Thief River Falls office.

Must Have Tea

Tea tasters in a London importing house work all day smelling, tasting and feeling samples of ground tea. At 4 p. m. they pause briefly—for their afternoon tea.

She is survived by four daughters, Mrs. Alfred Ojsorr, Mrs. C. T. Orest, Mrs. Milton Holland, and Miss Eunice Erickson; a son, Rev. Silas E. Erickson, six grandchildren, two brothers; and three sisters.

Minnesota Librarians to Meet in Minneapolis

Librarians from school, public and college libraries will meet in conference at the Curtis Hotel in Minneapolis on October 9, to, 11. On Youth Day, Saturday, Governor Youngdahl, Mayor Humphrey and Dean Schweickhard, state commissioner of education, will greet the librarians and set the stage for a talk on "Libraries and Youth Conservation" by A. Whittier Day, director of the Minnesota Youth Conservation Commission.

James Gray, Minnesota author and critic will be the banquet speaker, Saturday evening. His talk "I'll bring you a book" will be an account of the year's progress in literature.

Mrs. Hazel Halgrim, local Carnegie librarian, will attend the sessions.

Don't Leave the Leaves

Outer green leaves of vegetables are rich in food value and can be used in a number of ways. Shred the outer leaves of cabbage and lettuce to use in salads; or chop and cook them if they are tough. Cook the tender leaves of cauliflower and broccoli along with the rest of the vegetable. Add celery leaves, fresh or dried, to flavor soups, sauces and dressing. And young beet and turnip tops are tasty vegetables when fresh. Cook them; don't throw them out.

LEGION AUTOMOBILE AND STYLE SHOW TO OPEN HERE ON FRIDAY

INTERNATIONAL FALLS TO BE HOST TO MISS AMERICA

Hopkins Girl to Share in Forest Festival Set for October 15 and 16

Miss America, the Nation's No. 1 beauty, will be one of many attractions at the fourth annual Forest Festival in International Falls October 15-16.

Elaborate preparations are being made to entertain a record crowd of visitors from northern Minnesota and northwestern Ontario who are expected to witness the gala celebration program, Francis Hobbins, president of the Festival association, said.

Sharing the limelight with Beatrice Shopp, the Hopkins, Minn., lass who was catapulted to fame at Atlantic City, will be these celebration features:

Chopping and sawing contests for the championship of the International North Woods.

Football game between the Falls Broncos and the Grand Rapids Indians of the Big Eight conference.

Seven acts of free entertainment by a widely known troupe from St. Paul.

Judging of seven candidates competing for 1948-49 Festival Queen honors and coronation of the winner.

One of Three

Miami, Fla., is one of only three large cities in the United States with 1948 building permits exceeding those issued in 1946. The public administration clearing house reports that only Miami, Detroit and Cleveland topped the 1946 totals.

GIRL SCOUT NOTES

Leaders and council leaders who are interested in attending the Regional conference at Grand Forks, N. Dak., Oct. 11, 12, and 13, please call Mrs. C. W. Vorachek, commissioner.

Last Wednesday, Girl Scout troop 24, held its second meeting. We went down to Tourist park and played on the swings, sang songs, and told stories. At the close of our meeting we roasted marshmallows and wieners for our lunch.

Editorials.....

Are you satisfied with the tentative recommendations of the county school survey committee? If you are not then speak up now and let the members of the committee hear your objections. By the first of November they must submit a final report with recommendations that later will be acted upon by the voters. They are asking for expressions of opinion in order that their final recommendations may be in line as much as possible with local needs and local preferences. Speak up now and be heard.

Tomorrow noon brings the opening of another hunting season and for many that is the start of the best season of the year. For those hunters who remember way back when, this year's limit of four ducks isn't much to talk about—certainly a successful hunt isn't going to last very long. But it's better than no season at all, which could become a reality very soon if limits were not reduced. The demands for rigid controls are coming more and more from the sportmen themselves, who, through their organizations are backing a sensible program of propogation and protection. But even with good propogation and protection, it isn't likely that daily limits will ever get back to what they were as long as the number of hunters continues to increase.

One way to cut our country's terrific fire loss would be to stop all fire insurance. Without insurance we would take every possible precaution to guard against fires and because of our extra care we undoubtedly would reduce substantially the number of fires and the total damage. Because we have insurance protection we become careless, and because of our carelessness our insurance costs are high—much higher than they would be if we were careful. We are not going to stop insurance but let's be careful and save ourselves some bucks.

Detour signs will have been removed from city streets by the end of the week and that long-awaited day will have arrived when traffic can move along freely and without obstructions. It has been a long, dusty summer, but now that its over with we can forget the inconvenience and discomfort and settle down to the full enjoyment of the good results. More than once during the summer the question was raised as to whether street builders should have the right to inconvenience people. If there must be detours then why are not such detours given better maintenance and dust-proofed? Well maybe they should be, and no doubt they would be if the builders were required so to do in their contracts. The objectionable thing about such better service would be the increased cost. With our greater comfort we would have fewer good roads. It is sad that this should be true.

In a short talk here Tuesday morning Hubert Humphrey told us a lot of things about his opponent Joe Ball, and if what he said about him are true then Joe Ball not only should not be reelected but he should be committed to one of the institutions provided for the mentally incompetant. According to Mr. Humphrey his opponent is against all things that are good and for practically everything that is evil. Mr. Ball is against progress generally while he, Mr. Humphrey, on the other hand, is willing to give his all for the better things of life. Mr. Ball is extremely bad. Mr. Humphrey is extremely good. So we gathered from Mr. Humphrey's remarks. Well for our money Joe Ball isn't incompetent and he has just as much interest in the welfare of the people as any man in public life. Compared to Humphrey he is slow and plodding and not at all entertaining as a speaker, but he is factual and forthright and honest. In a democracy there are many Hubert Humphreys and sometimes too many, but there never are enough men like Joe Ball in government.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

The food that a child eats from birth up until the sixth year has a great deal to do with his well-being during these years as well as his future development. During this time the child is growing, and needs food to grow properly.

If new foods are introduced into the diet gradually, one at a time, the average child will accept the new foods without comment. But attempting to effect many changes all at once is quite confusing to a child and will result in refusals of the new foods.

A pediatrician or a county nurse are perhaps the best qualified persons in the actual content of diet for small children.

Usually the average child will eat heartily, and will select, over a period of time a diet which includes a god proportion of carbohydrates, proteins and fats as well as other food elements. No attempt should be made to include all food elements in each meal or even in each day's menu. This would result in overfeeding if carried out for very long. A sensible diet usually contains enough essential items to keep the normal child healthy and well.

The most important index of the food your child eats is its value in maintaining him at a constant rate of growth consistent with himself. Use your own child as a model for himself, and not the children next door or even his own brothers and sisters.

Given half a chance most children do an admirable job of feeding themselves so relax and turn the responsibility for eating over to the the children.

Frying Eggs

To fry eggs more perfectly cover the skillet closely while cooking the eggs.

"Craters of the Moon"

Water only two degrees above freezing is found among the lava wastes of Craters of the Moon national monument in Idaho even during the summer. Snakes are unknown here, because the terrain is too rough for their journeying. Craters of the Moon, covering 80 square miles of territory, is one of the nation's largest national monuments.

Don't take a chance with that corn picker. It is one of the most dangerous machines on the farm. Keep the power take-off covered and don't try to unclog the machine while it is running.

U. S. Eats More Pickles

Pickle consumption has hit an all-time peak. Last year's production of pickles fell only 15 per cent short of the year's pack of canned sweet corn. The acreage required for growing pickles today is exceeded in size by the acreage required for only three other vegetables—peas, corn and tomatoes.

Looking Backward

1928—TWENTY YEARS AGO

L. A. Rossman, Grand Rapids newspaper man, addressed the Commercial club.—Rev. Crawford Grays was appointed pastor of the Methodist-Presbyterian church here, succeeding Rev. H. C. Scholberg, transferred to Appleton.—Milton Larson left to attend a radio show in St. Paul. —The new F. W. Woolworth store will open in the Dudley block October 13, with C. M. Miller as manager.—Kern Olson won the city golf championship by defeating George Mostue in the final round.

1938—TEN YEARS AGO

N. J. Anderson, former register of deeds and one-time city clerk here, died at his home at the age of 76.—Dr. P. L. Vistaunet, resident of this city the past 36 years, and active in *musical circles*, succumbed at the age of 67. —M. C. Burns, pioneer resident, celebrated his 90th birthday with his son and daughters present for the occasion.—In Chicago this week to attend the first game of the Worlds Series were Philip Larson, F. E. Tunberg, Jack McKechnie and Garfield Benson.—Mrs. Hazel Halgrim, local Carnegie librarian, was named first vice president of the Minnesota library association at its annual convention in Minneapolis.—Arthur Hanson, local grocer, was named manager of the Red Owl Store, succeeding J. B. Olund.

KILL RATS, SAVE FEED

Rats consume and destroy millions of dollars worth of foodstuffs yearly! One rat alone, it is estimated, spoils the equivalent of 1 to 3 bushels of corn every year. So kill rats and save your feed! Use Dr. Salsbury's Rat Death, containing antu, in powder or prepared-bait forms.

In Memoriam

In memory of Andrew Thoreson, who passed away, October 3, 1939.
Nine years ago, dear Dad, you left us
To visit God's garden grand;
The time has been eternal,
But some day we will understand;
We are comforted to know, dear Dad,
That God needed a soul like you
To keep only the chosen few,
And as the days and years go by,
More beautiful His garden will grow.
Our hope is that we will meet you there,
And God, may He will it so.
Sadly missed by daughters and sons. 41p

Card of Thanks

I wish to take this means of thanking Gustafson and Son for the premium they paid on my baby beef at the annual 4-H auction. Also to the Civic and Commerce association, county agent, Frank Hobbs, and everyone who helped make the banquet and sale possible. Thank you, Clayton Hanson. 41p

Card of Thanks

We have greatly appreciated the many acts of kindness that were done for us during the death of our son and brother Carl Johnson. Especially Rev. J. O. Jacobsen and the ladies for the music and songs, also the pallbearers and to all who gave flowers, memorials and cards, and to our friends who served the lunch following the funeral.—Mrs. Pauline Johnson and family. 41p

Card of Thanks

We wish in this manner to express our appreciation to all those who assisted us at the time of the illness and death of our father, Ed Timm. We especially wish to thank Rev. John Stehr for his comforting words; Dr. J. Biedermann for his services; Mrs. Max Jensen and Elaine Bessler for their songs; the pallbearers and all who contributed flowers and memorials.—The Timm family. 41p

Insecticide Precaution

Insecticide users are warned to read the caution labels carefully. They should know just what they are using, and determine how, when and for what purpose it should be used. It is foolhardy to take a chance on ruining a valuable farm product.

Cold Weather Records

The country's record low, minus 66 degrees, dates back to February, 1933, at Yellowstone park. It compares with 81 below for the Canadian Yukon, and 94 below, claimed for eastern Siberia. Admiral Byrd, reporting 80 below on Antarctica, suggests that air above the south polar plateau probably cools to minus 100 degrees.

Grand Forks	3	0	102	7
E. Grand Forks	1	0	20	0
T. R. Falls	1	1	7	37
Crookston	1	1	20	31
Devils Lake	0	2	6	20
Grafton	0	2	0	61

Results of the week's games:
Devils Lake, 6, at Thief River Falls, 7.
Grafton, 0, at Grand Forks, 41.

Games on Friday:
Thief River Falls at Grafton.
East Grand Forks at Crookston.

Coach Ed Bohnoff's Grand Forks' team entrenched themselves firmly in first place in the North Valley conference standings on Friday night by swamping the Grafton Spoilers, 41 to 0, in a game played at Grand Forks. The win was the Maroons' third straight conference victory and with but two games remaining on the schedule, and against Devils Lake and East Grand Forks, it appears that Grand Forks will succeed the Prowlers as the conference football champions.

East Grand Forks, with one victory in conference play, will meet a well-fated Crookston Pirate eleven at Crookston on Friday afternoon. Last year's champions, the local Prowlers, will travel to Grafton for a game with the Spoilers.

Ronnie Thompson, Grand Forks' five-foot, five-inch and 145-pound right halfback added a pair of touchdowns to his individual scoring record in the Maroon's rout of Grafton on Friday night, and boosted his point total to 42. Runner-up to Thompson, and passing Crookston's Dave Pilkey, who wasn't in conference play during the week, is Bailey McCracken, the Grand Forks fullback. McCracken ran for a pair of touchdowns against Grafton to lift his total to 24 points. Dale Tolle, also of Grand Forks, has a big lead in the point-after-touchdown department, booting five placekicks against Grafton, which with the previous point, gives the Maroon a total of 6 points.

The Prowlers moved into the individual scoring column on Friday night when left end Harley Wagner tallied a touchdown and an extra point against Devils Lake.

The conference's individual scoring leaders:

	Td.	P.a.t.	Pts.
Thompson, Grand Forks	7	0	42
McCracken, Grand Forks	4	0	24

Prowlers Win 7-6 Over Devils Lake; Play Grafton Next

Quarterback Don Baken's six yard over-the-center jump pass was completed to left end Harley Wagner in the fourth period to tie the score at 6-all in the Prowlers Homecoming game against the Devils Lake Satans on Friday night; and when Al Williamson, back in place-kick formation, flipped a pass to Wagner out in the "flat" to the left, the locals tallied the extra point that gave coach Wayne Johnson's squad a 7 to 6 win over coach "Red" Huntley's team.

The victory brought the Prowlers conference record to one win and a loss, and this week the locals will have an opportunity to push their record above the .500 mark when they face the last-place Grafton Spoilers on Grafton's Chandler field on Friday evening.

After a scoreless first half, and which found Devils Lake recovering a pair of Prowler fumbles deep in the locals' territory in the first period to seriously threaten to score, the Satans, midway in the third quarter, pushed across a touchdown. Don Lee's punt, which was tagged down on the Prowlers' 5-yard line, put the locals at a disadvantage and Al Williamson's kick, from the end zone, carried out to the Prowlers' 38-yard marker.

Lee slashed off right tackle to the 22-yard line; Eddie Fortin lost a couple of yards at left end, but a pass, Don Swenson to Dick Samdahl, was completed on the 5-yard line. Fortin, on another try at left end, lost 2 yards; a pass was incomplete, on third down. Lee drove over right tackle to cross the east goal for a score. The kick for the extra point, and which proved to be the difference between a tie or a loss, was wide of the up-rights.

The Prowlers began their game-winning march early in the fourth period when "Pinky" Adolphson received a Devils Lake punt on the locals 39-yard line. Fullback Cal Bradley hit center for six yards; Jerry Furuseth failed to gain over left guard, but Bradley drove for three yards at center. With fourth down and a yard to go, Bradley punched to the Devils Lake 49-yard line for a first down.

After a pair of incomplete passes, Al Williamson, used sparingly because of an injured right knee, bowled through right tackle for four yards. A fourth down pass, Williamson to Harley Wagner was completed to the Satans' 32-yard line, and another first down. Cal Bradley failed to gain on a try at right end, but a pass, Williamson to Bradley, was completed to the Devils Lake 12-yard marker. Bradley made a nifty catch of the ball on the Devils Lake 20-yard line and eluded a pair of tacklers to carry the ball to the 12-yard stripe.

Williamson, from a pass formation, hit right tackle for 7 yards; a lateral pass play, from Don Green to Williamson, failed to "click", and lost a yard at right end. Then Don Baken, who played a fine all-round game, hit Wagner with a jump pass and the Prowlers had tallied the tying points. For the conversion point, Williamson, back in kick formation, took a direct pass from center Harold Baker and whipped a pass to Wagner in the end zone, giving the Prowlers and their Homecoming Queen Lilah Bendickson, a well-earned 7 to 6 win.

The summary:

Considerable Improvement

The football Prowlers showed improvement in their play Friday night when they defeated a fair Devils Lake team, 7 to 6, before a big Homecoming crowd. But the Prowlers also revealed that they need Al Williamson in their lineup to "spark" their offensive drives. Al, with a heavily bandaged right knee, wasn't expected to see much service with Devils Lake, the intention of coach Johnson being to insert Al into the game only for kicking purposes.

With Devils Lake scoring a third period touchdown and gaining a 6 to 0 advantage, it was necessary to send Al into the lineup, moving him into the backfield at left halfback and giving him the chore of calling signals. On the drive that the Prowlers made for the touchdown that tied the game, Al threw a pair of vital passes that gained first downs, made a couple of runs off tackle that picked up yards and then, after the locals had scored the touchdown, Williamson threw the pass to Wagner that gave the Prowlers their one-point win.

This week, coach Johnson has been running Williamson at left halfback, and it appears that Al will be given a thorough test at that spot in the Grafton game on Friday night.

The luckless Grafton team has lost the two conference games they have played this year by lop-sided scores, being beaten 20 to 0 by East Grand Forks, and 41 to 0 by Grand Forks. But tomorrow night's game may be different, for the Spoilers will be playing on their home field and before a home crowd. In Gene Burns, halfback, and lanky end Allen Thorstenson, the Spoilers have a fine forward pass combination, and with the Prowlers showing a weakness on pass defense, Grafton may surprise the confident blue-and-gold boys.

In the Prowlers competition with Grafton, which dates back to 1915, the locals have won ten games, lost eight, and tied two. Last year's game was a 26 to 12 victory for the Prowlers, but in 1946, in a game played at Grafton, the Spoilers scored a 14 to 7 win over Les Vigness' team. The most top-heavy score of the series was rolled up by Grafton in 1920 when they trounced the locals, 61 to 0. That was back in the days when Casey Finnegan was coaching up there and Grafton was one of the "powers" in North Dakota football.

Ducks

Hunters will be pulling out of town tomorrow morning and making ready to open the duck hunting season at noon. The Roseau and Greenbush bog area, Thief Lake, Mud Lake, and River Valley, will draw most of the hunters. River Valley, which has been a "hot spot" the past several years due to the flood conditions that have prevailed, won't be as attractive this year because of the lowered water level. There are ducks around there, especially around the Neptune bridge and up into the Red Lake reservation, but it will be a task to get them up.

The consensus appears to be that the Greenbush and Roseau bogs, and Thief lake will be the Mecca for the majority of the nimrods. And reports are that ducks have concentrated in those areas, and an indication that this is so is given by the fact that a number of the state's top-ranking sportsmen are to open the season up there.

Miscellany

Former Prowler football players are doing all right in collegiate competition. Herb Claffy, after being out of school last year, is back at North Dakota and playing left halfback for coach Glen Jarrett's Sioux, and doing okay.—Wes Hovie, one of the Prowlers finest all-round backs, is at Moorhead State Teachers College, and according to Don Nelson, assistant coach here several years ago and who was up here on a visit this week, Wes is playing a bang-up game at right halfback for M.S.T.C. Don said that Hovie is very effective on defense, and when he carries the ball on a reverse over the left side he picks up yardage every time.—Marvin "Ninsk" Carlson is over at Jamestown and the reports on his football activities are favorable, too. Ninsk had the misfortune of dislocating a shoulder a week ago, so he's on the crippled list. — Of course, *Billy Bye*, back on the 1942 Prowler football team, is continuing to star as a member of the University of Minnesota football team.

Wow!

The Western Oil team, bowling in the Tuesday night league, rolled a 1031 total against the Shell Oil team. Am Wysoski had a 199; Ed Karwand collected a 213; Ham Bergland had a 211; Jim Welton scored a 209; and Emil Dostal posted a 199. In that record-making game the Western Oil had but five blows, and gathered in 29 strikes.

Where Carthage Stood

When Carthage was destroyed by the Romans in 146 B. C., houses, people, animals, even vegetation were razed to the ground. Many years later the Romans built another city on the crumbling, scorched earth. But when the Roman empire in Africa declined, their city was wiped out leaving, to the present day, little standing above the desert sand, and only brackish pools where once the mighty Carthaginian fleet was harbored.

Famous Town Hall

One of the most striking buildings in the world is Louvain's town hall, now 500 years old. The present town hall is not Louvain's first one. The ancient Belgium city had already lived a long political and economic life before the erection of the graceful monument was begun. The Gothic architecture of the town hall is as imposing in its ensemble as it is fascinating in its details.

Cotton Aphid

Cotton aphid, also known as the cotton louse and the melon aphid, is found throughout the United States. It is a general feeder and, in addition to damaging cotton, is a pest of okra, melons, squash, cucumbers and other cucurbits. It is a small, soft-bodied, sucking insect, its color ranging from light yellow to dark green or almost black.

JACK HOUFEK WINS LOCAL CROW HUNT

Sportsmens Club Gives Prizes Tuesday Evening

At the October meeting of the Penington County Sportsmen club Tuesday evening, Jack Houfek of this city was awarded first prize in the club's recently completed crow hunt. Houfek turned in a total of 242 crows and 35 eggs.

Kenneth Olson of Route 1, city, won second prize with 56 crows, while Christ Mattison of Plummer was third with 41. An agregate of approximately 700 crows were shot during the contest.

In its business session, the club voted to supply a deer during the coming hunting season, to Ed. Shave, outdoor editor of the Minneapolis Star-Tribune, who will use it and other contributions to supply the annual game dinner for hospitalized veterans.

Clifford Bjorkman reported on a successful trapshooting season.

Roseau Wild Life Area Dedicated in Ceremanies Today

The Roseau River 36,000 acre wild life area will be dedicated with no lack of state officialdom on hand this afternoon, October 7th. Just as it is dedication of the area—the child of the Roseau Conservation Club and adopted by the Northwest Sportsmen's Association—so it will be inaugration day for the project. The first shovel of dirt will be turned over this morning.

The program is scheduled to begin at 10 o'clock at a point at the east end of the area, north of Badger. Al Christofferson of Thief River Falls will be master of ceremonies, and a transcription of the morning's events will be made for a later broadcast over KTRF.

A concert by the Roseau high school band under the direction of Donald Hinsverk, will open the program.

Governor Luther Youngdahl will be an honor guest and will deliver an address. The official dedicator will be Frank Blair, state director of game and fish. The first shovelful of earth will be turned over by H. B. M. Rognlie, president of the Roseau Conservation Club.

Following the noon luncheon, field trials will be held at the Roseau county fair grounds. Two Golden Retrievers, trained by F. G. Dudley, famous dog showman, will be seen at work. Local dogs will also be entered.

On the fair grounds is also the trap equipment of the local conservation club. A shoot will be held there all day. Cal Jackson, representing the Remington Arms Company, will supervise the shoot.

In the evening, beginning at 6 o'clock, the Third Annual Hunters' Supper will be served. This event will take place at the Roseau Municipal Auditorium.

At the program following, Kern Olson of Thief River Falls, will be president of ceremonies. He is president of the Northwest Association of Conservation clubs.

JAILS ARE NOT ALWAYS PRISONS

Clara City.—A young couple carrying light luggage asked the village marshall if there's a jail in town. Acknowledgeing that there is, he confessed on further questioning, that, because of exceptionally good local behavior, it is seldom occupied. "Good," purred the little lady, "perhaps you'd let us sleep there tonight." He guessed it would be all right, and agreed to waken them early to continue their hitchhiking. When the chief asked later if they were married the officer parried that they had the whole jail, with separate rooms if they wished.

FIRE PREVENTION WEEK BEING NOTED

Aim Is to Cut Present 750 Million Annual Loss

With national fire losses approaching a staggering $750,000,000 annually, the nation has begun its observance of National Fire Prevention Week, October 3 through 9, with fire safety campaigns in thousands of communities to save lives, jobs, and property.

Ten thousand lives are lost in fires each year, and most of them could be saved by community action, President Truman has pointed out in his official Fire Prevention Week proclamation.

Fire destruction in the United States during the 12 months ending June 30, 1948 was $709,839,000 or nearly 8½ times as great as the devastation caused in any one year by the Luftwaffe's blitz on Britain. It was nearly twice as much as the fire loss for the entire year of 1943, and 12 per cent greater than the losses for the previous 12 months ending June 30, 1947.

The National Board of Fire Underwriters emphasizes that these statistics reflect only the direct property losses from fires. Indirect losses are probably three times as great, the National Board estimates. These include fire fighting costs, hospital bills, loss of jobs and production, business failures, reduction in community buying power, and reductions in savings.

MORE OR LESS ENTANGLING ALLIANCES

At Chatfield many years ago Martin Hanson married a young lady named Hanson; recently their son John Hanson married a young lady named Hanson—neither of the ladies related to each other or to their husbands. In 1910 identical twins enrolled at Macalester College, St. Paul; this fall the identical twin daughters of one of the former pair, Sally and Hally Watkins of Carlton, enrolled in Macalester. Mrs. F. C. Hudson of Coquille, Ore., and Mrs. C. J. Anderson of Spalding, Sask., met at the home of a third sister near International Falls for the first reunion in 45 years. Sacred Heart News publishes another of Minnesota's famous five-generation pictures: From Great-great-grandfather Edwin Carlson, 90, to great-great-grandson Richard Moore, three months.

America Legion Posts to Help Get out Voters

Posts of the American Legion throughout Minnesota have been asked to go on alert in the effort to "get out the vote" for the election in November.

C. A. (Chic) Zwiener, Minnesota commander, has appealed to the more than 600 posts to complete down-to-the-roots organizations with all speed, first, to insure that all eligible to vote register before October 11 and, secondly, to do all in their power to see that the polls are crowded on election day.

"Freedom is everybody's business," Zweiner said, "and one of the initial tasks to insure that our freedom is maintained is to vote."

DEDICATING STATE FUNDS IS OPPOSED

Taxpayers Group Urges Change in Constitution

The proposed change in the Minnesota state constitution to abolish dedicated funds received heavy support from the Minnesota Taxpayers association in hearings of the Constitutional Commission at the state capitol in St. Paul.

The custom of dedicated funds has grown over the years until the legislature has lost virtual control over the financial affairs of the state, speakers declared.

The state auditor in his quarterly report revised that only one of the state funds was not dedicated. That was the general revenue fund.

It was also shown that by 1935 the legislature had control over only 28 per cent of the state's annual current revenue receipts; by 1945, legislative control had dwindled to 24 per cent; while today only 17.86 per cent of state revenue is allocated biennially by the state legislature.

Result is that today the legislature cannot distribute funds on the basis of actual state needs, but rather on the basis of custom.

This is one reason why, no matter how many extra millions of revenue come into the state treasury, the legislature finds it difficult to meet present needs and to balance the budget, it was pointed out.

M & O Paper Company To Halt River Pollution Thru New Installation

Actions speak louder than words. So thought the leading conservationists of the Northwestern Association of Conservation Clubs at their annual convention held recently at Thief River Falls, Minnesota. For at this annual affair, they unanimously commended the Minnesota and Ontario Paper Company for its actions to eliminate pollution of Rainy River.

With two pulp and paper mills situated opposite each other on Rainy River, one at International Falls, Minnesota and the other at Fort Frances, Ontario, Mando was faced with the natural problem of waste disposal and stream pollution. Consequently, in planning its $12,000,000 modernization program, now nearing completion, the company set aside over $500,000 to install waste recovery and disposal equipment as an essential part of this extensive program of modernization and improvement of existing facilities.

It was the result of the start and the current progress of this installation, to be completed this fall, that these federated conservation organizations passed a resolution praising the company in its efforts to practically eliminate entirely the discharge of bark and wood fiber from the mills into the river.

Enrollment in Minnesota's 4-H clubs has reached an all-time high of 50,563 members.

From where I sit ... by Joe Marsh

Get The Truth!

Called on my good friend "Cappy" Miller, who edits the County Bee, the other day. And hanging up on the wall of Cappy's office is this slogan for his paper:

"Remember there are two sides to every question. Get both sides. Be truthful."

A good slogan ... not just for a newspaper—for people, too. Because there'll always be two sides to every question: the side of those who vote one way, and those who vote another—the side of those who enjoy a temperate beverage like beer or ale, and of those who swear by nothing but cider.

And from where I sit, once you've got both sides—and faced them truthfully, you realize that these differences of opinion are a precious part of what we call Democracy—the right of the individual to vote as he believes, to speak his mind, to choose his own beverage of moderation, whether beer or cider.

Rainfall — 150 Inches Per Year!

Most of western Ecuador, including the Pacific coastal plain and the lower slopes of the Andes, has the vegetation of wet tropical forests. This forest type, also known as evergreen seasonal forest, is slightly less humid than the rain forest northward in western Colombia. Though rainfall in this region is high, from about 80 to more than 150 inches annually, there is a long dry season from June to December, when fog compensates in part for lack of rain.

Cooking temperature for meat should be kept low at all times, except when the meat is being browned, according to Isabel Noble, professor of home economics.

NEWFOLDEN

Lucille Hetland and Helmer Myhrer Wed Here Saturday

The home of Rev. and Mrs. Thv. Myhrer was the scene of a pretty wedding on Saturday evening, October 2 at 6:30 p. m. when Miss Lucille Ruby Hetland, daughter of Mr. and Mrs. Abraham Hetland, of Thief River Falls, was united in marriage to Helmer A. Myhrer, son of Rev. and Mrs. Thv. Myhrer, of Newfolden. Before a gathering of near relatives and friends the double ring ceremony was read by the groom's father.

The bride was attired in a light blue wool jersey dress and wore a corsage of pink roses and stephanotis. Mrs. Lue Hetland, of Thief River Falls, the groom's sister, was bridesmaid. She wore a grey wool dress with a corsage of yellow roses and mums. Little Patricia Hetland, niece of both the bride and groom, was flower girl. Mr. Lue Hetland, brother of the bride, was best man.

Following the ceremony the bridal party motored to Thief River Falls, where a buffet supper was served to about 30 guests at the home of Mr. and Mrs. Lue Hetland. Mrs. Hetland was assisted in serving by Mrs. John Rollinger, of Chicago.

The young couple left that evening on a wedding trip into Northern Minnesota and upon their return will make their home in Thief River Falls.

The bride is a graduate of Thief River Falls High School and Teacher's Training Department. She is well known in Newfolden, where she at one time was teacher in school district No. 140. She is now employed at Mostue's Flower Shop in Thief River Falls.

The groom was raised in Newfolden, graduated from our high school and later attended St. Olaf's college and the Moorhead State Teacher's college. He spent several years in service with the U. S. Army during World War II and at one time was stationed with the U. S. ski troops in Norway. Since his discharge from the Army he has been employed with the City Dairy in Thief River Falls.

Their many friends in this community wish this popular and respected young couple the very best of everything in their married life.

John and Emil Dyrud, Olaf Green and Melvin Ihle spent the week-end fishing in Lake of the Woods and Rainy River. They report fishing the poorest that they have ever seen it.

WALLACE TALKS AT MOORHEAD OCT. 10

Presidency Aspirant Speaks in Armory Sunday

Henry A. Wallace, Progressive Party candidate for President, has chosen Minnesota as the state in which he will make his principal bid for farmer votes. Wallace is scheduled to make the principal Agricultural address of his campaign in Moorhead Sunday afternoon, October 10. On the following day he will again deal with farm problems in an address at Benson, Minnesota.

Wallace's speech at Moorheau will be made before a rally of supporters in the Moorhead Armory Sunday afternoon at 1:30 p. m. With him on the program will be Oscar A. Johnson of Crookston, the DFL candidate for Congress in the Ninth District, and Orville E. Olson, Wallace's Minnesota campaign manager. Michael Loring, stage and screen singing star, will lead the rally in songs.

On Sunday evening, October 10, Wallace will speak in the Minneapolis Armory.

ANCIENT AUTOS INVADE THE STATE

Mrs. Reaka G. Hyronimus occasionally drives the 200 miles from Lennox, S. Dak., to Appleton, Minn., to visit relatives; which isn't so remarkable except that Mrs. Hyronimus is 75 years old and her model T Ford is 24 years old. Nearly twice as old is the 1902 "motor buggy" driven into the state from York, Pa., by J. J. Ruth, who finances his travels by selling postcard pictures of his high-wheeler.

SLUGGER . . . Favored finalist in the women's national amateur golf championship at Pebble Beach, Calif., was Helen Sigel of Philadelphia. She was in semifinals of the event three times in the past five tournaments.

IF THE KEY FITS, JUST TAKE THE CAR

The Alexandria Drum and Bugle Corps was going to Osakis to help dedicate new flood lights in the ball park. The manager of the corps was drumming up transportation. An onlooker tossed the keys of his 1947 Packard, motioned in the general direction of its parking place, and went on about his work. Soon after the exodus of the musicians a Florida tourist reported the theft of a 1948 Packard. It came back at 9 o'clock.

LEGION UNIT MAPS BONUS CAMPAIGN

Seeking Adoption of Amendment Number Four

Spearheaded by the Minnesota Veterans Committee for the bonus amendment which is composed of members of the American Legion in Minnesota, the campaign for passage of Amendment Four on the November ballot which enable the state legislature to vote funds for adjusted compensation for World War II Veterans is going into high gear.

Chairman of the group is King of Long Prairie. Others on the committee include Arthur M. Nelson, Bemidji, secretary; Howard K. Ulveness, Faribault, treasurer; Lyle Mayer, Rochester, and Jay P. O'Conner, St. Paul.

The Legion as an organization is enjoined by the corrupt practice act from contributing funds toward the campaign but the idea of setting up a committee of Legionnaires independent of the organization to spearhead the campaign was approved at the state convention at Faribault a year ago.

The initial aim, King said, is to insure that as many voters as possible are registered by October 11. The committee is aiming principally at getting all of the World War II vets in the state on the election rolls. The next job will be to acquaint them with the facts concerning the amendment and then, finally, get them to polls.

Veterans especially should remember, he said, that if they go to the polls and do not vote on the amendment they, in effect, vote against it. To pass, the measure must secure a majority of all of the votes cast.

Masterpieces of Art From Europe Shown in Minneapolis Nov. 2-17

"We welcome the citizens of Minnesota to the November showing of 96 Berlin masterpieces," said Russell Plimpton, director of the Minneapolis Art Institute, today.

Already delegations from all over Minnesota have made plans to see the paintings, valued at 50 million dollars by art critics.

This is the only opportunity people of the Northwest will have to view these masterpieces before their return to Germany. The Twin Cities are one of the 12 places in the country where they will be on display.

Discovered in a German salt mine by American GIs in 1945, these pictures represent the most important single group of old masters ever shown in the United States.

Arriving at the Great Northern Station on Oct. 29, the pictures will go on display from Nov. 2 through Nov. 17. Under close Army watch, they will be hung in the Central, East, and West painting galleries on the top floor of the Institute.

The Institute also plans to display 6 of its own originals by the same painters. Guards will patrol inside the protecting ropes at all times.

The collection incudes original works of Rembrandt, Botticelli, Watteau, Titian, Frans Hals, Duerer, Rubens, Corregio, Celasquez, and Hobbema.

Clean plowing is one of the "must" steps if the corn borer is to be kept under control in Minnesota.

AIRPORT NEWS

The student fliers are keeping their fingers crossed, hoping for a few weeks of nice flying weather. Meanwhile they're working like beavers to get in their solo hours and cross-country flights.

Robert Omdahl flew to Warren Tuesday in a new Luscombe which he purchased in Texas and flew up here a few days before.

August Olson from Wannaska with his Taylorcraft, accompanied by John Gilbertson from Roseau, stopped here Tuesday on their way home from Grand Forks.

Charles Evenson from Hibbing flying a Waco, stopped here Wednesday to visit with his father, Oscar Evenson of Thief River Falls. He had flown from Hibbing to Grand Forks to deliver repair parts to the Coons Construction Company there.

Harold Chandler flew the Cub Cruiser on a chartered trip Wednesday, taking Chris Rinkel to Minneapolis. Harold returned on Thursday.

Bob Sandall flew his Luscombe to Sturgeon Lake on Wednesday to visit with his parents. He returned Friday. And on Saturday he took his flight test and was granted a private pilot's license.

Robert Griffin and John Williams from Baudette stopped here Thursday on a dual cross-country flight in a Cub.

Sheldon Dahlgren from Clarion, Ia. and Jan Fredrickson from Viking, flying an Aeronca Chief, were airport visitors on Thursday.

Two local students made their solo cross country flights last week. Mrs. H. A. Baumann flew the Ercoupe to Roseau and Lake Bronson on Friday; and Jesse Skaaren flew the same course in the Cub on Sunday.

Dan Soltis from Warren made his first solo flight on Friday, and on Sunday soloed in his brand new Cessna.

A new student who has signed up for private flight instruction is Helge Larson from Plummer.

Father Cloutier from Oslo took his flight test Saturday and was granted a private pilot's license by Harold Chandler.

Gene Ellan flew his Taylor craft to Grand Forks, Oslo and Warren on Sunday.

Among Sunday visitors at the airport were Howard Hakonen and Boyd McNulty fom Coleraine flying an Aeronca Sedan; and J. C. Dodds and Art Murray from Baudette with a Luscombe Silvaire.

Drive for Overseas Food Relief Set for November

The 1948 CROP appeal in Minnesota will begin November 7 and continue for two weeks, the state committee for the Christian Rural Overseas Program decided this week.

It is hoped that the appeal will bring enough gifts of farm products from the farms of this state to send a Minnesota train rolling on its way to the coast by Thanksgiving Day as a symbol of the thanks of Minnesotans for a bountiful harvest.

Sponsored by the Church World Service, made up of 21 Protestant denominations; Catholic Rural Life Conference; and Lutheran World Relief, the appeal will bring in contributions of food which will be distributed overseas through the licensed church relief agencies of those three groups and others.

CROP is being reorganized on a county basis in Minnesota with county chairmen appointing township chairmen and town committees to carry out the November appeal.

22 PEDESTRIANS KILLED IN MONTH

Total of 56 in State Die in Auto Accidents

Twenty-two pedestrians were killed in motor vehicle traffic accidents in Minnesota in September, according to reports compiled by the state highway department. Ten of the pedestrians killed were elderly persons and eight were children.

The pedestrian record in September was the worst in any summer month in a half dozen years. Pedestrian accidents are usually numerous in the winter months with long hours of darkness and relatively few in summer when days are longer.

To avoid accidents, pedestrians are urged to remember the primary rule of "look left, look right, before crossing." Motorists likewise are urged to be constantly alert for pedestrians, particularly in the evening hours.

Aside from the pedestrian deaths the September record was better than a year ago. Deaths from motor vehicle traffic accidents of all kinds were 56, according to preliminary reports, or 17 less than in September last year. Total for the year is now 396, compared to 423 at the same date last year.

Penney's Wooden Bridges

Covered wooden bridges still abound in Pennsylvania, and most of them are still in use. A year ago there were 242 on state roads alone. Many more are on rural byways. Built when such projects were considered quite an engineering feat, the old wooden spans have outlived a generation of iron and steel bridges.

Immanuel Kant

Immanuel Kant (1724-1804) was one of the greatest of modern philosophers. Born into a pietist family, he was educated at the university of Konigsberg, and is said to have been unable to continue for a degree because of his poverty. He was 57 when he published his greatest and most fundamental work, the Critique of Pure Reason.

REINER

Services in the Re. [illegible] church on Sunday afternoon, Oct. 17 at 2:30 o'clock. After the services the ladies aid will be entertained by Mrs. E. Sigerud, Mrs. John Hermanson and Mrs. Otto Sigerud at the E. Sigerud home. Everyone is cordially invited.

Richard Miller celebrated his 10th birthday on Saturday evening, Oct. 2. He had three birthday cakes and received several gifts. Guests were Mr. and Mrs. John Miller and Mr. and Mrs. Arnold Hovet and family.

Mr. and Mrs. Ray Wells purchased a new truck recently. They visited at the E. Sjulestad home on Sunday.

Rev. Sigurd Berg and Mr. and Mrs. Arnold Hovet and children were Sunday dinner guests at the John Miller home.

Norman Miller and Jimmie Wells visited school one day last week and enjoyed it very much. But these little fellows are only five so will have to wait another year before they start.

Sunday guests at the Walter Sorter home were Mrs. Brenna and Mr. and Mrs. Lloyd Tanner and family of Middle River.

John Hoppe of Thief River Falls, and Mr. and Mrs. Walter Sorter were Sunday visitors at the E. Sigerud home.

Friends are sorry to hear that Archie Vraa is a patient at a Thief River Falls hospital again, but hope he may soon be able to come home.

Mr. and Mrs. Otto Sigerud and son Virgil and Mrs. E. Sigerud and son Virgil and Mrs. E. Sigerud were Sunday evening visitors at the Clam Berg home.

A week ago Monday Mr. and Mrs. Samuel Campbell Jr. were remarried at the Rev. O. O. Bjorgans parsonage in Goodridge. Their attendants were Miss Delores Campbell and Ole Sunsdahl. A lunch was served afterwards to the newlyweds also Mr. and Mrs. Ole Sunsdahl. Mrs. Samuel Campbell Jr. is a war bride and just recently returned to this country.

Eldonna Sunsdahl of Highlanding spent a week visiting at the home of her cousins Harley and Carol Sunsdahl.

Selmer Ericksons and Magna Carlson were Sunday dinner guests at the Herbert Vraa home.

RANK INSUBORDINATION . . . Ninety high school seniors from 48 states attended the third annual American Legion forum to study government operation in Washington. During the course of their tour they visited the Pentagon building to see the army setup, and Chief of Staff Omar Bradley himself sat up for them. Billy Ray Clark of Jonesboro, Ark., named "secretary of the army" by the forum, even got a salute from the general.

POLITICAL ROUNDUP
By Arthur Naftalin

With the general election only three weeks from next Tuesday, interest has begun to quicken in the Presidential and Senatorial contests. But the level of excitement originally forecast has not yet been reached.

Both President Truman and Governor Dewey have projected plans for a swing through the state. Dewey is scheduled to be in Minneapolis a week from this Friday, October 15. He will also make seven rear platform appearances, including stops at Albert Lea, Owatonna, Waseca, Mankato, New Ulm, St. Peter and Shakopee.

The Democratic national committee has announced that Truman will follow Dewey, but the date for his Minnesota appearance has not been revealed as of this writing.

Interest in the Truman-Dewey contest has picked up since the recent opinion polls indicated that Minnesota is a doubtful state. The Gallup poll showed Truman ahead with 47 per cent to Dewey's 42 per cent. Henry Wallace was shown as having only four per cent, with seven per cent undecided.

An earlier Minnesota Poll, taken by The Minneapolis Tribune, showed Dewey with 40 per cent, Truman with 39 per cent, with the remainder undecided.

Nationally, however the polls show Dewey a clear favorite. The chief of the Elmer Roper Poll announced that Dewey was so far ahead that he was discontinuing further public announcements about the poll results, unless there was a noteworthy reversal in trend.

It is in the contest between the Republican incumbent, Senator Joseph H. Ball, and his Democratic-Farmer-Labor opponent, Mayor Hubert H. Humphrey, that interest seems to be the greatest.

Experts are still puzzling the meaning of the primary vote. Ball received 260,000 votes in the GOP primary; Humphrey polled 204,000 in the DFL column. This would, at first glance, give Ball a margin of 65,000 votes. But the Humphrey supporters are quick to point out that Ball's two primary opponents, both of whom were virtually unknown and both of whom made almost no campaign, polled a total of 69,000 votes.

The Humphrey people claim that most of this 60,000-vote will go to their candidate. In addition, they point out that there was another 35,000 ballots cast in the King-Youngdahl contest in the GOP Senatorial primary.

Humphrey's supporters hold that many thousands of voters went into the GOP primary to vote for either King or Youngdahl who are sure-fire Humphrey votes in the General Election.

Whatever the meaning of the primary, the results brought new hope to Ball's followers. Newspapermen report that the confidence of Ball and his supporters took a strong upward turn. They are certain that, whatever the present trend, by election time Ball will be leading the field.

Minnesota Democrats are hoping that 1948 as a Presidential year will yield the same heavy vote that came out in 1944. They think that a heavy vote in Minneapolis and St. Paul will elect their candidates in the Third and Fourth Congressional districts.

In 1944, William Gallagher's victory in the Third District was a national sensation. There had been virtually no campaign for Gallagher, so hopelessly did his candidacy appear. But the unusually large vote gave him a fairly substantial margin over the GOP incumbent, Richard P. Gale.

Similarly, in the Fourth district, the victory of Frank Starkey was attributed to the large Roosevelt vote in St. Paul. So the DFL in '48, hoping to repeat the experience of '44, is concentrating on getting out the vote in the Twin Cities.

The City of Minneapolis was embroiled again this week in another red-hot fight over raising money for the support of its schools. Up for a vote was a new charter amendment that would permit an increase in the property tax that would give the schools enough money to meet its pressing immediate needs. Support of the measure was bi-partisan. It was endorsed by both Mayor Humphrey and Govednor Youngdahl.

Surface Drain YOUR FIELDS Quickly at Low Cost with an

EVERSMAN AUTOMATIC
LAND LEVELER and DIRT MOVER

The EVERSMAN is a 3 purpose machine. It moves dirt. It planes and levels the surface. It pulverizes and packs the soil, forming a fine seed bed. Moves fast using your own tractor.

Now easy to drain comparatively flat fields where low areas gather water. This fall, while your fields are dry, simply determine fall of land. Using the Eversman as a dirt mover go out to a point about on a grade with area where water stands. Move dirt back into low place to fill. Long blade mounted on exclusive Eversman crank axle makes possible wide, shallow, perfectly controlled cuts and smoothly leveled, well packed fills so that field surfaces drain readily. Water spreads out evenly over the surface of the land. No ditches to hinder farming or to start erosion.

Proposed AMENDMENTS to the CONSTITUTION of MINNESOTA

J. A. A. BURNQUIST
Attorney General
State Capitol
St Paul 1, Minn.

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your request asking me to furnish you with a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 639.

This chapter of the 1947 laws proposes an amendment to Article IX, Section 5, of the Constitution of Minnesota. This section of the Constitution authorizes the state to levy an excise tax upon any substance, material, fluid, force or other means or instrumentality, or the business of dealing in, selling or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of this state. As the Constitution now reads, it provides that two-thirds of the proceeds of such tax shall be placed in the state trunk highway fund provided for in Section 2 of Article XVI of the State Constitution, and one-third thereof in the state road and bridge fund. The purpose of the proposed amendment is to change these provisions for the distribution of the proceeds of such tax so as to provide that one-half of the proceeds of such tax shall be placed in the state trunk highway fund and one-half thereof shall be placed in the state road and bridge fund.

The effect of the proposed amendment is to reduce the proportion of the proceeds of such tax which shall be placed in the state trunk highway fund from two-thirds to one-half and increase the proportion thereof which shall be placed in the state road and bridge fund from one-third to one-half.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 640.

Laws of Minnesota for 1947, Chapter 640, proposes an amendment to Article XIV, Section 1, of the Constitution of Minnesota. The Constitution now provides that:

> "Whenever a majority of both houses of the legislature shall deem it necessary to alter or amend this Constitution, they may propose such alterations or amendments, which proposed amendments shall be published with the laws which have been passed at the same session, and said amendments shall be submitted to the people for their approval or rejection at any general election, and if it shall appear, in a manner to be provided by law, that a majority of all the electors voting at said election shall have voted for and ratified such alterations or amendments, the same shall be valid to all intents and purposes as a part of this Constitution. If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

The purpose of the amendment proposed by said Laws 1947, Chapter 640, is to eliminate from Article XIV, Section 1, of the State Constitution as it now reads the following words, to-wit:

> "If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

Article XIV, Section 1, of the State Constitution, as now worded, requires that if two or more proposed amendments are submitted at the same election they shall be so submitted that the voters may vote for or against each separately. The purpose of the proposed amendment is to eliminate that requirement. The effect of its adoption would be to make it possible for the legislature to submit two or more proposed alterations or amendments to the State Constitution at the same time in such form that a voter thereon shall be required to vote for or against all of them as a group and not on each separately.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws 1947, Chapter 641.

Laws 1947, Chapter 641, proposes an amendment to the Constitution of Minnesota, Article XIV, Section 2.

Said Article XIV, Section 2, now reads as follows:

> "Whenever two-thirds of the members elected to each branch of the legislature shall think it necessary to call a convention to revise this Constitution, they shall recommend to the electors to vote at the next general election for members of the legislature, for or against a convention; and if a majority of all the electors voting at said election shall have voted for a convention, the legislature shall, at their next session, provide by law for calling the same. The convention shall consist of as many members as the House of Representatives, who shall be chosen in the same manner, and shall meet within three months after their election for the purpose aforesaid."

If the amendment is adopted, said Article XIV, Section 2, would read as follows:

> "Two-thirds of the members elected to each branch of the legislature may provide by law for calling a convention to revise this Constitution. The convention shall consist of as many members as the House of Representatives, who shall be chosen in the same manner and shall meet within three months after their election for the purpose aforesaid."

Under the present provisions of the Constitution, the calling of a convention to revise it requires that the legislature, by a vote of two thirds of the members of each House, shall submit to the voters of the state at the next general election the question as to whether such convention shall be called by the legislature at its next session.

The purpose of the proposed amendment is to eliminate the requirement of a vote on the question by the voters of the state and to authorize, without such vote, two thirds of the members of each House to provide by law for calling such a convention.

The effect of the proposed amendment to Article XIV, Section 2, of the State Constitution, is to transfer the power to call a convention to revise the State Constitution from the electors expressing their will by a majority of all the electors voting at said election to two thirds of the members elected to each branch of the legislature.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement of the purpose and effect of Laws 1947, Chapter 642.

This law proposes an amendment to the Constitution of Minnesota by adding thereto a new article to be known as Article XX of the Constitution. The proposed amendment to be known as Article XX would read as follows:

> "Section 1. The state may at any time pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946; may levy taxes and appropriate monies for such purpose; and if and whenever authorized, and in such amounts and on such terms as may be fixed by the Legislature, may expend monies, may contract debts, may issue and negotiate bonds or certificates of indebtedness, or both, and may pledge the public credit, to provide money therefor. The provisions of section 5 of Article 9 of the Constitution shall not apply to the provisions of this section, and the purposes for which the credit of the state may be given or loaned as herein provided are declared to be public purposes.
>
> "Sec. 2. Repealing inconsistent provisions. Any and all provisions of the Constitution of the State of Minnesota inconsistent with the provisions of this article are hereby repealed, so far, but only so far, as the same prohibit or limit the power of the Legislature to enact laws authorizing or permitting the doing of the things hereinbefore authorized."

The purpose of the proposed amendment to the State Constitution which would be known as Article XX thereof is to empower the state at any time to pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946. It will also empower the state to levy taxes and appropriate for such purpose, and, in such amounts and on such terms as may be fixed by the legislature, to expend monies, contract debts, issue and negotiate bonds or certificates of indebtedness, or both, and to pledge the public credit, to provide money for such adjusted compensation. The proposed amendment will expressly provide that the provisions of Article IX, Section 5, of the State Constitution shall not apply to the provisions of the proposed Article XX and that the purposes for which the credit may be given or loaned thereunder are declared to be public purposes.

The effect of the proposed amendment will be to empower the legislature to enact the legislation necessary to provide for the payment of an adjusted compensation to persons who have served in the Armed Forces of the United States during the period therein designated, to levy taxes and appropriate monies for such purpose, to contract debts, issue and negotiate bonds or certificates of indebtedness and pledge the public credit, to provide money therefor.

Further, the proposed amendment would remove the restrictions, if any, in Article IX, Section 5, of the Constitution, relating to the expenditure of public money and the contracting of public debts for the purposes stated, and would declare that the purposes for which the credit of the state may be given or loaned in pursuance of the amendment are public purposes.

The proposed amendment would also repeal any provisions of the Constitution of Minnesota inconsistent with the provisions of the amendment.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

SOME DOGGONE FUNNY GOINGS ON

When Emil Muege left the old family car with a Stillwater dealer and drove away a sparkling new auto, he didn't bargain on losing a dog in the deal; but Butch, who'd been so attached to the old bus that he'd hardly let service men near it, ignores the new car and spends most of his time in the used car lot. Some sort of attachment brought a black cocker to the Charles Tildens in Grand Rapids when they bought a used car—he stayed right with it. Tippy, another traveling dog, finally reached his master in Littlefork three weeks late, very gaunt, but very happy. Shipped from California he escaped twice from his crate, once for a two week spree in Omaha, again for a week of wandering before found at his destination.

Burmese New Year

Each April the people of Burma hold their New Year celebration. It is ushered in with a traditional water festival call "Tagoo." The main idea during "Tagoo" is to celebrate the New Year's arrival by dousing everyone with water, and you're the man no one loves if you don't get doused yourself. Pots, cups, other utensils, bamboo squirt guns and syringes are used to spread the liquid cheer. This is the year 1310 in Burma.

Farm Income

Of the 200 billion dollar national income, farmers receive about 18 billion. And the average farm income in 1947 was $900 compared to $1,400 for non-farm people, according to reports from department of agriculture and department of commerce.

SMILEY

Bridal Shower

Deloris Belswenger and Roger Mickelson are going to be married Sunday. To give them a splendid send off, the Kratka 4-H club of which Roger is a member and the Smiley 4-H club of which Deloris is a member joined forces Saturday evening at the Smiley Hall and had a dandy shower for them. The Hall was filled to capacity with gift bearers and well wishers. A time there was! The popular young couple were seated at a table loaded with gifts with a back drop of green and white streamers, gaily criss crossed in an attractive pattern. A corsage made deftly by Mrs. Ted Lendobeja was pinned on Miss Belswenger. A short program arranged by Mrs. Adam Lendobeja, consisted of community singing led by Mrs. Rudolph Hanson; a humorous reading by Mrs. Norton Nelson; a short story by Jim McCrum; a Norwegian song "Kjorevand og Kjore Ved" by Mrs. Walter Lendobeja; a rolling pin completely covered with autographs by all the boys of the Kratka and Smiley 4-H clubs was presented to Roger by Oscar Breiland; a recipe box full of pet recipes by all the 4-H girls or both clubs was presented to Delores by Joan Johnson who also presented the couple with a wool blanket from both clubs. The oodles of gifts were then opened by the pair after which they both responded with heartfelt thanks and appreciation. A delicious lunch was served to that huge gang.

Mr. and and Mrs. S. S. Nelson accompanied by their daughter Miss Marian Nelson of Seattle, Wash. motored to Fargo last Saturday where Miss Nelson boarded a Northwest Airline plane for Seattle after a short visit here with her folks.

Birthday Party

Mrs. Regina Johnson had a birthday Tuesday. Her two daughters, Mrs. Dave Christianson and Mrs. Orton Olson entertained a group of women in her honor at the Christensen home Tuesday afternoon. A social time was spent on the lawn and after Mrs. Johnson opened her lovely gifts, the hostesses served a very dandy lunch including a swell birthday cake of course. Those there to make the day a memorable one were Mrs. Gina Voldness, Mrs. Peter Stenberg, Mrs. O. N. Olson, Mrs. Nels Severson, Mrs. John Jacobson, Mrs. Martin Troland, Mrs. Orlando Bishop, Mrs. Charles Krause, Mrs. S. S. Nelson, Mrs. Walter Lendobeja, Mrs. Mark Olson, Mrs. Laurence Ecklund, Mrs. Jim McCrum, Misses Bernice Severson and Clara Olson.

Mr. and Mrs. Harvey Thune and three tots were Sunday visitors at the Herman Stroberg home in Rocksbury.

House Warming

A group of the local citizenry journeyed to Archie and Lillians farm in Rocksbury to which they moved this spring and gave them a warming up to their new venture Saturday evening. A pleasant evening was spent and a super fine feast was partaken. To the honored guests a purse of money was presented by Mrs. Mark Olson in behalf of Mr. and Mrs. Gust Hallberg, Mr. and Mrs. Robert Kraemer, Mr. and Mrs. Carl E. Olson, Mrs. Joe Virsl and Marsha, Mr. and Mrs. Lyzum Cota and children, Mr. and Mrs. Andrew Kisch and family, Mr. and Mrs. Mark Olson, Miss Clara Olson, Mr. and Mrs. Charles Jones and daughters, Mr. and Mrs. Thomas Fixter and Patty, Mr. and Mrs. Bill Grundhaus and sons, Mr. and Mrs. Jim McCrum and family.

A picnic dinner was enjoyed in the Red Lake Falls park last Sunday by Mr. and Mrs. Orton Olson and Byron of Long Beach, Calif. Mr. and Mrs. S. E. Hunt of Oswego, Oregon, Mr. and Mrs. Dave Christensen and daughters, Mr. and Mrs. Clarence Williams and Bobby and Don LaSalle of Thief River Falls.

Word has been received by the L. O. Stenseth family on the arrival of another grandchild to them. Their son-in-law and daughter (Edith) Mr. and Mrs. Charles Hinman of North Platte, Neb. were blessed with a third son, Sept. 25. He will be named Karl.

Luther League

The large crowd at the Walter Lendobeja home Sunday afternoon was very much in evidence. It was a perfect day. A fine program was rendered when the following numbers were presented. Mrs. Louie Larson played "Whispering Hope on her accordion, Marne and Mary Beth Hanson sang a song; Gloria Johnson gave a reading; a vocal trio, Marlys, Lila and Lois Hanson sang; a duet by Mrs. Robert Peterson and Lorraine; a reading "His Kindly Hands" by Sharon

Sanders; a song was sung by Stanley Olson; Mrs. Ted Lendobeja read "A Mother's Prayer".

"What's Cookin'?"

The regular meeting of the Smiley 4-H club meets this Friday evening at the Hall. Members are requested to be prepared to give a two minute talk on their favorite project for this year. What you have liked and what you have accomplished since the beginning of your project. The program will be arranged by Shirley Matzke, Dennis Nelson and Marlys Hanson. The recreation will be taken care of by Vern Bolstad and Jerome Wiener. Lunch will be served by Mrs. Henry Bolstad.

Hylland Braddock Wedding

A pretty wedding ceremony was performed by the Rev. M. O. Ensberg at Our Saviors Lutheran church Spokane, Wash. at eight o'clock, Friday evening, Sept. 10th, when Audrey Hylland, daughter of Mr. and Mrs. Elmer S. Hylland of Grygla, Minn. and E. John Braddock, son of Mr. and Mrs. Ralph Braddock of Newport, Wash. were united in marriage with the double ring ceremony.

The church was beautifully decorated with palm and tall white baskets of white and pink gladiolus and lighted tapers in tall candelbra.

Mrs. Rev. M. O. Ensberg played a prelude of nuptial music and Mr. Anfin Nevdahl, a member of the church choir sang "Because", "Crown With Thy Benediction" and "O Perfect Love".

The bride was given in marriage by her father and wore a white satin gown with long train and finger tip veil. Her only jewelry was a single strand of pearls, a gift of the groom, and carried a white Bible also a gift of the groom, centered with an orchid and cascade of stephanotis.

Mrs. Harold Rusch, matron of honor wore a blue marquisette formal and Mrs. Gilman Hylland, aunt of the bride was bridesmaid and wore a pink marquisette formal. Both carried colonial bouquets. Mr. Robert Braddock brother of the groom was best man while Leon A. Hall was head usher with Alden Hylland, brother of the bride and Erwin Schell as ushers. Miss Lauree Gaskell gowned in blue was flower girl and carried a basket of rose petals. Misses Alice Steen gowned in blue formal and Mary Ensberg in pink formal and both wearing corsages of gladioli and roses were candle lighters.

The brides mother wore a taupe gray dress and the groom's mother wore black. Both wore corsages of pink rose buds.

Following the wedding a reception was held in the church parlors attended by more than 150 guests from Newport and Spokane. During the reception Rev. and Mrs. M. O. Ensberg sang a duet "O Happy Home."

A four tiered wedding cake decorated in pink and white topped with a miniature bride and groom which according to custom was initially cut by the bride and groom. Mrs. J. W. Powell, sister of the groom poured; Miss Esther Steen served fruit punch and Mrs. Robert Braddock sister-in-law of the groom served the wedding cake. Miss Elaine Ytseeide and Mrs. Kenneth Silsby were in charge of the gifts. Miss Mary Ensberg had charge of the guest book.

The bride who has been bookkeeper for the National Biscuit Co. for the past four years is a graduate of Oak Grove Seminary, Fargo, N. D. The groom a Newport High School graduate has also been employed for the past year as office manager by the National Biscuit Co.

For her going away attire, the bride chose a cherry red suit with gray accessories. Following a week's honeymoon, the couple will be at home at 731 W. York, Spokane, Wash. A. S. Hylland motored to Spokane for the wedding.

Wild Animal Wounds

Infection invariably follows wounds inflicted by wild animals, since their teeth and claws are contaminated with various types of bacteria. Gangrene and cellulitis (inflammation of the cell tissues) are two common, and frequently fatal, results of such wounds.

Men Will Wear Furs

Fur designers predict the well-dressed man of the future will wear (1) sport shirts of leopard skin and calfskin jackets that cost about $200 each; (2) fur coats tailored of mink, Persian lamb, seal and other skins.

Record Enrollment at N. W. School for Opening Last Week

An opening record of 413 students in attendance was made at the Northwest School of Agriculture at Crookston when classes started on Tuesday, September 28. With some thirty-three students held out for potato and sugar beet harvest, the total enrollment for the term, according to T. M. McCall, Superintendent, should exceed 445 students.

The dormitories at the school have been unable to take care of the large number of students seeking enrollment. Classes in all four years of school work each number ninety-eight members or more, with the second year class having a record enrollment of 118. The enrollment figures show that 278 boys are in actual attendance and 135 girls.

The students at the school have come from the fourteen northwestern Minnesota counties with a number of students from the North Dakota counties bounding the Red River.

School activities for the first week of school included the organization of the school classes, the Boy's Pow Wow and the Girl's Frolic, and the general reception to all of the students on Saturday evening, October 2. Members of the English staff and instructors in the music department provided an entertainment program on Sunday evening, October 3. Football and cross-country will be the major extra-curricular athletic sports for the fall term followed by basketball, swimming and wrestling for the winter quarter.

NEWSPAPERS JOIN IN MECHANICAL CONFERENCE HERE

Dunwoody Institute Staff Holds Session in City Last Saturday

Forty newspaper men representing nearly twenty publications in Northwestern Minnesota participated Saturday in a mechanical conference in Thief River Falls, sponsored by the Minnesota Editorial association and Dunwoody Institute, Minneapolis.

Present to conduct the meeting were Ralph Keller, secretary of the editorial association, and Fred Landon, in charge of the printing department at Dunwoody.

V. G. Eck and L. I. Porter, both of Dunwoody, respectively led morning and afternoon sessions in the Legion room in the Auditorium dealing with linotype and presswork problems.

Those in attendance participated in a luncheon served at noon in the Rex Cafe.

J. DuChamp Appointed Local Employment Agent for Plummer Community

J. DuChamp, Plummer merchant, will serve as a representative of the Minnesota state employment service in that community. As such he will be a key figure in that area for the recruitment of farm help, and other workers in demand.

Mr. DuChamp is one of a large number of employment representatives that are being appointed to build up a closely knit network of contacts so that farmers, and other employers, in all parts of the states agricultural area will have a handy place where they can go to get help.

Mr. DuChamp was appointed by Mr. Christgau, director of the division of employment and security, on recommendation of R. S. Eldevik, manager of the local office at Thief River Falls, under whose jurisdiction he will perform his duties.

Employers in Plummer and vicinity who would like assistance in locating farm and other workers should contact DuChamp; skilled and unskilled workers who are looking for local or out-of-area work are invited to check job opportunities with him.

Unlighted Farm Rigs Serious Autumn Hazard, Says State Department

The annual epidemic of collisions of motor vehicles and unlighted farm machines on rural roads has started, according to accident reports reaching the the state highway department. Some of the accidents reported have been serious.

Each fall, as days grow shorter, the number of accidents involving tractors, corn pickers and other farm implements increases. October is usually the the worst month. Accidents of this type can be avoided, says a highway bulletin, if both motorists and operators of farm equipment take proper precautions.

The state traffic requires that any horse drawn vehicle or other vehicle not having regulation motor vehicle lights, be equipped with a white light in front and a red light in the rear, each visible at least 500 feet. Adequate reflectors, white in front and red in rear, may be used in place of lights.

Motorists are urged to be alert when driving on rural highways in the early evening hours when farmers are coming home from the fields. Controlling speed so that the car or truck can be stopped in the space clearly illuminated by the headlights is always a good rule.

COUNTY TO SAVE UNDER NEW PUBLIC ASSISTANCE ACT

Pennington County Will Save about $7,000 Per Year under New Setup

Legislation passed by the 80th Congress covering the public assistance phases of the social security program became effective this week. The resulting savings at the county and state levels of government have already been clearly demonstrated.

These new amendments are most welcome to all welfare boards in the state, coming at a time when most boards were begining to have financial problems due to the increasing cost of living. The effect of the new laws is to shift more of the financial burden from the county and state to the federal level, or from real estate taxes to federal taxes. Last month, $15,769.32 was paid out in Pennington county to recipients of old-age assistance and aid to dependent children, said John X. Lynskey, executive secretary of the welfare board. The county and state shares were $8,041.86. This month a similar payroll required a county and state participation of $6,541.50 or $1,500.00 less.

The amount saved by Pennington county will approximate $7,000.00 a year and the annual state contribution will be $15,000.00 less. For the state as a whole, the annual savings will approach a million dollars.

Proportionate savings will be in the aid to the blind program, whose funds are paid entirely at the state level although administered locally.

Oklee Girl Named Queen Candidate at Concordia

Miss Bernadine Nesland, daughter of Mr. and Mrs. Ole Nesland of Oklee, has been named one of the candidates for Homecoming Queen of Concordia College. The queen will reign over Concordia's fifty-seventh annual homecoming to be held October 15, 16 and 17. Miss Nesland is a senior at Concordia.

Northwest School Sets 1948 Homecoming Event for Saturday, Oct. 30

Homecoming at the Northwest School of Agriculture at Crookston originally set for October 16, has been changed to Saturday, October 30. The change in dates was made to bring the agricultural school conference championship football game to Crookston. The Northwest Aggies will meet the Aggie team from the West Central School of Agriculture at Morris for the conference title at Homecoming. The game will be called at 2:00 P. M.

Extensive preparations are being made for the Homecoming Day festivities at the school which start on Friday evening, October 29, and continue thru the Homecoming dance and party on Saturday, October 30.

Prizes will be awarded dormitories at the school for the best decorations.

Amazing power of new instrument for deafened reawakens "lost" hearing safely, comfortably!

NOW BEING SHOWN AT FREE HEARING CLINIC!
Oct. 13th. Wed., 11 a. m. to 6 p. m.
Brumund Hotel, T. R. Falls.

N. E. Samuelson will demonstrate this remarkable new hearing development Wednesday, Oct. 13th.
If you have a hearing problem, bring it to him. Free examination.
Batteries for all makes of Hearing Aids

- Now you may hear with a clarity never dreamed of—and at distances never thought possible!
- Now you may hear safely, comfortably! The tremendous power of this new development meets the highest official standards ever set up!
- Now you may hear economically! Enjoy more power at less cost. New engineering brings power up, battery drain down!
- Now you may hear confidentially! This new instrument — so light, so small — is inconspicuous and pocket-able — hardly larger than a cigarette case!

THERE IS NO COST OR OBLIGATION

Training Christian Leaders—

To every walk of life, rural America has contributed more than its proportion of leaders. An increasing number of these are being developed from the nearly 3,500 Sunday Schools operated by the American Sunday School Union.

To properly train such future leaders, the A.S.S.U. has recently instituted a new auxiliary enterprise—the Young People's Summer Bible Conference.

From a single Conference, the work has grown rapidly in interest and enthusiasm, until a year ago, when we sponsored 35 of them. They were scattered over 21 states. The enrollment was 2180. There were nearly 500 decisions for Christ; and many splendid young people definitely consecrated their lives to active Christian service.

To-day, when the forces of evil, in city and country alike, seem to prevail, we are seeking to marshall and train an army of youth for the cause of Jesus Christ. The results are far-reaching. For decades to come, active Christian work in America is destined to feel the continued impact of this nation-wide enterprise.

Our goal this year, "along the old back road" is double the number of Conferences. Will you fellowship with us in this most fruitful task with your prayers and your support?

Local Missionary
REV. GUS J. HANSEN,
220 Knealo Ave. No.,
Thief River Falls, Minn.

The A.S.S.U. is evangelical in purpose, non-sectarian in method, and true to the Word of God. Its field is unreached Rural America. The need is greater now than twenty-five years ago. We are planting Sunday Schools, restoring worship in abandoned churches, establishing Vacation Bible Schools, and rendering community Welfare Aid which can come from no other source.

$25.00 annually maintains a Sunday School. $100.00 annually commences work in an unreached county. $1200 annually fully supports an A.S.S.U. Missionary.

Why not sponsor this nation-wide, soul-saving, character-building investment, paying dividends of a sort that will never fade away?

STATE 4-H CHIEF PRAISES LEADERS

Joins in Tribute to Pennington Club Leaders

During the past year the 36 local 4-H club leaders have been working with more than four hundred 4-H members in sixteen 4-H clubs of Pennington county. A. J. Kittelson, State club leader at the University Farm, made this statement, "The success of our 4-H club movement would not be possible without the outstanding work of our 4-H leaders. They have given their time and effort freely and generously to 4-H work."

County Agent Frank A. Hobbs has also added his note of appreciation to that of Mr. Kittelson's.

The 4-H club leaders who have contributed so much to 4-H success in Pennington County include: Mrs. Bill Kruse and Mrs. George G. Swanson, Bray club; Mrs. L. C. Johnson, Rupert Haugen, Mrs. Ing Gullickson, and Clifford Haugen, Carlson club; Mrs. Louis Mandt and John Elsbrener Jr., Deer Park club; Mrs. O. H. Vraa, Falls club; Mrs. Ray Elsbrener and Mrs. Ted Lendobeja, Kratka club; Mrs. Emil Sanders and Mrs. Charles Svendsgaard, Mavie club; Mrs. Bert Kron and Melvin Saugen, New Solum club; Mrs. Basil Westacott and Mrs. Walter Rux, North Star club; Mrs. Geo. Vraa and Paul Mutnansky, Reiner club.

Mrs. Otto Netteland, Henry Oen, and Mr. and Mrs. Lloyd Johnson, Rocksbury club; Mrs. Jesse Bakke, Mrs. Euno Swanson, and Mrs. Alvin Nelson, Sanders club; Mrs. John Burtness and Mrs. Ted Boese, Silverton club; Mrs. Rudolph Hanson and Mrs. Norton Nelson, Smiley club; Mrs. Melvin Fjeld and Mordy Morrison, Star club; Mrs. Henry Williams and Mrs. I. J. Russell, Steiner club; and Mrs. Elvin Peterson and Mrs. William Palmquist, Wyanriver club.

Minnesota Farm Leaders Back Dewey and Warren

Two of Minnesota's top farm leaders—J. S. Jones and William S. Moscrip, both of St. Paul—have been named to membership on the National Farm Committee for Dewey and Warren, after taking part in the organization of the group in Chicago, where delegates from all sections of the country pledged themselves to work for the election of the Republican national ticket and urged "farmers everywhere to join and actively support this great effort, regardless of political affiliation." Jones is secretary-treasurer of the Minnesota Farm Bureau, and Moscrip is president of the Twin Cities Milk Producers Association.

Tests Scheduled for Welfare Office Posts

A series of competitive examinations for jobs in clerical positions has been scheduled for November, L. E. LaLonde, county welfare merit system supervisor, announced today.

Examinations will be held in 14 cities throughout the state on Saturday, November 6. Monday, October 25, will be the last date for filing applications, LaLonde said. Salaries range from $1,080 to $2,916, plus a cost-of-living adjustment which varies according to county.

Complete information can be obtained from the county welfare board office, any local state employment office, or from the merit system supervisor, 117 University Avenue, St. Paul.

LOCAL MAN, 21, KILLED IN AUTO MISHAP OCT. 9

George F. Lund, Former Service Man, Losses His Life Near Terrebonne

George F. Lund, 21, son of Mr. and Mrs. Frank Lund of this city, and who only last month had received his discharge from the U. S. army after two years service overseas, lost his life in an automobile accident shortly after midnight Friday west of Terrebonne and six and one-half miles southeast of Red Lake Falls.

Death occurred when the car he was driving went out of control and went off a bridge abutment, landing upside down in two and one-half feet of water in Beaver Creek. Apparently knocked unconscious when the car rolled over; Lund was drowned before help could be summoned to extricate him.

Orvis Lindvick of Oklee, who was a passenger in the car, managed to release himself, and went to the Paul Carrier home nearby for assistance, but not until a wrecker arrived from Red Lake Falls was Lund's body recovered.

Funeral services will be conducted at the Gulbranson chapel this afternoon at 1 o'clock, Rev. J. O. Jacobsen officiating, and interment will be in Bethany cemetery northeast of Oklee.

Born August 1, 1927, in Highlanding township, George Lund came with his parents at the age of one year to Thief River Falls, where he lived until, after attending Lincoln high school, he was employed by the Craig Construction company in Minneapolis. He enlisted in the army Oct. 4, 1945, and received his discharge September 1 of this year.

In addition to his parents, the surviving family includes a sister, Mrs. Duane Noel, and two brothers, Lloyd and Dennis, all of Thief River Falls.

LAND APPRAISAL MEETING SLATED IN CITY TUESDAY

Course of Land Prices Topic of Authorities at Auditorium Session

A group of farmers of this county will attend a land appraisal clinic at 9:00 a. m., Tuesday, Oct. 19 on the main floor of the city auditorium in Thief River Falls, according to an announcement made by Frank A. Hobbs, county agent.

While the average sale value of farms in Minnesota in this postwar period had not reached the all-time high of 1918-20 in March 1, 1948 it was 81 per cent above that of 1935-39 and 57 per cent above that of 1910-14.

How much is land in this part of Minnesota worth at present? Will prices of farm products remain at present levels? These are some of the questions to be answered at the county meeting by Paul Burson, soils specialist, and J. B. McNulty, agricultural economist, both of the University of Minnesota together with an experienced appraiser from the Federal Lank Bank.

The Knox school was named after the late C. J. Knox, who donated the site of the building.

Committees Named for '48 Halloween Festival Oct. 30th

Plans for the annual community Halloween festival scheduled for Saturday evening, October 30, under the sponsorship of the Lions club with the cooperation of the city council and local business firms, are rapidly taking form under the supervision of Rev. Dan T. Beadle, who is serving as general chairman.

The festival will open with an afternoon costume party in the Auditorium for small children thru the fourth grade. Glenn Carlson is chairman, assisted by Mrs. Camille Dostal, while Ernest Johnson is arranging for prizes and treats.

The costume parade, a time-honored feature of the observance, will be held downtown early in the evening under the supervision of Ben Frolland, following which there will be a party in the arena for children of the fifth grade thru junior high school.

Ward Nichols is arranging for the showing of motion pictures, while Sig Quam is arranging for refreshments, Stanley Mortenson for prize awards, and George W. Werstlein for apple-bobbing.

A teen-age dance will be given in the Auditorium at 9 o'clock under the chairmanship of F. S. Gibson, with R. G. Mabey in charge of the distribution of awards.

MRS. KARWAND IS SPEAKER AT BPW CLUB ON TUESDAY

Republican Chairwoman in Ninth District Talks on "Public Affairs"

At its October dinner meeting on Tuesday evening at the Rex Cafe, the Business and Professional Women's club was addressed by Mrs. Bertha Karwand, Ninth district Republican chairwoman, who chose for her topic "Public Affairs."

Mrs Karwand emphasized the importance of women voting in the general election on November 2nd, indicating that it is not so much how they vote, but that they use their right to vote. She pointed out that the life of every woman, whether she knows it or not, is controlled by politics, from the education of her children, to the maintenance of her home.

In asking women to vote, Mrs. Karwand said that the infiltration of Communism in American life is growing daily, and the way to control that menace is by using the right to vote carefully and conscientiously.

After her talk, Mrs. Karwand threw the meeting open to discussion.

The speaker was introduced by program chairman, Mrs. Florence Anderson. Club president Joanne Wedul presided.

The Club is to present a special radio broadcast in observance of Business Women's Week tonight (Thursday) over Station KTRF at 9:15.

Odin C. Hanson to Make Sticker Race for County Board in First District

Odin C. Hanson, Silverton township farmer, announced this week that in response to requests from a number of friends he had decided to run as a sticker candidate for the office of county commissioner from the First district. Seeking the nomination in the September primary election, Hanson was eliminated by a narrow margin of votes, the nominees being Theodore Hyland, incumbent, and Frank Race.

2 Minors in Court Here for Careless Driving

Two local youths, both minors, were brought into municipal court last Friday to face charges of careless driving. Both were fined $15, the fine being suspended for one year, while the drivers license of one of the boys was suspended for sixty days. The police also brought in five persons charged with minor traffic infractions. One man was fined $5 and $3 costs for drunkenness.

Gustafson & Son Plan for November Corn Show

Preliminary arrangements are under way for C. Gustafson & Son to stage a corn exhibit again this year following favorable crop returns, C. D. Gustafson, head of the firm, stated this week. He indicated that the show would be held sometime in November, and suggested that in the meantime growers should save ten ears of corn to be entered in the exhibit.

FARMERS TO HEAR OF RAT CONTROL IN CITY OCTOBER 20

H. M. Parten, U. of M. Entomologist, Also to Discuss Gopher Control

Nearly every Pennington County farmer is pouring 10,000 pounds of feed and grain down a rathole every year, County Agent Frank A. Hobbs said this week.

That is a conservative estimate for the amount of feed and grain annually destroyed on the average Minnesota farm.

H. M. Parten, extension entomologist from the University of Minnesota, will be in the county Wednesday afternoon, Oct. 20 for a meeting in the Civic and Commerce room of the Thief River Falls Auditorium. The topic of discussion at the meeting will be rat and also pocket gopher control.

Mr. Parten says a rat will eat 50 pounds of grain a year and will contaminate from 50 to 100 pounds more. He figures the average farm harbors at least 100 rats.

Board of Equalization for Pennington County Begins Work Wednesday

The Pennington county board of equalization opened its sessions Wednesday morning to review figures turned in by local assessors, and it is expected to continue its work for several days. The assessment figures for the city of Thief River Falls were turned into the office of County Auditor A. M. Senstad late last week after having been reviewed by the city council sitting as a local board of equalization.

SCHOOL BOARD SETS ELECTION FOR OCTOBER 27

Voters to be Asked to Authorize Sale of Two Rural School Buildings

The Thief River Falls board of education at its October session Monday evening completed arrangements to hold a special election Wednesday evening, October 27, from 7 to 9 o'clock.

The purpose of the election, Supt. W. G. Claffy explained, is to give voters of School District 18 an opportunity to approve or disapprove the projected sale by the local school board of the school houses that formerly served Districts 73 and 165 in Rocksbury township, both of which were consolidated with District 18 this past summer.

The buildings only will be sold, the land reverting to its former owners. While approval of the voters appears to be a foregone conclusion, the state law governing the subject requires the school board to go thru the election procedure.

At its meeting Monday, the board also discussed the Pennington county school district reorganization plan as developed to date, but indicated it would make no recommendations until the final report is filed.

Leading the discussion were Dr. A. E. Jacobson, board president and chairman of the state advisory commission on school district organization, and Roy J. Oen, member of the Pennington county school survey committee.

Mr. Claffy stated that auditors from the office of the state public examiner this week had completed their audit of the school district books for the fiscal year ending July 1, 1948.

Car with Elderly Driver Hits Another Car, Then Crashes into Grocery

A car driven by C. L. Heinze, 78, pioneer resident of this community, collided with one driven by Mrs. Harold Anderson Tuesday afternoon on First st. between LaBree and Horace avs. The Heinze car then went out of control and proceeded over the curb, crashing into the front corner of the First st. Grocery. The building and merchandise stock suffered considerable damage, as did the Heinze car, altho the driver escaped with a shaking up. Mr. Heinze told police that he had had a fainting spell. The automobile driven by Mrs. Anderson sustained slight damage.

Civic and Commerce Votes to Stage 4-H Sale Again in 1949

Following a discussion of the recent 4-H livestock sale in the arena, the Civic and Commerce association, sponsor of the event, went on record at its luncheon meeting last Thursday noon in favor of holding a similar sale in the fall of 1949.

The agriculture committee, headed by Wm. Thompson, was requested to submit a proposed set of rules to govern the event at the next meeting of the association.

Thompson reported on this year's sale, stating that while receipts were satisfactory there should have been more business and professional men among the bidders. County Agent Frank Hobbs stated that the 4-H club members represented in the sale were pleased with the outcome.

W. E. Dahlquist discussed the amendment to be submitted to voters in the November 2 election providing for the distribution of gas tax funds on the basis of 50 per cent to the state and 50 per cent to the counties, instead of two-thirds to the state and one-third to the counties as at present. He suggested that it would be to the interest of the rural areas to support the amendment.

Vic Jung announced that Bohumir Kryl's women's orchestra had been booked for matinee and evening concerts in the municipal Auditorium Monday, November 8. He urged the cooperation of Civic and Commerce members in making the concerts a success.

Wilbur Hafdal, chairman of the Jaycee fire prevention committee, announced that an essay contest is being conducted among Lincoln senior high school students, with three cash prizes totaling $25.

Ted Bosacker, fire prevention engineer, presented movies dealing with modern fire-fighting methods.

To Set up New Bike Rack Behind Northern State

Police Chief Glen Ahre, announced today that a new bicycle parking rack is being installed on the vacant lot in the rear of the Northern State bank, this being in addition to the racks in the rear of the postoffice. Ahre cautioned boys and girls not to leave their bicycles lying on the sidewalk, stating that they will be picked up by the police.

RITES TODAY FOR BEN ERICKSON 58 YEARS RESIDENT

Died Monday Afternoon; Had Taken Homestead in Rocksbury in 1890

Rites will be conducted by Rev. G. S. Thompson at the Trinity Lutheran church this afternoon at 2:30, for Ben Erickson, resident of this community 58 years, who passed away at his home in this city Monday afternoon, at the age of 78. Interment will be made in Greenwood cemetery.

Born on Jan. 23, 1870 in Norway, he came to Clam Falls, Wisc. with his parents when 11 years old. In 1890 he homesteaded in Rocksbury township, with his family following a year later. He was employed as foreman for the Thief River Falls Lumber Co. planing mill until the mill closed down.

He then entered the gasoline and oil business and operated a bulk and service station here until 1942, when he disposed of his business. He was united in marriage to Louise Lonson of this city on Dec. 15, 1898.

Surviving his death are his wife, Mrs. Ben Erickson of this city, four daughters Miss Beatrice Erickson and Mrs. J. R. Dempster of Chicago, Ill., Mrs. Francis Poolman of this city and Mrs. Henry Lockett of Overton, Texas, two sons, Elvin and Robert of this city, three brothers, Gunder and John of this city, and Otto in Montana. His parents and four brothers preceded him in death.

LEGION STYLE AND AUTO SHOW DRAWS CROWDS

Annual Event Reveals Merchandise Resources of Thief River Falls

Residents of the Thief River Falls area are more familiar with the selection of automobiles, household appliances and apparel offered by local business places as the result of the automobile and style show staged, in the arena and Auditorium last Friday and Saturday.

On display in the arena were approximately twenty kinds of new model automobiles, in addition to trucks and tractors. The array of household appliances in the Auditorium testified to the wide selection offered by Thief River Falls merchants.

The Auditorium was packed to capacity Saturday evening for the presentation of the style show, staged successfully under the direction of Mrs. Jeannette Wright, assisted by Mrs. Rudy Larson, in cooperation with Orvis Olen and Orville Eide, co-chairmen.

Ten stores displayed fall and winter garments modeled by a group of young men and women. The presentation was made against the background of a court, over which Mrs. W. J. Brown reigned as queen, with Miss Donna Brossoit (Miss Thief River Falls) as princess and Justin Moe as the prince. Miss Kay Barzen presided as mistress of ceremonies, while background music was supplied by Bob Sjulestad's orchestra.

Between the first and second halves of the style show a pleasing musical interlude was supplied, including selections by the Legion auxiliary twio accompanied by Mrs. Harold F. Harrison, and a group of solos by E. D. Sandager.

The featured offering consisted of selections by the widely known Bundy Brothers quartet of Alexandria, which again demonstrated the comic as well as the singing ability of its members. This portion of the program also included numbers rendered on the piano by Jerry Joringdal.

Also receiving good patronage at the show were the bingo games in the Civic and Commerce room and the lunch room operated in the Legion club rooms by the auxiliary unit.

General Chairman Glen Ahre said early this week that it was indicated the show, the first event of its kind since the war, would be a financial success.

Juel Stadum, post adjutant, stated that proposed amendments to the organization's constitution and by-laws will be submitted

Hearings Arranged to Discuss School District Revision

To Meet Monday Night in St. Hilaire and on Tuesday in This City

A series of three hearings to discuss the recommendations of the Pennington county school survey committee in respect to school district reorganization will be conducted next week, it was announced today by Elmer Erickson of the Plummer vicinity, chairman of the committee.

After obtaining the sentiment of county residents on the proposals, the committee will submit its final report November . It was pointed out that no changes will be made in present school district boundaries without first submitting the matter to residents of the district.

The first hearing will be held next Monday evening, October 18, at 8 o'clock in the St. Hilaire school gymnasium; the second on Tuesday, October 19, at 2 o'clock in the Civic and Commerce room; and the third on Wednesday, October 20, at 1:30 in the school house in District 14 in Eastern Pennington county.

Asked to attend the St. Hilaire hearing are people living in School Districts 69, 99, 94, 106, 54, 221, 12, 178, 6, 133, 236 or 19J, 227J, 166, 108J and 43J.

The hearing in Thief River Falls Tuesday afternoon is for residents of School Districts 11, 26, 28, 30, 31, 41, 51, 53, 219J, 20, 42, 25, 2, 135, 127, 147, 64, 7, 13, 149, 194, 35, 60, 39, 125, 41, 72J and 133 in Marshall county, 118 and 121.

Invited to the hearing Wednesday in District 14 are persons living in Districts 5, 14, 65, 59, 56, 52, 67, 3, 9, 10 and 86.

ASKS MAILING NOW OF YULE PARCELS TO GO OVERSEAS

Postmaster Anderson Urges Sending Christmas Parcels Before Nov. 15

Christmas parcels for overseas military and navy personnel should be mailed during the period beginning October 15 and ending November 15, Postmaster Andrew Anderson announced today.

He added that the parcels should not exceed 70 pounds in weight or 100 inches in girth and length combined. As members of the armed services are well supplied with food and clothing, it is suggested that other items be selected for Christmas gifts.

Anderson stated that Christmas cards destined for overseas should be sent by first class mail and should be mailed not later than November 15.

Further instructions relative to overseas mailing may be obtained at the postoffice.

ACUTE FIRE PERIL IN NORTH WOODS

Blaze Breaks out Near Red Lake Game Refuge

Emergency crews were called Tuesday night to fight a new brush and timber fire which broke out to sweep about 100 acres in an area 45 miles southwest of Warroad.

Dick Willems, area forestry supervisor, said a quantity of hay was destroyed but that fire fighters had the blaze in check. He located the fire in the territory between the Red Lake Indian reservation and the Red Lake game refuge. He said the Beltrami state forest was not far away.

Principal danger lay in a possible wind, Willems reported. He said if flames got out of control there was "nothing to stop them for a great many miles." Recent rainfall in the district was termed negligible.

Doloris Beiswenger Weds Roger Michelson Sunday Afternoon

St. John's Lutheran church in this city was the scene of a pretty double ring ceremony Sunday afternoon, Oct. 10, when Miss Doloris Beiswenger, daughter of Mr. and Mrs. B. F. Beiswenger of rural Thief River Falls, became the bride of Roger Mickelson, son of H. M. Mickelson of Twin Valley. Rev. V. E. Schroeder performed the ceremony.

The place where the couple knelt was draped in white and caught up with pink and blue bows. The altar was decorated with asters, sweetpeas and other garden flowers.

Miss Elaine Bessler was at the organ playing the traditional wedding marches. Mrs. Max Jensen and Miss Bessler sang "I Love You Truly" before the bridal procession entered the church. Preceding the ceremony they sang "Because" and while the couple were kneeling "The Lord's Prayer."

The bride, who was given in marriage by her father, wore a white satin gown featuring a sweetheart neckline and had lace inserts the entire length of the gown which extended into a train, and had long pointed sleeves that came to a point at the wrists. Her fingertip veil edged in lace was held in place by a coronet of orange blossoms, and was borrowed from her cousin Mrs. William Rekow of Fosston who had worn it at her wedding a year ago. For something old she wore a strand of pearls that had been worn by her mother on her wedding. The something blue was a narrow ribbon tied around her ankle. She carried a bouquet of roses.

The bride chose two of her former schoolmates as attendants. Miss Joan Johnson, maid of honor, wearing a pink gown, and Miss Doris Williams, bridesmaid, wearing blue. They both wore earrings, gifts of the bride, and carried identical bouquets centered with a rose and having streamers to match their gowns.

Beth Mickelson of Twin Valley, sister of the groom, and Sharon Sanders, cousin of the bride, dressed in white organdy gowns trimmed with pink and blue bows, were flower girls. They carried baskets of rose petals which they sprinkled down the aisle before the bride entered. Ronald and Russel Beiswenger, twin cousins of the bride, carried the rings on a red heart shaped pillow covered with silk lace.

The groom was attended by Duane Hanson, as best man, and Donald Knutson. Ushers were Wilbur and Marvin Koop.

The bride's mother chose a black figured frock with matching accessories, and the groom's mother wore wine with grey accessories. They both wore corsages.

Following the ceremony a reception was held in the church parlors for approximately 150 guests. A three tiered wedding cake topped with a miniature bride and groom served as the centerpiece of the bridal table. Deloris Horter had charge of the guest book and Shirley Matzke had charge of the gifts. Mavis Knutson poured, and the wedding cake was cut by Dolores Roese. Burnell Knutson, Bernice Horter, Elaine Horter and Esther Koop were waitresses, wearing black skirts, white blouses, and identical white aprons.

Out-of-town guests attending the wedding were Mr. and Mrs. H. M. Mickelson and family, Mr. and Mrs. Ingvald Hanson, Mr. and Mrs. E. B. Erickson, Mr. and Mrs. Emil Lerud, and J. Lerud of Twin Valley; Mr. and Mrs. M. O. Robinson and family, Mr. and Mrs. William Rekan and family, and Mr. and Mrs. LaVern Robinson of Fosston; Mrs Anna Wold and daughter Mary of Crookston; Mr. and Mrs. Reuben Wold of Fargo, N. Dak.; and Rev. and Mrs. Theo. Lerud of Kelliher.

Immediately following the reception Mr. and Mrs. Mickelson left on a week's wedding trip. For traveling the bride chose a brown wool suit with matching accessories. Upon their return they will make their home on a farm southeast of this city. Both the bride and groom are graduates of Lincoln high school.

Johnson-Lorentson Service Read October 10th at Bride's Home

Miss Elaine Doris Johnson, daughter of Carl Johnson of Holt, and Dale Theodore Lorentson, son of Mr. and Mrs. Sam Lorentson of Erskine, spoke their marriage vows at a simple single ring ceremony at the bride's parental home late Sunday afternoon, Oct. 10. Rev. Ernest J. Vick officiated at the service in the presence of only immediate relatives. Miss Joyce Peterson, friend of the bride, sang "I Love You Truly" before the ceremony. Cut flowers decorated the Johnson home.

Attending the couple were the bride's sister, Miss Joyce Johnson, and Ray Johnson, cousin of the bride.

For her marriage the bride chose a grey suit with black accessories. She wore a corsage of pink roses and white carnations. Her gift from the groom was a locket. Miss Johnson, bridesmaid, was attired in a grey suit with brown accessories, and was complimented with a corsage of yellow chrysanthemums.

Mrs. Rose Christenson, grandmother of the bride, and Mrs. Sam Lorentson were attired in dark colored dresses with corsages of roses and white carnations.

Following the ceremony a reception was held at the Johnson home. The table at which the bridal party was seated, had a two-tiered wedding cake as its centerpiece. Lighted candelabra and bouquets made the dining room festive for the occasion. Mrs. Victor Johnson poured, and Mrs. Milton Davidson and Mrs Bennie Inman were waitresses.

The bride is a graduate of Newfolden high school, and the groom served with the U. S. navy for several years and is now employed by the local Coast to Coast store. Mr. and Mrs. Lorentson left on a wedding trip and after Oct. 17 will reside at Holt.

For Amateurs Only

ARE YOUR CHILDREN shy and awkward in the kitchen or can they don an apron and turn in a creditable performance as a cook?

Mothers who give their children the run of the kitchen occasionally deserve a bouquet of orchids because they are helping to turn out well balanced, healthy children. And it does mother good, too, if son or daughter occasionally can whip up a batch of good cookies or cake, or prepare a tasty salad.

There are days when youngsters just simply are bored with their usual pursuits and then they tend to wander around the house without anything to do. Perhaps it's too stormy to play outside or maybe all their friends are on vacation. This is the psychological moment to suggest they try their hand at being an amateur chef.

Give them a few pointers beforehand if they need it so food will not be wasted, and help only if it's requested once they start their culinary adventure so you won't spoil it by being the "extra cook in the broth." Have it understood, too, that the kitchen is to be cleaned after they finish.

* * *

I'VE OFTEN SAID that anyone who can read, can cook. But here are simple recipes that involve no complicated procedures. Let the children try these recipes so especially designed for them that they will really have a wonderful adventure on their day in the kitchen.

Boys and girls alike will enjoy making these hamburgers, and they are so easy, you simply won't have any failures:

***Hamburgers De Luxe**
(Serves 6)
- 1 pound ground beef
- 2 eggs, unbeaten
- 1 tablespoon flour
- ½ onion, grated
- 1 teaspoon salt
- ½ cup catsup
- Bacon
- Fried onions

Mix the meat with eggs, flour, onion, salt and catsup. Beat the mixture thoroughly with a large fork or spoon. The longer the mixture is beaten the better. Form into thin cakes. Spread a layer of fried onions between two cakes and press the edges of the meat together. Place a strip of bacon around the hamburger, fasten with a toothpick and fry in hot fat or place in the broiler. If using broiler allow cakes to brown six to eight minutes on each side. If frying, allow a little more time for hamburgers to cook.

* * *

BOYS AND GIRLS alike will enjoy making a salad and tossing it together with a fork and spoon the way real chefs do:

***Tossed Green Salad**
(Serves 6)
- 1 head of lettuce, cut in quarters
- 4 tomatoes, quartered
- 1 bunch watercress, if desired
- 1 cucumber, peeled and diced
- 1 bunch green onions, cleaned
- 1 green pepper, sliced thin
- 1 bunch celery, diced
- 1 bunch radishes, sliced
- Lettuce cups
- French dressing

Chill the vegetables thoroughly [illegible] in a large bowl. Add French dressing and toss [illegible]

Unlimited Popularity

TWO American music-hall artists sought employment in one of London's leading theaters.

The manager inquired the length of their act.

The pair hadn't had an act for a month of Sundays and didn't know just what to say; but, being resourceful, replied, "Twenty-five minutes."

"Twenty-five minutes!" exclaimed the manager. "Why, my dear sirs, ours is a long bill. I cannot give you 25 minutes. I suggest that you go on for eight minutes."

The performers stared at him aghast.

"Eight minutes!" they screamed. "Why, we bow for seven minutes!"

ALWAYS A GENTLEMAN

His car and her car met head-on. Both drivers got out and, with that fine courtesy so characteristic of motorists nowadays, both began to apologize profusely.

"I'm sorry," said the woman; "It was all my fault."

"Not at all, madam," the man responded with a gallant gesture; "I was to blame myself."

"But I insist the fault was mine. I was on your side of the road."

"That may be true, but my dear madam, I am responsible for the collision. I saw you coming blocks away, and I had ample opportunity to dart down a side street."

OIL PROGRESS DAY IS NOTED IN STATE

Industry Cites Efforts to Keep up with Demand

Minnesota has reaped a golden harvest in gasoline tax revenues as an important "by-product" of the tremendous job done by the petroleum industry in satisfying the unprecedented post-war demand for motor fuel.

This was pointed out today by Mr. R. T. Seidel, chairman of the Minnesota Petroleum committee, in a statement issued in conjunction with the "Oil Progress Day" program planned for October 14 by oil men throughout the state and nation. On this day the oil industry intends to report to the committee of America on its progress in serving their needs.

"With the end of the war, the oil industry undertook a gigantic expansion program to meet an amazing increase in the demand for petroleum products," Mr. Seidel said. "Evidence of this industry's success lies in the fact refineries today process enough gasoline to meet a consumer demand more than 30 per cent greater than pre-war peaks.

"Minnesota is profiting handsomely as a result of the oil industry's success. Because of the industry's success. Because of four cents per gallon state gasoline tax this year will set a new record in its yield of funds. Returns thus far indicate our gasoline tax will boost the 1948 receipts higher than the previous record year of 1947 when $32,282,000 was collected," he continued.

"Since gasoline taxes collected in Minnesota are used for highway purposes, the Oil Industry's progress has a double meaning for the motorist: (1) an adequate supply of motor fuel, and (2) more money for road improvement without higher taxes," he said.

Diesels For Argentina

Ninety-five diesel-electric locomotives will be supplied by General Electric to the Argentine state railways system during the next three years. Deliveries are to begin early in 1949. The $18,000,000 contract covers 60 single-unit and 35 double-unit engines, plus spares, and marks an important step in Argentina's five-year program of improvement of rights of way and rolling stock.

Sewing Machine Care

To oil a sewing machine, put oil on every place where one part rubs or turns within another. Run the machine for a few minutes and then wipe off the excess oil.

Poison 'Plant Precaution

Liberal lathering with laundry soap before going around poisonous plants or as soon as possible after contact will prevent many serius cases of dermatitis.

Frozen Milk

Fresh milk is outstanding in the frozen foods group. Frozen milk may be shipped long distances, and when thawed is said to compare favorably with fresh whole milk.

Interment Here This Afternoon for Dr. L. Race of Plainview

Final services and interment will be held at Greenwood cemetery this afternoon at 3 o'clock, Rev. D. T. Beadle officiating, for Dr. Loren Race, dentist, who succumbed last Sunday in Wabasha. He was 42 years old.

Dr. Race was born August 1, 1904, at Minneapolis. He was married to Margaret Bjorkman Dec. 23, 1936, in this city, and four years later moved from Minneapolis to Plainview, where he has since lived. He was a member of the Methodist church of Plainview, was past master of the A.F & A.M. Lodge of that city, and was a 32nd degree mason, Scottish rite. Dr. Race has been practicing dentistry since his graduation from the University of Minnesota dental school.

Survivors include his wife, Mrs. Margaret Race; a daughter and a son, Marjorie and Robert of Plainview; three sisters, Myrtle Christianson and Mrs. Gladys Lee of Minneapolis, and Mrs. Minnie Pratt of Milwaukee, Wisc. His parents and one sister preceded him in death.

Rites Held in Warren for John C. Davidson, Formerly of This City

Funeral services for John C. Davidson, who passed away at Sparta, Wisc., on October 2, were held at the First Methodist church in Warren on Wednesday afternoon of last week, with Rev. W. A. Fleagle officiating.

John, son to Christian and Rachelle Davidson, was born in Minneapolis on September 30, 1877, moving with his parents to Hendrum in 1881 and to Erskine in 1892. On September 17, 1902 he was united in marriage to Miss Amy Klinke. For the past 17 years the Davidsons have made their home in Warren.

They lived in Thief River Falls for 19 years and for lesser periods in Northcote and Holt. From 1892 to 1945 Mr. Davidson was employed as a section foreman by the Great Northern Railway Company. He was a member of the Brotherhood of Railway Employees and Modern Woodman and attended the the Methodist church.

The deceased is survived by his wife, two sons, Arthur L. of Hibbing, Howard J. of Minneapolis; a daughter, Mrs. Lester Hurst (Hazel) of Warren; ten grandchildren and a host of friends. One son, Ernest, preceded him in death in 1944.

Final Rites to Be Tomorrow for Carl Huus of St. Hilaire

Carl Huus, resident of St. Hilaire, passed away at a local hospital Tuesday afternoon at the age of 40 years. Rev. Carl F. Johnson will conduct rites for him Friday morning, Oct. 15, at 11 o'clock in the Gulbranson chapel, and rites will also be held in the Lutheran church at Hatton, N. Dak., at 2 o'clock that afternoon.

The deceased is survived by his wife and two sons, Curtis Huus, with the army at Fort Knox, Ky., and Duane Huus of Buxton, N. Dak.; six sisters and four brothers. His parents and one brother preceded him in death.

Mr. Huus was born in Hatton, N. Dak., Aug. 25, 1908, and as a young man moved to Grafton, N. Dak., where he was engaged in farming. Later he resided at Larimore, N. Dak., Crookston, Fisher, and St. Hilaire. His marriage to Margaret Lewis took place in Grafton, N. Dak., Nov. 28, 1914.

Secretaries Have "Good Chance"

It is reasoned that well trained and well groomed secretaries have excellent marriage prospects because they work so closely with men. Secretaries need not dress expensively, like show girls, to impress an employer but they should be crisp looking at all times. To be avoided are, glaring nail polish, short sleeves, chewing gum, skimpy skirts, seductive necklines, high heels and jewelry that jangles, says the director of a secretarial school.

Fisherman Plans To Trap Whales With Waltz Music

Boston. — Capt. Jack Doane, fingered his gray chin stubble and allowed as how his whale jail would make him world famous or an international flop.

The 69-year-old fisherman plans to cruise New England's coast like a sea-going Pied Piper, luring whales to the surface with Strauss waltzes and then corralling 'em.

He's positive his theory will work. Said he'd been working on it a generation. He has convinced Capt. Jack Lang, skipper of the S.S. Westport, and excursion fishing vessel, to lend his boat for the experiment.

"I'm a peaceful man, considered most ways," Captain Doane observed to leeward. "But ever since I was a shaver in Nova Scotia I've hated whales.

Whales Cause Trouble

"Something about 'em just tangles my rigging. Lately they been causing trouble— much—in these parts.

"I mind how they rammed the excursion boat of the Ancient and Honorable Artillery company of Massachusetts. Short time ago one upended a fishing boat down provincetown-way and like to kill a boy.

"'Cause of these things and 'cause I just naturally hate whales anyway I figured they ought to be lured into a cove and jailed up there and bopped on the head at leisure, as you might say."

He's the man for the job, he said. "Yes, mate, I've done plenty of whale research. I know the ugly critters like music. If you remembered, they were playing music on the excursion boat when they got rammed."

Lurk Off East Coast

The same whales that have been doing this promiscuous ramming, he said, still lurk off the New England coast.

"My plan is to take the old Westport out and just sit there and play music over a loud speaker system," he said.

"I've picked waltzes by that feller Strauss 'cause they're lazy things that would naturally appeal to a whale.

"The monsters will hear it and come to the boat and we'll lead 'em into a cove we got picked out. The tide will beach 'em and it'll be a regular whale jail. We'll repeat it every day till we've de-whaled the whole region."

A few infidels have scoffed at the proposed whale-jail, the Captain admitted. He attributed this to a general lack of whale savvy. "Let 'em laugh," he chuckled. "I'm a stubborn man."

Woman Tosses Gem-Laden Shoes Into Burning Trash Pile

MILWAUKEE, WIS.—Mrs. Hildegard Sommerfeldt's shoes were worn out so she tossed them into a trash pile to burn.

She said she didn't know there were 50 diamonds in the heel of one of them.

Mrs. Sommerfeldt, 38-year-old Ripon, Wis., bakery employe, claimed her brother put the stones in her shoe when she visited him in Holland.

The brother, Fred Stelter, charged that his sister had stolen 110 diamonds and other jewelry during her Holland visit. He lodged the complaint with federal authorities on his arrival in this country.

Mrs. Sommerfeldt said she did not find out about the gems until her brother told her the stones were in the left heel of one of her "wedgie" shoes.

She said if there were 110 diamonds in the shoes, 50 or more must have been lost when she burned the shoes.

"He never said anything about the right shoe," she said.

Mrs. Sommerfeldt, charged with smuggling, waived preliminary hearing at her arraignment before U. S. Court Commissioner Floyd E. Jenkins. Bail was set at $5000.

Patrolman Reports Murder of Wife to Police; Admits Guilt

DETROIT. — Howard Forman, homicide inspector, said that patrolman John Mudrick shot his wife to death, then methodically reported the slaying and helped three fellow-officers in the routine of his own arrest.

Mudrick, 36, a suburban Dearborn policeman for four years, was held for investigation with no charge against him.

The victim, Clara Mudrick, 32, was found on the floor of her home, face down, eight shots in her body.

Arresting officers said Mudrick told of quarreling with his estranged wife over his demand for a divorce. She agreed to give him one, according to their account, but would not put the agreement in writing.

Forman said Mudrick called police headquarters after the shooting and told the desk:

"There's been a shooting at 5032 Nickel avenue. Send an ambulance and the homicide detectives."

When officers arrived, Forman went on, Mudrick met them and said:

"There's the body. There's the gun."

Then according to Forman, Mudrick stretched out his wrists for the handcuffs and added—"and here is your man."

Ironing Turkish Towels

Home economists advise against ironing Turkish towels. Ironing is unnecessary labor and it mats the loops, making the fabric less absorbent, and may even break the fibers in the yarn

Self-Service Gas Stations Cut Costs

LOS ANGELES. — New Self service gasoline stations are springing up throughout Southern California. Instead of men attendants, cute girl cashiers, some on roller skates and dressed in snappy and abbreviated costumes, take your money after you have filled your own tank.

In addition to the girls there is another attractive feature for motorists:

The price for gasoline is as much as five cents a gallon under usual prices. Some of the self-service stations advertise a saving of several cents a quart on oil.

Borrowed from the super-market system, the new idea is spreading. *Estimates indicate there are more* than 35 self-service stations, and the number is growing daily.

Operators claim their products are marketed at one-third the cost to ordinary stations. Harry Rothchild president of Rothchild Oil company one of several independents going in strong for the idea, says his cost is 1¼ cents a gallon to the normal 4½ cents, refinery to consumer.

Self-service requires a larger area as each station uses several times the normal number of gasoline pumps, to accommodate more cars. Some stations have 20 or more pumps.

Attendants are needed only to unlock the pumps and take the customer's money after he has helped himself.

Some stations have put girl attendants on roller skates. It enables them to make quick change and handle more pumps.

Determined Shopper Caches A Pair of Bargain Pajamas

MEMPHIS, TENN.—The pajama sale brought out the bargain hunters. The clerk finally wrapped the last pair on the counter and the sale was over.

Three hours later, a woman shopper handed the clerk the money for a pair of blue pajamas that had been on sale. She had left the money home when she first arrived at the store.

She calmly explained that she had hidden the pajamas under garments on another counter and returned home for the cash.

Dairy Farmers Cash In on Test-Tube Breeding of Cows

NEW BRUNSWICK, N. J.—A decade of test-tube breeding of milk cows has succeeded far beyond the hopes of the 100 pioneers.

It was just 10 years ago that New Jersey Co-operative Artificial Breeding Association Unit No. 1—first of its kind in the nation—got underway on a farm in Somerset county.

Now, a million dollars in extra income a year is being grossed by dairy farmers taking part in the project.

Enos J. Perry of the New Jersey State College of Agriculture here launched the program among 100 farmers.

He had visited Denmark where he witnessed co-operative artificial breeding.

Perry was surprised at the speed with which dairymen accepted the revolutionary idea that put the New Jersey bull in the shadow of a test tube.

The original 100 Jersey farmers have been joined by thousands more in 42 states. There were 1,500 cows enrolled in the pioneer project. Now there are 1,800,000 in the nation giving better returns to their owners because of "test tube" breeding.

Flying Police Trooper Flags Errant Pilot to "Pull Over"

PONTIAC, MICH.—Concealed by the sun's brilliance, like a traffic policeman behind a billboard, Henry A. DeLooff, state police trooper, flagged down and ticketed an errant flier.

The arrested man, Pfc. Richard J. Koester, 20, on leave from the marines in Washington, paid a $30 fine to Justice Burt L. Lockwood. The charge was reckless flying.

DeLooff said he watched Koester take off "like a cowboy" from the Pontiac airport. The policeman took over another plane and followed Koester 18 miles, with the rays of the sun as a shield.

He said Koester made two low dives over populated areas. After the second one DeLooff pulled up beside Koester and gave him the same signal traffic policemen use to flag motorists to a curb.

"You should have seen his face when I flew alongside him," the trooper commented.

Koester was arrested after he landed.

Short-Circuited Juke Box Sounds Its Own Fire Alarm

PHILADELPHIA. — James Fitzgerald shook his head, blinked the sleep from his eyes. He was right. The strains of "Four Leaf Clover" filled his bedroom—at 2:30 a.m.

The music was coming from the taproom below his second-story apartment. But the taproom was closed.

He stumbled down the stairs and found smoke pouring from the taproom.

It took firemen an hour to put out the blaze in the short-circuited taproom juke box. The short circuit had set the machine in operation.

Growing Popcorn

Popcorn may be grown on any soil that will grow good field corn. Production should be restricted in general, however, to the more fertile soils that are not too light and sandy. The usual methods of successful field corn culture apply also to popcorn, with slight modifications. In most localities early planting is recommended. During the past few years popcorn hybrids have become increasingly popular and seem likely to replace most of the acreage of open-pollinated varieties. Superiority of the hybrids is shown in the increase in yields, standing ability and popping expansion.

Poisonous Plants

Among our poisonous plants are *poison ivy, poison oak and poison* sumac. During the summertime, persons who enter the woods, travel along creeks or other waterways, or walk through fields along fences, hedgerows or stone walls should be especially careful. It is well to make it a point to learn just what these plants look like, and in addition, what to do if infected. There is no such thing as immunity to poison ivy. Persons who have avoided infection previously, after repeated contact with these plants, may develop poisoning through subsequent exposures, under different conditions.

Good Spots for DDT

When replacing linoleum for kitchen floors, a light dusting of DDT in the cracks of the floor and in an area six inches wide or more near the baseboard will cut down insect infestations, keeping ants and bugs and beetles from making use of the cracks in the floor as an avenue of entry into the house. When carpets are up for cleaning, it's a good idea to dust DDT under them before relaying. Another good place for DDT is under the shields and around the pipes where plumbing comes through the floor or wall.

Vertical Sun Dials

Sun dials seldom are mounted these days in an upright position. There are, however, many vertical sun dials to be seen on the walls of English and Scottish churches. In America, the most famous vertical sun dial is on the wall of the beautiful Bok singing tower, Lake Wales, Fla.

Left-Hand Driving

Last year, 2,600 persons were killed in traffic accidents as a result of driving on the wrong side of the road. Over 200,000 were injured, many of them permanently disfigured.

Insects Cause Food Loss

Insect pests reduced cottonseed production last year by an amount which would have provided 4,500,000 people for a year with as much fat as now is included in European diets. Each 100 pounds of cottonseed meal will replace 250 to 300 pounds of grain when the oil meal is used for livestock feed. Some authorities estimate that control of insects that attack corn would add 100 million bushels to annual yields.

Asteroid Appears, Vanishes

In 1937, an asteroid about a mile in diameter was sighted moving swiftly against the background of the stars. Before news of the discovery could be circulated, the body had swooped away and was lost. It has not been *seen since* that time. It was given a name, however, and that is Hermes, for the swift messenger of the gods whom the Romans called Mercury. From a few accidental observations of this body made within a day or two of its discovery, it was calculated that its nearest approach was about 500,000 miles, only twice the moon's distance.

Bull Elephants

A big bull elephant will stand between 11 and 13 feet at the shoulder. Twelve-footers are very exceptional. The weight of a really big bull is from five to six tons, the huge bones being solid throughout. The great ears when fully extended, may cover 15 or 16 feet from tip to tip.

Petroleum Outlook

Our most important source of petroleum is domestic crude oil production. This year, the industry is expected to produce 2.15 billion barrels of supplies (crude oil and natural gasoline). The deficit is expected to be made up by importing about 175 million barrels of crude and refined products from Venezuela, Mexico, Colombia and the Middle East. This indicates a rise in total supplies to roughly 2.3 billion barrels, which should cover the year's estimated demand for oil products, and provide some increase in stocks.

Among Our Owls

Owls are easily recognized by their distinctive large heads and large eyes, surrounded by circular discs of feathers. *They are mostly* nocturnal, but some of the species, like the snowy owl, hunt in the daytime. The great horned owl is the largest of the species; the smallest is the saw-whet owl, found in Eastern North America. It haunts the cedar and tamarack swamps. The screech owl is the most common of our owls.

Absent-Minded People

Chicago transit riders leave more than $500,000 worth of goods on streetcars, buses and elevated lines every year, American Municipal association reports. One of the largest sums ever lost was one million dollars in negotiable bonds left on "L" train by a South American banker. Most unusual item forgotten was a box of white mice.

BJORKMAN'S TOGGERY

Texan Claims He Is Jesse James; Pal Greets Him

OAKLAND, CALIF.—Al Jennings, 85, the oldtime Oklahoma train robber, was brought face to face with a Texan who says he's Jesse James—and exclaimed, "It's him!"

Jennings took one long look at J. Frank Dalton, or James. His voice choked and his eyes filled with tears.

"It's him," said Jennings. "That's the face. My word of honor.

"Boys, there ain't a bit of doubt on earth. This here is Jesse James!"

San Leandro civic officials brought Dalton here by plane to feature him in their rodeo. They invited Jennings, too. Jennings who took to the lecture circuit after his imprisonment a generation ago, makes his home in Southern California.

Dalton's story resurrecting the old outlaw—supposedly long a moldering in a Missouri grave—first was made public when Dalton announced that he was the famous desperado.

Secret Question

Jennings said before the meeting he could prove whether the old man was Jesse James by a single question dealing with a "shootin' match" of long ago on a ranch in West Texas.

The only person who knew about that match, he said, were himself, one other man—and Jesse James.

As the two met, the eyes of both filled with tears.

"Do you know me, Jesse?" asked Jennings.

The other nodded his head vigorously. His voice broke as he said:

"You bet. You won a shootin' match on the old C Dot F ranch."

Jennings grabbed him by the hand.

Killed By Gang Member

History says Jesse was killed at St. Joseph, Mo., in April, 1882, by Bob Ford, a member of his gang.

Dalton says that's all nonsense, that the man Ford killed was "a Pinkerton feller named Charlie Bigelow." After the "shooting," he decided to disappear.

Jennings said he was frankly skeptical about the old man "until I asked old Jesse some questions nobody but him and me could've knowed."

The two had a rambunctious reunion, as their conversation paraded the ghosts of long gone bandits of the Southwest.

"We're a-goin' right over the same old trails," said Al. "Boys, there ain't no doubt about this. This is old Jesse sure."

Expedition Uncovers Relics Of Early Man in California

LITTLE LAKE, CALIF.—Campsite remains of California's Dawn Man have been discovered two miles north of Little lake in Inyo county. The human bones and arrowheads found at this "closest approach to a city" may date as far back as 15,000 years.

This uncovering of prime historical importance has excited archeologist of an expedition from the Southwest museum. Their director, Curator Mark R. Harrington, says that for the first time "Pinto Culture" relics have been found in a positive, original location, undisturbed by the elements for more than 3,000 years.

The camp is on the lava-walled banks of a long vanished river that once ran south from glacier-fed Owens lake. A waterfall was then nearby, and a commodious lava cave was used for shelter, centuries before later-age Piute Indians came along and etched their own drawings on the dark cavern walls.

"They must have had a good life," Harrington said, "for when the glacier began melting, during either of the pluvial eras, this was lush, green, wooded country."

Sunstroke and Heat Prostration

Excessive heat accidents take two forms—sunstroke and heat prostration. A sudden, splitting headache is the first warning of sunstroke, after which the victim falls unconscious. The temperature sometimes rises as high as 110 degrees and first aid should be for the purpose of bringing the temperature down. In heat prostration, on the other hand, the victim's temperature drops and he has a chilled, clammy feeling. In either case a doctor should be called at once.

Boxing Contest Rules

Standard "ring" for boxing contests must be elevated five feet above the floor level of the arena. Generally, the maximum measurement of the ring is not standard for professional fights. Its size is determined by boxing commission rules. The ring can be from 16 feet square up to 24 square feet, which is roped off and constitutes the fighting zone. Another three and one-half feet on the four sides outside the roped area, called an "apron", usually prevents a fall to the floor of the arena proper in case a fighter is pushed through the ropes.

CURLEE CLOTHES

A New Standard of Value

CURLEE FALL *and* WINTER SUITS *and* TOPCOATS

When a man slips into his first Curlee Suit or Top Coat—sees its smart styling — feels its comfortable easy drape — examines the quality of fabric, lining and inner materials — he realizes that from this time forward he has established a new standard of clothing values. It's a wonderful feeling — the knowledge that hereafter, by choosing clothes with the Curlee label, good looks and satisfactory wear are literally guaranteed.

This state of affairs is no accident; indeed it is a conscious effort exerted over a long span of years by a great organization to insure customer satisfaction. Skilled designers create Curlee styles which are smart, modern, distinctively masculine. Expert buyers test and choose the fine materials for every Curlee garment. And craftsmanship in tailoring, with careful attention to every detail of construction, is a Curlee tradition.

If you want the outstanding buy of this fall and winter season, come in and see these new Curlee Suits. Every Curlee Suit and Top Coat is priced right.

Soften gelatin in cold water and dissolve over hot water. Cool and add real mayonnaise; mix well. Dice hard-cooked eggs, reserving a few slices for garnish. Add chopped eggs with cheese, celery, salt, green pepper, pimiento and lemon juice to mayonnaise mixture; mix well. Pack firmly into a loaf pan which has been rinsed with cold water. Chill until firm or chill overnight. Unmold on serving plate and garnish with radish roses, carrot curls and watercress. Decorate top with green pepper rings and egg slices.

***Salmon Supper Salad.**
(Serves 8)

1 head iceberg lettuce
3 green onions, diced
2 cups canned peas
2 tomatoes, cut in wedges
1 tall can salmon
3 hard-cooked eggs, sliced
⅓ cup French dressing
⅓ cup real mayonnaise
3 tablespoons chopped green pepper
3 tablespoons chopped pimiento
1 clove garlic

Cut lettuce into cubes and place in salad bowl or platter. Sprinkle with diced onion and canned peas. Arrange tomato sections on lettuce. Place large pieces of salmon in center and surround with slices of egg. Blend French dressing and real mayonnaise, add green pepper, pimiento and garlic. Just before serving, remove garlic. Serve with salad.

COOK THE MEAT in this recipe on a cool day, then make an aspic for it and you'll have an excellent dinner, fit for company:

Pot Roast in Aspic.
(Serves 12)

4 to 5 pound rump roast of beef
1 large chopped onion
1 clove garlic, grated
2 tablespoons butter
Salt, pepper and paprika
1½ pints boiling water
2 bay leaves
½ cup tomato pulp
1 tablespoon flour

Brown onion and garlic in butter; add well seasoned meat and sear quickly on all sides. Add boiling water and bay leaves. Cover and simmer for two and one-half hours.

If you're one of those people who likes salmon in its natural state, serve it in nice chunks with these delightful accompaniments such as lettuce wedges, sliced eggs, canned peas and tomatoes. This makes a pretty and welcome cool platter for Sunday night supper or lunch.

Add tomato and more water if necessary; continue cooking meat until tender. Thicken gravy with flour mixed with a tablespoon of cold water.

Aspic.

2 tablespoons gelatin
½ cup cold water
2 beef cubes
1 cup boiling water
3 cups strained pot roast gravy

Soak gelatin in cold water; dissolve with the beef cubes in boiling water and add to pot roast gravy. Fill a mold with a layer of aspic and place in refrigerator to congeal. Put the cooked meat in the center and place small cooked carrots and onions around it. Cover with remaining gelatin mixture. Place in refrigerator to jell.

Plums and pears make a good combination for a fruit cobbler or a molded salad. You also can add cherries if you like.

Did you ever try rice with mushrooms sauteed in butter? Try molding the mixture in a ring and serving green peas in the center if you want a dish that has a flavor thrill in it.

Ever try coconut custard pudding with thick, rich caramel sauce? It's just the cooling dessert you need with a rich meal.

Drain on U. S. Forests

In 1909-18 the forest service says we took out of the forests (the drain) practically six times as much each year as we grew to replace it. But in 1946, it says, the drain was only one-and-a-half board feet for every one foot grown. We moved from a drain six times as great as new growth to where the drain today is only a half-foot greater than each new board foot grown.

North Carolina Contributes

North Carolina has made two contributions to the language of the world, one, the word "buncombe" (from which bunkum and bunk), and two, the phrase about what the governor of North Carolina said to the governor of South Carolina as to the long time between drinks. It is still an unsolved mystery as to what governors at what time gave the world its saying in support of conviviality, but buncombe as a word for loud and empty nonsense comes straight from the congressional talk of a statesman from Buncombe county around Asheville, N. C.

Grasshopper Damage

"Grasshoppers in a single year have destroyed crops valued at over a hundred million dollars!" The foregoing statement is found in U. S. department of agriculture farmers' bulletin 1828, which further states: "Within the regions most subject to outbreaks are included the principal wheat, barley and flax-producing areas of the United States. Included also are enormous acreages of alfalfa, corn, oats and rye. All these crops are particularly susceptible to grasshopper attack, and there is never a year in which some damage is not done.

HOSPITALS AT STATE UNIVERSITY HAVE BUSY YEAR

Admit 9,752 Patients and Perform 7,603 Operations in Year Ending June 30

Despite spiraling costs of operation and a severe shortage of staff, University of Minnesota hospitals cared for more patients during the year ending last June 30 than in any previous year, according to the annual report of Ray M. Amberg, hospitals director.

During the year, 9,752 patients were admitted to the hospitals for treatment as compared with 9,352 admitted during the previous year and 9,220 during 1945-46. The hospitalization period averaged 14.1 days, while the average for the year before was 15.2 days and for 1945-46, 15.4 days.

Daily average census for the hospitals for the 12 month period ending June 30, was 380 patients, Amberg reported, a drop from the daily census average of 397 for 1946-47 and 390 for 1945-46. Days of hospital care provided during the year covered by the report totaled 136,774. The figure for the previous year was 144,877 days and 1945-46, 142,173 days.

Surgical operations performed in University Hospitals totaled 7,603, an increase of 865 over the previous 12 months and 1,908 over the year 1945-46.

Startling increases in the costs of operating the hospitals were disclosed by Amberg in his annual report. In-patient department costs soared from $9.49 per patient per day in 1945-46 to $12.02 in 1946-47 and to $16.31 in 1947-48, a boost of $6.82 in two years—$4.29 in the last year alone. The cost per patient visit in the out-patient department averaged $3.72 during the last year or 38 cents above the $3.34 cost during 1946-47 and 87 cents over the 1945-46 visit cost of $2.85.

"Adjustments in salaries and wages of all personnel and the increased cost of supplies and expenses," Amberg explained, "account for this great increase in the cost per hospital day and the cost per patient visit."

Shortage of personnel continued to handicap the hospitals throughout the year, according to the director who added words of praise for his department heads who "have made every effort to keep their units operating at peak efficiency despite this lack of help."

District Governor of Rotary Will Be Guest of Local Club Tuesday

Joe R. Medley of Cloquet, governor of District 177 of Rotary International, will pay an official visit to the Thief River Falls Rotary club next Tuesday, and will address the group at its noon luncheon in the Rex Cafe at 12:15, E. O. Peterson, club president, announced this morning.

High Temperatures of 68 Is Recorded Three Days

Temperatures more typical of summer than of mid-October prevailed locally during the past week, the mercury mounting to the 68 mark on Friday, Saturday and Tuesday, followed by 62 Wednesday afternoon. Frost was recorded on several mornings, the low mark for the week being 28 Tuesday morning.

Attention Corn Growers--

If you are interested in showing your corn at an exhibit to be held some time in November, we would like to request that you save 10 ears for that purpose. Both the quality and the quantity of the corn grown in our territory this year indicates that a corn exhibit would be of considerable interest to local farmers. All exhibits can be saved for future showing, if desired.

More detailed information on this exhibit will be published at a later date.

Editorials....

Candidate Tom Dewey got a break when he was splattered by tomatoes thrown at him while speaking from the platform of his special train in an Illinois town. If the ripe-tomatoing of Dewey gets the same reaction as the ripe-egging of Wallace he will gain votes. Of course the presidential candidates should not carry this sort of thing too far. Mr. Truman is entitled to one fling but let's stop it at that and get on with the campaign.

Enrollment at the University of Minnesota is down to 27,248, a drop of more than a thousand from last year's record. The number of veterans attending is off nearly 2,000 from a year ago and this decline will undoubtedly continue steadily for several years. Where the attendance will level off to a new normal is anybody's guess—and not much to worry about until hard times come knocking at the door again. For the time being there is no such thing as a financial problem.

Joe Ball has challenged his opponent Hubert Humphrey to debate the Taft-Hartley law. Ordinarily we don't take much stock in challenges of this kind, but in view of the fact that Ball is being criticized for his sponsorship of this law it would seem that here is an opportunity for a clear cut campaign issue. If Mr. Humphrey does not wish to discuss this law on the same platform with Mr. Ball then let him tell us in his regular speeches just what in the Taft-Hartley law he does not like. If he believes this law should be repealed then he should tell us what he would propose to take its place, or if he thinks there should be no regualtion of big labor. If this is what he believes then is he opposed to the labor relations act that governs the conduct of railway labor—very similar in its provisions to the Taft-Hartley law—and quite satisfactory as we understand it to railroad employees. These are things we have a right to know from the man who seeks to represent us in Washington. The Taft-Hartley law is a national issue, and with one of its sponsors seeking reelection in Minnesota it is very properly an issue in this state. Joe Ball is justified in challenging his opponent to debate this particular issue.

A round of cheers to the 76-year young Fosston man who made a parachute jump this week, and may he keep right on making them until old age catches up with him. But, after all, why so much fuss about an old man performing a hazardous feat. Those of us who are on the way out deserve less applause for taking chances than the youngsters who have a long life to live.

The time actually has arrived when we are confronted with a surplus problem again. There is talk of reducing wheat acreage by a third next year and from now on we can expect to hear all the old arguments about what to do with the foods and feeds for which there is not an adequate market. Reducing wheat acreage without at the same time reducing the acreage of crops that compete with wheat seems to us about as sensible as the idea of adjusting ourselves to the meat shortage by not eating pork on Tuesday. We run around in circues and don't get very far. And the sad thing is that there have not been and will not be actual food surpluses in the world. There are hungry people, many millions of them, who should and could be fed. There must be a more satisfactory solution to this local problem of abundance than the destruction of food when the food that is destroyed is so much needed by neighboring communities of this little world.

Timber Insect Control

Insects and disease affecting timber slowly are being brought under control. One of the most successful experiments of recent years was the use of DDT in the control of the tussock moth in northern Idaho. Thousands of acres of timber were saved from this insect's destruction. A similar program is in the offing for the spruce bud worm and the bark beetle in Idaho and Montana.

Don't Mix Turkeys, Chickens

Turkeys and chickens cannot be raised together successfully under farm conditions. Poults must not be allowed to mingle with chickens or other poultry, says Charles Reed, extension poultryman at Michigan state college. The reason for the warning is that other poultry, especially chickens, harbor parasites and organisms that cause blackhead, coccidiosis, and other turkey diseases. If there are chickens on the farm, Reed says, don't care for the chickens and then track to the brooder house unless shoes have been thoroughly cleaned or disinfected before entering the brooder house.

Looking Backward

1928—TWENTY YEARS AGO

Stafford King, state commander, will address an American Legion rally here.—Knud Wefald of Hawley was the speaker at a Leif Ericcson program sponsored by the local Sons of Norday lodge.—The council confirmed the appointment of H. A. Pratt to succeed Mrs. A. M. Heggan as a member of the library board.—Mrs. Harold Elde left for a visit with a sister in Saskatchewan. — Rev. Werner Drotts, pastor of the Mission church in Viking, resigned due to ill health after 23 years of service there.

1938—TEN YEARS AGO

Harold E. Stassen and Elmer A. Benson, opponents in the governorship race, addressed meetings in this city.—Dr. J. E. McCoy commenced construction of a two-story office and apartment building on LaBree av. north of Third st.—Dr. Baldwin Borreson, president, conducted a meeting of the Red River Valley Medical society at the Evelyn hotel.—Hans Selvog, Warroad fishery operator, was seriously injured in an automobile collision three miles south of St. Hilaire.—Alfred Skarstad resigned from the local board of education after five years of service, and Carl B. Larson was appointed to succeed him.—Supt. Morris Bye was appointed to the state executive board of the Minnesota Education association.

Victims of Texas City Blast Sue U. S. for Ninety Million

HOUSTON, TEX. — Uncle Sam was blamed in the Texas City explosion to the tune of more than 90 million dollars in lawsuits.

Eight suits totaling $53,208,446 including a 50 million dollar claim by the Monsanto Chemical company, were received here by the federal district clerk for transfer to Galveston, where trial of the cases is scheduled.

Monsanto's suit alleged the government "had knowledge of the potential hazards" of the ammonium nitrate, but that it was packed and shipped from government plants while "innocently labeled fertilizer."

The claims seek damages for deaths, personal injuries, property damage, reimbursement for insurance payments, recovery of profits lost by plant destruction and damage and loss of services of technically trained personnel killed in the disaster.

Texas City officials listed 512 persons killed or missing in the disaster. An estimated 3,000 were injured.

Similar suits already on file at Galveston exceed 33 million dollars while an additional $1,068,430 is involved in suits filed at Fort Worth, Oklahoma City and St. Louis.

Attorneys predicted the final figure may exceed the 100 million dollar mark.

Fuel in Central America

Since Central America has no proved coal or oil deposits, wood (or charcoal) was once the only fuel of home and industry alike. Later, some hydroelectric power was developed, particularly in Costa Rica. Imported kerosene, however, long ago became the indispensable household fuel.

Good Thirst-Quencher

Rhubarb juice is particularly good as a thirst-quencher on hot days. Many farm women report that men working in the fields on hot days prefer rhubarb juice to any other cool beverage. Mix it with other fruit juices—such as strawberry, raspberry, orange, lemon, pineapple or cherry juice. It can be preserved for year-round use by canning or freezing.

Football in Hawaii

Football is Hawaii's main sport, and Hawaii's high schools contribute more than their share of stars for mainland colleges. The most famous contribution of recent years was Herman Wedemeyer, all-American back for St. Mary's college.

Rocky Mountain Park

Reached over an excellent system of paved highways only 50 miles northwest of Denver is Rocky Mountain national park. Possessing some of the most thrilling mountain scenery on the entire continent, the Rockies here tower endlessly above secluded, lake-studded canyons. Long's peak reaches an elevation of 14,255 feet. The park contains 405.34 square miles, and was established in 1915.

In Memoriam

In loving memory of our dear wife and mother, Mrs. A. K. Norby, who passed away one year ago, Oct. 13.

One year ago since that sad day,
When one we loved was called away.
Within our hearts she liveth still.
A place is vacant in our homes,
Rest on dear mother, thy labor is o'er.
Thy willing hands will toil no more.
For all of us she did her best.
God grant her now eternal rest.

Sadly missed by husband and children. 42c

Card of Thanks

We wish to express our heartfelt thanks to all the friends and neighbors for the kindness shown to us in our recent bereavement, of the death of our loving daughter and sister, Carol. Especially do we thank Rev. C. T. Fjelstul for his comforting words, and to Mr. and Mrs. Marvin Sandberg and Deloris for their beautiful songs. May God bless you all.— Mr. and Mrs. Thorval Kolden and family. 42p

Appreciation

I wish to thank Harrington Bros. for the premium paid on my baby beef, Northern State Bank and Amundgaard Implement Co., for having bought our chickens. We also wish to thank the Civic and Commerce association, county agent Frank Hobbs, club leader Bob Hayes, and everyone who helped make this 4-H annual sale and banquet a success.— Richard and Robert Swanson. 42p

Grafton Wins Over Prowler Eleven by 7 to 0 Score Friday

With thirty seconds to play in the first period, Grafton's Gene Burns tossed a pass to halfback Bob Johnson and which was completed for 17-yard gain and a touchdown Friday night to give the Spoilers a 7 to 0 victory over the Prowlers in a North Valley conference game played on Grafton's Chandler Field. The same combination, Burns to Johnson, accounted for the extra point. This week the local squad will enjoy an open date, making preparations for the game against the Pirates at Crookston on October 22nd.

Friday night's game at Grafton found the Spoilers winning the toss and choosing to defend the west goal, receiving the benefit of the stiff northwest wind that was sweeping the field. The Prowlers received the kickoff and picked up a first down when Don Stadum hit left tackle for six yards, and Don Green drove over right guard to the locals' 38-yard line. Three plays gained seven yards, forcing Williamson to kick and the Prowler co-captain booted to the Grafton 20-yard line where Bob Johnson made the catch and returned the ball on a nifty run to the Spoilers' 47-yard stripe. Grafton failed to gain on three plays, and Burns punted over the goal.

From the Prowler 20-yard line, Stadum, on a reverse, gained 9 yards, and Green plunged for a first down on the 31. A short third-down punt gave Grafton the ball in mid-field. Gerry Goetz made three yards at right guard; a pass, Burns to Thompson, carried for a first down on the Prowlers' 40-yard line. Bob Johnson on a cutback over left tackle gained 9 yards, and Burns slid off right tackle for a first down on the 26-yard line. Johnson, on a reverse, added four yards at left end. An aerial, Burns to quarterback Adrian, made it another first down on the Prowler 17-yard line. Then Burns flipped a pass to Johnson, an angled throw off to the right, and the Grafton back made the catch on the 8-yard line and dashed over the east goal-line for the touchdown. The extra point was added on an identical play, with Burns passing to Johnson.

The Prowlers, in the second period, with the wind in their favor, began a drive from their 20-yard line that appeared destined for a score. Al Williamson hit right end for 9 yards; Don Green gained a first down on the 33. A pass, Williamson to Rosengren, was completed to the Grafton 46-yard line. Jerry Furuseth lost a yard on a reverse, and a pass was incomplete, but Williamson circled right end for a first down on the 36.

Cal Bradley made five yards at center, and added two yards over right guard. Williamson, on a neat run, cut through right tackle to the Grafton 6-yard line. A lateral pass play, Baken to Williamson, picked up a yard. On a plunge into the line a Prowler back fumbled and Grafton's Ted Burns recovered on the 3-yard line.

Grafton, electing to run with the ball instead of punting, picked up three first downs to bring the ball to mid-field where, on the Prowlers' 45-yard line, the locals held for downs. The Prowlers, with Williamson passing, gained three first downs to carry the ball to the Grafton 9-yard line with seconds of the half remaining to be played. Two incomplete passes and the second period ended.

Neither team made a serious scoring threat in the second half, with fumbles and pass interceptions halting the thrusts.

In the matter of first downs, the Prowlers held an edge, 13 to 6. The locals racked up 2 first downs in the opening period, seven in the second period, four in the third quarter; while Grafton had three in the first period, three in the second period, none in the third, and two in the fourth quarter.

MORE THAN 1,000 AT DEDICATION OF ROSEAU PROJECT

State Commissioner of Conservation Wilson is Main Speaker at Event

Excellent weather brought an attendance of more than 1,000 persons to the dedication of the Roseau River Wild Life project and other attractions last Thursday.

The dedication was held at the east end of the project area, on the range line north of Badger. Chester Wilson, state conservation commissioner, made the inaugration speech, and Frank Blair, head of game and fish, accepted the project on behalf of the conservation department.

H. M. Rognlie and E. H. Nelson tuned the first shovelsful of earth, symbolically beginning the work of the 36,000 acre project.

Others attending the exercises were George Wallace, minister of public Works, province of Manitoba, Kern Olson and Dr. Bratrud, Thief River Falls, representing the Northwestern Association clubs, Richard Dorer, Pitman-Robertson project co-ordinator, and U. S. Senator Edward Thye.

Owing to weather conditions which grounded his plane in St. Paul, Governor Youngdahl was not able to attend the morning exercises, but he appeared at the Roseau fair grounds to deliver an address at 4 p. m.

EAST GRAND FORKS IN SECOND PLACE TRAILING G. FORKS

Conference Standings Show Grand Forks Has Most Scoring Ability

Conference Standings:

	W.	L.	Pts.	Opp. Pts.
Grand Forks	3	0	103	7
E. Grand Forks	2	0	29	0
T. R. Falls	1	2	7	41
Crookston	1	2	20	38
Grafton	1	2	7	61
Devils Lake	0	2	6	29

Results of the week's games:
Thief River Falls, 0, at Grafton, 7.
East Grand Forks, 7, at Crookston, 0.

Games on Friday:
Devils Lake at East Grand Forks.
Crookston at Grafton.

Coach Harold Sullivan's East Grand Forks eleven is creeping up on the Grand Forks Central squad in the North Valley conference football standings, and if the Green Wave defeats Devils Lake on Friday, as they are favored to do, the East Siders will move into a first place tie with the the Maroons. Following the game with the Satans, East Grand Forks will have two games remaining on their schedule, against the Prowlers at Thief River Falls and meeting Grand Forks Central at Grand Forks.

Passes accounted for the two touchdowns scored during the week's play and provided the Grafton Spoilers and the East Grand Forks teams with victories. A pass, Gene Burns to Bob Johnson, scored the touchdown that defeated the Prowlers at Grafton on Friday night. And on Saturday afternoon, in a Homecoming game played at Crookston, Stan Johnston of East Grand Forks intercepted a Pirate pass to score the marker that gave the Green Wave their win over Crookston.

With low-scoring games the rule during the week, there weren't any changes in the conference's individual scoring column. Grand Forks' Ronnie Thompson, with seven touchdowns tallied in three conference games, holds a comfortable lead over team-mate Bailey McCracken, who has the runner-up position with four touchdowns.

The scoring leaders:

	Tds.	Pat	Pts.
R. Thompson, G. Forks	7	0	42
B. McCracken, G. Forks	4	0	24
D. Pilkey, Crookston	3	0	18

New British Stamps

Forty-eight British possessions, crown colonies and mandates will each issue two new stamps during 1948 to commemorate the royal silver wedding anniversary. Two designs have been chosen common to all. One will be a high value and the other a low value, corresponding to the inland letter rates. Colors will conform to the corresponding values in the current series.

Permanency of Calcium

Calcium is the most permanent thing in animal life. Large animal bones and teeth have remained intact for millions of years, and the only evidence we have of man's first million years is the calcium-bearing bones and teeth which he has left.

Bow-and-arrow Deer Hunt at Mud Lake Is Canceled

That portion of the Mud Lake area which was scheduled to be opened this fall to deer hunters using bow and arrow has since been closed to hunters due to the danger from fire under the present extremely dry conditions, it was announced this week. The new order may be rescinded, it was indicated, if ample rains arrive before the opening of the bow-and-arrow season.

NEIGHBORS MOURN 87-YEAR-OLD PET

Stillwater.—Laura has gone to the reward of those who remain faithful for more than the allotted four-score years and ten. Laura, born in Cuba June 12, 1861, was 87, 57 years of which span were spent with the Mannheimer family in St. Paul and the last 30 with the Earl Roettger family here. She could talk, sing, whistle, yodel, and play all manner of pranks, knew scores of children by name, wore doll clothes and rode in baby buggies. And will be sorely missed. Laura was a bright, gentle parrot.

Keeping Score

. . . . With BUCK OLSON

It's a Jinx

As far as the Prowlers are concerned, Grafton can hand their Chandler Field back to Baseball Commissioner Happy Chandler. Chandler, who played semi-pro baseball with Grafton in the early 20's dedicated Chandler Field as Grafton's athletic grounds three years ago, and since that time the Prowlers haven't been able to defeat the Spoilers at Grafton, even though the locals have been rated as the favorites.

Friday night's game followed the usual pattern up there, with Grafton playing their best game of the year, and the Prowlers aiding the Spoiler cause by turning in an erratic performance. Two years ago the Prowlers traveled to Grafton and, with such players as Les Vigness, Swede Lund, Bob Larson, and Don Engelstad in the lineup, heavily favored to win, but Hank Newgard and Wes Sabourin combined to give Grafton a 14 to 7 victory. Last week the Prowlers, with a better record than the Spoilers, invaded Grafton and favored to win, but Gene Burns and Bob Johnson, on a pass play, scored the touchdown that gave coach Maxwell's team their first conference win.

The Prowlers flashed instances of power, particularly in the second period, when they rushed through the line for big gains and whipped passes for completions and good yardage, but a fumble on the 3-yard line stopped one drive, and the end of the period halted the second threat on the 9-yard line.

Co-Captains Missing

In fairness to the locals it must be mentioned that they faced the opening kickoff without either of their co-captains, Al Williamson and Joe Bradley, in the lineup. Al entered the game midway in the first period and his running and passing sparked the Prowlers' second period play, but he turned an ankle early in the third period and that injury hobbled the running attack. Joe Bradley, suffering from a slight concussion, didn't enter the game until the fourth period.

The Prowlers have an open date this week, and it will be welcome by coaches Johnson and Nick and the squad. The locals will return to their schedule on October 22nd when they meet the Crookston Pirates, and by that time most of the aches and pains may have been "eased" out of the player's bones.

First Reports

With six days of the duck-hunting season having elapsed, it's the consensus of the hunters that there aren't half the ducks in this vicinity this year that there were last year. Limit bags were fairly numerous on Friday, opening day, and Saturday also found a goodly number of nimrods coming in with the limit. Sunday, though, was "slow" for most of the boys, and since that time there haven't been many ducks brought in.

The best luck has been reported by John "Snort" Langseth, who has been hunting in the Thief lake area since Friday. "Snort", on a week's vacation from Bridgeman's, is one of the finest duck shots in town, and he's rugged enough to take the "heavy" hunting around the Moose river and the north shore of Thief lake.

While the duck situation will have to await the arrival of the flight ducks from Canada, it is apparent that the goose population is on the increase. Orlando Bishop and Justus Larson got a goose apiece on Saturday, and on Sunday Martin Gulbranson came in with a goose. These were taken along the west side of the Mud Lake refuge. And it is reported that a number of geese have been bagged at Thief lake, with the northwest corner of the refuge being the most favorable location.

Good News for the Thieves

The senior hockey Thieves received good news this week when Derwood "Swede" Lund returned from East Lansing, Michigan and Michigan State college and began working with the Hallet Company on the Clearwater river project. That means that Swede will be available for hockey here this winter. Swede stated that the living costs at Michigan State were a bit beyond his means.

And Les Vigness, following a short tryout with the Minneapolis Millers at Brandon, Manitoba, is back in town and employed with Bridgeman's. Les was given the "once-over" by Bill Cook and he apparently made a good impression on the former all-time hockey great. Les got the idea, though, that he would perhaps be "farmed" out to a team in northern Michigan, and that prospect wasn't too attractive.

Coffee Harvest in Latin America

Harvesting of coffee in the western hemisphere begins around the first of September in Haiti and moves south, getting progressively later until completion of the Sao Paulo harvest in the end of the following August. In certain of the coffee-producing countries the harvesting of ripe cherries is carried on throughout the year. The cherries are ready for harvesting in eight or nine months after the trees flower. Length of the ripening period varies with climate and altitude.

Highway Construction

Postwar highway program is steadily gaining momentum. Construction expenditures for federal, state and local highways are expected to reach $1,500,000,000 this year. Highway expenditures will represent some 40 per cent of all public construction.

HOSPITALS AT STATE UNIVERSITY HAVE BUSY YEAR

Admit 9,752 Patients and Perform 7,603 Operations in Year Ending June 30

Despite spiraling costs of operation and a severe shortage of staff, University of Minnesota hospitals cared for more patients during the year ending last June 30 than in any previous year, according to the annual report of Ray M. Amberg, hospitals director.

During the year, 9,752 patients were admitted to the hospitals for treatment as compared with 9,352 admitted during the previous year and 9,220 during 1945-46. The hospitalization period averaged 14.1 days, while the everage for the year before was 15.2 days and for 1945-46, 15.4 days.

Daily average census for the hospitals for the 12 month period ending June 30, was 380 patients, Amberg reported, a drop from the daily census average of 397 for 1946-47 and 390 for 1945-46. Days of hospital care provided during the year covered by the report totaled 136,774. The figure for the previous year was 144,877 days and 1945-46, 142,473 days.

Surgical operations perfomed in University Hospitals totaled 7,603, an increase of 865 over the previous 12 months and 1,908 over the year 1945-46.

Startling increases in the costs of operating the hospitals were disclosed by Amberg in his annual report. In-patient department costs soared from $9.49 per patient per day in 1945-46 to $12.02 in 1946-47 and to $16.31 in 1947-48, a boost of $6.82 in two years—$4.29 in the last year alone. The cost per patient visit in the out-patient department averaged $3.72 during the last year or 38 cents above the $3.14 cost during 1946-47 and 87 cents over the 1945-46 visit cost of $2.85.

"Adjustments in salaries and wages of all personnel and the increased cost of supplies and expenses," Amberg explained, "account for this great increase in the cost per hospital day and the cost per patient visit."

Shortage of personnel continued to handicap the hospitals throughout the year, according to the director who added words of praise for his department heads who "have made every effort to keep their units operating at peak efficiency despite this lack of help."

From where I sit ... by Joe Marsh

How to Celebrate Your Wedding Anniversary

The "Dutch" Millers celebrated their Tin Wedding Anniversary Saturday. Everything had to be tin. Folks even ate off tin plates, and drank coffee out of tin cups.

When it was time to drink a toast to the "bride and groom," out came the final touch: ice cold beer in cans. And course the Millers' 15th anniversary (Glass) I expect we'll be toasting them with sparkling beer in *bottles!*

And I couldn't help thinking that there was a lesson for married folks in the way Dutch and his missus have got along together—in their policy of live-and-let-live, with never a criticism of each other's differences in taste.

From where I sit, it's due to two things: Temperance—as that moderate preference for beer suggests, and Tolerance—for their own differences of opinion—and for the tastes of others, whether applied to beer, to politics, or how to celebrate an anniversary.

Proposed AMENDMENTS to the CONSTITUTION of MINNESOTA

J. A. A. BURNQUIST
Attorney General
State Capitol
St Paul 1, Minn.

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your request asking me to furnish you with a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 639.

This chapter of the 1947 laws proposes an amendment to Article IX, Section 5, of the Constitution of Minnesota. This section of the Constitution authorizes the state to levy an excise tax upon any substance, material, fluid, force or other means or instrumentality, or the business of dealing in, selling or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of this state. As the Constitution now reads, it provides that two-thirds of the proceeds of such tax shall be placed in the state trunk highway fund provided for in Section 2 of Article XVI of the State Constitution, and one-third thereof in the state road and bridge fund. The purpose of the proposed amendment is to change these provisions for the distribution of the proceeds of such tax so as to provide that one-half of the proceeds of such tax shall be placed in the state trunk highway fund and one-half thereof shall be placed in the state road and bridge fund.

The effect of the proposed amendment is to reduce the proportion of the proceeds of such tax which shall be placed in the state trunk highway fund from two-thirds to one-half and increase the proportion thereof which shall be placed in the state road and bridge fund from one-third to one-half.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 640.

Laws of Minnesota for 1947, Chapter 640, proposes an amendment to Article XIV, Section 1, of the Constitution of Minnesota. The Constitution now provides that:

"Whenever a majority of both houses of the legislature shall deem it necessary to alter or amend this Constitution, they may propose such alterations or amendments, which proposed amendments shall be published with the laws which have been passed at the same session, and said amendments shall be submitted to the people for their approval or rejection at any general election, and if it shall appear, in a manner to be provided by law, that a majority of all the electors voting at said election shall have voted for and ratified such alterations or amendments, the same shall be valid to all intents and purposes as a part of this Constitution. If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

The purpose of the amendment proposed by said Laws 1947, Chapter 640, is to eliminate from Article XIV, Section 1, of the State Constitution as it now reads the following words, to-wit:

"If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

Article XIV, Section 1, of the State Constitution, as now worded, requires that if two or more proposed amendments are submitted at the same election they shall be so submitted that the voters may vote for or against each separately. The purpose of the proposed amendment is to eliminate that requirement. The effect of its adoption would be to make it possible for the legislature to submit two or more proposed alterations or amendments to the State Constitution at the same time in such form that a voter thereon shall be required to vote for or against all of them as a group and not on each separately.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws 1947, Chapter 641.

Laws 1947, Chapter 641, proposes an amendment to the Constitution of Minnesota, Article XIV, Section 2.

Said Article XIV, Section 2, now reads as follows:

"Whenever two-thirds of the members elected to each branch of the legislature shall think it necessary to call a convention to revise this Constitution, they shall recommend to the electors to vote at the next general election for members of the legislature, for or against a convention; and if a majority of all the electors voting at said election shall have voted for a convention, the legislature shall, at their next session, provide by law for calling the same. The convention shall consist of as many members as the House of Representatives, who shall be chosen in the same manner, and shall meet within three months after their election for the purpose aforesaid."

If the amendment is adopted, said Article XIV, Section 2, would read as follows:

"Two-thirds of the members elected to each branch of the legislature may provide by law for calling a convention to revise this Constitution. The convention shall consist of as many members as the House of Representatives and shall be chosen in the same manner and shall meet within three months after their election for the purpose aforesaid."

Under the present provisions of the Constitution, the calling of a convention to revise it requires that the legislature, by a vote of two thirds of the members of each House, shall submit to the voters of the state at the next general election the question as to whether such convention shall be called by the legislature at its next session.

The purpose of the proposed amendment is to eliminate the requirement of a vote on the question by the voters of the state and to authorize, without such vote, two thirds of the members of each House to provide by law for calling such a convention.

The effect of the proposed amendment to Article XIV, Section 2, of the State Constitution, is to transfer the power to call a convention to revise the State Constitution from the electors expressing their will by a majority of all the electors voting at said election to two thirds of the members elected to each branch of the legislature.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement of the purpose and effect of Laws 1947, Chapter 642.

This law proposes an amendment to the Constitution of Minnesota by adding thereto a new article to be known as Article XX of the Constitution. The proposed amendment to be known as Article XX would read as follows:

"Section 1. The state may at any time pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946; may levy taxes and appropriate monies for such purpose; and if and whenever authorized, and in such amounts and on such terms as may be fixed by the Legislature, may expend monies, may contract debts, may issue and negotiate bonds or certificates of indebtedness, or both, and may pledge the public credit, to provide money therefor. The provisions of section 5 of Article 9 of the Constitution shall not apply to the provisions of this section, and the purposes for which the credit of the state may be given or loaned as herein provided are declared to be public purposes.

"Sec. 2. Repealing inconsistent provisions. Any and all provisions of the Constitution of the State of Minnesota inconsistent with the provisions of this article are hereby repealed, so far, but only so far, as the same prohibit or limit the power of the Legislature to enact laws authorizing or permitting the doing of the things hereinbefore authorized."

The purpose of the proposed amendment to the State Constitution which would be known as Article XX thereof is to empower the state at any time to pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946. It will also empower the state to levy taxes and appropriate for such purpose, and, in such amounts and on such terms as may be fixed by the legislature, to expend monies, contract debts, issue and negotiate bonds or certificates of indebtedness, or both, and to pledge the public credit, to provide money for such adjusted compensation. The proposed amendment will expressly provide that the provisions of Article IX, Section 5, of the State Constitution shall not apply to the provisions of the proposed Article XX and that the purposes for which the credit may be given or loaned thereunder are declared to be public purposes.

The effect of the proposed amendment will be to empower the legislature to enact the legislation necessary to provide for the payment of an adjusted compensation to persons who have served in the Armed Forces of the United States during the period therein designated, to levy taxes and appropriate monies for such purpose, to contract debts, issue and negotiate bonds or certificates of indebtedness and pledge the public credit, to provide money therefor.

Further, the proposed amendment would remove the restrictions, if any, in Article IX, Section 5, of the Constitution, relating to the expenditure of public money and the contracting of public debts for the purposes stated, and would declare that the purposes for which the credit of the state may be given or loaned in pursuance of the amendment are public purposes.

The proposed amendment would also repeal any provisions of the Constitution of Minnesota inconsistent with the provisions of the amendment.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

GRYGLA

Silver Wedding

On Sunday afternoon, September 26, Mr. and Mrs. Elmer Blaine were the guests of honor at a silver wedding observance. The event took place at St. Petri church and was attended by a large number of friends and relatives from Grygla and Goodridge. Mr. and Mrs. Blaine were married n September 30, 1923, at Grygla by Rev. S. T. Anderson. The church was decked with garden flowers.

A short program opened the occasion and included a song by Mrs. G. L. Halmrast; a reading by Mrs. Hans Nystul; a song by Beverly Torgrimson and Thelma Nystul; and a talk by Rev. Halmrast. The honored couple were presented with a purse of silver from their assembled friends.

Following the program a luncheon was served in the church parlors. The bridal table was centered with a three tiered wedding cake, topped with a silver inscription. Guests seated at the table included the honored couple, their children, Jeanette and Alvin Blaine Mr. and Mrs. F. A. Brown, Mrs. Anna Bjerken, Rev. and Mrs. Halmrast, Mr. and Mrs. Reynold Nelson, Gelen, Harold and Beverly Mareach of Valley City, N. D., Mr. and Mrs. James Blaine of Pengilly, Mr. and Mrs. Einer Barstad and children, Mrs. Edry Leiran and Mrs. Knut Knutson and Gail, all of Thief River Falls. The remainder of the guests were served buffet style. During the luncheon Mr. F. A. Brown served as toastmaster.

Nesland Blaine Vows Spoken

On Saturday afternoon, October 2, at four o'clock Miss Theressa Nesland, youngest daughter of Mr. and Mrs. Mikkel Nesland, became the bride of Alvin E. Blaine, son of Mr. and Mrs. Elmer Blaine. The single ring vows were exchanged at the Grygla parsonage with Rev. Halmrast officiating.

Attendants were Miss Jeanette Blaine sister of the groom, and Harley Bucholz.

The bride chose a becoming afternoon dress of steel grey crepe for the occasion. She wore green accessories and her shoulder corsage consisted of red and white roses.

The bridesmaid wore an afternoon dress of powder blue crepe trimmed with gold sequins. Her accessories were black and her shoulder corsage was made up of yellow and white roses.

The bride is a graduate of Goodridge high school with the class of '46. The groom has helped in the operating of his father's farm. The young couple have no definite plans for the future at this writing.

St. Olaf Luther League Meets

The St. Olaf Luther League met at the church on Sunday evening. Mrs. G. Austad called the meeting to order. Rev. Halmrast led devotion. The minutes of the previous meeting were read by Lorna Salveson. It was decided to send a donation to the Lutheran world action. It was also decided to send a gift of $15.00 to Youth in Action. The circuit Luther League convention will be held at Warren on Oct. 23 and 24. Mrs. Sam Salveson and Mrs. George Hanson were elected delegates to attend the convention and all other leaguers are urged to attend also. It was decided that the convention and all other leaguers are urged to attend also. It was decided that the league will sponsor a rummage sale to be held at the local hall on Friday, Nov. 5. A committee will be appointed by the president to take charge.

The following program was presented: A reading by Patty Peterson; a song by Mayo Ellingson and Sheldon Peterson; a reading by Bernice Sletten; and a song by George Hanson and Martin Ellingson.

The meeting closed with the benediction and the table hymn. Lunch was served by Mmes. Martin Loberg, Douglas Miller, and Gust Austad.

The next meeting will be held on Sunday evening, November 14, at which time we hope to have a film.

Noiseless Popcorn Package

A silent cardboard package, instead of a bag that crackles, has stepped up sales of popcorn crunches in Pacific coast movie houses by 20 per cent, according to Pathfinder. The innovation is believed to be drawing buyers who have been reluctant to attract critical glances from neighboring seat holders.

On Amendment No. 1

FOR BETTER ROADS IN MINNESOTA

Amendent No. 1 Provides For ½ Of The Gasoline Tax To Go To The Counties and ½ To The State

The present 4c gasoline tax produces approximately 24 million dollars annually. Two-thirds of this, or about 16 million dollars, now goes to the State Highway Deptartment and one-third, or about 8 millions, now goes to the counties.

A FIFTY-FIFTY SPLIT is fair to the trunk highway system because the State Highway debt will shortly be paid AND . . . .

MORE THAN FOUR MILLION DOLLARS THAT HAS GONE INTO DEBT SERVICE EACH YEAR WILL NOW BE AVAILABLE FOR TRUNK HIGHWAY CONSTRUCTION

THE STATE'S PROGRAM WILL NOT NEED TO BE CURTAILED
and money that has gone into debt service will be used to build better farm to market roads.

GAS TAX DIVISION AMENDMENT TO BE VOTED ON NOV. 2

Would Give Counties Half of Gas Tax Receipts Instead of One-third

The so-called 50-50 amendment, to be voted on at the November 2nd election, will govern distribution of the gasoline tax and not the amount of the tax, according to Mary Miles, executive Secretary of the Minnesota Good Roads association.

The amount of license and gas taxes to be levied will be decided by the legislature next winter. Many improvments are needed in all classes of roads to meet increased traffic demands. Costs of road construction and maintenance are now much higher than before the war. In order to accelerate the rate of making improvements, more funds will be needed. If the present rate of road building is considered adequate no increase in revenue will be necessary. This will be true whether the amendmenth is adopted or rejected.

If the amendment is rejected, the trunk highway fund will continue to receive two-thirds of the gas tax and the counties one-third. In that case, there will be an almost irresistable demand for transfer of large mileages of county roads to the state trunk highway system. If it is then desired to expedite improvement of these roads and other roads now in the trunk highway system, additional revenue will be required.

If the amendment is adopted the counties will receive one-half instead of one-third of the gas tax receipts. This will enable the counties to make improvements needed to carry the growing volume of school busses and trucks hauling farm products and supplies. With increased revenue, it is probable that the counties can improve the main county roads sooner than would be the case if these roads were turned over to the state.

STRANGE ANTICS IN THE ANIMAL KINGDOM

George Snow tried for 20 minutes to land a fighting fish near Pillager, but lost fish, plug, and all when the line broke. Some hours later another fisherman brought in an 11½-pound Northern with Mr. Snow's plug securely anchored. A Sauk Rapids hen laid "one eggs"—a large, normal-shape egg with two complete eggs inside, shell and all. A large barn owl, perched on a basketball hoop, took in part of a St. Olaf college opera at Northfield. When a very large owl declined to yield right of way to his car, George Isaacson got out to capture it but found the tables turned—the big horned owl grabbed him and both he and his companion were exerted to pry the determined bird loose. They took it to Park Rapids to show it off, then freed it.

MOTHER NATURE'S MUSEUM PIECES

Willmar's annual crop of vegetable oddities began with a six-pronged carrot that weighs a pound and a quarter, International Falls points with pride to a pound-and-a-half carrot. First potato dug on the Andrew Loken farm near New Richland blinked a dozen big eyes as it tipped the scale at 2¼ pounds. Henry Sleeper scattered a nickel bag of sunflower seeds in his Claremont garden 'just to see what they'd do." They did, now he's wondering what to do with an eighth of an acre of 15-foot sunflowers stalks so thick they cast a shadow over the road.

During pre-World War 1 days, 100 out of every 1,000 infants died in their first year; in 1945, the number was 38.3.

ALL DOLLED UP . . . In 10 years or so nine-month-old Jesse Rotman of Chicago might not like to be reminded of the fact that he once looked precious enough to have a doll modeled after him, but he's enjoying it now. A toy company official was so smitten with Jesse's doll-like appearance that he had a life-size replica of him made. Soon thousands of children will be playing with Jesse's inanimate counterparts.

POLITICAL ROUNDUP

By Arthur Naftalin

Minnesota holds the national political spotlight this week with appearances here of both President Truman and Governor Dewey. The President's two-day tour was scheduled to bring him to Duluth, St. Paul, Mankato, Rochester, and Winona.

Friday will be Dewey's day in the state. Like Mr. Truman, he will give his principal address in St. Paul. He will also appear at Albert Lea, Austin, Owatonna, Waseca, Mankato, LeSueur, and Shakopee.

Their appearances, coming so close, will give Minnesota voters a concentrated dose of political oratory. They will bring into the state hundreds of the nation's top-notch political writers, whose interest in Minnesota politics is sharpened by the closeness in the Dewey-Truman contest and also by the hot Senatorial campaign between Senator Joseph H. Ball and Mayor Hubert H. Humphrey.

The volume of oratory should reach a deafening chescendo by election time, which is now only two weeks away from next Tuesday. Already the radios are heavily booked with major addresses, and candidates are complaining that they are unable to obtain suitable time.

Notables in both the Republican and Democratic Parties will virtually parade through the state, speaking for both the national ticket and saying a word to help the Party's candidate in the Senatorial fight. Next week, for example, Secretary of Labor Maurice Tobin will be in the state, and appearances of Republicans Arthur Vandenberg, Henry Cabot Lodge, and Robert A. Taft are being sought.

There is also talk that former Governor Harold Stassen may come back to campaign for the last 10 days of the campaign.

The Republicans make no effort to conceal their concern over the Ball-Huhphrey contest. The latest Minnesota Poll gave Humphrey 52 per cent of the vote to Ball's 40 per cent, with the rest undecided. This indicated a gain of 3 per cent for Humphrey to 1 per cent for Ball since the last previous poll reported on August 22.

The Ball camp regards the Poll as unreliable. Ball's campaign manager confidently stated he expects Ball to defeat Humphrey by a 15 per cent margin.

Humphrey supporters believe the Poll under-predicts Humphrey's margin, but admit that the unpredictable factor of the size of the vote cast on November 2 could narrow the difference. A small vote, they believe, would be to Ball's advantage. The Humphrey managers predict that a vote in excess of 1,000,000 would give Humphrey a 200,000 margin.

The matter of the size of the vote is not being taken lightly by the political managers. The most significant factor revealed by campaign activity to date is the striking apathy of the voters.

The low vote of the primary was followed in Minneapolis last week by a special election on a charter amendment in which only one out of four registered voters went to the polls, despite the fact that school officials warned that failure of the tax amendment to carry would mean that Minneapolis schools will close next October.

Whatever the Poll in the Senatorial contest may show, a low vote could result in Ball's election. You can expect to see, therefore, one of the most intensive get-out-the-vote campaigns on the part of the Humphrey camp.

Observers made much of the fact that National Republican Committeeman Roy Dunn introduced Governor Youngdahl when he delivered his keynote address last week. This was interpreted as healing some internal disagreements that have not received much publicity and also as auguring well for Youngdahl's program in the legislature in the 1949 session, in view of Dunn's declared support for the Governor's program.

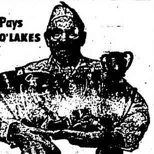
Exceeding of safe speeds was given as the reason for one out of every three fatal motor vehicle accidents last year, according to the accident prevention department, Association of Casualty and Surety companies. The department added that a majority of these deaths occurred on straight and wide-open highways where drivers were inclined to step on the gas.



Quality Pays at LAND O'LAKES

...says Frank H. Bartelt, butter champion

A winner in Land O'Lakes buttermaking efficiency contests year after year, Mr. Bartelt, operator of the Farmers Cooperative Creamery Co. at Mora, Minn., says these contests "have improved butter quality and resulted in higher prices for dairy farmers." He adds: "Before farmers formed Land O'Lakes to process and sell their products cooperatively, the marketing system was weak, farmers got a low price. Through Land O'Lakes, we all get a fair and square deal every time."

Newfolden Girl Bluffs Thug

The following article was taken from the Rocky Mountain News, Denver, Colo., October 5, 1948, relates the nerve wracking ordeal of Mrs. David Murphy, formerly Dorothy Nelson of Newfolden.

A Denver housewife outwitted a knife wielding thug yesterday and saved herself and her two-year old son from harm.

Mrs. Dorothy Murphy of 6633 E. 16th Ave., with her two-year old son, David, was threatened for 10 minutes by a man who poised a knife at her side in her auto at W. Virginia ave. and S. Acoma st. at the rear of Montgomery Ward store.

"Take me somewhere", was the command Mrs. Murphy said she got when the young man slid into the front seat of her auto. Her son was in the back seat. Mrs. Murphy, 32, said the man had first asked the location of Elm street.

"I won't take you anywhere," Mrs. Murphy said she told the intruder. Then the man whipped out a cheap knife, flipped open the four-inch blade and flourished it at her side.

"Don't yell," Mrs. Murphy said the thug retorted, "or I'll stick this through you."

Then Mrs. Murphy said she took the keys out of the ignition and put them in her purse. Looking over her shoulder, she said she saw young David wide-eyed and silenced by fright.

The knifer became nervous, Mrs. Murphy related and after several speechless minutes she said she asked him:

"What's the matter with you?"

He did not answer but the knife started to waver in his fluttering hand. Several more minutes passed. Then Mrs. Murphy said, he stepped out of the car, put his knife in his pocket, and said, "Go ahead, I was just kidding."

Mrs. Murphy went ahead, directly to the South Denver district police station, where she reported her experience to Patrolman Norman Erard and admitted that she too, was very nervous.

Sunday dinner and luncheon guests at the Nels Sabo's home near Newfolden were Mr. and Mrs. Wm. Timm and Mr. and Mrs. Chas. Wallin from Argyle, Mr. and Mrs. Vic Nelson and Richard from Euclid, Mr. and Mrs. Elmer Leader and Larry and Mr. Aug Leader from Warren. The occasion was Sabo's birthday which will occur during the week. The guests brought gifts and attractive decorated birthday cake. The time was spent reminiscing old times.

PREMIUM MOTOR OIL

That's the word that brings you one of America's greatest motor oils— Phillips 66 Premium Motor Oil!

What does "Lubri-tection" mean? Brother, it means just exactly what it says! It means lubrication *plus* protection.

Yes, with Phillips 66 Premium Motor Oil in your crankcase your engine gets both lubrication *and* protection. Here's how. Phillips 66 Premium Motor Oil is expertly refined from high quality crude to give you fine basic lubrication. But that's not all it does! Certain additives and inhibitors in this oil go to work in your engine to help fight against sludge, varnish, and other harmful deposits. Next time you need oil, ask for "Lubri-tection"... at the sign of the famous orange and black Phillips 66 shield!

Fosston Farmer, 76, Makes Parachute Leap from Airplane

Walter Morgan, 76, of Fosston, who has wanted to parachute out of an airplane most of his life, got his wish Monday. He jumped out of a plane circling the Fosston airport a few minutes after 4 p. m. and landed safely, despite a 15-mile-an-hour wind.

It was believed that the jump may have set a world's record as to age of jumper.

Nearly every store in town closed its doors and school children flocked to the field for the jump.

A crowd of spectators estimated at 2,000—some 600 more than the town's entire population—gasped when Morgan, who jumped 1,800 feet fell nearly halfway to the ground before his parachute opened.

Testimony to Morgan's coolheadedness throughout the jump came from his pilot, Paul Bjork, Minneapolis.

"When he landed", said Bjork, "he still had the ripcord in one hand. Lots of professional jumpers drop it— and the thing is worth $6."

Morgan gave up farming operations except for a few milk cows about a year ago. He continues to live on a rented farm a short distance out of Fosston.

Originally he planned to make his jump earlier in the summer but local pilots refused to take him up.

Bjork and Don Kruse, who provided plane and parachute to Morgan without cost, flew to Fosston Sunday but wind and rain prevented the jump then.

Afterward, Morgan said, "they'll have a hard time keeping me on the ground now."

His wife and children watched from the aiport.

"I just sort of rolled out," he said. Morgan landed in a plowed field. His only injury was a slight cut behind one ear. The elderly chutist said he wanted "to show the kids I could do it."

Letter-writing Week Is Proclaimed Oct. 12 to 18

Postmaster Andrew Anderson today called public attention to the fact that the week of October Postmaster General Donaldson 12 to 18 has been proclaimed by as national Letter writing week. Mr. Andersen suggested that this would be an opportune time for local citizens to write that letter they have been putting off.

Deer Most Numerous

Deer is the most numerous big game species in the United States, the white-tailed, black-tailed and mule deer combined totaling 7,375,200. The white-tailed deer, the most numerous and widely distributed species, numbered 4,965,030 in 1946. In rate of population increases, the Rocky Mountain bighorn sheep tops the list, showing a gain of 75 per cent, from 7,152 in 1943 to 15,030 in 1946. Moose showed the second largest rate of increase, with a gain of 57 per cent, from 14,503 to 22,800, according to the U. S. fish and wild life service.

USO AGAIN SEEKS FUNDS IN STATE

To Supply Recreation for Men in Services

Minnesota's citizens are being asked once more to participate in the support of the USO program in behalf of Uncle Sam's new army, navy, and air force.

Malcolm B. MacDonald, vice president of the First National Bank of Minneapolis, has been named chairman of the Minnesota USO Campaign Committee. The co-chairman is Fred S. King, executive vice president of the Munsingwear Company of Minneapolis. John deLaittre, vice president of the Farmers and Mechanics Savings Bank of Minneapolis, is treasurer. Governor Luther W. Youngdahl will act as honorary chairman.

Reactivation of USO is no experiment. It will be carried on by the six original agencies that did the job in the last war. These are the Young Mens Christian association, National Catholic Community Service, National Jewish Welfare Board, Young Womens Christian Association, Salvation Army, and National Travelers Aid. They have unanimously agreed to take on the new peacetime assignment of bringing cheer to the hearts of the nations uniformed forces.

It is expected that practically every Community Chest organization will solicit funds for the USO Committee. Sections of the state which do not have Community Chest organizations will be covered by volunteers working under the direction of Chairmen McDonald.

The USO campaign for funds to finance entertainment and recreational facilities for the youngest army the United States has ever had, will be carried on in all parts of Minnesota during October and November.

Activities of the USO organization, which proved so successful during World War II in providing friendly services to the armed forces, are being resumed on direct request from Secretary of Defense James Forrestal following the recommendations of his civilian advisory committee.

The draft will bring the peacetime armed forces to their highest point in history with 90 percent of the military men and women under 22 years of age.

STATE ANTI-SALES TAX UNIT FORMED

Hopkins Man Heads New Minnesota Society

Formation of the Minnesota Anti-Sales Tax Society to put into effefct organized opposition to all proposals for a Minnesota sales tax was announced yesterday by its president, Mayor Joseph Vesely of Hopkins. William Kregel of State Pharmaceutical Association, is vice-president of the group while Miss Josephine Richards of Minneapolis is secretary.

Units of the new league are being formed in each of the state's 87 counties, a substantial fund is being raised by voluntary contributions, and an intensive campaign of education will be waged against the growth of sales tax sentiment in the coming months, Mr. Vesely announced.

"The Minnesota Anti-Sales Tax League is emphatic in its declaration that the proposal to pay a state bonus to Minnesota veterans is entirely outside the realm of its discussions," said Mr. Vesely. "If the people of Minnesota wish to honor the veterans with a bonus, well and good. But let the legislature find a source of revenue for payment of the bonus other than a sales tax law."

Pointing out that since it is not based on ability to pay it penalizes the average worker, farmer and ordinary citizen, and that it brings added expense and tax as an unfair nuisance, and one which imposes an unfair hardship on the retailer who becomes the collector of the tax for the state.

Heavyweights in the Making

Steel plate, rails and structural shapes are rolled from slabs and blooms. Heaviest of all finished products, they need little or no processing after they have cooled. When shipped to consumer, whether as plate for ships, rails for transportation, or structural steel shapes for building, they are applied on the job with a minimum of fabrication and delay. Their strength and stability is built into them before they leave the mill. Together they accounted for over 13 million tons of finished steel last year, about 20 per cent of total shipments.

Maine Hunters' Bag

Maine hunters bagged 120,000 rabbits and more than 100,000 partridge in 1947. Actual returns from checking stations showed a deer take of 30,349. About 12,000 pheasants were bagged, while only 500 geese fell to hunters' guns in Maine last year. Figures were compiled from a sampling of 10,000 license holders, which proved even more accurate than anticipated, as the wildlife census questionnaire totaled 31,000 deer taken, as against the checking station deer take of 30,349.

Valley Dairymen to Convene in Bemidji on October 29-30th

John Brandt, Land of Lakes Creameries president, will address the Honor Dairymen's banquet and four nationally known authorities on cattle diseases will speak at the discussion session of the annual Red River Valley Dairymen's association convention Oct. 29 and 30 in Bemidji.

New discoveries in the control and eradication in brucellosis, Bang's disease and undulant fever, all of utmost importance to the dairy industry, will be the topics of the four experts on diseases which affect dairy cattle. These four are as follows:

Dr. William L. Boyd, director of the school of veterinary medicine of the University of Minnesota.

Dr. Ralph West, secretary and executive officer of the state livestock sanitary board, St. Paul.

Dr. Fred Driver, U. S. bureau of animal industry, St. Paul.

Dr. D. S. Fleming, chief of the preventable diseases section, Minnesota department of health, University of Minnesota.

The banquet, which Brandt will address, is designed to honor outstanding dairy farmers rent to the convention, with their wives, by their local creameries. Each Red River Valley creamery is to select the outstanding dairyman among its patrons, or appoint an impartial board to make the selection and sponsor him at the Bemidji convention.

These "honor dairymen" will receive gold medals in recognition of their achievements. R. A. Trovatten, commissioner of the State Agriculture, Dairy and Food Department and T. M. McCall, superintendent of the Northwest School of Agriculture at Crookston, will present the awards at the convention's main session the afternoon of Oct. 30. The Honor Dairymen's banquet will follow that evening.

Another feature of the convention, to which all dairy farmers and interested members of the public are invited, will be the annual butter contest. All northwest Minnesota creameries have been invited to enter samples.

A butter-judging contest will be held before the official results of the butter competition are announced. Prizes will be given the convention goers whose judgment of the quality of the butter samples entered is closest to that of the official board of judges.

The convention program, which begins Friday evening, Oct. 29, also includes a football game, color hunting movies, dance, and other entertainment.

Stuart McLeod of Thief River Falls president, will be in charge of the convention program.

MISS AMERICA AT KARLSTAD FRIDAY

Miss BeBe Shopp Will Visit Potato Festival

The village of Karlstad has big things in store for the public Friday when it celebrates its annual Potato Festival with Miss America as its most important guest.

BeBe Shopp (Miss America) of Hopkins will arrive Friday morning and will head the biggest parade of floats and bands ever assembled in the town of 700 persons.

She will also appear at the talent show in the evening in the high school auditorium where she will play several selections on her vibra harp. Some of the best talent in the Northwest will also appear in the program.

The Civic and Commerce association will sponsor the festival but women of the community will have a big part in the events.

For the purpose of raising funds for a modern hospital, the women will serve a public supper at 3 which Miss America will be seated at the honor table.

Potato growers from a wide territory will exhibit their best tubers in the potato show. Several hundred entries has been made and from among them will be selected the grandchampionship display.

GOVERNOR DEWEY TO GIVE ADDRESS IN ST. PAUL FRIDAY

Public Invited to Hear Republican Candidate for U. S. Presidency

A general invitation to all Minnesotans to hear Governor Thomas E. Dewey speak in the St. Paul municipal auditorium Friday night was issued this week by A. E. Giere of St. Paul, general arrangements chairman for the visit of the Republican presidential candidate.

Governor Dewey's address, addressed particularly to the people of Minnesota and the midwest farming belt, is slated to be one of the most important of the national election campaign, and will be broadcast over a nationwide radio hookup.

The National Federation of Women's Republican Clubs, holding its convention in St. Paul, will be host to Governor and Mrs. Dewey and has thrown open the huge Municipal Auditorium arena for a monster campaign rally.

The 11,000 seats of the arena will be available to the public on a "first come, first served" basis. Auditorium doors will open at 7:15 p. m., and the program will start promptly at 7:30 p. m., with many prominent farm and civic leaders on the platform.

Earlier in the day, people of southern Minnesota will have seven opportunities to meet and hear Governor Dewey. His special train will stop for rear platform talks at Albert Lea at 9:45 a. m., Austin at 10:50 a. m., Owatonna at 11:50 a. m., Waseca at 12:40 p. m., LeSueur at 3:10 p. m. and Shakopee at 4:05 p. m.

Covering Wainscoting

Old fashioned wainscoting in a kitchen can be covered with wallboard for a modernized effect. The wallboard can then be sealed with a coat of shellac or aluminum paint and then finished with one coat of enamel undercoater and one coat of enamel to provide an easily cleaned surface.

Strength of Jewish Army

Haganah, the first Hebrew army to take the field in the Holy Land in 2,000 years, is unofficially estimated to be 33,000 strong in full battle strength. With universal conscription, Haganah has at its disposal the full manpower of Jewish Palestine. All Jews between the ages of 18 and 35 get red conscription cards, after their medical examinations, showing their call-up dates. Fathers and only sons are exempt.

17 DIE IN TRAFFIC OCTOBER 1 TO 4TH

Tragedy Near Gilbert Kills Six Young People

Seventeen people killed in Minnesota traffic during the first four days of October brought a dark aftermath to a September accident record in which traffic fatalities were 17 fewer than in September a year ago, despite increased traffic.

Complete reports received by the department of highways on last month's traffic fatalities recorded 57 death as compared with 74 for the same month of 1947, and a statewide total of Sept. of 397 deaths as compared with 423 for the same nine months of 1947.

Although 22 September pedestrian deaths of which 11 were over 60 years of age and 7 were children under 10) continued to head the list, complete reports showed 14 persons were killed in motor vehicles which ran off the road. This figure did not include the state's worst traffic tragedy of recent months, in which six high school boys and girls, all under 18 years of age lost their lives when their car plunged off the road near Gilbert, as this multiple tragedy goes down on the records for that grisly first week-end in October.

Ninth District Rural Letter Carriers Meet at Rex Cafe October 16

The Ninth district rural letter carriers and auxiliary will hold their annual banquet at the Rex Cafe in Thief River Falls Satuday election, Oct. 16th. Election of officers and routine business of both organizations will follow the banquet hour. All rural carriers and their wives are urged to attend this meeting. Present officers are: President, Oscar A. Olson, Angus; vice president, Harry Sailor, Warren; and secretary-treasurer, Clyde Lund, Ogema.

Picnic Foods

WE ALL AGREE that picnics are fun, but how's the food holding out, now that you've already had some picnics during the summer? Is the variety still there to tempt jaded appetites or are you ready for some quick and easy ideas full of inspiration?

You'll want to keep anything edible simple and easy to prepare as well as easy to carry because it's no fun to get worn out in the process of packing, and there is also nothing worse than arriving with soggy sandwiches as well as bruised fruit or mussed cake.

Everyone will feel better at picnics if you plan well balanced meals, so have your share of starches, vitamins and minerals.

Sandwiches are a standby, but they can have infinite variety. Add some crisp vegetables to the filling when you can, thus making the texture interesting and more delicious.

Plan to use fruit in season, carefully washed and wrapped, of course, so you can enjoy eating it. Cakes should be simple, and are best made in square or oblong pans, tucked in a box and cut when served. No chance for messing when it's done this way!

HERE ARE SOME delightful fillings for sandwiches which I know will be a hit with the folks. Chill the fillings, and they won't soak through the bread.

***Savory Ham-Vegetable Filling**
(Makes 8 sandwiches)

- 16 slices bread
- ⅓ cup softened butter
- 1 cup deviled ham
- 1 cup grated raw carrot
- ¼ cup chopped green pepper
- ½ teaspoon salt
- ¼ cup mayonnaise

Spread sliced bread and butter. On eight slices spread deviled ham. Combine green pepper, carrot, salt and mayonnaise. Spread carrot mixture on ham and place buttered slices of bread on top. Cut as desired and wrap well.

***Egg Salad Sandwiches**
(Makes 8)

- 4 chopped hard-cooked eggs
- 1 cup minced celery
- ½ teaspoon salt
- ½ cup minced stuffed olives
- ¼ cup mayonnaise

Mix all ingredients together in order given. Spread filling on cracked wheat bread which has been buttered.

Shrimp Sandwiches
(Makes 8)

- ¾ cup canned and cleaned shrimp, crabmeat or lobster
- 4 tablespoons butter or substitute
- ½ teaspoon minced onion
- 1 teaspoon lemon juice
- ½ teaspoon mustard
- 2 tablespoons minced stuffed olives
- White or whole wheat bread

Mince the shrimp and mix with the remaining ingredients. Chill thoroughly before spreading on bread.

***Chicken-Ham Sandwiches**
(Makes 6)

- ½ cup ground, cooked chicken
- ½ cup ground, cooked ham
- 3 chopped, stuffed olives
- 1½ tablespoons mayonnaise
- ½ teaspoon lemon juice

Perpetual Motion Machine Is Hidden Somewhere in West

SEATTLE.—Somewhere in the Northwest today there is a machine which represents a half-million dollar investment and half the life of Peter Mollow Ivanoff.

Ivanoff worked for 30 years in his 300 thousand dollar Seattle machine shop to overcome friction.

But he would have bristled with indignation if you asked him, "And how's your perpetual motion machine coming along these days, Ivanoff?

"He called it a co-motional machine," said Lawrence Vick, disciple of the brilliant Bulgarian, who died here several years ago.

"He wasn't a failure—he had something. I'm sure of it," Vick said.

"You could walk into his shop, twirling a shaft of a multi-geared gadget. And you couldn't hold the other end of the shaft with a Stillson wrench."

Offers His Services

Today, Vick offers his 20 years' experience as machinist with Ivanoff to any engineer who is willing to continue where the Bulgarian left off.

"But it would be much easier if we could find that machine," he said.

Ivanoff, having no living relatives, bequeathed his plant and machine to several Vancouver (B. C.) residents who had subsidized his work with cash gifts.

Vick said he thought the frictionless machine was gathering dust in some Vancouver warehouse, but the 14 trustees claim the machine is still in Seattle.

"Ivanoff ignored the guffaws and chiding of professors who referred him to basic physical laws when he began his experiments," Vick said.

Engineer Conducts Test

But finally—after 30 years' work—he was ready to unveil his invention and a large electrical company sent an engineer to conduct tests.

"A battery of meters was attached and voluminous notes were taken," Vick said.

"The last meter was read. Immediately the engineer signed an affidavit claiming the machine free of friction."

But the engineer was signing his own dismissal notice. "The company fired him on the spot, accusing him of wrongly connecting a meter," Vick said.

Vick, however, believes the engineer. No one knows what Ivanoff thought, but shortly afterwar: he began wasting away. The doctors said he died of cancer. Vick isn't so sure.

Bessemer Process

One of the oldest and most spectacular of all the present processes employed in steel-making is the Bessemer process. A blast of air is blown through the molten iron, and elements such as carbon and silicon are oxidized in the intense heat that is generated. Modern converters can produce about 25 tons of steel in as many minutes in a single "blow."

Tractor Care

To keep the tractor running smoothly, one of the most important jobs is to help the air cleaner do its work. The air cleaner removes dust and dirt from the air before it passes through the engine. Farmers who clean the air cleaner and replace the oil once or twice a day when working under dusty conditions find they save money on repair bills.

Keeping Bees

Persons who are planning to go into beekeeping should consider *first their personal reaction to* stings, relations with the neighbors and suitability of their locality. In the early days bees were kept to supply the only natural sweet available, but they were also kept by some for observation, for the interest in their life and habits. Beekeeping is interesting, independent work, which may be practiced with supplementary agriculture or some other occupation. It is also a fascinating hobby.

Sweet Allyssum

Sweet alyssum is an important garden accessory. Its real purpose is to accent—to edge borders and paths and to point up other garden flowers and shrubs. There are several varieties of sweet alyssum, ranging in height from four to 12 inches. Height is an important point to consider in making the selection, since shearing is necessary for continuous bloom. Plants that are too low for shearing—those that grow to a height of only four or four-and-a-half inches, for example, will go to seed early in the season.

Purely for Sport

Cats go after rodents purely for the sport of it. The approach has a lot in common with the big game hunter. The cats proceed in their own individualistic way and in their own good time. It is quite untrue that hungry cats are good mousers. The best are the well-fed cats, but well-fed on a more appealing diet than rodents would provide.

January Was Missing

The early Roman calendar had no January. The year began with March and had only 10 months. January was added to the calendar by Numa Pompilius, who gave the month 30 days. Julius Caesar later added the 31st day.

Proposed Changes in the Executive Dep't. of State

Our Democracy is based on the concept that soverign power rest with the people. Our Constitution is the instrument we have adopted for prescribing our form of government and the powers delegated to it by which we consent to be governed.

An important principle shaping our government is the doctrine of separation of powers into the legislative, executive, and judicial branches. The committee on the executive of the Minnesota Constitutional Commission was responsible for reviewing and making recommendations on the executive department as outlined in Article V of the Constitution.

The objective was to recommend changes creating a more efficient executive department while maintaining and extending the separation of powers and the system of checks and balances between the three branches. Great changes have occurred in our society and the growth of governmental services since the Constitution was adopted in 1857 has been tremendous. Today the executive department of Minnesota is one of the largest administrative jobs in the state. It should not be surprising to any of us that the framework of the executive department established in the original Constitution needs some changes now.

As a public service this newspaper is printing the sixth and concluding article in a series devoted to constitutional revision in Minnesota. Frank M. Rarig, Jr., author of this article, was a member of the committee assigned to study the executive portion of Minnesota's constitution. He is an experienced administrator having held a number of responsible executive positions in national, state, and local government.

The Executive Department
by
Frank M. Rarig, Jr.,
Executive Director,
Wilder Charities
St. Paul, Minnesota

When our Constitution was adopted a strong sentiment favoring the popular election of both judicial and administrative officials existed. Originally state governors in the United States were elected by the Legislature. The first move was to take the selection of the Governor away from the Legislature and place it in the hands of the electorate. It would have been logical to stop there but, unfortunately, the trend continued to the popular election of other state officials such as Treasurer, Attorney General, Secretary of State, and Auditor. The result was the dispersal of administrative authority among several constitutional officers and a general disintegration of state administration.

The Governor is the state's chief executive and is held responsible by the people for the administration of state affairs. He should be given authority and an opportunity to develop and put his program into effect. He should not be handicapped by a divided administration created through the election of other independent constitutional officers whose duties must of necessity be subordinated to those of the chief executive if we are to have an effective administration. The Constitution of the United States recognizes this principle by providing for the election of only two executive officers, the President and the Vice President. Other state constitutions have been amended in recent years to conform to this principle.

While it is important to amend the Constitution to provide for a consolidated executive department, it is equally important to make certain that the executive department administers the affairs of the state according to the laws enacted by the legislative branch and that it does not usurp the authority of the legislative or judicial branches of our government.

To further the principles above, the committee on the executive department made the following recommendations which with a few changes have been approved by the Commission:

1. That the constitutional officers be the Governor, Lieutenant Governor, and Attorney General. This eliminates as constitutional executive officers the position of Treasurer, Secretary of State and Auditor. The Attorney General is responsible for interpreting the laws for the executive department and for commencing criminal actions in the name of the state, and must exercise considerable discretion. There is merit in the contention that his position should be continued as an independent constitutional office. In contrast the duties of the Secretary of State and the Treasurer are largely ministerial rather than discretionary.

The Minnesota Legislature has several times recognized the need for strengthening the executive department by the enactment of a number of reorganization acts, the latest being the Reorganization Act of 1939. The existence of the constitutional officers has prevented the Legislature from enacting the most logical and efficient reorganization act. The duties of the Secretary of State, the Treasurer, and Auditor are the same kind of duties performed by the Commissioner of Administration, the Commissioner of Highways, and many other state offices, and the Legislature should have the authority to determine whether their offices will be continued and the powers and duties to be assigned to them.

2. That the term of office of the Governor, Lieutenant Governor, and Attorney General be increased from two to four years. No man without prior experience as Governor can discharge his duties effectively or understand the problems of state government until he has had some experience in the office. Immediately after election a Governor is plunged into his first legislative session. If it is his first term he had had slight opportunity to help formulate or event to review the budgets and other legislative recommendations of the various bureaus and departments constituting the executive branch. Most of us have no comprehension of the great responsibilities that our Governor carries today. With a 2-year term the Governor must run for reelection at a time when he should be developing his budget and legislative program for submission to the Legislature. A 4-year term will give him more opportunity to plan and develop his program. The biennial election of the House of Representatives enables the people to disapprove of any program contrary to the popular will. Twenty-seven states have provided for a 4-year term while 21 have a 2-year term. It is significant that Georgia, Missouri, New Jersey and New York the last four states to revise their constitutions, have provided a 4-year term.

3. That the State Auditor be selected by and made responsible to the Legislature.

Control and expenditure of the funds appropriated by the Legislature is the responsibility of the executive department. It should have complete control, subject to proper fiscal safeguards within the executive department. Concentrating responsibility on the Governor and an executive department responsible to him eliminates any opportunity for shifting responsibility.

Provision should be made, however, for an independent post-audit to determine whether the administrative branch has properly expended the funds appropriated to it. Inconsistently, our Constitution places the responsibility for pre-audit or audit before payment on the State Auditor, an independent elected constitutional officer, who because of lack of staff and his relatively isolated position from the rest of the administration, has little opportunity to make a realistic audit. On the other hand, the Public Examiner, responsible for the post audit, is an appointee of the Governor. If a Governor desired, he could control the Public Examiner and conceal any maladministration of public funds.

An Auditor selected by and responsible to the Legislature would be independent of the executive department and able to report to the Legislature whether the executive department has properly administered the funds appropriated to it. The Comptroller General of the United States, in an analogous position, reports direct to the congress. The English government is even more realistic by making its Auditor General responsible to a parliamentary committee headed by a leader of the minority party, thus providing the opposition party with a means of checking on the party in power.

4. That succession to the governorship be clarified by providing that the Lieutenant Governor shall succeed the Governor in the event of a vacancy in that office; that if the office of Governor becomes vacant after having been filled by the Lieutenant Governor, the President pro tem of the Senate and Speaker of the House shall then succeed to the governorship in that order. If the governorship becomes vacant there after, before the next general election the oldest Senate member in chronological age is authorized to convene the Senate to elect a President pro tem, who shall immediately succeed to the governorship.

5. That the Governor shall submit a budget to the Legislature. This is now a statutory requirement but the biennial budget has become so important to coordinate revenues and expenditures that this requirement was included in the Constitution with a stipulation that the budget must be presented within three weeks after the Legislature convenes. Occasionally the Legislature's business has been disrupted by the Governor's failure to submit a biennial budget soon after the Legislature meets.

That a merit system in state and local employment be provided. Some recently amended state constitutions include a similar provision to strengthen the system for the selection of qualified employees. The New Jersey constitution adopted in 1947, and the New York constitution of 1938 contain such provisions.

The committee recommended and the Commission approved a number of other amendments. One authorized the Governor to restrict matters to be considered at a special session to those specified in the call. Another suggested to the Legislative Committee that the Legislature be authorized to convene itself in certain emergency situations because it seemed inconsistent with the separation of powers that the Legislature could not meet in special session except on call of the Governor.

Committee members approached their job with diverse opinions but after careful study were unanimous in their recommendations which were approved by the Commission with minor amendments. It is hoped these proposals will result in a full and complete public discussion of the entire problem.

Pike's Peak Best Known

Pike's Peak, towering over Colorado Springs, is the best-known though not the highest of the Rocky mountain peaks in Colorado. A summit of the Rampart range, it lifts its snow-capped peak 14,108 feet above the sea and is covered with pine forests to a height of 11,000 feet. During the summer season the ascent of the peak can either be accomplished by car from Colorado Springs and Manitou over a well graded and extremely scenic thirty-mile highway, or by cog railway nine miles in length.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

"Jimmy just isn't the type that likes school," says one mother. Perhaps another replies, "Well, my Janie likes school all right, that is, most of the time, but she certainly was never cut out to do arithmetic." And maybe still another mother chimes in, "Joe does just fine in arithmetic, but I never saw a child have such a hard time learning to write. Sometimes I think we just ought to give him a typewriter and let him go at that."

Or perhaps the conversation takes a different turn, and we hear comments like these: "Phyllis just can't learn to get along with children her own age. She's always getting hurt and coming home crying," and the reply, "Well, that's better than being like our tomboy Jean. She knocks down every child on our street and brags about it." There you have it. Five labels, in less than five minutes.

And then what happens? It is certainly human and natural enough for a few mothers to chat about their children, but comments such as the ones we have quoted may serve only to reinforce tendencies in these children which their mothers, if the truth were known, wish to change rather than to encourage. Children get some of their ideas as to what characteristics are most genuinely their own by comments such as these and the parent attitudes which lie behind such comments. Why should Jimmy make any effort to find pleasure and satisfaction in school when everyone agrees that he "just isn't the type?"

And why should Janie put any energy into the pursuit of arithmetic, when such a good excuse is as handy for her use? Why should Jean seek other ways of finding companionship with her age-mates when it is obviously accepted by adults that her method is to knock everyone down? Children often act in accordance with our expections, and build their ideas of themselves from the behavior we adults expect and select to talk about. If we provide them with easy excuses, we discourage them from making genuine efforts to explore life for themselves and find varieties of satisfaction.

Speaking of displaced persons—what will the election do to some of the present office holders?—Westminister (Md.) Times.

Death Rate

There has been a great shift in the causes of death from diseases of youth toward diseases of later years. In 1940, 27 per cent of America was over 45 years of age. This group used more than half of America's medical attention and services. By 1980 those over 45 will make up almost 50 per cent of the population, and they will require much more service. In 1900, one person in 25 was 65 years of age or elder; in 1980 the proportion will be one in 10.

Bow Hunting for Deer

At the end of the last fall season, the total number of arrow-killed deer during the 13 years of legalized bow hunting in Wisconsin was less than 1,000, considerably less than the salvaged illegal gun kill during the 1947 big game season. Today bowmen do not bag 1 per cent of the total annual kill. More deer have been killed by automobiles than by bow hunters.

John Brandt Cites Pressures Pushing Down Farm Prices

John Brandt, president of Land O'Lakes Creameries, Inc., today attacked "pressures" pushing farm prices downward, and warned that some of the slowdown already apparent in business is a reflection of what is happening in agriculture.

He said that with the heavy marketing season at hand for grain, poultry and livestock products it is natural that some pressure is being exerted against farm prices. But additional pressures from government and business sources, as well as from buyers, he declared, is creating a lack of confidence so far as prices for all agricultural products are concerned.

Studying news articles and listening to radio commentators during the past week, he said, disclosed that almost without exception our writers and commentators reflect the hope of the consumer that happy days are ahead because of the rapidly declining prices of farm products.

"Inasmuch as we are in the midst of a hot political campaign, and since consumers outnumber farmers," he said," we have political pressures and promises of cutting living cost for consumers.

"Since most politicians also claim that they want to keep farm prices up, there is a lot of double-talk in the situation."

Whether prices for agricultural products can be held down to present or lower levels is still an uncertain question, he said. The price for dairy products, he pointed out, is not so much affected by current production, which is low and still declining, as by storage holdings and the general consumers' attitudes toward all agricultural products.

The storage holdings are not sufficient to cover the consumer demand during the short period of production at present price levels, he declared. The longer prices stay at these levels, he said, the greater will be the reaction and upward turn.

"Just ahead of us we have the short production month of November," he said, "and it would not be surprising to see an upward turn in the price of dairy products that might last well through the winter of 1949."

Mr. Brandt said that 1948 is the first year since the beginning of World War II that there has been any visible surplus of grain, and rains and favorable weather came barely in time to save the situation. The law of averages, he said, can easily put us in a deficit position so far as production in 1949 is concerned.

"We must recognize the fact that the present economic situation, considering our heavy tax load, can only be met if we have a high national income, which means good prices for farm products, good wages for labor and good income for business and industry."

HEALTH HINTS for LIVESTOCK

PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

TAKE NO CHANCES IN TREATING STOCK

Livestock health is a serious dollars-and-cents proposition. The farmer who fails to pay proper attention to disease hazards and nutrition problems is making a mistake which may prove tragic and costly.

Be sure he has proper credentials.

Neverless, needless losses are being reported every day. Animal husbandry authorities are more and more concerned over the problem of careless, indiscriminate "tinkering" with the health of valuable livestock and poultry.

Here is a summary of the most reliable advice on the right and wrong ways to tackle disease problems:

(1) Beware of impostors. In some localities, unscrupulous individuals are reported preying on livestock owners and claiming to be veterinarians. Before an owner permits anyone to treat his stock, he should be sure that person has the proper credentials and is licensed to practice veterinary medicine in his state.

(2) Go easy on "home remedies." Many diseases of livestock are so similar in appearance and symptoms as to require careful clinical examination, and frequently laboratory tests as well, to tell them apart. New "wonder drugs"—like penicillin, the sulfas, or hormone compounds—are useful in certain conditions but in others they are wasted, or may do actual harm. When animals become ill, it is frequently better to do nothing than to do the wrong thing.

(3) A loaded vaccination syringe may be a deadly weapon unless used by a person with proper scientific training. Indiscriminate vaccination or improper selection of products to be used may do more harm than good, sometimes actually spreading serious plagues of livestock while attempting to control others.

SCHOOL BUS CLINIC SET AT NEWFOLDEN

Buses to be Inspected Thursday, October 21

Two school bus clinics have been called for Marshall County during the month of October. The first of them will be held in the gymnasium of the Newfolden Community School on Thursday, October 21, and the second clinic will be held at the courthouse in Warren on Friday, October 22. Both Clinics will begin at 10:00 A. M.

The school boards of all the districts in the county will instruct their bus drivers to bring their motor vehicles used in the transportation of pupils to the clinic most convenient to them for a thorough inspection. The drivers will attend a meeting at the conclusion of the inspection for the purpose of receiving instruction concerning the transportation of pupils.

The school bus clinics are called by the state department of education, the state highway department, and the state industrial commission. Each state agency will have inspectors at these clinics for the purpose of locating equipment deficiencies and giving instructions as to what should be done to make the vehicle safer for the transportation of pupils.

The school boards will require every driver operating an automobile, school bus, or other motor vehicles used in the transportation of pupils to bring such vehicle to one of the above-mentioned places for inspection.

GOVERNOR SPEAKS AT HEALTH PARLEY

Dr. Mellby Also Is on Program at Crookston

"It is good business to spend money for public health, Governor Luther W. Youngdahl said at the evening session of Red River Valley Health Day, which took place Thursday, Oct. 7, in the Crookston high school.

Speaking on health problems in the state, Governor Youngdahl said that he hoped county health councils would be formed as a result of the Health Day meetings. He also cited the need for local health unit legislation. "Our job today is to build healthy men and women," he said.

Dr. M. O. Oppegaard, mayor of Crookston, presented Governor Youngdahl at the evening meeting, that concluded the all-day program.

In the morning two round table discussions were held, one on "Protecting the Health of the School Child" and the other on "Preventing Accidental Deaths on the Farm and in the Home."

The afternoon session began with health movies which were followed by a discussion of "Our Community Health Problems." A series of short talks on specific health problems were the final event on the afternoon program.

Before the Governor spoke at the evening session a concert was given by the Crookston high school band.

Representatives from nine counties participated in the event, which was sponsored by the Red River Valley Medical Society, its women's auxiliary, and the Minnesota department of health. The counties taking part were Kittson, Roseau, Marshall, Polk, Red Lake, Pennington, Lake of the Woods, Mahnomen, and Norman.

Among the outside speakers who appeared on the program were Dr. A. B. Rosenfield, Dr. R. N. Barr, Myhren Peterson, and Harold S. Adams of the State Department of Health; Alfred W. Luecke of the St. Paul Safety Council; Dr. O. F. Mellby of Thief River Falls; Mrs. Harold F. Wahlquist and Franklin Petri of Minneapolis.

A crowd larger than anticipated attended the program. Plans are already being made for a similar event next year.

Vitamins in Asparagus

When asparagus stalks are dark green, they contain more vitamin A value than when they are light in color. Vitamin C in fair amounts may also be present if the vegetable is used soon after picking and is not overcooked.

STEINER

Satersdal Luther League will meet at the church Sunday evening, Oct. 17. The program will be presented by Silver Creek Luther League. Mr. and Mrs. Arthur Moe will serve refreshments.

MINNESOTA HISTORICAL SOCIETY

CONTESTS FOR LOCAL OFFICES LACKING NOV. 2

Competition Only for 3 County Board Posts; Sample Ballot in Times

While an apparent lack of interest in the general election has been in evidence in this area to date, the publication in this issue of the Times of the sample ballots serves as a reminder to the voters that Election Day Tuesday, November 2, is only twelve days distant.

Interest in the campaign in Minnesota was enhanced last week with the appearance in the state of President Harry Truman, seeking election on the Democratic ticket; Governor Thomas E. Dewey, his Republican opponent; and Henry A. Wallace, Progressive candidate for the presidency.

Most of the fireworks in this state has been generated by the heated campaign for the United States senate between Joseph H. Ball, Republican incumbent, and Mayor Hubert H. Humphrey of Minneapolis, his DFL opponent. Ball's support of the Taft-Hartley law has been the chief target of Humphrey's criticism.

Candidates for state office have been staging more or less aggressive campaigns, Governor Luther W. Youngdahl and Charles Halsted in particular having made numerous appearances around the state. The governor's Republican backers are confident he will defeat his opponent by a substantial margin.

In the race for Ninth district representative in Congress, Harold C. Hagen, Republican incumbent, is opposed by Oscar A. Johnson, DFL aspirant. Paul A. Lundgren is unopposed in his candidacy for the 14th judicial district judgeship.

With two state representatives to be named from the 65th district, W. E. Day of Bagley and C. S. McReynolds of Clearbrook, incumbents, are opposed by Adolph W. Olson of Shevlin.

In Pennington county Henry Storhaug, clerk of court, and Herman A. Kjos, probate judge, are unopposed for reelection. Candidates for the county board in the first district are Theodore P. Hyland and Frank Race, whose names appear on the ballot, and Odin C. Hanson, who is a sticker candidate for the post.

Candidates in the third commissioner district are Carl R. Anderson and Paul Roy, while in the fifth district Simon Breiland and Glenn Tasa are competing for the place on the board shortly to be vacated by O. M. Mandt.

Also to be voted on November 2 are four proposed amendments to the state convention. Amendment No. 1 calls for a 50-50 division of state gasoline tax proceeds between the state and counties, instead of two-thirds to the state and one-third to the counties as at present.

Amendments 2 and 3 relate to procedure for revising the constitution, while Amendment No. 4 would authorize the state legislature to pay a bonus to veterans of World War II, altho making no provision for means of financing the cost.

LIONS CLUB NOTES TENTH BIRTHDAY

Enjoyable Affair Held Last Wednesday Night

Members of the local Lions club and their ladies participated last Wednesday evening in an enjoyable party in the Odd Fellows hall the affair having been arranged in observance of the organization's tenth birthday.

Following the serving of dinner, a hilarious skit, "Love and Hisses," was presented with all members of the group participating, and with H. O. Chommie playing the role of judge. Karl Gerstner served as program chairman.

Special guests at the party were Carl Slocum of Winnipeg, district governor, who presented W. G. Claffy, oldest past president, with a new copy of the club charter. Also present were Mrs. Slocum and Don Young, also of Winnipeg, deputy governor, and Mrs. Young.

Served Church 25 Years

REV. J. O. JACOBSEN
Pastor of the Evangelical Free church in this city, who will be honored this week-end on the completion of a quarter-century of service to the local church.

REV. JACOBSEN TO NOTE 25 YEARS OF SERVICE IN CITY

Friends to Pay Tribute to Veteran Pastor Next Saturday and Sunday

Friends will honor Rev. J. O. Jacobsen Saturday and Sunday on the occasion of twenty-five years of service as pastor of the Evangelical Free Church in Thief River Falls.

Rev. Jacobsen began his ministry in the local church on August 5, 1923, coming here as a graduate of the Trinity Bible school in Minneapolis. The congregation here to date is his only charge as pastor. He was ordained in Bloomington Temple, Minneapolis, in 1925. On May 3, 1928 he was joined in marriage to Miss Gyda M. Grendahl of Devils Lake, N. Dak. Rev. and Mrs. Jacobsen are the parents of two children.

Rev. Jacobsen is well known not only in Thief River Falls but throughout the valley area. At present he also is the vice chairman in the Union Gospel Tent Mission.

The program next Saturday is in form of informal greetings and testimonials by members and friends of the church at a supper to which invitations have been sent out and to be held in the Community Methodist church parlors.

Sunday afternoon's anniversary service is slated for 2:30 o'clock in the Lincoln high school auditorium to which the public is invited. Both gatherings are under the auspices of the Evangelical Free church. Visitors from out of town attending the annual meeting of the Western district of the Evangelical Free Church association also are to share in the anniversary gatherings.

HALLOWEEN PARTY PLANS GO FORWARD

Gay Time for Children in Prospect October 30

Lions club committees during the next few days will be busy completing arrangements for the annual community Halloween festival for children of this city and surrounding rural areas, it was announced today by Rev. D. T. Beadle, general chairman.

He stated that, owing to Halloween falling on Sunday this year, the festival will be held instead on Saturday afternoon and evening, October 30.

Events will include a late afternoon costume party for small children in the Auditorium, a parade at 7:15, followed by a movie party in the arena for children from the fifth grade thru junior high school, and a teen-age dance in the Auditorium.

Last Half of 1947 Real Estate Taxes Payable Before November First

County Treasurer A. R. Johnsrud today issued his annual reminder to owners of real estate in Pennington county that the last half of 1947 taxes must be paid before Monday, November 1, if payment of a penalty is to be avoided. With the rush of fall work on the farm just being completed, payments to date have been coming in slowly, Johnsrud reported.

COMMUNITY FUND DRIVE TO START NOV. 1ST

Many Organizations to Share in Proceeds of County-wide Drive

The Pennington county Community Fund drive will get under way Monday, Nov. 1. It was decided Wednesday at a meeting of representatives of all interested organizations.

Vic Jung was appointed chairman for the drive in Thief River Falls, while Mrs. Frank Hardisty will direct the activities of solicitors in the rural areas of the county, with members of the Farm Bureau doing the canvassing.

The purpose of the Community Fund is to coordinate, as far as possible, all local fund campaigns, and to permit residents to make their contributions to the various agencies in a lump sum. The allotment of funds is now being worked out, and the amounts sought to be raised will be announced next week.

Sharing in the proceeds of the campaign will be the Salvation Army, Sister Kenny Polio Foundation, Minnesota Cancer society, Boy Scouts, Girl Scouts and the United Service Organizations, commonly known as the USO, which is providing recreational activities for men being called into the armed services.

It was announced that the solicitors will also accept contributions to be set aside when requested for the specific use of the American Red Cross and the National Foundation for Infantile Paralysis.

SOUTH DAKOTA MEN TAKING OIL LEASES ON LAND NEAR CITY

Seek Leases on 30,000 Acres; Plan to Drill Before Winter Sets in

Two South Dakota men are seeking to obtain oil drilling leases on approximately 30,000 acres of land north and east of Thief River Falls, and they plan to start drilling a test well before winter sets, a gathering of more than 100 farmers was informed Wednesday night at a meeting in the district court room.

Gunnuf Gunstenson of this city, who made the announcement as local representative for the men, identified them as Claude Sherard of Hurly, S. D., and S. C. Andrews of Hudson, S. D., and said they are expected to arrive in the city within the next few days.

Gunstenson said the two men are interested in oil properties in Texas and Nebraska, and that a survey of this area dating back to last June has convinced them of the likelihood of striking oil here, whether or not in paying quantities. They will not solicit funds in this locality to aid in financing their venture, Gunstenson said.

Sherard and Andrews are seeking leases in the area east of the Thief River and north of Red Lake river, extending north into Marshall county. They are offering land-owners the usual one-eighth royalty. Some owners signed leases at the meeting last night, while others indicated they wanted more time to study the matter.

Pictures of Humphrey Visit in City Published in Last Issue of 'Life'

The city of Thief River Falls received a modicum of national publicity in last week's issue of Life, widely circulated picture magazine, as a result of the visit in this city October 5 of Hubert Humphrey, DFL candidate for the United States senate. Reproduced in the magazine was a picture of Humphrey addressing a crowd from a truck on the street adjoining the Hartz store, and another showing the candidate receiving a treatment for his overworked larynx from Dr. Charles Haberle.

3 HEARINGS ARE HELD ON SCHOOL DISTRICT SETUP

Sentiment at Meetings Favors Requesting More Time for Consideration

The predominant sentiment voiced during the past week at three hearings on the proposed reorganization of Pennington county school districts was that the state legislature should be asked to extend the time given residents of the affected to consider all phases of the matter.

That opinion was voiced at a hearing late last week in Goodridge, over which Alfred Skarstad, member of the county school survey committee, presided, while a similar view was indicated Monday night at a hearing in St. Hilaire, at which Elmer Erickson, committee chairman, presided.

At a hearing held Tuesday afternoon in the Civic and Commerce room in this city, Roy J. Oen, also a committee member, who presided, expressed the belief that final action would be deferred to allow more time for consideration. He also pointed out that consolidation will not be forced upon the various districts, against their wishes.

Mrs. A. C. Matheson, secretary of the committee, reported that at a recent state commission meeting in St. Paul sentiment had favored extending the time for arriving at a final decision. At the same time, she stated that the county report must be submitted by November 1 to the state department of education in St. Paul.

An informal poll conducted at the St. Hilaire meeting Monday revealed that in the event consolidation was called for, the districts represented at the hearing would prefer to join with School District 18.

ATTORNEY GENERAL BURNQUIST VISITS CITY

J. A. A. Burnquist of St. Paul, Minnesota attorney general, visited friends in Thief River Falls Wednesday in the interest of his candidacy for reelection November 2.

FIREMEN TO STAGE 54TH ANNUAL BALL OCTOBER 29

The time-honored annual Firemen's Ball, the oldest social institution in the Thief River Falls community, will be staged Friday, October 29, in the municipal Auditorium for the 54th time, Roy Langevin, fire chief, announced today, at the same time extending an invitation to the public to attend. Music will be supplied by the Smokey Mountain Boys.

5 Pennington Young Men Are Given Pre-Induction Physical Examinations

Five Pennington county young men registered with the local selective service board went to Grand Forks Monday to undergo pre-induction physical examinations. Included were Alert Ona, Raymond Molskness, DeWayne Johnson and Wilbur Koop of rural Thief River Falls, and James Sund of rural Oklee. Owen A. Olson, draft board clerk, had not received word yesterday of the number of men who will be called for induction in November under the peacetime draft.

SPECIAL ELECTION IN LOCAL SCHOOL DISTRICT OCT. 27

To Vote in Council Room 7 to 9 p. m. on Sale of Rural School Buildings

To get into practice for the general election November 2, voters of School District 18, embracing the city of Thief River Falls and a small adjoining area, are asked to go to the polls in a special election to be held next Wednesday evening, October 27, from 7 to 9 o'clock in the council chamber in the Auditorium.

The election has been called by the local board of education for the purpose of securing approval of the voters for the sale by the board of the rural school houses in Districts 73 and 165 in Rocksbury township, recently acquired by School District 18 as a result of a consolidation of areas.

Since there are no evident objections to the proposed sale, the approval of the matter appears to be a foregone conclusion, but state laws require the matter to be submitted to the voters.

Jaycees Take Part in Karlstad Parade Friday

The Thief River Falls Junior Chamber of Commerce was represented in the parade that featured the Potato Day festival at Karlstad last Friday by a float bearing Donna Brossoit, Miss Thief River Falls. Also participating in the festival was Belle Shopp of Hopkins, Miss America.

Examiners Making Audit

Four accountants from the office of the state public examiner in St. Paul arrived last Wednesday to begin an audit of the records in the office of City Clerk P. G. Pederson. To be covered by the audit is the four-year period from 1944 thru 1947.

Officials Discuss Plan for Survey of City by Engineers

Members of the city council and Mayor Harry E. Simons conferred Tuesday evening with S. L. Stolte of the engineering firm of P. C. Bettenburg and company, St. Paul, relative to the preparation for the city of a master plan covering past and present sewer, watermain and street improvements as well as projects in prospect for future years.

Douglas Stewart, city engineer, pointed out that the work of his department in laying out sewer and water main extensions and street improvements has been handicapped by the lack of records of work done in the past, and absence of information concerning elevations.

Mr. Stolte, who appeared here at the request of the council, proposed not only to bring the records up to date, but to envision the city's needs for twenty years or more in the future to permit systematic planning of public improvement projects.

While the cost of the undertaking will be substantial, those present expressed the view that it was essential that the city secure this information.

Mr. Stolte indicated that his company would submit a written proposal concerning the work to be undertaken, and the council is expected to take action at an early meeting.

1949 Models of Nash Cars to Go on Display Friday at Gustafsons

Together with other Nash automobile dealers thruout the nation, C. Gustafson & Son of this city will place on display in their show rooms Friday two completely new lines of 1949 Nash cars. The new "Ambassador" and "600" models are so drastically changed that they have been given a new name, "Nash Airflyte for '49". Advanced styling, improved performance and riding comfort and greater economy are claimed for the new models.

Absent Voters Ballots Available from Auditor

Absent voters ballots for the use of Pennington county citizens who will be absent from their voting places on Election Day November 2 are now available at the office of County Auditor A. M. Senstad at the court house. Senstad reminded the public that no absent voters ballots will be given out on Election Day.

Council Adopts $15,000 Levy; Plans 2nd Vote on Bonds for Water Plant

RITES WEDNESDAY FOR HANS J. ANTON, LEADER IN CO-OPS

Respected Resident Passed Away Saturday Afternoon at Age of 79

Funeral services were conducted Wednesday in St. John's Lutheran church for Hans J. Anton, long active in cooperative affairs in this community, who passed away Saturday afternoon at his home in this city at the age of 79 years. Interment was made in Greenwood cemetery.

Mr. Anton, born January 8, 1869, in Germany, came with his parents to the United States in 1884, and lived for a time on a farm in Iowa. He was married to Louise Hesse of Lincoln, Nebr., on Aug. 16, 1894.

They resided in Iowa until 1901, when they moved to Lincoln, Mo., and in 1913 they came to Pennington county. They were engaged in farming until coming to this city in 1927. Mr. Anton was very active in civic affairs and was a member of the board of directors of the Cooperative Creamery, as well as the Wool Growers Assn., the Soil Conservation Assn., and Pennington county fair board.

Left to mourn Mr. Anton are his wife Louise; six daughters, Mrs. William Mehrkens, and Mrs. George Swanson of this city, Mrs. Ernest Strehlow and Mrs. Clifford Proetz of St. Paul, Mrs. Frank LaFlex and Mrs. Sidney Algers of Thorpe, Wisc.; four sons, Nis, Christ, Lorenz, and Hans, Jr., of this city; a brother, Asmus Anton of Lincoln, Nebr.; 64 grandchildren and 19 great-grandchildren. His parents, a daughter, and two brothers preceded him in death.

KRYL'S ORCHESTRA HERE NOVEMBER 8

Women Musicians Offer Concert in Auditorium

The performances scheduled for Monday afternoon and evening, November 8, by the Kryl Women's symphony orchestra and famous soloists will be a notable feature of the local music season. The orchestra will appear at the municipal Auditorium at 3 and 8 o'clock p. m.

Director Kryl is reported to love music for music's sake; no matter where he appears or under what conditions, he enters into the spirit of his art with all the enthusiasm and vigor of his whole being.

The following well known soloists will appear here with Kryl and his women's orchestra: Zastraw, operatic and radio star; Herbert Moulton, tenor who was the first place winner, lyric tenor division of the Chicago Music Festival sponsored by the Chicago Tribune in 1947; and Vlasta Sedlovska, violinist of exceptional talent.

The orchestra's appearance in Thief River Falls is sponsored by the Civic and Commerce association and Junior Chamber of Commerce.

Junior Chamber Host to Ladies This Evening

As a preliminary to the dance in the Auditorium this evening sponsored by the Junior Chamber of Commerce, local Jaycees will be hosts to their ladies at the golf club house tonight between the hours of 7 and 9 o'clock, Wendell Olson, secretary, stated.

Gustafsons Plan Corn Show for November 19

The corn show, which is being revived here by C. Gustafson & Son has been definitely scheduled for Friday, November 19, in the company's show room. In announcing the date, C. D. Gustafson, head of the firm, suggested that local growers select ten ears of their best corn for exhibition at the show.

JOSEPH R. MEDLEY
Of Cloquet, governor of District 117, Rotary International, who paid an official visit to the Thief River Falls Rotary club Tuesday. He also conferred with President E. O. Peterson, Secretary Russell E. Olsen and other club officials on administration and Rotary service activities. Mr. Medley is a retired dry goods merchant in Cloquet.

SCHULKE TO HEAD NINTH DIST. RURAL LETTER CARRIERS

Elected Here Saturday; Mrs. Hylland of Grygla Heads Ladies Auxiliary

George Schulke of this city was elected president of the Ninth District Rural Letter Carriers association at its annual meeting in Thief River Falls Saturday evening. Mrs. E. S. Hylland of Grygla was named head of the ladies auxiliary.

Other officers elected by the carriers were Alex Deschene of Argyle, vice president; and Oscar Olson of Strathcona, secretary-treasurer. Mrs. Herman Lindberg of Karlstad was named vice president of the auxiliary and Mrs. Oscar A. Olson of Angus secretary-treasurer.

Oscar A. Olson, retiring president, served as toastmaster at the banquet served in the Terrace Room of the Rex Cafe, which was followed by a meeting in the Odd Fellows hall. George Schulke welcomed the gathering, and Postmaster Andrew Anderson of Thief River Falls was guest speaker.

Other speakers were Mrs. Lucian Hamel of Hamel, Minn., member of the national board of the ladies auxiliary; Mrs. Walter Pehl of Campbell, state vice president; Mr. Pehl, vice president of the state letter carriers group; and Gordon Bloom of Verndale, state treasurer.

Speakers stressed the advisability of adopting Amendment No. 1 in the November election, known as the gas tax amendment.

FEW CHANGES MADE IN ASSESSMENTS

Pennington Supervisor Speeds Work of Board

Only a few minor changes were made by the Pennington county board of equalization last week in the assessments of real estate and personal property as turned in by the township, village and city assessors.

The work of the board, said County Auditor, A. M. Senstad, was greatly reduced as a result of the coordination among the assessors that was made possible thru the activities of Gunnuf Gunstenson, serving as county supervisor of assessments.

The assessment rolls have been sent in to St. Paul for review by G. Howard Spaeth, state commissioner of taxation, following which Auditor Senstad will begin the work of computing 1948 tax rates for the various subdivisions of the county.

Estimates Now Indicate Treatment Plant Will Cost More Than in '45

The city council at its postponed regular October session last Thursday evening adopted a resolution calling for the raising by taxation of only $15,000 for municipal purposes in 1949, compared to $22,500 the past two years.

City Clerk P. G. Pederson reported that, based on a total assessed valuation of $2,486,000, the tax rate for city purposes would be approximately 6.2 mills, substantially below the 9.52 mills levied in 1947. It was pointed out that the tax levy covers only a fractional part of the city's operating expenses, the major revenue coming from the earnings of the municipal power plant and liquor dispensary.

Other important actions were taken by the council in the direction of an early start on the construction of the long-projected water treatment plant. With $249,000 available from the sale of a bond issue three years ago, it was voted to purchase more than $100,000 worth of equipment and materials that will be required for the completion of the plant.

Bids received on construction of the plant in 1945 were rejected when they ran approximately $100,000 over the funds available. It was hoped then that construction costs would gradually decline, but instead they have risen to the point where it is estimated by engineers that the cost on today's market will be substantially higher.

To complete the financing of the project a second bond issue will be required, and the council instructed City Attorney Theodore Quale to make arrangements for a special election to be held shortly, at which voters of the city will be asked to approve the issue.

RURAL TEACHERS ATTEND INSTITUTE HERE OCT. 14-15

Two Members of Bemidji College Faculty Talk on Conditions in Germany

The annual rural teachers' institute was held Oct. 14-15 in the Legion Club rooms, with Miss Cathryn Casey, of the state department of education, and County Superintendent Martha Matheson in charge.

The new curriculums in arithmetic and music were studied and discussed as well as plans made for the observance of the Minnesota Centennial next year.

Guest speaker was Dr. Johanna Lederer, who is a professor of natural science and geography at the University of Munich, Germany, and is now spending some time at Bemidji State Teachers College, studying American Education. He spoke on present education trends in Germany.

Miss Luella Keithahn, director of rural education at Bemidji College gave a very interesting account of her year in Germany. While there she was one of the supervisors directing the school reform program. She also traveled in Italy, Switzerland, England and the Scandinavian countries. She had taken a great many pictures in her travels, which gave a good insight of the Europe of today.

Martha Hammer Speaks Vows With Woodrow C. Craik Saturday Evening

Approximately three hundred guests witnessed the marriage vows, which were spoken by Miss Martha Hammer, daughter of Mr. and Mrs. B. B. Hammer of Smiley township, and Woodrow C. Craik, son of Mr. and Mrs. Andrew Craik of this city, at a pretty ceremony in the Bethany Lutheran church on Saturday evening, Oct. 16, with Rev. O. O. Bjorgan officiating. The double ring ceremony was used before an altar decorated with potted palms, and lighted candelabra and tapers.

Mrs. Frank Hardisty of Smiley played the traditional wedding marches, and Miss Annabelle Peterson sang "Because" before the ceremony, and "O Perfect Love" while the couple were kneeling.

Mr. Hammer gave his daughter in marriage. Her gown was fashioned of white satin, with high neckline, net yoke, leg o'-mutton sleeves tapering to points at the wrist, button back style, a full skirt with train, and a fingertip veil. She carried red roses and white carnations.

The bride was attended by her sister, Mrs. Adrian Nelson of this city, who was attired in an aqua sheer gown, with full sleeves and skirt. She carried a colonial bouquet of small red roses and carnations. Adrian Nelson attended the groom as best man.

The mothers of the bride and groom wore black floral dresses with black and white accessories, and corsages of pink roses.

Following the ceremony, the guests were entertained at a reception in the church parlors, given by the bride's parents. Lighted candles and flowers formed decorations for the tables, and the main table was graced with a wedding cake topped with two bells. During the reception Miss Annabelle Peterson sang two solos.

Prior to her marriage the bride was employed at the Starekow Clinic and the groom is employed by the local Post Office. They left on a wedding trip to Duluth and along North Shore Drive and the Iron Range, and after November first will be at home at 307 Arnold Ave. So. For going-away, the bride chose a grey gabardine suit with matching accessories.

Guests from a distance attending were Mr. and Mrs. Ben Hammer of Little Falls, Mrs. Morris Ballingrud of Minneapolis, Mrs. Charles Schmitz, Mr. and Mrs. C. L. Berg, and Mr. and Mrs. Nick Overboe of Fargo, N. Dak., and Mr. and Mrs. Don Hoff of Grand Forks, N. Dak.

Vows Spoken by Evelyn Steinhauer and Marvin W. Johnson at Holt

Nazareth Lutheran church at Holt was the scene of the wedding, Wednesday afternoon, Oct. 13, when Miss Evelyn Steinhauer, daughter of Mr. and Mrs. William Steinhauer of rural Thief River Falls, became the bride of Marvin Walter Johnson, son of Mr. and Mrs. Herbert Johnson of Erskine. Rev. V. G. Sorenson performed the single ring ceremony at an altar, beautifully decorated with flowers and lighted candelabra.

Miss Deloris Sandberg played a fifteen minute prelude of nuptial music on the organ, and the groom's cousin, Miss Lila Johnson sang "O Perfect Love" before the ceremony, and while the couple were kneeling "The Lord's Prayer."

The bride entered the church on the arm of her father to the strains of the bridal chorus from Lohengrin. Her gown was of white crepe back satin with net yooke, fitted bodice and long sleeves that came to a point at the wrist. She wore a fingertip veil, and carried a bouquet of red roses and white chrysanthemums with white ribbon streamers. Her only jewelry was a gold locket, gift of the groom.

Attending the bride were Miss Agnes Johnson, sister of the groom, as maid of honor, and Miss Yvonne Haagenson, a cousin, wearing pastel colored gowns of blue and green, respectively. They carried identical bouquets of red rose buds and yellow chrysanthemums. The groom was attended by his brother, Truman Johnson, as best man, and Clifford Steinhauer. Donald Steinhauer and Roy Johnson served as ushers.

The bride's mother wore a brown dress with matching accessories, and the groom's mother was in dark green with black accessories. They wore corsages of rose buds and yellow chrysanthemums. Mrs. Elsie Lunke, the bride's grandmother, wore black with a corsage of white chrysanthemums.

Following the ceremony a re- parlors for the guests. A ception was held in the church three tiered wedding cake topped with a miniature bride and groom served as a centerpiece of the bridal table, and was surrounded by carnation and petunia bouquets, and tall white tapers. Miss Lila Johnson, accompanied by Miss Sandberg, sang a solo during the reception. Miss Eileen Johnson had charge of the guest book; Mrs. Simon Moe, aunt of the bride, had charge of gifts; Mrs. Lloyd Haagenson, aunt of the bride, poured, and the groom's aunt, Mrs. Pearl Johnson of Mentor, cut the wedding cake. Assisting at the serving were Mmes. C. O. Larson, L. M. Larson of Holt and R. S. Wagner of this city.

The bride was graduated from the Crookston agricultural school. Mr. and Mrs. Johnson are now residing on the groom's farm near Erskine.

Guests from a distance attending the wedding were Mrs. Annie Christopherso, Mrs. S. Moe, Mrs. R. N. Hoad, Mrs. Joe Pulaski, and Mrs. W. Wagner of Duluth; Mr. and Mrs. Fred Steinhauer, Mr. and Mrs. R. Schulthorp and family, Arno Steinhauer, Mr. and Mrs. Emil Haagman and family, Mrs. R. S. Wagner of this city; Mrs. Peary Johnson of Mentor; Mr. and Mrs. Leo Johnson of McIntosh; and Mr. and Mrs. Bennie Johnson and family of Bemidji.

CORN EXHIBIT and PROGRAM

November 19th has been decided as the date for a renewal of our corn exhibit and program. Starting the program at 7:30 in the evening.

We have received response from several growers of corn advising their interest and cooperation to help make the exhibit of corn attractive and we urgently request all growers of corn in this entire territory to save ten ears of corn to bring in for this exhibit.

We want all exhibits in here any time after November 15th and not later than at noon of November 19th, as judging must be done in the afternoon of the 19th.

Details of our program have not been worked out as yet, but we do promise to do our very best to make it interesting and we want it understood that all farmers and their families are welcome to come—regardless of being an exhibitor of corn or not—But if you have the corn be sure to bring it.

If CORN EXHIBITORS will advise us as soon as possible of their entries, it will help us greatly in planning the exhibit display.

These events have proven very interesting to us and we are very happy to sponsor the program, but the exhibit depends on our farmer friends to bring in the corn, so we are asking all to help. If your corn is all in the silo, ask your neighbor, he may have some.

All the exhibits can be saved for a renewal showing at the Crookston Winter Show as we did last time—It is worth while.

Further details of the event will be announced later and we are looking forward to a large exhibit and a big gathering.

Funeral Services Held at Grygla on Tuesday for John Vroman, 56

Funeral services were held on Tuesday afternoon at the Grygla Pentecostal Assembly for John Vroman, who passed away October 11 in Cloquet at the age of 56 years. Interment was made in St. Olaf cemetery east of Grygla.

Mr. Voman was born on Feb. 29, 1892 in Marshall county. He moved from Oslo, Minn. to Rollis with his parents who homesteaded there, when a young man. He was employed by a paper mill in International Falls for six years. In 1930 he moved to a farm west of Grygla, and since 1942 has been employed in Cloquet. He was a member of the Grygla and Cloquet Pentecostal churches.

Survivors include a sister, Mrs. Carl Rosing of Grygla, two nephews and a niece. His parents, a brother and a sister preceded him in death.

Rocksbury Pioneer Is Dead at 64: Services Today in St. Hilaire

Arnt L. Loberg, native of Rocksbury township, succumbed at a local hospital Monday at the age of 64 years. Rev. C. T. Fjelstul will conduct the services today in the Evangelical Lutheran church at St. Hilaire, and the body will be laid to rest in the Riverside cemetery.

Mr. Loberg was born in Rocksbury township Dec. 13, 1883, and lived there all his life with the exception of three years in St. Hilaire.

Surviving are two sisters, Mrs. Julia Swanson of St. Hilaire and Mrs. Clara Eid of Gary; three brothers, John and Elmer of Coeur d'Alene, Idaho, and Martin of Grygla; and an uncle. His parents, two sisters, and one brother preceded him in death.

GIRL SCOUT NOTES

On Wednesday of last week, Girl Scout Troop 21, held its meeting at the fire station. Ping-pong was played and the group looked at different animals. We went to the next building and saw how water was purified. Then the meeting was adjourned.

A request has been made that in the future all Girl Scout Scribes send their troop radio news to Miss Kay Barzen at KTRF in letter form or on a penny post card instead of calling it into the station. This will avoid any possible confusion or duplication.

LUTHER LEAGUES OPEN SESSIONS AT WARREN SATURDAY

Rev. John Kronlokken of Trinity Church to Preside at Session

A combined convention of the Thief River Falls and Crookston Circuit Luther Leagues is being held at Our Saviours Church at Warren this weekend. The Rev. F. E. Eikeland is host pastor. Young people from congregations throughout this northwest corner of the state will gather in convention under the theme: "Hear God's Word Today."

Speakers at the sessions will be: the Rev. G. E. Frost, head of the religion department of Luther College, Decorah, Ia.; the Rev. E. O. Ellefson, of the parish education department of the Evangelical Lutheran Church; the Rev. G. S. Thompson, pastor of Trinity Lutheran church, Thief River Falls; and Arthur Tweet, a well-known business man from Grand Forks. Also, Paul Sponheim, who was a delegate to the Lutheran Youth Conference at Valparaiso University will give a report on that significant meeting.

The convention will be called to order at 10:30 a. m. Saturday, October 23, by the Rev. John D. Kronlokken, president of the Thief River Falls Circuit Luther League. Saturday evening a banquet session is planned at which, besides the talk by Mr. Tweet, the latest Lake of the Woods Bible Camp film will be shown by the Rev. T. C. Hanson.

The convention service on Sunday morning will be held in the high school Auditorium at Warren. Liturgist will be the Rev. F. E. Eikeland, and the Rev. G. E. Frost will preach. The afternoon session will also include selections by the Junior Choir of Trinity church, Thief River Falls, under the direction of Miss Marilyn Lee.

CITY TAX LEVY SET AT ONLY $15,000 BY COUNCIL THURSDAY

(Continued from Page One)

The council authorized the payment to the Jay W. Craig company of $59,098 covering the cost of resurfacing the paving in the business district and the bituminous treatment of Pennington av.

Given its first reading was an ordinance authorizing the police department to organize a policemen's relief association under the provisions of a law enacted by the legislature at its 1947 session.

Biggest building project approved at the session was the construction by the Gospel Tabernacle of a large addition to its church property on Duluth av. N. at an estimated cost of $30,000. A permit also was issued to Ingvald Hanson for the construction of an addition at the rear of his garage to cost $5,000, while Andrew Norby was authorized to erect a new residence on Merriam av. N. at a cost of $7,000.

Following presentation of a request by G. A. Frahm and Jim Roche, secretary of the Civic and Commerce association, the council authorized the expenditure of not to exceed $1,000 for additional decorations on the downtown streets during the coming holiday season.

Guest Speakers at First Baptist Church Sunday

Rev. Eric J. Anderson, Bible conference evangelist, will speak at the First Baptist Church at 11:00 a. m. Sunday. He is also speaking this evening, Thursday, and Friday night at 8:00 p. m. This service brings the Bible conference series to a close. Dr. Joseph Zacchello, secretary of the Prayer League and editor of the Christian Convert will speak at the 8:00 p. m. service.

SOIL CONSERVING SESSION IS HELD

Farm Planners, Engineers to Locate Here Shortly

The Pennington County Soil Conservation District supervisors met Monday evening, Oct. 18, with Art Libby. The meeting was called to order by the chairman, Paul Engelstad, and a discussion of how to obtain equipment to carry out the drainage work in the district followed.

Mr. Libby told the group of supervisors that they could expect two men, a farm planner and a farm planner's aid, to be located in Thief River Falls permanently with an engineer and engineer's aid scheduled here probably on a half-time basis.

Mr. Bullard, who is the soil man to be assigned to the soil conservation district here, will be here only the time necessary to make a complete soil map of each farm cooperating under the newly formed Pennington county soil conservation district.

SCHOOL REORGANIZING

At several meetings of citizens called by the county school survey committee during the past week for the purpose of determining public reactions to the committee's proposals for school district reorganization, it has been evident that not sufficient time is provided under the present law to properly present so involved a program. The law requires that a final report, with specific recommendations for district reorganization be completed by November first, and that these proposals for consolidation and reorganization be submitted to the voters for approval or rejection with nine months. With the first of November little more than a week away it would be impossible to prepare a reasonably satisfactory program of reorganization for this county.

This seems to be the situation generally throut the state and it is practically certain that the time limit will be extended or removed entirely by the legislature when it convenes this winter. In view of this probability it would not be out of order for the committee to conclude its work for the time being by recommending that further studies be made of the problem.

In several meetings that have been held the question has been raised as to the desirability of forming one large district centering around Thief River Falls and including approximately the territory that now is served by the Thief River Falls high school. That would include practically all of central and western Pennington and a portion of Marshall. If all territory were organized along similar lines we would have only a few districts that would be formed around the high schools by which they were served, such as Goodridge, Oklee, Plummer and Red Lake Falls, with county lines pretty much ignored.

School survey committees of all three counties have considered this possibility and probably favor the plan as an ultimate objective. As a high school education becomes better established as the required minimum of our educational standard it becomes increasingly desireable that all rural areas be brought into districts that maintain high schools. It is a possibility that should be given serious consideration.

Moving in that direction, the state legislature at its coming session probably will provide for a different procedure in the election of school boards. If we are to have large districts combining urban and rural areas then provision will have to be made for the election of school board members on an area basis so that there is an equality of representation in the management of the affairs of the district.

There are other considerations that are important too and that justify a further study of the problem before we commit ourselves to any one program. There is no need for hasty action. Better we know definitely where we are going and under what conditions before we start traveling. A good job has been done in bringing this problem to the attention of the peolpe and now that we are aware of the need for reorganization we should be able to settle down to the business of working out the details with ample time to figure out all the angles.

Topics of the Times

Remember way back when we didn't have polls to tell us in advance how elections were going to turn out?

That new water treatment plant is going to cost a lot of money, but it's one thing this town can't get along without.

Governor Earl Warren should get good support in this area. His wife was born in Sweden.

We know a little girl who, at the age of three, was able to rattle off that Alka-Seltzer phrase, "Analgesic sodium acetyl salicilate."

And now the Northwest Angle is to be opened to logging operations. That will just about clean up the original timber stand in Minnesota.

It's time, folks, to set aside a few dollars for the Pennington county Community Fund drive, slated to open shortly.

Our Appleton colleague tells about the little boy who swallowed several small coins and then asked his mother if she could see any change in him.

Simile—As tough as fall plowing has been during the dry spell.

2 BOYS IN COURT FOR CAR BREAK-IN

Washington Youths Commit Offense Friday

Two youths, ages 16 and 18, giving their addresses as the state of Washington, were arrested by local police last weekend after having broken a window in the car of Alrik Elksten, employe of the Butler Construction company, early last Friday morning.

Charged with destruction of property, the 18-year-old was given a sixty-day jail sentence when he appeared in municipal court, but the sentence was suspended and he was placed on probation in custody of Leonard Hanson. The younger boy appeared in juvenile court and was placed on probation. The youths were ordered to make restitution.

Other activities of the police included the arrest on a speeding charge of Clair C. Larson of Hazel, who was fined $10, and the arrest of three men charged with intoxication, two being fined $8 each and the third $10.

The highway patrol Tuesday brought in Nels Klopp of this city who was charged with driving a motor vehicle while under the influence of intoxicating liquor. He was fined $75 and $4 costs and his drivers license was revoked.

Quentin Jones Delegate to Meeting in St. Paul

Reports of steps taken to recruit teachers more selectively and to improve teaching conditions will be made at the 125-member delegate assembly of the Minnesota Education association which will meet October 26 at the Lowry Hotel, St. Paul. Quentin Jones of the local school faculty will be one of the delegates to the meeting.

MRS. A. LENDOBEJA 4-H LEADERS HEAD

Is Elected at Council Meeting Tuesday Night

The 4-H leaders council meeting was held Tuesday, October 19, with H. A. Pflughoeft, district supervisor, present to aid 4-H officers and leaders plan their program of work for the coming year, according to Frank A. Hobbs, county agent.

Election of officers was held with the following being named: President, Mrs. Adam Lendobeja, Smiley 4-H club; secy.-treas., Mrs. William Kruse, Bray club; vice president, Mrs. I. J. Russell Steiner club.

Mr. Pflughoeft pointed out that through a planned program of work in the 4-H clubs, present members can be kept interested in the program as well as interesting new members.

Suggestions for meetings were given by Mr. Pflughoeft, who said that special events such as tours, picnics, 4-H Sundays, county fairs, etc. should be part of the program of work of each club.

Weekly Turkey Market Report

by SHETLER'S HATCHERY & POULTRY SERVICE

TURKEY MARKET RISING!

Turkey meat prices started upward October 20th, all weights included. The decline in toms has finally reversed. Market experts predict a considerable rise through November, especially on light toms and hens.

It will pay to finish birds to top market weights. The feed and meat price ratio is best in years. Growers who pool their birds will cash in on the rising market this year.

FOR FASTER GAINS, BETTER FINISH AND FEWER PIN FEATHERS, FEED STOCK-GRO FOR THE LAST 6 TO 8 WEEKS. Cost only 6 to 9 cents per bird. Stock-Gro is 100% animal nutrients and protein. Increases water and grain consumption, aids in assimilation of feed.

ORDER NORMINN BROAD-BREASTED BRONZE POULTS THIS YEAR.

ONCE IS ENOUGH!

Yes, one application of Dr. Salsbury's Vapo-Root is enough to get rid of all the lice and feather mites in your laying house. Just spread a thin line of Vapo-Root on roost poles. Fumes do the rest. Treatment remains effective for days — long enough to kill young lice which hatch later.

ELECT
Adolph W. Olson
Candidate for
STATE REPRESENTATIVE
DISTRICT 65

LINCOLN filed for State Legislature in 1832 and was defeated. Again defeated for Congress in 1843. In 1858 was defeated for U. S. Senate. Elected to Congress in 1846. Elected President of the U. S. of America in 1860. Lincoln proved to be one of the best presidents the United States has ever had. A liberal, he loved his country and fellowman. Lincoln believed in justice to all regardless of race, color or creed. Always in sympathy for the common man. Great defender for freedom. He proved that he had the qualifications when finally elected. A real statesman.

I believe in Lincoln's philosophy. A true American. We need men like him who have the heart and understanding of the serious problems of our country today.

I believe in being a servant of the people, not their master. Trust you will remember me Nov. 2, 1948. Will appreciate your support.

PROWLER ELEVEN PLAYS CROOKSTON THERE ON FRIDAY

Locals to End Season In Contest with East Grand Forks Wednesday

The Prowler football squad, after a week's recess, will return to competition this week, traveling to Crookston for an afternoon game against the Pirates, and on Wednesday night the locals will end their "home" schedule and their North Valley conference play by meeting the East Grand Forks team on the Lincoln field.

Due to the fact that the Minnesota Education Association convention is slated for Thursday, Friday, and Saturday, the game with East Grand Forks, originally scheduled for Friday night, October 29th has been advanced to Wednesday night, October 27th.

The Prowlers' defensive ability will be given a severe test in the two games for in playing Crookston the locals will be up against the Pirates' Dave Pilkey, and in the East Grand Forks engagement the Prowlers will be called upon to stop the Green Wave's Kermit Christianson. The two players, Pilkey and Christianson, are probable all-conference selections at halfback and fullback, respectively. Pilkey, an all-conference choice last year and co-captain of the Pirates this season, will be anxious to conclude his conference career by turning in a first-rate performance against the Prowlers.

Kermit Christianson has taken up much of the "slack" in the East Grand Forks backfield caused by the graduation of Cy DuCharme and Earl Gangeness. Christianson isn't too quick a starter on his rushes into the line, but once the husky fullback gets up momentum he's difficult to stop.

The East Grand Forks game will mark the final appearance on the local field for a number of the Prowlers, with the following blue-and-gold players being seniors and ending their high school football competition: co-captains Al Williamson and Joe Bradley, Jim Russell, Don Baken, Harley Wagner, Jimmy Arras, Hervy McMahon, Harold Baker, Wes Olson, Erven Skaar, and Luvern Olson. Harry Simons and Jack Winter, on the Prowlers' injured list, are also ending their football careers this year.

Donkey Basketball at Arena Next Thursday

The above picture is typical of the scenes that will entertain spectators at the sports arena next Thursday evening, October 28, at 8 o'clock, when two teams composed of local men will compete in a donkey basketball game.

NO. VALLEY LOOP NEARING END OF SCHEDULED PLAY

Grand Forks and East Grand Forks Elevens Are Still Undefeated

Conference standings:

	W.	L.	Pts.	O. Pts.
Grand Forks	3	0	101	7
E. Grand Forks	3	0	34	0
Crookston	2	2	20	38
T. R. Falls	1	3	7	44
Grafton	1	3	7	67
Devils Lake	0	3	6	27

Results of the week's games:
Devils Lake, 0, at East Grand Forks, 7.
Crookston, 6, at Grafton, 0.

Games this week:
Grand Forks at East Grand Forks.
Thief River Falls at Crookston.
Devils Lake at Grafton.
Wednesday:
East Grand Forks at Thief River Falls.

This week's schedule will find four teams—Thief River Falls, East Grand Forks, Crookston, and Grafton—concluding their North Valley conference football competition. Grand Forks and Devils Lake will end their conference play next week.

Thief River Falls will play at Crookston on Friday afternoon, and on Wednesday night the Green Wave of East Grand Forks will meet the Prowlers on the Thief River Falls field. The Spoilers of Grafton wind-up their conference schedule by entertaining the Satans of Devils Lake in a Homecoming game at Grafton.

Low scoring games featured the two games played last week, with East Grand Forks edging out Devils Lake, 7 to 0, at East Grand Forks; and Crookston topping Grafton, 6 to 0, at Grafton. East Grand Forks marked up their lone touchdown in the second period of their contest with Devils Lake, driving 70 yards in nine plays and with halfback Lloyd Pender skirting left end for eight yards and the touchdown.

The Crookston Pirates edged out a scrappy Grafton Spoiler eleven, 6 to 0, by tallying a touchdown in the third period, with Dick Morlan lugging the ball over the last goal for the six points. Grafton, as long as their all-round backfield star, Gene Burns, was in the game, held the Pirates in check, but early in the second period Burns was forced out of the lineup by an injury, and his loss handicapped the Spoilers offensive play.

There weren't any top-ranking changes in the conference's individual scoring column during the week as the two touchdowns recorded were marked up by newcomers.

Individual scoring:

Final Home Game

There are several reasons why local fans should be in attendance at the Prowler vs. East Grand Forks football game here on Wednesday night. It's the last "home" game on the schedule; it's the final appearance on the local gridiron of such Prowlers as Al Williamson, Joe Bradley, Jim Russell, Harley Wagner, Wes Olson, Harvey McMahon, Harold Baker, Don Baken, Jimmy Arras, and Erv Skaar and these boys deserve a big crowd as they make their final bow. And another reason, and perhaps the best, for attending the game is that it puts the locals against East Grand Forks, *and that means a ball game.*

Fans that were fortunate enough to make the trip to East Grand Forks last year and witnessed that struggle between the Prowlers and the Green Wave, know that the two teams played their finest football of the year. And that will probably be the case this year, for the East Siders are always "up" for their game against the Prowlers and there's no evidence to prove that they will be any different this year. Whether or not the Prowlers will make it a win over East Grand Forks is dependent upon the locals' ability to "contain" the Green Wave's chunky Kermit Christianson. Christianson, playing at fullback, isn't an explosive type of a back, but he does churn those powerful legs of his for good yardage on his plunges into the line, and if the Prowler tacklers don't hit him low enough they'll be carried for piggy-back rides as Christy barrels through the guards.

Don't forget, the East Grand vs. Prowlers game is on Wednesday night.

But before the Prowlers can get serious about the Green Wave game they have some unfinished business with Crookston and that's to be settled on Friday afternoon when the locals meet the Pirates at Crookston. Crookston, with Dave Pilkey in its backfield, and Jim Miller at guard, has developed into a powerful squad under its new coach, Pat Turner, and the red-and-black will be a slight favorite to defeat the Prowlers on Friday.

Quite a "Snag"

Dwight McFerrin of Minneapolis was visiting friends and relatives here last week; and on Sunday before last he went on a fishing trip up the river with Ed Christianson and LeRoy Ruprecht. While trolling the Thief river a short distance above the Squaw Point bridge, McFerring, with about 100 feet of line out, thought that he hooked his tackle into a "snag". That "snag" proved to be northern pike, and when the fish had been landed it proved to be a local record-breaker, weighing 28 pounds and being 39 inches long. We didn't have an opportunity to verify these measurements, but we have these figures vouched for by Ed and LeRoy.

Pug's Goose

Geese are plentiful, especially around the Thief lake and Mud lake refuges, and hunters are ringing those areas like a row of sentries. One of the largest geese so far reported was brought into town on Tuesday when Pug Lund came in from Thief lake with a 12-pounder. Pug, hunting Thief lake with Ole Ekeren, Don Olson, and Russ Embury, bagged his goose Tuesday morning.

Bob gets an offer

Bob Baker, member of last year's Olympic hockey team, received a telephone call one night this week from Joe Bretto in Hibbing. Bretto, former "pro" player with St. Paul, is manager and coach of the Hibbing team in the Arrowhead league and he tendered an attractive offer to Bob.

It's quite a boost for the caliber of hockey developed up here when the Iron Range will make an attempt to get players from this territory for their teams.

LOCAL MEN TO RIDE DONKEYS IN ARENA BASKETBALL GAME

40 & 8 Voiture to Sponsor Comic Event in the Arena Next Thursday Evening

One of the funniest events of the season will take place at the Thief River Falls sports arena on Thursday night, Oct. 28, at 8 p. m. when two local teams will play a donkey basketball game. For the information of those who have never seen a donkey basketball game, it is exactly what the name implies. The players attempt to play basketball, shoot goals and stay on top of a bunch of specially trained long-eared burros all at the same time.

The donkeys, which are furnished by Womack's Donkey Circus company, are stubborn, cantankerous and ornery, and know how to make a game of this sort very interesting for both the spectators and players. They hee-haw at the referee, sometimes lie down on the floor just when a player is ready to shoot a goal and generally behave in the manner expected of the little "desert canaries."

The 40 & 8 Voiture 737, which is sponsoring the laugh affair, will have a special committee on hand to keep the audience informed as to which is the player and which is the donkey.

The game has been arranged for the benefit of the midget hockey team.

In addition to the basketball game, there will be several novelty events designed for laughing purposes only. One of these events is a donkey milking contest, with an appropriate prize for the winner. Anyone who thinks they can milk a donkey may enter the contest by leaving their name with the sponsor.

B. W. Varco, M. D., chief, outpatient and reception service at the Veterans hospital, Fargo, N. Dak., was here Monday and was a dinner guest of H. B. Rafteseth, county service officer.

More Beginners Are Now Passing Tests for Drivers Permits

Beginner drivers applying for their first Minnesota driver's licenses are "coming up to bat" for their state driving tests better equipped to be safe motorists than ever before since the inauguration of the examination requirement. This is indicated by the state highway department announcement that during September, for the first time since the examinations began last January, more applicants passed than failed.

Out of 6,009 written examinations and road tests given last month, 3,353, or nearly 56 per cent, passed successfully and were granted driving permits, as compared with 2,656 who failed and will be required to try again before they can be licensed to operate motor vehicles in the state. In every previous month the number of failures had considerably exceeded the number who passed successfully on their first attempt, although improvement had been noted in recent months.

Driver examination supervisors of the highway department's traffic and safety division gave three clear-cut reasons for the changed trend:

High school courses in drivers training in many communities are proving their effectiveness in producing better and safer drivers, as students who have been trained behind the wheel and instructed in traffic laws now are coming in to take the drivers license tests and nearly all of them are passing the examination.

New drivers generally are becoming more aware of the necessity that they know basic traffic regulations and proper driving practices if they are to become licensed drivers, and consequently are putting in more serious study of the state's free Driver's Manual before coming in to take their tests.

The rescinding of a previous requirement that all drivers 70 years or more of age must be examined before renewal of their driving permits has eliminated this group of motorists from those required to take the test.

Of the 3,353 who passed the September examinations, 254 were required to correct their vision with glasses as a *condition to being licensed to drive.* Of those who failed during the month 1,091 failed the eye tests or written examinations and 1,565 were unable to pass the tests behind the wheel.

In all, 44,756 new driver examinations have been given since last January 1 when the law first became effective. Of these, 21,834 applicants have passed while 22,922 have failed on their first tests. There is no limit, however, on the number of times an individual applicant may take the examinations. Some applicants have returned as many as seven times, brushing up in the meantime on various phases of traffic regulations, control signs and driving practices, before being able to operate a car with a reasonable degree of safety, thereby earning the right to become licensed drivers.

Registered Nurses on Private Duty Will Get Higher Pay in Future

A new minimum fee schedule for private duty registered nurses in Minnesota will go into effect Nov. 15 raising the hourly wage of the nurses from $1.13 to $1.25, according to the Minnesota Nurses' association, St. Paul which yesterday issued the new employment standards for the group.

Some 1500 private duty nurses throughout the state will be affected.

Announcement of the new standards formulated by the private duty section of the association has gone out to all Minnesota hospitals, nurse registries, and medical society heads.

Other benefits awarded include $1 extra compensation on each shift for care of patients with contagious diseases, mental cases, and others requiring *special attention, overtime for* duty in excess of eight hours a day, hospital facilities such as dressing rooms and locker space, and specified relief periods.

The private duty nurse with three to five years' training is subject to call at any time and usually serves on most critical cases or during epidemics and other emergencies, according to association heads. She is considered an independent professional worker with no social security, no holidays, no sick leaves, or other benefits accorded employees in business or other fields.

Washing Wool

Wool needs very gentle treatment when wet to prevent shrinking. Therefore, wool should be washed in the shortest possible time, never over five minutes and less if possible in a washing machine. Very often it is safer to wash wool articles by hand.

HARDWARE MAN SAM E. HUNT SAYS . . .

Sam Hunt has many friends in town and out on the farms. He knows most of the folks personally who come in his hardware store. He says most of them are voting for Joe Ball. As for himself, he says . . .

"I'm Voting for Senator Ball because . . . .

"I look upon Joe Ball as a good insurance policy for Minnesota business. There are critical times ahead. We need men of proved honesty and courage and sound American principles to guide our nation. Joe Ball is no theorist in political affairs. He knows. We need Joe Ball to insure business against depression to insure the workingman of a job, to insure the farmer's prosperity, and to keep us out of war with Russia. That's why I'm voting to re-elect Joe Ball."

Announcement
To Voters of the First Commissioner District
PENNINGTON COUNTY
At the last Primary election a very light vote was cast and the very close vote for County Commissioner from the 1st District where only 28 votes separated the high and low candidate, has convinced a great many people that this vote did not indicate the preference of the majority of voters in this district, so a committee of voters have asked Odin Hanson to come out on stickers as a candidate for County Commissioner of District No. 1.

Easy way to demonstrate good party line manners

This is a "dovetail."

Notice how the pieces come together alternately—first from one side and then the other.

If you think of them as calls on a party line, you can see how usefully this pattern can work out—with one party's calls fitting neatly into the intervals left by the other. All you need do is space your calls to leave room for your neighbor's.

It is also said that a good dovetail joint lasts a lifetime . . . and dovetailed calls on party lines mean good service, too, for as long as you want it that way.

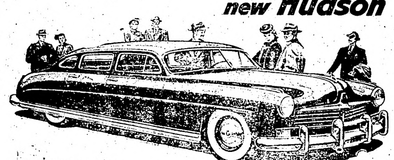
Here it is! A long look ahead!

The modern design for '49

new Hudson



Come in and see the new Hudson—the lowest-built car on the highway, with beauty, riding qualities, comfort and safety only possible because of a new "step-down" design, offered by no other automobile!

Only once in a blue moon does a car step so far ahead that it is a *protected investment* in motor-car value! You are invited to see just such a car—the New Hudson with "The modern design for '49"—and for years to come!

Here is truly streamlined beauty—a stunning combination of free-flowing, low-built lines that develop naturally out of a recessed floor which is the key to a basically new and exclusive design principle. The New Hudson is the only car you step *down* into.

The development of a "step-down" zone in an exclusive, all-steel Monobilt body-and-frame* permits Hudson to build the *lowest car on the highway*—only five feet from ground to top—while maintaining more interior head room than in any mass-produced car built today!

But streamlined beauty isn't the whole story of Hudson's modern design.

Hudson has a hug-the-road way of going on every conceivable kind of highway. The way in which this car takes even the sharpest curves makes it a "standout" for roadability in any year!

These remarkable riding qualities are largely due to the fact that the New Hudson provides the lowest center of gravity in any American stock car—yet road-clearance is ample! *It is a safety-engineered fact that the lower to the ground a car can be built, the more stability it will have and the safer it will be!*

Such a delightful conformity to the road, coupled with the protection of riding encircled by a sturdy box-section steel frame, gives to everyone who rides in a New Hudson a grand feeling of safe well-being. This feeling is further enhanced by the ease with which this car is operated, and by the restful quiet with which Hudson glides along—thanks to the superb sound control engineered into this advanced automobile.

See "The modern design for '49" today! Come in and let us show you the many advantages of Hudson's fascinating "step-down" design principle.

HUDSON FLOORS are recessed down within the frame (as shown above), full height seats are lowered, so you get ample head room in this car with the new, lower center of gravity.

YOU RIDE down within a base frame (as shown above), and rear seats are positioned ahead of the rear wheels so that full body width becomes available for wonderfully roomy seats. Box-section steel girders completely encircle and protect the passenger compartment.

TRY AUTOMATIC gear shifting in forward speeds as provided by Hudson's Drive-Master transmission—by far the easiest of all ways to drive. You can accelerate as long and as fast as you like in [illegible] gear, then lift your toe momentarily, and you're in high. The shift into high comes *only* when you are ready. Button control on the instrument panel provides instant change to conventional driving if ever desired. Drive-Master transmission is optional [illegible] all New Hudsons at small extra cost.

*Trade-mark and patents pending.

The only car you step down into NEW **Hudson**

From where I sit ... *by* Joe Marsh

I'm Glad We're "Different!"

There's a lot of difference of opinion in our county on the best kind of pasture. Some say alfalfa mixed with brome grass—others say mixed with oats or barley. But all agree that a *mixture's* better than a single crop.

I sometimes think people are the same way—and the strength of America is its *mixture* of so many different strains—some from one country, some from another—right down to little differences: like folks who have a taste for beer and those who prefer cider.

From where I sit, so long as we never become intolerant of one another's different tastes—so long as we live together with our differences, and even *supplement* them the way brome grass does alfalfa, then we're a mighty good crop!

So neighbor—enjoy your cider while I enjoy my beer! Vote for your candidate—I'll stand by mine! But never let our differences divide us!

1½ Billion Dollar Road Block!

Railroads must operate around the clock every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employes.

They want 48 hours pay for 40 hours work—in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25¢ an hour for every employe!

You'd Pay the Bill!

Summing up these demands, they mean that these union leaders seek to force the railroads to give *one million employes an annual raise which would average $1500 per employe!*

The total cost of this would be no less than 1½ billion dollars per year, which is more than twice the expected net income of the roads this year.

You'd pay the bill, because if these increased costs are forced on the railroads, they must have still further rate and fare increases.

Demands Unreasonable

These employes have had substantial raises during and since the war. The average hourly earnings are higher than the average hourly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of [illegible] an hour, the Conductors and Trainmen recently settled their wage request for an increase of [illegible] an hour.

Railroads Run for Everybody—Not Employes Alone

The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. [illegible]

Gov. Dewey in Talk in St. Paul Outlines His Farm Programs

Minnesota farmers this last week received first-hand assurance from Governor Thomas E. Dewey, Republican candidate for president, of his strong support of the farm programs in which they have such a vital interest.

Dewey is "whole-heartedly and unequivocally for" price support for farm crops, will speed up rural electrification association extension, and will give full aid to an intensified program of soil conservation, he told audiences in cities and towns as he made a campaign tour of southern Minnesota. His speech in the St. Paul municipal Auditorium, broadcast over a nationwide radio network, was devoted largely to a discussion of his agriculture policy.

Dewey complimented the present Republican Congress for enacting the Aiken-Hope bill, providing for the first long-range crop price support program in history, and said that he believes in price support "because it will benefit the farmer and is for the good of all our people." Dewey said he had fought for such a program for eight years.

Price support "will be a major part of the program of your next national administration," Dewey declared. He said: "The consumer and the farmer have an equal stake in sound government support of farm prices. Tomorrow's meals cannot be left to chance, and today's farming sets tomorrow's table. A fine program of price supports will benefit both producers and consumers."

"We are going to speed up and push through the job of lighting up rural America," Dewey said, noting that the present Congress "voted by far the largest amount ever provided by any Congress to speed electricity to our farms—$800,000,000."

"On a farm electricity is a blessing which lifts some of the burden of work for farmers and wives," Dewey said. "More water pumps and milking machines, more electric refrigerators and washing machines, more quick freezers mean better living in rural America."

Speaking for a more effective program of soil conservation, Dewey said that: "From your next national administration farmers will get less politics and more practical help in soil conservation—the help a grateful nation owes them in the job of saving our land." There is a great need for increased technical assistance, Dewey said.

In St. Paul Dewey met with the editors of rural newspapers, discussing his farm policies and program in great detail, and answering questions. Owner and operator of a 300-acre dairy farm in Dutchess county, New York, Dewey displayed an intimate understanding of farm problems.

Proposed AMENDMENTS to the CONSTITUTION of MINNESOTA

J. A. A. BURNQUIST
Attorney General
State Capitol
St Paul 1, Minn.

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your request asking me to furnish you with a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 413.

This chapter of the 1947 laws proposes an amendment to Article IX, Section 5, of the Constitution of Minnesota. This section of the Constitution authorizes the state to levy an excise tax upon any substance, material, fluid, force or other means or instrumentality, or the business of dealing in, selling or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of this state. As the Constitution now reads, it provides that two-thirds of the proceeds of such tax shall be placed in the state trunk highway fund provided for in Section 2 of Article XVI of the State Constitution, and one-third thereof in the state road and bridge fund. The purpose of the proposed amendment is to change these provisions for the distribution of the proceeds of such tax so as to provide that one-half of the proceeds of such tax shall be placed in the state trunk highway fund and one-half thereof shall be placed in the state road and bridge fund.

The effect of the proposed amendment is to reduce the proportion of the proceeds of such tax which shall be placed in the state trunk highway fund from two-thirds to one-half and increase the proportion thereof which shall be placed in the state road and bridge fund from one-third to one-half.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws of Minnesota for 1947, Chapter 640.

Laws of Minnesota for 1947, Chapter 640, proposes an amendment to Article XIV, Section 1, of the Constitution of Minnesota. The Constitution now provides that:

"Whenever a majority of both houses of the legislature shall deem it necessary to alter or amend this Constitution, they may propose such alterations or amendments, which proposed amendments shall be published with the laws which have been passed at the same session, and said amendments shall be submitted to the people for their approval or rejection at any general election, and if it shall appear, in a manner to be provided by law, that a majority of all the electors voting at said election shall have voted for and ratified such alterations or amendments, the same shall be valid to all intents and purposes as a part of this Constitution. If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

The purpose of the amendment proposed by said Laws 1947, Chapter 640, is to eliminate from Article XIV, Section 1, of the State Constitution as it now reads the following words, to-wit:

"If two or more alterations or amendments shall be submitted at the same time, it shall be so regulated that the voters shall vote for or against each separately."

Article XIV, Section 1, of the State Constitution, as now worded, requires that if two or more proposed amendments are submitted at the same election they shall be so submitted that the voters may vote for or against each separately. The purpose of the proposed amendment is to eliminate that requirement. The effect of its adoption would be to make it possible for the legislature to submit two or more proposed alterations or amendments to the State Constitution at the same time in such form that a voter thereon shall be required to vote for or against all of them as a group and not on each separately.

Very truly yours,
J. A. A. BURNQUIST

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement showing the purpose and effect of Laws 1947, Chapter 641.

Laws 1947, Chapter 641, proposes an amendment to the Constitution of Minnesota, Article XIV, Section 2.

Said Article XIV, Section 2, now reads as follows:

"Whenever two-thirds of the members elected to each branch of the legislature shall think it necessary to call a convention to revise this Constitution, they shall recommend to the electors to vote at the next general election for members of the legislature, for or against a convention; and if a majority of all the electors voting at said election shall have voted for a convention, the legislature shall, at their next session, provide by law for calling the same. The convention shall consist of as many members as the House of Representatives, who shall be chosen in the same manner, and shall meet within three months after their election for the purpose aforesaid."

If the amendment is adopted, said Article XIV, Section 2, would read as follows:

"Two-thirds of the members elected to each branch of the legislature may provide by law for calling a convention to revise this Constitution. The convention shall consist of as many members as the House of Representatives, who shall be chosen in the same manner and shall meet within three months after their election for the purpose aforesaid."

Under the present provisions of the Constitution, the calling of a convention to revise it requires that the legislature, by a vote of two thirds of the members of each House, shall submit to the voters of the state at the next general election the question as to whether such convention shall be called by the legislature at its next session.

The purpose of the proposed amendment is to eliminate the requirement of a vote on the question by the voters of the state and to authorize, without such vote, two thirds of the members of each House to provide by law for calling such a convention.

The effect of the proposed amendment to Article XIV, Section 2, of the State Constitution, is to transfer the power to call a convention to revise the State Constitution from the electors expressing their will by a majority of all the electors voting at said election to two thirds of the members elected to each branch of the legislature.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

"Wildcat" Well

A "wildcat" well is a well drilled on unproved land, an exploratory well, a well that one hopes will open a new field. There would be no oil business without wildcats.

January 14, 1948

Honorable Mike Holm
Secretary of State
State Capitol

Dear Mr. Holm:

This letter is in reply to your communication requesting a statement of the purpose and effect of Laws 1947, Chapter 642.

This law proposes an amendment to the Constitution of Minnesota by adding thereto a new article to be known as Article XX of the Constitution. The proposed amendment to be known as Article XX would read as follows:

"Section 1. The state may at any time pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946; may levy taxes and appropriate monies for such purpose; and if and whenever authorized, and in such amounts and on such terms as may be fixed by the Legislature, may expend monies, may contract debts, may issue and negotiate bonds or certificates of indebtedness, or both, and may pledge the public credit, to provide money therefor. The provisions of section 5 of Article 9 of the Constitution shall not apply to the provisions of this section, and the purposes for which the credit of the state may be given or loaned as herein provided are declared to be public purposes.

"Sec. 2. Repealing inconsistent provisions. Any and all provisions of the Constitution of the State of Minnesota inconsistent with the provisions of this article are hereby repealed, so far, but only so far, as the same prohibit or limit the power of the Legislature to enact laws authorizing or permitting the doing of the things hereinbefore authorized."

The purpose of the proposed amendment to the State Constitution which would be known as Article XX thereof is to empower the state at any time to pay an adjusted compensation to persons who have served in the Armed Forces of the United States during the period from and including September 16, 1940, through December 30, 1946. It will also empower the state to levy taxes and appropriate for such purpose, and, in such amounts and on such terms as may be fixed by the legislature, to expend monies, contract debts, issue and negotiate bonds or certificates of indebtedness, or both, and to pledge the public credit, to provide money for such adjusted compensation. The proposed amendment will expressly provide that the provisions of Article IX, Section 5, of the State Constitution shall not apply to the provisions of the proposed Article XX and that the purposes for which the credit may be given or loaned thereunder are declared to be public purposes.

The effect of the proposed amendment will be to empower the legislature to enact the legislation necessary to provide for the payment of an adjusted compensation to persons who have served in the Armed Forces of the United States during the period therein designated, to levy taxes and appropriate monies for such purpose, to contract debts, issue and negotiate bonds or certificates of indebtedness and pledge the public credit, to provide money therefor.

Further, the proposed amendment would remove the restrictions, if any, in Article IX, Section 5, of the Constitution, relating to the expenditure of public money and the contracting of public debts for the purposes stated, and would declare that the purposes for which the credit of the state may be given or loaned in pursuance of the amendment are public purposes.

The proposed amendment would also repeal any provisions of the Constitution of Minnesota inconsistent with the provisions of the amendment.

Very truly yours,
J. A. A. BURNQUIST
Attorney General

Penalty for Murder

Only six of the states have abolished the death penalty. In 24 states the electric chair is the lethal instrument. Nine states still hang convicted murderers, eight gas them to death, and Utah grants a choice of hanging or shooting.

PARENTS DAY SET FOR NOVEMBER 6 AT N. W. SCHOOL

More Than 500 Expected to Be in Attendance at Event in Crookston

More than 500 parents of students enrolled at the Northwest School of Agriculture, Crookston, are expected for the 29th annual Parents' Day on Saturday, November 6. Parents are guests of the students and school for the noonday dinner and an all-day program.

The program starts at 10:00 a. m. with tours of the students' home project show and the school buildings. Officers and directors of the Northwest School Parents' Association will have their business meeting at 11:00 a. m. with the association meeting called for 1:30 p. m. The all-student program, to be held in the auditorium, will be at 2:00 p. m. and this will be followed by a coffee hour.

Northwest School Parents' Association officers are: Oliver Thormodson of Dalton, president; Herman Solum of Argyle, vice-president; J. W. Sutherland of Hallock, secretary-treasurer. Pennington County director is Ray Martinson of Thief River Falls.

State Charges Bicycle Rider with Drunkenness

Pedestrians endangering their own lives by violating traffic laws enacted for their protection have come in for their share of "protective custody" by the state highway patrol this fall.

During August and September, the state highway department discloses, 15 drunken pedestrians have been picked up on the highways by patrolmen and 104 others have been given patrol warnings for improper walking or soliciting rides, both of which are violations of state traffic laws.

Topping the two-month list for unusual traffic violations, however, was a "drunken driver" arrested for riding a bicycle in arterial highway traffic while intoxicated.

MINNESOTA CANNED CORN PACK MAY SET RECORD

With Minnesota canners contributing an estimated record volume of 5,050,000 cases, the nation's pack of canned corn is expected to total more than 30 million cases, the American Can Company's agronomy division revealed today. The Minnesota pack estimate for this year was 1,200,00 cases higher than last year and above 1946's high of 3,452,552 cases.

CROP Agency Is Seeking Aid for Starving People

Minnesota farmers will be called upon to answer the prayers of starving people overseas, for wheat, corn, soybeans, sugar, milk, meat and meat products in November as county CROP committees swing into action all over the state.

The 1948 CROP appeal, opening November 7 in Minnesota with a Minnesota train of food by Thanksgiving as its goal, will ask especially for those six products as it urges every farmer in the state to share the plenty of this year's harvest with his needy neighbors around the world.

Twenty-three county committees have been organized so far, for the CROP appeal with new committees being set up daily in every corner of the state.

CROP is sponsored by a dozen farm organizations in Minnesota as well as Catholic Rural Life, Lutheran World Relief and Church World Service which includes 21 Protestant denominations. Rev. Leonard Thompson, Glenwood, is state chairman.

Gas Tax Amendment Passage Is Sought by Good Roads Unit

Good rural roads affect the prosperity of urban and rural residents alike, Mary Miles, Executive Secretary of the Minnesota Good Roads Association, says in an appeal for urban support for Amendment No. 1, the so-called 50-50 gas tax amendment.

The greater part of urban industry in Minnesota, it is pointed out, is devoted to processing and marketing farm products and supplying machinery and other commodities needed by the farmer. City, village and farm residents all have a vital interest in good roads *connecting* rural and urban areas.

Urban residents, because they do most of their traveling on city streets and state trunk highways, may not be aware of their interest in other rural roads. They are reminded that the food on their tables and many things they buy, in most cases, started their journey from the farm to the flour mill, packing house, cannery, creamery, milk depot or city store, over secondary roads.

Rapid growth of dairying, livestock and poultry raising and other types of diversified farming, together with the development of food processing *at central plants,* has increased the burden of truck traffic on all rural roads. General use of busses for taking children to school has added to the problem.

Improvement of all classes of roads is needed to carry the growing burden of travel and transport. A balanced program of road financing demands that the counties receive additional revenue.

At present, the trunk highway fund gets two-thirds and the counties one-third of the gas tax. Amendment No. 1 would give the trunk highways and the county roads one-half each. It would not affect other revenue.

The amendment does not fix the amount of tax. Gas and license tax rates are set by the Legislature.

TEMPERANCE UNIT MEETS IN WARREN

Ninth District Board Prepares for Election

The Ninth District Temperance Board met in Warren, October 11. The legislative committee, previously appointed, made a preliminary report on the attitude toward temperance questions of a number of the legislative candidates from the district.

This committee was instructed to continue its work in determining the stand of all candidates for office on temperance law enforcement issues. They will present a formal report on their findings at the next meeting of the board to be held shortly.

Reports were also received from the educational and finance committees. An educational program is in progress for future development in this district.

Announcements of interest to the voters of the Ninth district will be made over radio station KTRF, Thief River Falls, Tuesday evening, October 26, at 9:15 P. M. on the regular weekly temperance broadcast sponsored by the board.

THE FLOWERS THAT BLOOM IN THE FALL—

Five lilies on two stems are unusual, but when they appear in the fall, Mrs. Ernest Radloff at New Ulm knows it's news. In the same town from September 6 through mid-October the Sisters of Holy Trinity have decorated their church altar with Easter lilies from their own resplendent garden. Mrs. Tem Christopherson, Brainerd, is proud of a lilac bush in full autumn bloom. At Rochester Mrs. A. J. Bullert is picking lovely oriental poppies — ideal Hallowe'en colors.

Road Builders' Leader Urges Farmers to Sell Their Scrap Machinery

Your old tractor rusting in the yard may be one reason why the old wooden bridge hasn't been replaced with a new steel structure, Charles M. Upham, engineer-director of the American Road Builders' association, today urged road builders and farmers to cooperate with the government in selling old machinery for scrap.

"Farmers and road builders have a tremendous amount of out-of-date machinery and tools lying around which are no longer in use, "Mr. Upham said. "The steel industry is crying for scrap. And it is precisely the obsolete heavy machinery which the steel mills need to keep running at capacity."

He went on to state that the need for steel scrap is urgent because "scrap inventories are low during the fall and winter months. At the same time the demand for scrap is higher than ever before in history."

According to the Department of Commerce, the steel industry could use 29,000,000 tons of scrap this year if it had it. The industry used 26,000,000 tons last year, and it is estimated that an additional 3,000,000 tons of steel were lost in 1947 because there was not enough scrap to meet industrial demands. On the average, it takes about two tons of scrap to make one ton of steel.

GOOD FELLOWS GET TOGETHER

John Lattin mentioned to a Rapid City, S. Dak., store clerk that he was from Blue Earth. She said her husband's grandfather used to live there. Richard Hobert and Mr. Lattin turned out to be cousins who hadn't seen each other in 50 years. Nearly a half century ago Nels Persson and Henry Holmgren were pals in Sweden, Mr. Pearsson came up from Nebraska this fall to visit Mr. Holmgren at Henning.

Bergh-Robbins Vows

At a double ring candlelight wedding ceremony performed by Rev. M. E. Arneson at eight o'clock Saturday evening, Oct. 9th in Lund Lutheran church at Gully Miss Blanche LaVern Bergh, daughter of Mr. and Mrs. Henry Bergh of Gully became the bride of Willard Sulem Robbins son of Mr. and Mrs. Vearn Robbins of Minneapolis.

The bride who was given in marriage by her father entered to the strains of Lohengrin's Wedding March played by Carroll Ellertson. She wore her mother's white satin floor length wedding gown with insertions of lace. Her floor length veil also had lace insertions and a crown of beaded pearls. She carried a bouquet of pink roses and white carnations.

Mrs. Jerome Berry sister of the bride was matron of honor and Miss Carol Robbins sister of the groom was bridesmaid. Both wore blue formals with matching veils and gloves and carried bouquets of pink and white carnations and yellow daisies. Tom Anderson, close friend of the groom, served as best man and Sanford Bergh brother of the bride served as groomsman.

Sandra Bergh and Cheryl Brekke nieces of the bride were flower girls. They wore matching formals of yellow organdy with white ribbons and carried baskets of rose petals.

The ushers were Jerome BeBrry and Bill Campion.

Mardelle Christianson sang "Because" and Olof Lee sang "The Lord's Prayer" accompanied by Carroll Ellertson.

The church was decorated with baskets of autumn leaves and vases of bittersweet.

Mrs. Bergh, mother of the bride wore a brown dress with brown accessories. Mrs. Robbins mother of the groom wore a dark green dress with black accessories. Both wore corsages of white gardenias and rosebuds.

Following the ceremony a reception for about 80 guests was held in the church parlors which had been decorated with blue and white streamers, blue bells and autumn leaves. The tables were also decorated in blue and white autumn leaves and bittersweet. A three tiered wedding cake topped by a miniature bride and groom formed the center piece on the brides table. At both ends of the table were double glass candle holders with white candles.

Mrs. Harlow Nyland poured and Mrs. Stanlye Malvig cut the wedding cake. Misses Mabel and Jeanette Bergh had charge of the gift table, Doris Lanman had charge of the guest book. During the reception Mardelle Christianson sang, "I Love You Dear" and Olaf Lee sang "I Love You Truly."

The bridal couple left immediately on a wedding trip to Duluth and the North Shore. For traveling Mrs. Robbins chose a royal blue suit with grey accessories. Mr. and Mrs. Robbins will make their home in Minneapolis.

FARM WOMAN PRAISES JOE BALL'S WORK

MRS. MARJORIE THOMPSON of Baker, Minn., lives on a farm and knows the needs of farmers. She stands for American unity. She says . . .

"I'm Voting for Senator Ball

because . . . .

I feel a definite personal responsibility to get out on election day and vote for Senator Ball—and to urge all other women to do the same. He stands for a strong America. He is against Communism and totalitarianism in all other forms. He has stood always for legislation that would give us security for our homes, our children, our husbands in their work. He is our strong bulwark against another war. He is experienced in national affairs. His opponent is inexperienced. That's why I'm voting for Joe Ball."

At Last—The Answer to Your Home Kitchen Nook Plans

Here's the idea you've been waiting to place in your home—a new Duran plastic upholstered booth for your kitchen or recreation room. It's the most popular thing to hit the northwest.

Booths, tables and chairs are installed by the Giese Hotel and Restaurant Supply Co. of East Grand Forks, Minnesota, specialists in the installation of these kitchen nooks to your specification.

They're easy to install. And they're wonderful for making use of ordinarily wasted space. All you have to do is to write or call your specifications to Giese's. They'll do the rest. You can get almost any color you want—red, ivory, blue, brown, yellow, green, tan, coral, beige, rose and many others.

The booth is upholstered in Duran Plastic, a rugged wearing, smooth-tailored, easily cleaned fire resistant material. Tables are Formica-topped with stainless steel trim, while chrome chairs match the booth. Mail coupon today. Better still, stop at Giese's at your earliest convenience.

NOTE THESE SPECIAL BOOTH FEATURES

- CUSHIONS
No-sag booth cushions are easily removed . . . giving you extra storage space beneath. Backs are heavily tufted.
- CLEANING
Both booth upholstery and table top are easily cleaned. This is a highly popular feature with all home managers.
- SPACE
Because Giese's install these booths to specification, you can tuck one into any spot usually considered wasted space.
- UPHOLSTERY
Giese-installed booths come complete with durable, long-wearing Duran Plastic upholstery.
- TABLE COLUMN
Chrome column table base gives extra knee and foot room for real relaxation.
- TABLE TOP
Formica top is stainproof, burn-proof and acid-proof. Tables are built to booth specifications.
- INSTALLATION
Giese's install these booths anyplace, anywhere. Send your specifications, Giese's will do the rest.

HIT OF THE YEAR!
Have *you* tried DYNAFLOW?

Do you want to know what the motorwise press has in mind when it talks about "the biggest advance since the self-starter"?

Do you want to know how it feels to command the smoothest flow of power to be found on land, on sea, or in air?

Then settle yourself behind the wheel of a Buick Roadmaster, and try out Dynaflow Drive.*

Here, you will find, is something vastly more than "no clutch" driving.

It's a brand-new way of transmitting the driving force from an engine to the rear wheels — without buck or bobble.

You have a drive that gets completely away from gears which have to shift.

You have a drive that takes you from a standing start — through every speed range — with a steady, willing swoop of power.

You have in Dynaflow a built-in supercharging assembly that combines the smoothness of oil with an instant response to acceleration.

You have, in other words, eager starts, easy-striding climbs, an unfettered pace on the straightaway — controlled by the gentle nudge of your toe on the gas treadle.

Except for parking or backing, there's nothing to do but steer the car, in a whole day's drive.

In ten wonderful minutes, you can check all these facts for yourself.

First step to this great adventure is to give us a call. Then we'll let nature take its course. But we might give you one hint: We'll be glad to book your order, whether or not you have a car to trade.

BUICK *alone* has all these features

- ★ DYNAFLOW DRIVE (Roadmaster Series)
- ★ TAPER-THRU STYLING (Super and Roadmaster)
- ★ VIBRA-SHIELDED RIDE ★ SAFETY-RIDE RIMS
- ★ HI-POISED FIREBALL POWER
- ★ ROAD-RITE BALANCE ★ RIGID TORQUE-TUBE
- ★ QUADRUFLEX COIL SPRINGING
- ★ SOUND-SORBER TOP LINING (Super and Roadmaster)
- ★ DUOMATIC SPARK ADVANCE
- ★ FLEX-FIT OIL RINGS
- ★ TEN SMART MODELS
- ★ BODY BY FISHER

*You get Dynaflow Drive, at extra cost, on Roadmasters only.

PATROL STEPS UP DRIVE ON UNSAFE CARS AND LIGHTS

State Highway Agency Is Waging Campaign on Defective Equipment

The Minnesota state highway patrol, in cooperation with local traffic law enforcement officials in many communities, has still further stepped up its drive on bad brakes and lights and motor vehicles operating with all types of illegal equipment which are hazards to traffic.

The September report of patrol activities, issued by the highway department, shows an all-time record number of 6,353 violations of this type detected last month and 4,561 motorists issued illegal equipment tags. More severely penalized were 321 motorists arrested and 404 given first offense tickets for this type of violations.

Patrol Chief Earl Larimer said the drive is continuing throughout the state, particularly because of the increased seriousness of dangers resulting from faulty lights, brakes and other equipment during the long hours of fall and winter darkness. In the past five months 17,576 motorists have been tagged for a total of 24,771 violations involving illegal or unsafe equipment.

Aside from continuing the war on defective vehicles, the highway patrol made 1,667 arrests during September and issued 3,318 "do not repeat" warnings for traffic violations.

Excessive speed caused 219 arrests, 213 warning tickets and 513 verbal warnings, while improper passing was the basis for 82 arrests, 66 tickets and 63 verbal warnings. Driving in the wrong lane, a frequent companion violation to improper passing, resulted in 21 arrests, 65 warning tickets and 353 admonitions to keep drivers on their side of the centerline.

Ninety-four drivers were arrested for driving while under the influence of intoxicating liquor and 193 for careless driving. Disregard of stop signs, a common cause of tragic intersection crashes, brought about the arrest of 110 motorists in September and issuance of warnings to 269 others.

Fines imposed by the courts upon motorists arrested by the Patrol totalled $31,526 last month, the highest total for any month of 1948.

THERE ARE TIMES WHEN YOU CAN'T LOSE

Twenty-five years ago Mrs. Robert B. Ellingson lost her engagement ring somewhere on their farm home near Benson. Long and diligent search was fruitless. This fall while raking leaves Mrs. Joseph Ellingson uncovered her mother-in-law's ring, good as new. Mrs. Paul Frenzel's football fervor was somewhat cooled when a sudden gust of wind took her mink cape through a coach window in the Chicago yards. But a trainman saw it, went into action during the game Mrs. Frenzel was called to the Dyche stadium ticket office, and there was her cape good as new.

Housing in Eureka Springs

Tourists are always amazed when they learn that 40 per cent of the population of Eureka Springs, Ark., lives below street level. But the answer is simple. An average house looks to be one-story when seen from the street. From the side, however, it can easily be seen that it is really five stories, the others extending down the side of the mountain.

ONE OF A SERIES ANSWERING QUESTIONS ABOUT YOUR BANK

WHY IS THIS BANK INTERESTED IN 4-H CLUB WORK?

Because for over 40 years, 4-H Club activities have brought education, guidance and inspiration to boys and girls in every rural community of the United States . . . because our national economy is based on the success of our agricultural program . . . and because our progress for tomorrow depends on our youth of today. The 4-H Club organization, with over 2 million members in over 85,000 clubs, ranks in importance with our educational system . . . it is a vital factor in developing know-how, latent abilities, self-reliance and ingenuity in those on whom the future of our country depends. We are interested in 4-H Club work because we are interested in youth . . . we are interested in this community, this state, and America.

And we back up our interest in 4-H Club work with ready co-operation in 4-H projects. Boys and girls participating in the 4-H Baby Beef Club activities are invited to talk over financing requirements with our loan department. We're here to help.

Luther League Elects Officer

The annual election of officers for the Bethlehem Luther League was held at the church on Saturday evening at the regular Youth Night.

The election results were: President, Valborg Huglen; vice president, Earl Waterworth; secretary, Helen Lindquist; treasurer, David Cook; P. T. L. secretary, Joyce Forland.

Lady Falls Into Open Cellar

Mrs. Randi Rue, 89 year old mother of Mrs. Theresa Saugen was quite badly injured on Sunday morning when she fell into an open cellar at the home of her daughter.

Mrs. Saugen was going down into the cellar to get some potatoes for dinner. Before doing this she went into the other room and told her mother, who is blind, not to come into the kitchen as the trap door to the cellar would be open. Evidently the elderly lady forgot her warning and walked into the open cellar. Mrs. Saugen, who was in the vegetable room, heard the noise and ran to the foot of the stairs and found her mother crumpled there, apparently dead. However she was only stunned, and in a few seconds was able to move and be of some assistance in getting back up the stairs. Mrs. Saugen then called neighbors and Mrs. Rue was taken to the hospital in Thief River Falls. There it was found that no bones were broken, but there were several bad bruises and cuts on her legs and head which needed surgical attention. Apparently Mrs. Rue will recover from her fall even though the doctors were surprised that it did not kill a person of her age.

Kermit Strandberg, son of Mr. and Mrs. Harry Strandberg, had a narrow escape last Friday evening when the truck that he was driving got out of control and tipped, rolling over twice. Kermit escaped with a few scratches but the truck was quite badly wrecked. The accident happened on highway 32 six miles east of here.

Harold W. Johnson, Saturday

Impressive funeral services were held from Bethesda Lutheran church, Marsh Grove on Saturday, Oct. 16 for Harold W. Johnson, prominent young Marsh Grove farmer, who passed away at the Veterans hospital, Fargo, N. D. on Tuesday, Oct. 12.

Rev. Carl Thompson, assisted by Rev. E. J. Ranum officiated. Special music consisted of two vocal duets by Yvonne and Donna Mae Lind and a vocal solo by Mrs. Kore Myhrer. Mrs. Emil Dyrud was organist. The large crowd in attendance and the many floral and memory wreaths bore mute testimony of the high esteem in which the departed friend was held. Members of the Otto Knutson Legion Post and other ex-service men in uniform attended the funeral of their comrade in a body, and following the service in the church, escorted the remains to the church cemetery, where full military rites were observed.

Harold Willard Johnson, son of Holger and Mable Johnson, was born at Grafton, N. D. on April 25, 1918. He was baptized the same year by Rev. Halsem of Grafton. He was instructed in the Christian faith and confirmed by Rev. Larson of Stephen, Minn.

In 1938 he moved with his parents to Marsh Grove township, Newfolden, where he spent his years on the farm, with the exception of over three years spent in the U. S. Army. He served overseas in the European Theatre, where he was in the U. S. Army. He was wounded in action. Upon his return he purchased a farm of his own near the home farm, and on April 8, 1947 was united in marriage to Avis Bakke, also of Marsh Grove. To this union was born two children, Helen and David.

Harold was a faithful member of the Bethesda Lutheran church. His congenial and helpful attitude won for him the admiration of many friends who came to know him. He will also be sadly missed by his comrades of Otto Knutson Legion Post, of which he was an active member.

Early in July he was taken very ill with a serious heart ailment, and since that time had been confined to the hospital. On October 6 the Veterans Hospital at Fargo allowed him to come home for a short visit. It was while he was home that he again became very ill and was taken back to Fargo, where he passed away on Tuesday, October 12. Rev. Bennet, Army Chaplain of the Veterans Hospital was with him during the last hours of his life.

Mr. Johnson leaves to mourn his untimely departure, his wife and two children, Helen and David; his parents, Mr. and Mrs. Holger Johnson; three brothers, Holger Jr., with the army at Fort Lewis, Wash., Raymond and Wallace at home; and one sister, Gladys (Mrs. Chester Gast) of Newfolden and a host of relatives and friends.

Interment was made in Bethesda cemetery. Honorary pallbearers all neighbors were Oscar Rokke, Sigval Ordahl, Andrew Ordahl, Helmer Lind, Ole Bjornrud and Glenn Wagner. May he rest in peace.

Mr. Charles Taylor Passes Away

Mrs. Charles Taylor of this community passed away at the hospital in Thief River Falls, on Sunday, Oct. 17.

Mrs. Taylor was taken very ill about 10 days ago and was taken to the hospital, where it was found that she had very high blood pressure. She seemed to respond to first treatments and hopes for her recovery were held. Later complications set in and she gradually became weaker until she passed quietly away early Sunday morning.

Arrangements are being made for funeral services to be held from Evangelical Free church on Wednesday afternoon, October 20. A complete obituary will be published next week.

We'll Give You a NEW Maytag

In the short time since our "Oldest Maytag Washer" contest was announced, we've been flooded with entries. But we feel sure that, somewhere in this territory, there's a Maytag older than any entered to date.

Remember, the present owner of the oldest Maytag will win a brand new Maytag. Three additional merchandize prizes are being awarded to the owners of the next three oldest machines.

Here are the contest rules:

1. Serial numbers of all machines entered in the contest must be in our hands by 5 p. m., (Saturday, Nov. 13).
2. The owner of the oldest Maytag agrees to exchange the machine for a new Maytag Washer at the time prizes are awarded.
3. Factory records of Maytag serial numbers will determine the age of washers entered in the contest. Decision of the factory as to the age of each washer entered will be final.
4. You need not be the original purchaser of the washer to win. (Many Maytags have given faithful service to several owners.)
5. Any Maytag owner is eligible, regardless of where the machine was originally purchased.

SMILEY

Wedding Bells

Within the span of one week, two of Smiley's most prominent [illegible] became brides, and they both had brilliant weddings, with all the "fixin's" that is. Delores Berswenger became the bride of Roger Mickelson of Kratka. They had such a pretty wedding at the St. John's Lutheran church in Thief River Falls a week ago Sunday afternoon. Joan Johnson, Duane Hanson and Donald Knutson were among the local citizens who attended the couple in marriage.

The reception afterwards in the church parlors catered to a full house of relatives and friends who made the occasion a thing to remember.

The couple left on a week's wedding trip to Minneapolis and other points.

Then there was Martha Hanson's lovely candle lit wedding at Bethany church Saturday evening. The lucky man to become her one and only was Woodrow Craik of Thief River Falls.

The reception immediately after the nuptial knot was held in the church parlors. The good folks of Smiley go all out in extending the very best wishes and congratulations to Mr. and Mrs. Roger Mickelson and Mr. and Mrs. Woodrow Craik.

Mr. and Mrs. Rudolph Hanson accompanied by Mr. and Mrs. Ingvold Hanson of Thief River Falls left Wednesday by car for a two week trip to the west. They planned to make a complete round going by the north route through Montana and Oregon, coming back by way of California, New Mexico, etc. The Rudolph Hanson's three daughters are staying with their grandparents, the Elias Angells in Thief River Falls while Duane Hanson is doing home work.

Coffee Party

Clara Olson and Mrs. Mark Olson entertained the neighbor ladies at coffee Tuesday afternoon at the Olson home. A pleasant social afternoon was enjoyed by Mrs. Carl E. Olson, Mrs. John Johnson, Mrs. Fred Brueggeman, Mrs. Carl Lindholm, Mrs. John Banum, Mrs. Donald Parker, Mrs. Bob Kraemer, Mrs. Lyzum Cota, Mrs. Bill Grundhaus, Mrs. Jim McCrum, Mrs. Orton Olson of Long Beach, Calif., Mrs. Jacob Olson of Thief River Falls and Mrs. O. N. Olson.

Mr. and Mrs. Lyzum Cota, Arlene and Bobby attended a large bridal shower for Mr. Cota's brother, Henry Cota and his bride, the former Agnes Armstrong. The shower was held in the church parlors of the Dorothy church last Sunday afternoon.

Mr. and Mrs. Alfred Banum and family of Viking spent Saturday at the home of their daughter, Mrs. Bill Grundhaus.

Sunday supper guests at the O. N. Olson home were Mr. and Mrs. Dave Christensen and children; Mrs. Regina Johnson, Mr. and Mrs. Orton Olson and Byron of Long Beach, Calif., Mr. and Mrs. Jim McCrum and family, Mr. and Mrs. Mark Olson and tots, Mrs. O. N. Olson and Clara, the Bill Grundhaus' also joined in later in the evening when they came to call.

What's Cookin'?"

This is the time of the year when the men folks like to try their hand at cooking. The dandy bunch of men of the St. Pauli church have a yen for just that this week. They are making feverish preparations for the excellent we hope, dinner of lutefisk and meat balls to be served Friday evening, October 22 in the church parlors beginning at six o'clock.

Thank You . . .

Whereas, we the missionaries of the Northern District of the American Sunday School Union met in Conference at Thief River Falls, October 11th through 13th, are thankful to our Heavenly Father for bringing us together in this Conference which we have all enjoyed under the banner of the American Sunday School Union, through Whom we have the privilege of proclaiming the Wonderful Word to the "otherwise unreached" of the rural areas; do hereby resolve:

To extend our most hearty thanks to the kind Christian friends and Christian agencies of this city; to the pastors who welcomed the missionaries to their pulpits where the work of the Society was made known; to the pastors who have brought us the messages of inspiration during our conference sessions; to the ladies of the Evangelical Free, Covenant, and Baptist churches for the tasty dinners provided.

To the Rev. J. O. Jacobson, pastor of the Evangelical Free Church; the congregation for placing at our disposal of their church as our headquarters; to the janitor who faithfully cared for our comforts, to the city of Thief River Falls for their cordial hospitality; to the homes where the missionaries and their wives were given entertainment and bed; to the Thief River Falls Times for its publicity, to Radio stations KTRF and KILO for free time on their stations; to Rev. Mr. L. W. Lindholm for granting us and paying for radio time on four morning broadcasts; to the local Honorary Vice President, Mr. Waldie Christensen for his words of welcome and inspiration at our opening session of the Conference; to our local missionary and his wife, Rev and Mrs. Gus J. Hansen, for the efficient manner in planning the Conference and the comforts and hospitality provided for the missionaries and their wives.

MEA PLANS STATE CONVENTION OCT. 28-29 IN ST. PAUL

Harold Hand, Former Lincoln Principal, to Be One of Speakers

President A. L. Almen, superintendent of schools at Balaton, will preside at the convention sessions of the Minnesota Education Association, October 28 and 29, in St. Paul. Health will be the subject Thursday morning when Dr. Leslie B. Hohman, professor of neuropsychiatry at Duke University, will speak on "Can the School Teach Emotional Health?" and Dr. Delbert Oberteuffer, professor of health and physical education at Ohio State University, on "The Health Responsibilities of All Teachers."

The convention will divide into eight discussion groups on Friday which will consider subjects ranging from recruitment and training teachers and financing the education program to a changing curriculum, guidance and international educational organizations.

Thirty-seven section meetings will be held Thursday afternoon when teachers will consider problems close to their own teaching subjects. Among the speakers from outside the state who will appear on many of these sessions is Harold C. Hand, chairman, department of secondary education, University of Illinois, former Lincoln high school principal.

The results of the election of the MEA president and vice-president for the 1948-50 term, being conducted by mail ballot, will be announced Thursday evening of the convention, according to Walter E. Englund, MEA executive secretary. Candidates for the presidency are Helen Conway, Principal, Chelsea Heights school, St. Paul, and Josephine Kremer, elementary supervisor, Austin public schools. Candidates for the vice presidency are Paul O. Hanson, superintendent of schools, Hallock, and E. J. Steffensrud, superintendent of schools, Chisholm.

Construction Industry Employment in City in September Off 26 Pct.

With street and highway improvements nearly completed in Thief River Falls, the month of September saw a decline of 26.4 per cent in the construction industry in this city as compared to August, it was revealed in the October report on labor market trends prepared by the local office of the state employment service. A surplus of workers is anticipated as soon as some of the building projects currently in progress are shut down for the winter months, altho numerous projects will be continued thru the winter, R. S. Eldevik, manager of the local office, reported.

Nearly 2,000,000 People Visited 37 State Parks in Season Just Closed

With the official closing of the recreational season in Minnesota State Parks, park officials estimate that about one and three quarters million people visited the 37 state parks which were operated.

Final and complete results of the varied uses made of the parks will not be available until the yearly reports are tabulated.

The park visitors used the group camps, cabins, Douglas Lodge, camp grounds and picnic areas to capacity this year, many of the facilities being reserved months ahead.

Unique in the park facilities is the Squaw Lake camp in Itasca Park which has been leased by the Army Second Air Defense Command, headquarters at Omaha, for a rest and recreation camp. It was opened in May and *groups of service men* and their families have been permitted periods of two weeks vacation.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Nap Trouble

In homes where there is a small child, going to bed or taking a nap is often a storm-center. It would be interesting to know just how many children do take naps. Fortunately, this information was brought together for us some time ago by the Committee on Child Health and Protection.

From the records of this committee, we find that at one year of age almost all children take naps. But even at this early age, less than one-third of the children observed took naps both morning and afternoon. Of those taking one nap a day, *about half* took their nap in the afternoon and about one-quarter in the morning. Naps continue to decrease as children grow older. Almost one out of every three children takes no naps at all by the time he is three. At this same age, for every child taking two naps a day there are thirty-two who take only one nap a day; most often an afternoon nap.

By the time children are five years old, approximately one boy in every fifty, and only one girl in every hundred still takes two naps a day. At this time only slightly more than half of all the children took naps at all. Most five-year-old nappers took their naps in the afternoon.

These data show us that the daytime nap does gradually drop out as children get older. First one nap each week will drop out, then two a week, and so on until naps are taken no longer. If difficulty arises in your home with children about napping, it would probably be best to assume that a child is able to tell when he wants a nap, and will take one when he does. Rather than go through a daily tussle, make a nap space available for use and let your child decide whether or not he is going to take a nap.

Cutting of 3,250,000 Christmas Trees Starts Soon in Northern Area

Christmas has already started in the department of conservation, division of forestry, where they are busy selling Christmas tree tags which will adorn every tree to be sold to Minnesota people.

More than 200,000 have been ordered and shipped to operators who will begin harvesting the crop as soon as freezing weather conditions set in, usually the first week in November. Nearly 700,000 tags will be sold before the end of the season.

Ray Clement, in charge of tag sales, predicts a total tree cut up to 3,250,000, which is an increase over last year and continues the steady growth of the industry.

The bulk of trees cut in the state are shipped to out-of-state markets, some to distant markets in the eastern and southern states.

Surface Drain YOUR FIELDS Quickly at Low Cost with an

EVERSMAN AUTOMATIC
LAND LEVELER and DIRT MOVER

The EVERSMAN is a 3-purpose machine. It moves dirt. It planes and levels the surface. It pulverizes and packs the soil, forming a fine seed bed. Moves fast using your own tractor.

Now easy to drain comparatively flat fields where low areas gather water. This fall, when your fields are dry, simply determine fall of land. Using the Eversman as a dirt mover go out to a point about on a grade with area where water stands. Move dirt back into low place to fill. Long blade mounted on exclusive Eversman crank axle makes possible wide, shallow, perfectly controlled cuts and smoothly leveled, well packed fills so that field surfaces drain readily. Water spreads out evenly over the surface of the land. No ditches to hinder farming or to start erosion.

Why Minnesota Farmers Will Vote For
JOE BALL

UNITED STATES SENATOR	
X	Joseph H. Ball

20 ★ THE MINNEAPOLIS STAR Mon., Oct. 4, 1948

Ball's Record Defended Against 'Distortion'

Senator Ball's farm and rural electrification record was defended today against "distorted misinformation" allegedly spread by Ball's opponent for the senate, Mayor Hubert H. Humphrey.

"It is apparent that the Minneapolis mayor and his campaign manager know nothing about agricultural problems and have nothing constructive to offer the Minnesota farmer," said Harry A. Ilsley of Faribault, chairman of the Farmers-for-Ball campaign committee.

"It would be more appropriate for the Minneapolis mayor to let the Minnesota farmer know where he stands on these vital issues rather than going about the state uttering distorted misinformation about the fine record of Senator Ball.

"So far the only criticism of Senator Ball's record has come from the mayor, the union bosses and the DFL campaign manager, none of whom has any real interest in the farmer and his problem except his vote."

Ball's stand on rural electrification also was praised by two REA leaders, state senators William L. Dietz of Montgomery, president of the Minnesota Valley REA co-operative, and Archer Nelsen of Hutchinson, president of the McLeod County REA co-operative.

"As officers and members of REA co-operatives, we feel it is necessary to correct the recent misinformation regarding Senator Ball's record on REA," the two legislators said.

"The Republican 80th congress appropriated twice as much money for REA as any previous congress.

"Senator Ball supported these appropriations both in the appropriations committee, of which he is a leading member, and on the floor of the senate.

"He supported the appropriation requested by REA officials and in addition thereto supported the deficiency appropriations for REA in the recent session of congress.

"He has on numerous occasions helped the individual co-ops in their many problems in Washington. He has proven by actions, not merely words, his support of and friendship for REA."

Humphrey charged today that statements in support of Ball by the two Minnesota REA co-operative leaders were "misleading to the farmers."

Humphrey charged that the point of his attack on Ball was the senator's vote for a rider in the REA bill that was "designed to weaken the co-operatives."

The rider, he said, would have forced co-operatives to get federal power commission approval before building new generating plants. This, he charged, would "add to the bureaucracy Ball is opposed to," would delay construction of needed generating capacity and weaken the REA bargaining capacity with private power interests.

This bargaining power, he said, had saved power users "thousands of dollars" every year.

U. S. Senator Joseph H. Ball

Four Co-op Chiefs Back Ball Policy

Senator Issues Statement to Answer Humphrey

A statement respecting his position on "double taxation" of co-operatives — labeled as "straightforward" by the four leaders of Minnesota "big four" co-operatives — was issued today by Senator Joseph H. Ball, Republican nominee for re-election.

His Democratic-Farmer-Labor opponent, Mayor Hubert H. Humphrey, has charged that Ball is on record as having taken two opposite stands with respect to this issue.

The Ball statement today was issued to meet the Humphrey challenge.

J. S. Jones, secretary, Minnesota Farm Bureau federation; John Brandt, chairman of the board, Land O'Lakes Creameries; Norris Carnes, manager, Central Co-operative association, and William Moscrip, president, Twin Cities Milk Producers association, put their stamp of approval on the Ball statement.

"This straightforward statement of Senator Ball is a good example of the kind of commitment we should get if we are to know how our prospective lawmakers are going to stand on this important subject," declared the above-named leaders of the "big four" co-ops in a statement.

"60,000,000 VOTES = 60c BUTTER. Sixty million votes in the ballot boxes on November 2 means a better Congress, a Congress that will do something to bring butter back to 60c a pound — back where it was before the profit-hungry 80th Congress destroyed price controls and paved the way for the inflation orgy we are now experiencing."

POLITICAL ROUNDUP

By Arthur Naftalin

To most voters constitutional amendments are not especially exciting political fare. They usually involve issues that are somewhat complex and they lack the dramatic quality of a clash between personalities.

But Minnesota voters, in their own self interest, will do well to study the four proposed amendments to the state constitution which will be up for vote at the November 2 general election. They involve the possible expenditure of many millions of dollars and a basic revision in the method of revising the constitution.

To pass, each amendment must have a majority of all votes cast at the election. Therefore, failure to vote on an amendment is in effect a vote against it.

Amendment No. 1 is highly controversial. It provides that the state gasoline tax be divided by the state for maintenance of state highways and the county for maintenance of county roads and bridges.

At the present, the state receives two-thirds of the tax and the counties one-third. If the amendment carries, the state will lose an estimated $1,000,000, which will mean, state officials claim, that the state gasoline tax will have to be increased at least one cent per gallon, if the proposed 10 year program for new construction is to be carried out.

The state interim committee has also tentatively suggested, in event the amendment passes, that motor vehicle license fees be increased. Even with a one-cent per gallon increase, state highways would still receive $1,000,000 less than at present.

The Minnesota League of Women Voters and other groups interested in basic constitutional reform are supporting Amendment No. 2. This measure would permit the legislature to submit two or more amendments to the electorate without requiring separate votes upon each.

The constitution now provides that each proposed amendment must be voted upon separately. This method is regarded as too cumbersome and makes it virtually impossible to revise the constitution in an overall fashion through the amendment procedure.

This amendment is an essential part of the program for basic constitutional revision. If it passes, the 1949 legislature is expected to submit a series of amendments, as recommended by the State Constitutional Commission, for the electorate's vote in 1950. If it fails, advocates of modernizing state government will probably press for the calling of a constitutional convention by the 1949 legislature.

The Amendment No. 3 is [illegible] to Amendment No. 2. The latter would permit the state legislature to call a constitutional convention by a two-thirds vote of both houses of the legislature without first submitting the question to a vote of the people.

Present constitutional provisions require, at least four years for revising the constitution by the convention method. In one session the legislature must submit the idea of the convention itself to the people. If the idea is approved at the next general election (which would be 1950), the next legislature (1951) would then call the convention. The convention's recommendations, at the earliest, would go before the electorate at the next general election (1952).

The Amendment No. 3 would simply eliminate the first vote by the electorate, namely the one at which the idea of a constitutional convention is approved or disapproved.

Amendment No. 4, in many ways the most controversial of the group has aroused an amazingly small amount of public discussion. This is the proposal that would enable the legislature to pay a bonus to veterans of World War II.

It does not make the payment of a bonus mandatory, but legislative leaders have expressed the view that, if Amendment No. 4 carries, the 1949 legislature will be under strong obligation to adopt a bonus measure. In other words, favorable action will be interpreted as a mandate from the people to approve the bonus.

It is estimated that a bonus, under terms of present proposals, would cost from $80,000,000 to $265,000,000. The Amendment provides that the legislature would be empowered to finance a bonus by levying taxes, including a sales tax, by contracting such debts as are necessary, by issuing or negotiating bonds or certificates of indebtedness, or by pledging the public credit within limits set by the legislature.

The Amendment specifically repeals all provisions inconsistent with the bonus idea, thus definitely opening the way for its enactment.

Permanency of Calcium

Calcium is the most permanent thing in animal life. Large animal bones and teeth have remained intact for millions of years, and the only evidence we have of man's first million years is the calcium-bearing bones and teeth which he has left.

AIRPORT NEWS

The airport crowd will miss [illegible] Conn and Jack Frisbey and their families, who left last week after spending most of the summer here while engaged in mapping operations for the [illegible] Aerial Survey. They expect to do some mapping operations in Georgia after reporting to their main office in Des Moines.

C. J. Williams from Baudette dropped at the airport Wednesday as part of his solo cross country flight in a Cub.

Harry Prosser and Charles Snare from Greenbush flew over in a Cub Cruiser to transact business matters here on Wednesday.

Mrs. C. B. Kierk spent last weekend in Minneapolis visiting with her daughter Jackie.

Loren [illegible] made his dual cross country flight to Roseau and Lake Bronson Friday in the new Cub.

Elmo [illegible] from Devils Lake, North Dakota, stopped at the airport Sunday on his solo cross-country flight in a Cub Cruiser.

Other Sunday visitors at the airport were Fred Carriere from Brooks flying a Cub Vagabond, and Jim Callery from Plummer with a J3 Cub.

C. W. Billberg, airport manager at Roseau, flew Faye Young down here Monday in a Cub Cruiser.

A particularly interesting visitor at the airport this week was Walter Morgan, 76-year-old Fosston farmer, who literally parachuted to fame last week when he made an 1800-foot jump from a plane over the Fosston airport. This first jump didn't frighten him a bit, and he claims he's going to make more of them. Which just goes to prove the old adage that you can't keep a good man down.

The other day, while flying with a student, Harold Chandler encountered a flock of ducks. According to the Civil Air Regulations, two flying objects about to meet head-on should each alter their course to the right to avoid collision. Well, Harold wasn't sure the ducks had read the C.A.R., so he altered his course—but quick!

Campaign to Open Monday for Support of Community Chest

Over-all Objective in County Campaign Set at over $15,000

Next Monday morning, November 1, has been set as the time for the opening of the 1948 Community Chest campaign, in which it is hoped to raise in Pennington county a total of more than $15,000 to serve the needs of all the various agencies that formerly conducted individual campaigns.

A kickoff breakfast for Thief River Falls solicitors will be held in the Rex Cafe Monday morning at 8 o'clock, at which time supplies and instructions will be given to the workers, Vic Jung, city chairman, stated today.

The county quota for the Community Chest itself has been fixexd at $9,000, with the expectation that contributions made specifically to the Red Cross and National Foundation for Infantile Paralysis will make up most of the difference between that figure and the over-all goal.

Of the Chest goal of $9,000, city solicitors, divided into twenty teams, are expected to bring in $7,660, while a quota of $1,340 has been assigned to the remainder of the county, where the drive will be conducted by Farm Bureau women with Mrs. Frank Hardisty chairman.

It was announced that the Chest funds will be allotted as follows: Salvation Army, 17 per cent; Sister Kenny Foundation, nine per cent; National Cancer Society, ten per cent; USO, three per cent; Boy Scouts, 18 per cent; and Girl Scouts, 14 per cent.

The remaining 29 per cent will be set aside in a contingent fund to take care of any other special solicitations that sponsors of various agencies might plan on making in the future.

The pledge cards to be used in the solicitation provide for contributions to be paid in the form of payroll deductions if it is not convenient for the donor to make a cash contribution of the amount pledged.

The cards also provide for specific donations to be made to the Red Cross and the Polio Foundation in addition to the Community Chest contribution, if the giver so desires.

It is hoped to complete the solicitation and go over the top by the end of next week, Chairman Jung stated.

MISSION FESTIVAL AT TRINITY CHURCH

Dr. Rolf A. Syrdal to Speak Sunday Morning

The annual mission festival of the Trinity Lutheran Church will be held in connection with the morning service next Sunday at 10:30 a. m. Dr. Rolf A. Syrdal, executive secretary of the department of foreign missions of the Evangelical Lutheran Church, will be the guest speaker.

The congregation will also bring an offering for the support of its missionaries in China, Pastor and Mrs. Luthard Eid. The Eids have been recently transferred to Chungking, where Mr. Eid will have charge of the only Lutheran parish in that city of almost a million people.

Trinity church "adopted" the Eids as its personal missionaries upon their leaving for China in October of 1946, and pays the salary for these missionaries in addition to its regular apportionment to synodical activities.

Dr. Syrdal served seven years as a missionary in China, taught Missions at Luther Theological Seminary in St. Paul for several years, and has just now returned from a trip of inspection to the mission fields in Zululand and Madagascar.

Hunters Asked to Avert Forest and Grass Fires

In view of the extremely dry weather conditions, hunters and other persons in the grass and forest areas should take every possible precaution to prevent fires from starting, it was pointed out today by John H. Nelson area supervisor at [illegible]

New Electric Fire Siren Tried out; May Replace 38-year-old Equipment

Local citizens who thought they detected a slightly unfamiliar note in the sound of the fire siren last week-end were correct, for Chief Roy Langevin stated that under authorization of the city council, the fire department is trying out for thirty days a five-horsepower Sterling electric siren intended as a possible replacement for the present compressed air siren, which is 38 years old and virtually worn out. While the new siren apparently is no louder than the old equipment, it offers the advantage of being capable of sounding for an indefinite period, and is less affected by extreme cold winter weather, Langevin said.

REPAIR OR RAZE BUILDING, COURT ORDERS VORACHEK

Judge Montague Holds 48-year-old Building Is Definite Fire Hazard

The 48-year-old building at the corner of LaBree av. and First st., condemned by the state fire marshal early this year, and since that time in litigation, should be demolished unless within sixty days C. W. Varachek, the owner, secures a building permit from the city council to make numerous specified repairs and alterations necessary to prevent the building from being a fire hazard, Judge James E. Montague of Crookston held in a judgment filed last week.

In his findings, Judge Montague held that the building is in a seriously dilapidated condition and is especially liable to fire. It was pointed out that while the first floor is vacant, ten persons are living on the second floor, and the court ordered immediate eviction of the tenants until such time as repairs are completed.

The court expressed the opinion that it has the power so to modify the order of the fire marshal as to give the owner an opportunity to make such alterations and repairs as would remove the fire hazard.

Mr. Vorachek indicated he would confer with construction men before making application for a building permit.

LOCAL PRODUCTION CREDIT ASSN. WILL MEET FRIDAY AT 1

Association Will Note Fifteenth Birthday at Meeting in C & C Room

The Thief River Falls Production Credit association, organized in the fall of 1933, will hold its fifteenth annual meeting in the Civic and Commerce rooms Friday afternoon, October 29, at 1 o'clock Robert J. Lund, secretary-manager, stated today.

Talks in commemoration of the anniversary will be given by W. E. Dahlquist and by Stuart McLeod, who will speak in behalf of the charter members of the association.

Two members of the board of directors are to be elected at the meeting, the terms of D. E. Ostby of Plummer, Red Lake county and Bert Grahn of Roseau expiring at this time.

Alfred Longren, president, who will conduct the meeting, also will call for reports by Secretary Lund and by E. H. Pomerenke, vice president, in behalf of the board and executive committee.

The Concordia ladies aid of St. Johns Lutheran church will serve lunch following the meeting.

DONKEYS PERFORM IN ARENA TONIGHT

40 & 8 Sponsors Donkey Basketball Contest

The Thief River Falls voiture of the 40 & 8 this evening at 8 o'clock in the arena will sponsor a novel spectacle in the form of a donkey basketball game.

Players representing the 40 & 8 and National Guard unit will compete in the game while mounted on refractory donkeys, and the sponsors guarantee plenty of laughs. The evening's entertainment also will include a polo game, a musical flag race and a donkey milking contest.

It is announced that proceeds of the event will go toward the support of the midget hockey program, sponsored by the local 40 & 8 voiture.

The ladies auxiliary of the Veterans of Foreign Wars will hold their annual bazaar in the Veterans' rooms in the Auditorium Friday evening, October 29, starting at 8 o'clock, featuring a sale of fancy work and baked goods, in addition to games and the serving of lunch. Proceeds of the event will be used to provide Christmas and New Years parties for patients at the veterans' hospitals.

DRAINAGE TO BE MEETING TOPIC IN CITY NOV. 4TH

E. V. Willard, Other Speakers to Discuss Possible Improvements

The problem of securing adequate drainage systems in this area will be discussed at a meeting in the Thief River Falls Auditorium next Thursday afternoon, November 4, at 2 o'clock, it was announced this week by E. H. Pomerenke, committee chairman.

Four authorities will be present to discuss the problem of improving the supplemental drainage system in Eastern Pennington and Marshall, North, Clearwater and Western Beltrami counties.

Speakers will include E. V. Willard, deputy Minnesota commissioner of conservation; Peru Farver, superintendent of the Red Lake Indian agency; D. H. Janzen of Minneapolis, regional director of the U. S. fish and wild life service; and Herbert A. Flueck of St. Paul, representing the U. S. soil conservation service.

Pomerenke is chairman of the committee that is petitioning the Red Lake drainage and conservancy district board to have a study made of drainage problems in the Red Lake-Clearwater river watershed.

SALVATION ARMY REPORTS ON WORK

Local Agency Renders Many Services in Area

The Salvation Army unit in Thief River Falls has rendered a wide variety of services this year, it is revealed in a report by Captain Ethel Smith, who stated that the agency received 374 applications for help during the year.

A total of 2,425 garments and shoes were given to needy persons, the report shows, in addition to which 107 meals and 11 lodgings were provided, as well as eight grocery and ten fuel orders.

As part of its social work, the Army visited 912 homes, held services at the Old Peoples Home each week and visited patients at the sanatorium once a month.

A total of 464 services and meetings for adults were held during the year, as well as more than 200 meetings for young people.

F. J. Dudley Warehouse and Contents Damaged in Blaze Wednesday

A warehouse at 303 East Sixth st., owned by F. J. Dudley and used for storage of used furniture, was badly damaged Wednesday afternoon when burning grass set fire to the building. The contents suffered damage from smoke and water. There was no insurance on the property.

While children were toasting marshmallows in a play house at the Willis Johnson home, 917 Main av. N. last Sunday, a blaze developed and spread to the Johnson residence, causing small damage, mainly charred paint.

Letters for Children from Santa Claus Land Offered by S & L Store

Children of the Thief River Falls community who write letters to Santa Claus from now until Christmas are assured of getting an answer thru a service provided by the S & L store, Clarence Waldera, manager, announced today. Every child wanting a letter from "Santa Claus Land" may write a letter on his own stationery or may secure a special blank from the store. By purchasing a Santa Claus stamp, the letter is mailed for the children in a special box in the store, and the return letter will bear the postmark, "Santa Claus, Indiana."

The program committee consists of Gustav Schilbred, Henry K. Arneson and Herman A. Kjos, president of the lodge.

BOARD GETS OK ON SALE OF BUILDINGS

To Open Bids Nov. 8th; 14 Votes Cast in Election

Only fourteen voters turned out for the special School District 18 election Wednesday evening, but they voted unanimously to authorize the local board of education to sell the rural school buildings in Districts 73 and 163, Rocksbury township, which are now a part of District 18.

In accordance with the mandate, the board, in this issue of the Times, is calling for bids on the two school buildings, which are to be removed from their present locations. Bids will be opened at the next regular meeting of the board Monday evening, November 8.

The election, which was held in the council chamber, was conducted by Alfred Skarstad, Kenneth Lindbergh and Miss Laura Lund.

REP. WALTER E. DAY IS VISITOR HERE SATURDAY

Rep. Walter E. Day of Bagley, veteran member of the state legislature from the 65th district, visited friends in Thief River Falls Saturday in the interests of his campaign for re-election.

1,500 Youngsters Will Enjoy Halloween Party to be Staged Saturday

Committees in charge of the annual Halloween festival Saturday afternoon and evening, October 30, are preparing to entertain a total of fully 1,500 children from Thief River Falls and surrounding community, Rev. D. T. Beadle, general chairman, stated today.

Sponsors of the annual event, which is becoming increasingly popular each year, are the Lions club, in cooperation with the city council and other local groups.

The festival will open with a party in the Auditorium from 3 o'clock to 4:30 for small children up to and including the fourth grade, supervised by Mrs. Camille Dostal, assisted by Mrs. Edward Solheim, and wives of Lions club members. The children are asked to come in costume, and suitable prizes will be awarded. Games will be played and cupcakes, ice cream bars and apples will be served.

The evening party in the arena for children of grades 5 to 8 will open with the traditional costume parade, starting and ending at the arena, with Ben Froiland in charge. Prizes will be awarded for the most effective costumes. Following the parade there will be apple dunking in the arena, and Ward Nichols will show two movie films, "Fall In" and "The Law of the Pampas," after which treats will be served.

Boys and girls of grades 9 to 12 are invited to a free "hard times" dance in the Auditorium, starting at 9 o'clock. Fleming Gibson is in charge of the affair, assisted by a committee of high school students including Harry Simons, Morris Owen, Harley Wagner, Ruth Jacobson, Donna Christianson and Caryl Melby.

Voters Pick President, State, County Officers in Election November 2

Auxiliary Trio Gives Miami Mayor the Bird

The Thief River Falls Legion auxiliary trio, which returned early this week after having competed for national honors at the Legion convention in Miami, Florida, is pictured above as it sings for Frank Lloyd, 29-year old mayor of Miami, and presents him with a choice 14-pound turkey hen, the gift of the local Land O'Lakes plant.

After singing "On the Golden Sands of Miami" and "My Minnesota," the ladies invited Mayor Lloyd to come to Minnesota for the Centennial observance in 1949.

In a field of seven competing trios from as many states, the local group, directed and accompanied by Mrs. Harold F. Harrison, ranked among the top three, with the Iowa trio winning first honors.

Shown in the picture, left to right, are Mrs. Harrison, Mrs. Wayne Leverson, Miss Grace Dahlen and Mrs. Robert Bredeson with Mayor Lloyd in the foreground.

Ball-Humphrey Senate Race, Other Contests to be Decided Tuesday

Residents of this community and of the nation as a whole who take their citizenship seriously will go to the polls in the general election next Tuesday, November 2, charged with the responsibility of electing a president of the United States, in addition to members of Congress and state and local officers.

In Thief River Falls the polls for all four wards will be as usual in the municipal Auditorium, and will open at 7 o'clock in the morning. All voting places in the state will close at 8 p. m.

Both Democratic and Republican party leaders this week expressed optimism over the outcome of the presidential election. Addressing a political rally in Chicago, President Harry Truman said, "We are sweeping toward victory," while Herbert Brownell Jr., campaign manager for Thomas E. Dewey, Republican candidate, said the Gop will win a "smashing victory."

While the Minnesota Poll, operated by the Minneapolis Tribune, has indicated that Truman will carry Minnesota by a small margin, the Gallup Poll Wednesday of this week indicated the prospect of Dewey getting 50 per cent of the vote in this state, with 46 per cent for Truman and four per cent for Henry A. Wallace, Progressive party aspirant.

Next to the presidency, the contest attracting most interest in Minnesota is the strenuous battle between Joseph H. Ball, Republican incumbent, and Minneapolis Mayor Hubert H. Humphrey, DFL, for the U. S. senatorship from Minnesota. This contest is one of a half-dozen crucial senatorial battles the Republicans must win if they are to retain control of the upper house of Congress. Harold C. Hagen of Crookston is generally conceded reelection to the lower house from the Ninth district over Oscar A. Johnson, DFL.

Governor Luther W. Youngdahl, seeking reelection, has made numerous appearances about the state, as has his DFL opponent, Charles L. Halstad of Brainerd, but few of the other candidates for state office have staged aggressive campaigns.

Associate Justice Oscar R. Knutson of Warren, seeking election to that office for the first time following his recent appointment, is expected to get a strong endorsement from voters in Northwestern Minnesota.

With two state representatives to be named from the 65th district, W. E. Day of Bagley and C. S. McReynolds of Clearbrook, incumbents, are opposed by Adolph W. Olson of Shevlin.

In Pennington county Henry Storhaug, clerk of court, and Herman A. Kjos, probate judge, are unopposed for reelection. Candidates for the county board in the first district are Theodore P. Hyland and Frank Race, whose names appear on the ballot, and Odin C. Hanson, who is a sticker candidate for the post.

Candidates in the third commissioner district are Carl R. Anderson and Paul Roy, while in the fifth district Simon Breiland and Glenn Tasa are competing for the place on the board shortly to be vacated by O. M. Mandt.

Clarence Swanson Takes Miss Norma Hanson for Bride Saturday, Oct. 23

Miss Norma Hanson daughter of Mrs. H. W. Althoff of this city, and Clarence Swanson, son of Mr. and Mrs. John O. Swanson of rural Thief River Falls, exchanged marriage vows at a pretty double ring ceremony Saturday afternoon, Oct. 23 in the Plummer Presbyterian church. Rev. Merrill Nelson of Red Lake Falls officiated.

Miss Glenyce Tillman played nuptial music and the traditional wedding marches. Rev. Nelson sang "O Perfect Love."

The bride's brother, Harvey Hanson of Plummer, gave her in marriage. She was attired in a white satin gown, with lace trimming, and a fingertip veil. She carried a large bouquet of pink sweetheart roses and white spider mums with ribbon streamers. Her jewelry consisted of the groom's gifts, a sweetheart locket, bracelet and earrings.

Shirley Hanson, twin sister of the bride, was maid of honor, wearing blue taffeta and carried a colonial bouquet of red roses and tiny white chrysanthemums with blue ribbon streamers. Bridesmaids were Mrs. George Rewertz of Plummer, sister of the bride, and Mrs. Earl Anderson of this city, sister of the groom, wearing gowns of yellow and pink, respectively. They both carried matching bouquets of red roses and white chrysanthemums with ribbon streamers to match their gowns.

Leonard Yonke of this city attended the groom as best man, and George Rewertz and Earl Anderson acted as ushers.

The bride's mother wore a black crepe gown with black accessories, and the groom's mother wore a light blue wool suit with black accessories. They both wore corsages of pink and white roses.

In the evening Mr. and Mrs. Althoff entertained at a six o'clock dinner in the Terrace room of the Rex cafe for the bridal party, and Mr. and Mrs. John Swanson, Mr. and Mrs. Alton Carlson of rural Thief River Falls, Mr. and Mrs. Gordon Hofius and Mrs. D. Hofius of Plummer, James Hofius of Stevens Point, Wisc., and Harvey and Allan Hanson. A large wedding cake topped by a miniature bride and groom served as the centerpiece of the bridal table.

The bride is a graduate of Pershing high school, Plummer, and the groom served with the U. S. Army overseas for several years during World War II. They left on a wedding trip to the Twin Cities and points in Wisconsin, and will be at home on the [illegible] township after Nov. 1. For going-away the bride chose a blue suit with matching accessories.

Betty Rud Speaks Vows with Lowel Gustafson

GIRLS' ORCHESTRA GIVES 2 CONCERTS HERE NOVEMBER 8

Bohumir Kryl, Czech Conductor, to Direct Group in Auditorium

Bohumir Kryl and his famous all-girl symphony orchestra of Chicago are scheduled to present two concerts in the Thief River Falls Auditorium Monday, Nov. 8 under the auspices of the Civic and Commerce association and Junior Chamber of Commerce.

A matinee performance is set for 3 p. m. and the evening concert will be presented at 8:15 p. m.

Mr. Kryl, noted Czech conductor, has toured the country *for the past 39 years with symphony* bands and orchestras. He made his debut last September with the all-girl orchestra which has become a sensation.

The orchestra recently completed a 24 state tour covering over 100 appearances.

Soloists with the orchestra will include Vlasta Sedlovska, violinist; Mary Randolph, harpist; Betty Zastraw, soprano; and Herbert Moulton, tenor.

State Lets Marshall County Road Contract

Eight contracts for improvements on county roads in the Federal Aid Secondary system in seven Minnesota counties, involving $131,001 of county and federal matched funds, have been awarded during the past week according to announcement by Highway Commissioner M. J. Hoffman, who acts as agent for the counties on such projects. The awards include Marshall County. S.A.R. 10—Gravelling for 10 miles between T. H. 1 at Alvarado and S.A.R. 4, to B. C. Ness, Mahnomen, for $27,091.

Conference on Retail Trade Scheduled for Crookston November 9

With the retail trades conference at Crookston Nov. 9, just two weeks away, members of the Crookston Chamber of Commerce are redoubling their efforts to insure its success.

Adolph Ness, one of the cochairmen in charge of the event, said that from 300 to 500 retailers from the northwestern part of the state are expected to attend.

C. M. Carlson, president of the Crookston chamber, declared the conference would be the ideal place for retailers in this part of the state to keep in touch with merchandising methods.

The conference will be held at the Crookston armory and will start at 1 p. m. A lunch is planned before the meetings begin, and a social hour and banquet scheduled to conclude the *meeting.*

Last Rites Held for Ole J. Johnson, 93, Wednesday Afternoon

Rites were held Wednesday afternoon at the Grygla Lutheran church for Ole J. Johnson, 93, who succumbed Saturday afternoon, Oct. 23 at his home. Rev. G. L. Halmstat officiated and interment was made in St. Olaf's cemetery east of Grygla.

He was born on Dec. 25, 1854 in Norway, and was also united in marriage to Anna Amundson in that country. He came to Richland county, N. Dak. with his wife and family in 1883 and farmed in that vicinity until 1901 when they disposed of their farming interests and came to Grygla and homesteaded in Benville township, Beltrami county, five years after they moved to the village of Grygla.

Mr. Johnson is survived by two daughters, Mrs. Agnette Lund of Minneapolis and Mrs. Lewis Peterson of Grygla, a son John of Grygla, 25 grandchildren and 30 great grandchildren. His wife, a daughter, and two sons preceded him in death.

HOME MISSIONS CONFERENCE HELD HERE OCT. 21-24

Wisconsin Pastor Named Chairman at Sessions in Evangelical Free Church

Delegates and pastors from many churches convened at the local Evangelical Free church, Oct. 21-24, for the annual home missions conference of the Western district of the Evangelical Free Church Association. Reports given by workers from various parts of the district indicated marked progress during the year.

Seven men workers have been added and about $2000 more raised than the preceding year. One new church has been organized, The Calvary Evangelical Free Church of Stoughton, Wisconsin and other preaching centers have been opened, especially in Minn. and Mich.

New officers elected are: Rev. B. Rom, Madison, Wisconsin, chairman; Rev. J. O. Jacobsen, Thief River Falls, vice-chairman; Rev. E. Walter Lindgren, Britt, Iowa, treasurer. Rev. B. J. Johnson, Chicago, was the retiring chairman.

The delegates and pastors were entertained by members and friends of the local Evangelical Free Church. An outstanding feature of the conference was the twenty-fifth anniversary of Rev. J. O. Jacobsen, who came to Thief River Falls in 1923.

COUNTY BOARD PROCEEDINGS

OFFICIAL PROCEEDINGS, BOARD OF COUNTY COMMISSIONERS, PENNINGTON COUNTY, MINN.

Special Meeting

October 21, 1948

Pursuant to agreement to hold a special meeting, the Board of County Commissioners of Pennington County, Minnesota, met at the Office of the County Auditor at 5:00 P. M. on October 21, 1948.

Members present: Hyland, Hylden, Roy, Muiry and Mandt.

Members absent: None.

All commissioners waived the giving of notice for a special meeting.

Commissioner Mandt offered the following resolution and moved its adoption:

BE IT RESOLVED: that the River Valley Cooperative Creamery Association is hereby authorized to have the ditch running north and south and located on the east side of State Aid Road No. 10 filled in, and to have the ditch running east and west and located on the south side of State Aid Road No. 1 starting at State Aid Road No. 10 and running eastward to the Red Lake River, filled in; said ditches being located in the northwest corner of Lot 5, Section 3, Township 152, Range 40, and

BE IT FURTHER RESOLVED: that the River Valley Cooperative Creamery Association is hereby authorized to remove 3 culverts, 2 of which are located in the ditch on the east side of State Aid Road No. 10, and 1 of which is located underneath State Aid Road No. 10 immediately south of State Aid Road No. 1; provided however, that all expense connected with the foregoing shall be borne by the River Valley Cooperative Creamery Association, except that Pennington County will pay for the removal of one culvert, and,

BE IT FURTHER RESOLVED: that any other or further expense involved as a result of these changes in the drainage will not be paid by Pennington County.

The foregoing resolution was seconded by Commissioner Hylden and on being put to vote was CARRIED, unanimously and was so declared by the Chairman of the Board then presiding.

PAUL ROY, Chairman,
Pennington County Board.

Attest:
A. M. Senstad, County Auditor & Ex-Officio Clerk of the Board.

SOMETHING HAS BEEN DONE

This week's pat on the back goes to the city council for authorizing the purchase of hard-to-get equipment for the new water plant. More than a hundred thousand dollars has now been spent in the purchase of pipe and special machinery that will take a long time to get because it requires special manufacture. Delivery on some of this equipment is not guaranteed in less than twenty months, and that seems a long time away. From now on however this special equipment will be in the making and by placing orders now the council has assured the earliest possible completion date for the new plant.

Next step in this procedure of improving our city water will be the authorization of a bond issue at a special election, and this election will be held as soon as it can be definitely ascertained what the financial requirements will be. A bond issue in the amount of $250,000 was authorized and sold several years ago, and this much *money is already available. The amount that* was considered adequate at that time probably is only half enough now and it is likely that an additional $250,000 will be needed.

And as soon as possible after the voters have authorized the financing, city officials will proceed to call for bids. That is their present plan. They hope that a contract can be let this winter and that the new plant can be completed and put into operation in the summer of 1950.

That is the story. It is bad in that it means we will have to get along with water as it is for some time to come. It is good in that we can look forward to relief. Something has been done about it, and that is encouraging.

The Oscar Knutson who is seeking election as a Supreme Court Justice is our own Oscar Knutson of Warren, and this corner of the state should remember him with a big vote. His running mate is Tom Gallagher, another good man and deserving of support.

You have an important job to do Tuesday. You have a date with yourself at your precinct voting place—you and fifty million other Americans. You have the responsibility of electing executives and some members of the board of directors to run the various units of our government, and this is important business. It deserves the little time it will take to go to the polls, and a lot of thought. Vote your best judgment, and then hope you voted right, but vote. Before Tuesday most Americans will be partisans, but after Tuesday partisans will be Americans again, stringing along with whomever the majority has elected. That is the way of Democracy. It is the god way.

If the rural communities of Minnesota vote for their own best interests they will give solid backing to Amendment No. 1 at the polls Tuesday. A fifty-fifty split of the gas tax will not cripple the trunk system because money that has gone into debt service will now become available for trunk highway construction. And a fifty-fifty split *of this money will help materially in speeding* up our farm to market highway system. Vote "Yes" on No. 1.

Another big annual solicitation for funds gets under way next week and citizens of Pennington will be called upon to support a group of worthwhile charities in one contribution. All of the organizations that will benefit by your gift have been screened by responsible agencies and you can give with the assurance that your money will go to a good cause with a minimum of overhead expense. If separate solicitations were to be made for each of these organizations it would require practically constant collecting. Putting them "all in one ask-it" saves the time of solicitors and your time too.

Since Joe Ball became United States Senator in 1940 Congress has passed 442 bills affecting veterans, their widows and orphans. Joe Ball supported 439 of these bills. From the veteran's standpoint that sounds like a pretty good record.

VETERANS LETTER TO BALL

Dear Senator Ball:

We are veterans of World War II. We have been following the fight over your record so far as the veterans are concerned and would like to get an explanation, Senator of some of the things you said and did concerning the veterans.

We think the veterans are entitled to an explanation of your action on some important bills on which you went against us. We'll enumerate them, Senator.

1. During the war Congress was asked to help the wives and Mothers keep the homes up by paying $28 a month to wives and $8 a month for each child, to be paid when the husband and father himself set aside $22 of his monthly pay for the purpose. Everybody favored the idea but you, Senator. On October 6, 1943, you were the only senator out of 79 present who voted against this humanitarian contribution.

2. Millions of enlisted men spent years of their lives in this war. Many enlisted men lost their chances to be educated, enter business or enjoy the things of peace at the most crucial periods of their lives. The people of this country owed them much. Those who stayed at home deeply appreciated what their young men were going through. Many of these young men, even though not battle-scarred, were faced with a difficult readjustment. One way to help them was with a little money.

Yet, on July 23, 1946, you introduced an amendment to the terminal leave pay bill that would deduct mustering out pay from whatever terminal leave pay the enlisted men might be entitled to. Fortunately, only 11 senators voted with you.

3. On July 29, 1946, you sought to kill the bill to provide an increase in subsistence pay for wounded veterans. Oh, yes, you voted for the bill, all right. But that doesn't excuse you from your effort to kill it when your objection was enough to do it. You did object to its being considered, didn't you? And you let it get into consideration only after its author, Senator Johnson of Colorado, had to plead with you to let it be read.

4. April 10, 1946, you voted to cut $200,000,000 from the Emergency housing bill that would provide homes for veterans and their families. And just what were your thoughts when, failing in this effort, you voted against the bill on final passage? The records show that big real estate and materials and building lobbies opposed the bill, too. Was it because they opposed it, Senator, that you voted against the veterans?

5. Why did you vote against giving widowed Gold Star mothers a little civil service preference? Your vote against these mothers was cast July 16, 1947. You blocked the bill, remember? With your own wife securely on the senate payroll at $10,000 a year, you must have spent a pleasant evening visioning some poor Gold Star mother making out her application to get on relief because of your valiant fight to preserve the civil service from raids by such persons.

6. July [illegible], 1947, you voted to force completely disabled veterans to stay in hospitals instead of getting specially built homes that would give them a chance to find some enjoyment in their lives. The men who lost in battle their ability to walk must appreciate this accommodating act of yours, even though they and the Veterans' Administration doctors wanted such homes built.

7. July 25, 1947, you had another opportunity to help the veterans, those who came from America's farms. This was the proposal to give them technical training in farming on the farm just as city veterans could get industrial training on the job. The Veterans' Administration and many agricultural organizations thought it a good idea. You voted against giving these boys a chance to pick up some new knowledge on farming.

How about an explanation, Senator?

Sincerely,
[illegible] WALTER T. [illegible]

CORN EXHIBIT and PROGRAM
Nov. 19, 1948

Plans are progressing and there is evidence a large exhibit of corn for the event. Nevertheless we are VERY ANXIOUS TO HAVE A LARGE DISPLAY OF CORN AND DO URGE EVERY ONE THAT HAS CORN TO BRING IN TEN EARS.

Mr. T. M. McCall, Superintendent of the Northwest School and Experiment Station, will be on the program.

Dr. O. C. Soine of the Northwest School will also be here to judge the corn and discuss the corn exhibit.

The International Harvester Co. will furnish some interesting movie pictures which they promise are very entertaining and lots of fun. Also including films, entitled "County Fair" dealing with 4-H Club work, etc.

Please do not bring in corn exhibits until November 15th, because that will be early enough, and not later than November 19th at noon, so exhibit can be set up and ready for judging in the afternoon, ready for the evening program at 7:30.

Keep the date in mind November 19th and the Program, starting at 7:30 in the evening. All farmers and family invited. Let's make it a real family party, at

In Memoriam

In loving memory of our dear daughter and sister Lorraine J. Haugen, who passed away two years ago, Oct. 28th.

Our family has been broken,
One link gone from the chain,
But tho we've parted for awhile,
We know we'll meet again.
Some day we hope to meet her;
Some day we know not when
We shall meet in a better land
And never part again.
Peacefully sleeping resting at last
Her world weary troubles and trials are past
For silence she suffered the pains that she bore
Till God called her home to suffer no more.

Sadly missed by her parents, Mr. and Mrs. Knute Haugen, sisters, Caroline, Ruby, and Josie and brother Connie and Gay. 44p

In Memory of

Mrs. Oscar Anderson who passed away on Oct. 29, 1947.

We have lost our dear sweet mother,
She no more on earth shall roam,
And there'll never be another
Who can take her place at home.
Mother's life was true and faithful
And her heart was filled with love
Trusting Jesus as her Savior
Till she joined Him up above.

Mr. Oscar Anderson, Arlys and Marian Anderson, Mr. and Mrs. Mervin Anderson. 44c

ONCE IS ENOUGH!

Yes, one application of Dr. Salsbury's Vapo-Roost is enough to get rid of all the lice and feather mites in your laying house. Just spread a thin line of Vapo-Roost on roost poles. Fumes do the rest. Treatment remains effective for days — long enough to kill young lice which hatch later.

Weekly Turkey Market Report

by SHETLER'S HATCHERY & POULTRY SERVICE

Turkey meat prices went up from 2 to 3 cents this week, all weights included. Further increases are expected, especially in light toms and hens. Heavy toms are holding their position. November prices should be higher.

New York Dressed Prices, Wednesday, Oct. 27
Young hens 63½c Light toms 53c Heavy toms 54c
Tone — firm. Mostly hens coming in. Very few toms.

For faster gains, better finish, few pin feathers, feed Stock-Gro for the last 6 to 8 weeks. Cost only 6 to 9 cents per bird. Stock-Gro contains 100% animal nutrients and protein. Increases water and grain consumption. Aids in assimilation of feed.

We are now booking orders for turkey poults for '49 delivery, offering Norminn Broad Breasted Bronze exclusively. Pick your hatch date now. No deposit necessary until price is set.
